FW: Development and operation of bulk liquid-petroleum-gas (LPG)/liquid natural gas (LNG) import, storage and distribution facilities in the Port of Walvis Bay, North Port, Walvis Bay, Erongo Region

To  
Bcc 'managers@walvisbaycc.org.na'; 'environment@walvisbaycc.org.na'

Dear Potential Interested and Affected Party

Environam Consultants Trading is a wholly Namibian owned environmental management consultancy providing an array of environmental services to our clients including: Strategic Environmental Assessments; Environmental Assessments; Strategic Environmental Management Plans; Environmental Management Plans; Environmental Management Systems; Environmental Auditing, Monitoring and Evaluation; Solid Waste Management; and Project Management. Our daily activities are underpinned by excellent environmental outcomes aimed at achieving a symbiotic relationship between development and the environment.

We have been appointed by **Hakahana LPG** to undertake the environmental scoping exercise and apply for an environmental clearance certificate from the Environmental Commissioner for the project below:  
**Development and operation of bulk liquid petroleum gas (LPG)/liquid natural gas (LNG) import, storage and distribution facilities in the Port of Walvis Bay, North Port, Walvis Bay, Erongo Region.**

*The construction of facilities for waste sites, treatment of waste and disposal of waste; the storage and handling of dangerous goods, including petrol, diesel, liquid petroleum gas or paraffin, in containers with a combined capacity of more than 30 cubic meters at any one location; construction of filling stations or any other facility for the underground and aboveground storage of dangerous goods, including petrol, diesel, liquid, petroleum, gas or paraffin; the construction of - Oil, water, gas and petrochemical and other bulk supply pipelines; the construction of - railways and harbours are listed activities as per the List of Activities requiring Environmental Clearance (Government Notice 29 of 6 February 2012) and accordingly require an Environmental Impact Assessment (EIA) to be conducted.*

In line with Regulation 21(2) of the mentioned EIA Regulations, a Background Information Document (BID) is distributed to pre-identified Interested and Affected Parties as part of the public consultation process for this Environmental Impact Assessment.

An Environmental assessment will be undertaken to determine the potential impact of the development on the environment and to determine all safety, health and social impacts associated with the proposed development activities.

Should you require any additional information or would like to register as an I&AP, please contact us at Mobile: +264 81 458 4297, Fax: +264 61 258 470 or E-Mail: [colin@environam.com](mailto:colin@environam.com); P.O. Box 24213, Windhoek, on or before **31 May 2022**.

Dear Potential Interested and Affected Party

Environam Consultants Trading is a wholly Namibian owned environmental management consultancy providing an array of environmental services to our clients including: Strategic Environmental Assessments; Environmental Assessments; Strategic Environmental Management Plans; Environmental Management Plans; Environmental Management Systems; Environmental Auditing, Monitoring and Evaluation; Solid Waste Management; and Project Management. Our daily activities are underpinned by excellent environmental outcomes aimed at achieving a symbiotic relationship between development and the environment.

We have been appointed by Hakahana LPG to undertake the environmental scoping exercise and apply for an environmental clearance certificate from the Environmental Commissioner for the project below:  
**Development and operation of bulk liquid petroleum gas (LPG)/liquid natural gas (LNG) import, storage and distribution facilities in the Port of Walvis Bay, North Port, Walvis Bay, Erongo Region.**

*The construction of facilities for waste sites, treatment of waste and disposal of waste; the storage and handling of dangerous goods, including petrol, diesel, liquid petroleum gas or paraffin, in containers with a combined capacity of more than 30 cubic meters at any one location; construction of filling stations or any other facility for the underground and aboveground storage of dangerous goods, including petrol, diesel, liquid, petroleum, gas or paraffin; the construction of - Oil, water, gas and petrochemical and other bulk supply pipelines; the construction of - railways and harbours are listed activities as per the List of Activities requiring Environmental Clearance (Government Notice 29 of 6 February 2012) and accordingly require an Environmental Impact Assessment (EIA) to be conducted.*

In line with Regulation 21(2) of the mentioned EIA Regulations, a Background Information Document (BID) is distributed to pre-identified Interested and Affected Parties as part of the public consultation process for this Environmental Impact Assessment.

An Environmental assessment will be undertaken to determine the potential impact of the development on the environment and to determine all safety, health and social impacts associated with the proposed development activities.

Should you require any additional information or would like to register as an I&AP, please contact us at Mobile: +264 81 458 4297, Fax: +264 61 258 470 or E-Mail: [colin@environam.com](mailto:colin@environam.com); P.O. Box 24213, Windhoek.

Please take note that the attached Background Information Document indicates a date of 31 May 2022 as the due date for comments. as a valued Interested and Affected Party we would like to provide you with an

**Proposed Development and operation of bulk liquid-petroleum-gas (LPG)/liquid natural gas (LNG) import, storage and distribution facilities in the Port of Walvis Bay, North Port, Walvis Bay, Erongo Region. - Site meeting visit with Namport**

**Date:** 24 May 2022

**Time:** 15h30 – 16h00

**Venue:** Project site

**Attendance list** – (See attached attendance register for signatures)

1. Rauna Nghifikwa
2. Justina Evelinus
3. Stefanus Gariseb
4. Shaheed Saban
5. Noah Nakale

**Opening meeting**

- Rauna greeted and thanked everyone for making time for the site visit meeting. The aim of the meeting was explained i.e. to have a view of what the site looks like and where it is located.

**Agenda points**

- Have Namport's view on the proposed project.
- Baseline assessment of the site.

**Discussion points**

- Shaheed gave the exact measurements of the site and provide a detailed site plan/map.
- Stephanus emphasized on meeting all the possible interested and affected parties and brief them on the proposed project.
- Justina added that it is important to meet all the interested and affected parties because this project is the first of the type that Namport is approving on their land/portion.
- Some of the identified stakeholders are Roads Authority, NAMCOR and Ministry of Mines and Energy.

**Recommendations and closing**

- It was recommended that meeting appointments be made with the identified stakeholders for their comments on the proposed project.
- Most importantly, it is of great hope that the project goes forward because it is the first of its kind that Namport is approving on that specific site.

***Meeting adjourned at 16h00***

# Public Awareness Campaign On Abuse Of The Sewer Network Kicks Off

The Municipality recently embarked on a series of public awareness sessions in Walvis Bay to educate the public about the role they can play in preventing sewage blockages which lead to constant sewage overflows.

Abuse of the sewerage system has become a chronic problem in recent years, resulting in constant blockages of the system which lead to subsequent overflows of sewage water. Items such as camping chairs, TV sets, tires, cutlery, oil, clothing and fishing nets, to name a few, have been retrieved from the network by the Water Management team, in effort to clear blockages. Residents in sewage overflow hot spots in residential areas and businesses in the industrial areas, have been invited in phases/groups to information sharing sessions or the past couple of weeks. The first session was held

on 24 March, with business owners operating in the light industrial area in 8th Street East, particularly due to the dumping of oil in this area. Technicians from the water waste section had a chance to educate the business owners regarding the dangers of dumping oil in the sewage system and how it affects other businesses. The business owners had an opportunity to also voice their frustrations, ask questions and give suggestions. At this occasion, the Engineer for Water, Henok Shikongo said that although the sewage infrastructure is aged, the current rate of sewage abuse is causing the larger percentage of sewage block-

ages. He further noted that in the meantime, council is continuing with programmes to maintain and upgrade the infrastructure. This campaign is ongoing. To complement these efforts the Health Division is also conducting door to door visits in the residential areas to hand out pamphlets and explain the dangers of disposing foreign objects in the sewage system. If you would like to know more on the role you can play in mitigating sewage blockages and subsequent overflows, please contact the municipality: Public Relations and Customer Division: 064 201 3381/3394/-3342 / Health Division: 064 201 3284

## No more unconditional use of pre-paid SIM cards

Eileen van der Schyff

A new draft law by Namibia's Communications Regulatory Authority (CRAN) presented to Parliament in consultation with the Minister of Information and Communications Technology, provides for adjustments to be made for licensees of telecommunications services whereby the revised Communications Act provides that a mobile network provider may not issue or activate a SIM card for a customer unless that customer is contractually registered as the holder of such SIM card.

The new terms, published under Chapter 5 of the Communications Act 2009 (Act 8) in the Government Gazette on 15 March 2021, makes them enforceable. A written contract must be completed with the mobile network service provider, which identifies the user as the legal owner of the SIM card.

### NOTICE FOR PUBLIC PARTICIPATION ENVIRONMENTAL IMPACT ASSESSMENT

Environam Consultants Trading cc (ECT) hereby gives notice to all potentially Interested and Affected Parties (I&APs) that an application will be made to the Environmental Commissioner in terms of the Environmental Management Act (No 7 of 2007) and the Environmental Impact Assessment Regulations (GN 30 of 6 February 2012) for the following:

**PROJECT NAME:** Proposed Development of a LPG/LNG Storage Facility in the Port of Walvis Bay

**PROJECT LOCATION:** Port of Walvis Bay, Walvis Bay, Erongo Region

**PROJECT DESCRIPTION:** The project entails the following: Storage and handling of 10,000 MT of LPG/LNG

**PROPONENT:** Hakahana LPG

**PUBLIC MEETING:** A Public consultation meeting will be held on Tuesday, 24 May 2022 at 18:00 pm. The venue of the meeting will be Walvis Bay Community Hall.

**REGISTRATION OF I&APs AND SUBMISSION OF COMMENTS:** All I&APs are hereby invited to register and submit their comments, concerns or questions in writing, kindly contact:

Email: [colin@environam.com](mailto:colin@environam.com)

Fax: 061 258 470 or

Mobile: 081 458 4297 on or before 31 May 2022.

## Op-en-Wakker Senior Burgers Club in Narraville donation

The Namibian Ports Authority (NAMPORT) recently donated to the Op-en-Wakker Senior Burgers Club in Narraville. The donation, valued at N\$ 17,000.00, included twenty (20) food parcels and twenty (20) blankets. Namport values the wisdom and knowledge imparted by our senior citizens, hence the small token of appreciation, especially as it comes at a time when the temperatures are beginning to drop and the air becoming colder than usual, with winter fast approaching.

We did it!

We found your missing cutlery...in the sewerage system.

The disposing of foreign objects in the network is the number one cause of sewerage system blockages and sewage overflows.

**CALL FOR PUBLIC PARTICIPATION**

**ENVIRONMENTAL IMPACT ASSESSMENT FOR MINERAL EXPLORATION ON EPL 8374**

This notice serves to inform all interested and affected parties that an application for the environmental clearance certificate will be launched with the Environmental Commissioner in terms of the Environmental Management Act (No.7 of 2007) and the Environmental Regulations (GN 30 of 2012).

**Project:** The license area is located about 10 km East of Otavi, accessible along the C39 road. The proponent intends to explore for Base and Rare Metals. Exploration methods may include geological mapping, geophysical surveys, sampling, and drilling.

**Proponent:** Mr. Hans Haraseb

All interested and affected parties are hereby invited to register and submit their comments regarding the proposed project on or before **03/06/2022**. Contact details for registration and further information:

**Impala Environmental Consulting**  
**Mr. S. Andjamba**  
**Email: eia@impalac.com, Tel: 0856630598**

**NOTICE FOR PUBLICATION**

**(THREE STOREY DWELLING APPLICATION)**

Take notice that the owner, Mr. Negonga of ERF 736 Terrace Street, Kleine Kuppe intends on applying to the Windhoek Municipal Council for the construction of a three-storey dwelling unit.

The proposed construction will allow the owner to erect a three-storey dwelling unit on ERF 736 Terrace Street, Kleine Kuppe.

The owner's current intentions are to erect and use the building for residential purpose.

Further take notice that the plan of the erf lies for inspection on the town planning notice board in the Customer Care Centre, Main Municipal Offices, Rev. Michael Scott Street, Windhoek.

Further take notice that any person objecting to the proposed use of the land as set out above may lodge such objection together with the grounds thereof, with the city of Windhoek, fifth floor, office 524 and with the architect/applicant in writing within 14 days of the last publication of this notice.

Dated at Windhoek this **26<sup>th</sup>** day of **April 2022**.

The last date for any objection is **19 May 2022**.

**Owner Name:** Amupolo Negonga  
**Postal Address:** 24756, Windhoek  
**Contact Number:** 0816815722

# Namport Social Investment Fund donates ablution facilities to school in Ohangwena region

The Namibian Ports Authority (Namport), through its Social Investment Fund (NSIF) recently contributed N\$150 000 towards Engela ELCIN Private School in the Ohanwena region, towards construction of ablution facilities as well as the renovation of three classrooms.

The two ablution facilities are to cater for male and female users and are equipped with modern flushing facilities as well as a septic tank. These facilities replace the bucket system which was in use at the school since its inception in 2019. With the renovations done on the pre-existing classrooms, the school is now in a position to accommodate more pupils in one class resulting into sufficient spacing between each learner in adherence to health protocols in place as a consequent of the COVID-19 pandemic. The Namport Social Investment

Fund (NSIF) which was established in 2006 is the catalyst through which the Namibian Ports Authority (Namport) contributes to the development of a better Namibia by investing into corporate social investment projects that seek to uplift the lives and livelihoods of all Namibians.

Speaking on behalf of the Namport Social Investment Fund during the handover ceremony, Ms Edith Kukuri said, "Namport through the NSIF arm remains steadfast in its role of being an active and responsible Corporate Citizen and continues to live by the entity's values of being committed, connected, caring, creative and collaborative".

An estimate of N\$ 831 840.00 was spend on various projects across the 14 regions nationwide during the Fund's just ended financial year 2021/2022.

Western Diocese Moderator Rev Dr Gideon Nttinge inspecting and approving the newly constructed ablution facilities

Excited learners from the Engela ELCIN Private School

## Tamovi Investment ploughs back to the community once again

Tamovi Investment (PTY) Ltd as part of their Social Cooperate Responsibilities once again ploughs back to the community in Swakopmund.

The Managing Director of Tamovi Investment Mr. Frans Hamunyela recently donated printing paper, Tonners for printers and sanitizer to the value of N\$35 000.00 to various schools in Swakopmund.

The school that received the donations are Hanganeni Primary School, Verde Rede Primary School, John //Awaseb Primary School and West Side High School.

RE: Proposed development and operation of bulk liquid-petroleum-gas (LPG)/liquid natural gas (LNG) import, storage and distribution facilities in the Port of Walvis Bay, North Port, Walvis Bay, Erongo Region

To 'Colin P Namene'

You replied to this message on 14/07/2022 1:21 PM.

Good Day Mr Namene.

Thank you for keeping us in touch with this plan.

Our interest is and will be based on the actual traffic on our roads. This will increase and since Trans Namib could not comment or even adjust to the upgrades of the Harbor, we highly recommend to have this be a big priority into the scoping and feasibility of this project.

Even though the road behind the dunes can handle the traffic, the road from Swakop to Usakos can not.

From our party, we do have the Guano Island between Walvis Bay and Swakopmund and due diligence should be noted on the Birds that are breeding there. They are under protection, and it is one of the only places where they can still breed.

Expansion will hurt the environment. We do not condone the idea of the storage unit but rather would like to have all parties consider the protection of the birds.

Kind Regards  
Mark Groenewald  
Director  
The Atlantic Guano Syndicate  
081 384 0234

To: 'Elzevir W. Gelderbloem Pr. Eng. (Namport)'

Hi Elzevir

No, I only had knowledge of the one for the commercial harbor. Thank you, we will study it and incorporate it into the final report.

Regards,

Colin
