The meeting was opened by the Environmental consultant with an introduction of the team, who they are, and why they are consulting affected parties of the proposed prospecting and exploration activities on EPL 8800.

The meeting attendance register was circulated for the attendees to write down their names and contact details so that they could be added to the list of Interested and Affected Parties (I&APs) and receive further information on the ESA process.

The Environmental Scoping Assessment (ESA) and the reason that the Proponent appointed Excel Dynamic Solutions (Pty) Ltd (EDS), an independent Environmental Consultant to carry out the ESA and apply for the Environmental Clearance Certificate (ECC).

2.2 Explanation of what an ESA is, its Process, and the Public Role in the Process

Mr. Mandume Leonard explained to the attendees the purpose of the meeting and why they were invited (with reference to the Environmental Management Act (EMA) No. 7 of 2007 and its 2012 Environmental Impact Assessment (EIA) Regulations on Public Consultation). Mr. Leonard further explained what an ESA is and that the proposed exploration activities are one of the listed activities in the 2012 EIA Regulations of the EMA that cannot be undertaken without an ECC from the Environmental Commissioner.

2.3 Presentation of Potential Project Impacts

To ensure transparency and that the attendees understand both sides of the proposed project activities, the Environmental Consultant also presented the potential pre-identified potential positive & negative environmental and social impacts.

2.4 Public Open Discussion (Interactive Session)

Mr. Leonard allowed the meeting attendees to raise their concerns, issues, and/or comments on the proposed project activities. The concerns/issues and comments recorded are presented in **Table 1** below.

Table 1: Comments and issues raised during the public consultation meeting, 08th June 2023

Comment/ issue No.	Commenter name & issue/comment/question	Response and name of responder:
1.	**Commenter 1:** Who is the Proponent? Is Excel Dynamic Solution a Namibian company? There are people who have applied for mineral rights in the area, what are the processes and procedures?	**Mr. Mandume Leonard (ML):** The Proponent is Johannes-Don-Kuume Endjala. Yes, Excel Dynamic Solution is a Namibian Consultant. In the past people used to be granted mineral rights without an ECC, now a Proponent needs to obtain a preparedness to grant for an EPL. An EPL is only approved after an ECC is granted for the project.
2.	**Commenter 2:** May you please explain how the non-exclusive process works? What is the cost of an EPL?	**Mr. ML:** One needs to go the Ministry of Mines and Energy (MEFT) with your documentation and a fee of N$250.00. The size of the of an EPL determine the price of the EPL.
3.	**Commenter 3:** What is the purpose of today's meetings?	**Mr. ML:** The reason is to introduce the project to the stakeholders, and to take note of the comments and issues which will be raised for the proposed project. The issues will the mitigated and such will be submitted to the Ministry of Environment, Forestry and Tourism (MEFT) and MME for their decision making purposes.

Comment/ issue No.	Commenter name & issue/comment/question	Response and name of responder:
4.	**Commenter 4:** There are many small-scale miners in the area, and it will not be possible that the EPL holder will provide provision for the small-scale miners to conduct their activities.	**Mr. ML:** The EPL is only valid for three years. If one has a Mining Claim (MC), that means that it is your properties.
5.	**Commenter 5:** If someone has a MC, will one be allowed to conduct mining activities within the EPL?	**Mr. ML:** Yes.
6.	**Commenter 6:** We will not allow any exploration activities on our farms because the Proponent will need our consent to enter our farms.	**Mr. ML:** Once an ECC is granted for the project, land access agreement will be conduct in a form of a contract with terms and conditions as agreed by both parties.
7.	**Commenter 7:** The Proponent should be present to ensure that he/she digest the issues raised by the communities, and create some form of transparency.	**Mr. ML:** Noted.

FINAL REMARKS AND CONCLUSION OF THE MEETING

Mr. Leonard thanked the attendees for their crucial input through comments and raising their concerns. He indicated to the attendees that all their comments, concerns, and inputs had been noted down for consideration and addressing in the Environmental Scoping Assessment (ESA) Report as well as incorporating their recommendations into the draft EMP.

Furthermore, Mr. Leonard informed the attendees that the draft meeting minutes, Environmental Assessment Report, and Environmental Management Plan (EMP) will be shared with them for review and further comments. These documents will be made available through emails provided on the attendance register.

Once the review of the draft ESA Report and EMP is done, the documents will be finalized and submitted to the Environmental Commissioner at the Department of Environmental Affairs and Forestry (DEAF) for evaluation and consideration of an ECC.

The meeting adjourned at 12h01.
