Attention:

Dear Sir/Madam,

BID NO: SC/RFP/RA-24/2020

CONSULTANCY SERVICES FOR THE DETAILED DESIGN, TENDER DOCUMENTATION, CONTRACT ADMINISTRATION AND SITE SUPERVISION FOR THE UPGRADING TO LOW VOLUME SEAL (LVS) STANDARD OF SECTION A: MR74: GROOTFONTEIN – ROOIDAG GATE (74KM) IN THE OTJOZONDJUPA REGION

This letter serves to support the submission of EIA and EMP reports for the above-mentioned project by the appointed Environmentalist, Tortoise Environmental Consultants (TEC).

In order to fulfill all the legislative requirements before commencement of the project, our Consulting team through TEC, are required to obtain Environmental Compliance certificates and this entails a review by MET on the EIA and EMP reports which have already been submitted.

Please take note that this road upgrade is a Project of National importance and it has been budgeted for in this current Financial Year. It is anticipated that construction commencement is within the next 2 months, should procurement procedures be completed.

We humbly request your good office to speed up the process of reviewing the reports and ultimately providing the compliance certificates so that the project could run smoothly and commence within the anticipated duration.

Yours sincerely,

Daniel T. MTAMBALIKA

For and on behalf of Bicon / Dream JV
