NOTICE

Take notice that HARMONIC TOWN PLANNING CONSULTANTS CC, Town and Regional Planners, on behalf of the owner of the respective erf, intends to apply to the Mariental Municipal Council for the:

• REZONING OF ERF 233, MARIENTAL FROM 'RESIDENTIAL' WITH A DENSITY OF 1:900 TO 'GENERAL RESIDENTIAL' WITH A DENSITY OF 1:250 WITH CONSENT USE FOR PLACE OF INSTRUCTION; AND

• CONSENT FOR A PLACE OF INSTRUCTION TO OPERATE WHILE THE REZONING IS IN PROGRESS.

Erf 233 is located in Mariental and measures ± 1800m2 in extent. It is zoned "Residential" with a density of 1:900 and is currently having existing structures on the erf. The proposed rezoning to " General Residential" with a density of 1:250 with consent use for place of instruction will enable the erf to operate a private school.

Sufficient parking for the proposed residential development will be provided for in accordance with the requirements of the Mariental Zoning Scheme.

Further take notice that the plan of the Erf lies for inspection on the town planning notice board at the Mariental Municipal Council office and at Harmonic Town Planning Offices, 76B Pasteur Street, Windhoek Wast

Further take notice that any person objecting to the proposed use of the land as set out above may lodge such objection together with the grounds thereof, with the Mariental Municipal Council and with the Applicant in writing within 14 days of the last publication of this notice (final date for objections is 30 May 2022).

Minutes of Public Meeting held in Rehoboth

Scoping and EIA Process

Topic: Environmental Impact Assessment public meeting for EPL 8756.

Date: 05 July 2022

Venue: Ochsenwagen Hotel, Rehoboth

<u>Attendees</u>

Refer to attached attendance register.

Meeting Facilitator: Mr. Amutenya - Impala Environmental Consulting cc

For Exploration Company: Earth Dimensions Consulting cc

Presentation

1. Agenda and aim of meeting:

- 1.1 The consultant introduced himself as the Environmental Assessment Practitioner.
- 1.2 The EAP introduced the aim and objectives of the meeting which was to provide interested and affected parties the background information on the anticipated exploration activities for EPL 8756.
- 1.3 He also pointed out that the purpose was also to provide the interested and affected parties an opportunity to be involved in the EIA process to provide the comments, issues or concerns so that these can be addressed.

2. **Project Overview and Background:**

- 2.1 The EAP gave an oral presentation and described where the licences are in relation to Rehoboth.
- The EAP explained who the owners of the EPL were and what activities they anticipated to undertake.

- 2.3 The EAP explained to the participants that the proponent is in the process of applying for an environmental clearance to carry out the anticipated exploration activities and as per the regulations and government laws its required to have the environmental clearance from the Ministry of Environment and Tourism.
- 2.4 He further explained that the proponent appointed Impala Environmental Consulting, an independent environmental impact assessment consulting company to carry out the required tasks, which include conducting the public meeting, identifying, and assessing impacts and compiling the EIA report and associated environmental management plan.
- 2.5 The EAP explained the possible impacts that the project would bring.
- The EAP explained the relevant laws which regulate the EIA process in Namibia, namely the Environmental Management Act of 2007 and the Environmental Assessment Regulations of 2012.
- 2.7 The meeting was informed that a copy of the report will be made available to the registered parties. It was stated that all the comments from the interested and affected parties will be reviewed and addressed in the final report to be submitted for the application for the environmental clearance.

3. Discussions

Comments/questions	Participant	Responses from EAP and Proponent	
• What are the objectives of the meeting?		 To inform the stakeholders about the proposal. To provide the stakeholders with technical information about the exploration. To take account of the information and views of the public in the EIA and decision making. 	
• We do not get proper		• Thank you, We are sorry for that	
notification about the meeting and		and we will do better next time.	

the arrangement of the meeting is poor because we always do not given enough time to discuss.	
• Do we have rights to our properties? What are our rights?	• No one will enter the farm without a farm access agreement in place with provisions on how and when access is allowed by the farm owner.
• What are the benefits of the farmers from the exploration?	• Compensation
• The exploration will bring in additional people to our farms and we do not want it, we will get attack on our farms and it will also cause theft of stock.	• Noted.
• Foreign companies always come to demolish farmers land and leave it unstable, no rehabilitation.	• The exploration company will be responsible for any damages caused.
• If the project goes ahead, how will it affect the neighbouring farmers?	• A detailed impact assessment and a fully incorporated environmental management plan will detail these impacts.
• Whoever set up this meeting. What where your intentions for this meeting or what did you expect out of this meeting? Do you just want to have the meeting type up the minutes and submit it to MET as is?	• We were appointed to conduct the EIA and as such have to undertake public participation as part of the process. Thus, we are engaging you as directly affected farm owners. We will additionally compile a draft EIA report which will be made available to all the directly affected farm owners of the area for review before being submitted to MEFT.
• The water issue needs to be explained in detail before approval.	• Yes the water issue will be fully explained in the report.
• Farmers want to know how the project will impact their farms.	• A detailed impact assessment and a fully incorporated environmental management plan will detail these impacts.
• We cannot trust the consultants appointed by someone else to come do the meeting for us.	• We as consultants are required to follow the legal environmental regulation process. Therefore we

	have to undertake public participation as part of the process.
Why did you choose our area?	• Anyone can apply for any open EPL available anywhere in Namibia. For this EPL is on this area.
• Let us have another consultation meeting.	• Okay we can have another consultation meeting. We suggest that we first compile a draft scoping and distribute it to everyone before the next meeting.
• Why is there no one from Mines and Energy, Environment and Tourism and from Ministry of Agriculture present in this meeting?	• Mines and Energy Ministry is a competent authority; it is mandatory to first submit the scoping report to them before approval. Ministry of Environment is the approval authority. Ministry of Agriculture will receive a copy of the report as well. We unfortunately cannot convince officials from these Ministry to be present at public meetings.
We all farmers we stand together opposing exploration in our farmers, that land is for farming and we will not permit anyone to enter our farms.	No one will enter the farm without a farm access agreement in place with provisions on how and when access is allowed by the farm owner.
The government is unfair toward the farmers. Why do we have EPL on our farmers when we do not even get help from the government when the land unfit for farming?	•
There is lack of access road, how will the exploration be carried out?	 A detailed impact assessment and a fully incorporated environmental management plan will detail these impacts.
There are sensitive areas on our land and that might be affected completely.	• The sensitive areas will be avoided.

• For follow up meeting, officials from the line ministry should be present.	• Noted
We need privacy on our land. We have burial site that cannot be disturbed. That land is our pride.	• Noted

4. Way Forward & Closure:

It was agreed by the attendees and the consultant that the documented questions and comments from the meeting will be incorporated and fully addressed in the Environmental Scoping report. This report will be circulated to all registered Interested and Affected Parties (I&APs) for review before it can be submitted to the Ministry of Environment, Forestry and Tourism.

2

PROMIT REPUBLISHED IN LOUIS & ZASIS

Location: The license area is located about 60 km south of Rehoboth

Proponent: Mr. Josia Shilunga (In partnership with **Exploration Target:** Copper Deposits

Farms for EPL 8756: Diergaards Aub S, Farm No.682, Groendraai, Kalfrivier Suid, Kareeboomkolk, Mooirivier, Nakaeis Suid, Samaubis Noord, Strausskolk, Wingerd, and Witkop Suid.

3

4

PROPOSED ACTIVITIES

Phase One: Initial Exploration Activities

The prospecting programme will include non-invasive work such as:

- Preparation of comprehensive geological maps
- Geological interpretation of satellite and aerial images of the prospective areas.
- Carrying out a Geophysical Survey of the Area.
- Sampling of rock outcrops and geological mapping.
- Geochemical Sampling

Phase Two: Advanced Exploration Activities

These activities involve:

- Reverse Circulation (RC Drilling)
- Diamond drilling

LEGAL CONTEXT

• Environmental Management Act (No.7 of 2007)

lists several activities that may not be undertaken without an environmental clearance certificate issued in terms of the Act.

• Environmental Regulations (GN 30 of 2012)

Regulates the procedures to be followed when undertaking an EIA in Namibia

stipulates that no mining and quarrying activities may be undertaken without an environmental clearance certificate.

5

6

ENVIRONMENTAL IMPACT ASSESSMENT (EIA) PROCESS

Phase 1-Applicati on

 Lodge application with MET, Attain application numbers, Advertise, Distribute BID, Compile list of Interest and Affected Parties' list

 Public Participation and Meetings, Draft Scoping and Public Review, Finalization and submission to MET

• Approval or rejection of the ECC

Proposed Mitigation Measures:

- Impacts of Flora, Avifauna and Fauna: Create a fence around the campsites, avoid important animal habitats, not leave food lying around, distribute information booklets. Wardens will be frequenting the site.
- Socio-Economic Impacts: regularly engage the community and employ only locals
- Generation of waste: Minimize amount of waste generation and transporting waste to a proper dumpsite
- Noise: Avoid evening drives, minimize noise
- · Visual Impacts: Encouraging use of designated roads
- Dust: From movement of vehicles
