(18 January to 02 February 2023)

SINCE 6 MAY 1978

Rihanna says she loves being a mom

The 34-year-old singer gave birth to her baby boy in May 2022, and the chart-topping star relishes spending time with him.

A source told "PEOPLE": "Rihanna loves being a mom. She is obsessed with her baby boy."

A\$AP Rocky has also proven to be a very hands-on dad since the loved-up couple welcomed their first child.

The insider explained that Rocky, 34 - who has been dating Rihanna since 2020 - is "very involved as well and a great dad".

Last year, Rihanna actually revealed that her baby boy inspired her to perform at the Super Bowl.

The award-winning star admitted that motherhood has changed her outlook on life, and that it even prompted her to accept an invitation to perform the Super Bowl half-time show.

The "Work" hitmaker shared: "I feel like it was now or never, really. There's

this weird s*** that happens when you become a mom that you just unleash or unlock other parts of your superpower. You feel like you can take on or you could do anything.

"I wanted to take on the challenge, and I wanted to do something that would force me to get back on stage."

Rihanna confessed to relishing the challenge of motherhood.

However, the singer admitted that she struggled to describe the emotions and the challenges of parenthood.

Rihanna, who is expected to release her long-awaited new album later this year, said: "It is crazy. It is amazing. It's wild. It's weird. It's all of those things, all at once. The best feeling. The most love I've ever known.

"I can't describe it. It's new. It's fascinating. Every step, every facial expression, every new milestone. I love it."

Kanye West may be married again ... but Kim's not bothered

Kim Kardashian "isn't paying attention" to Kanye West's marriage.

The 42-year-old reality superstar was married to the "Stronger" rapper from 2014 until 2021 and has children North, 9, Saint, 6, Chicago, 4 and 3-year-old Psalm with him but after the news that he had tied the knot with Bianca Censori in an unofficial ceremony last week, she is reportedly staying "focused" on motherhood.

A source told "Entertainment Tonight": "The marriage and relationship is real to Kanye and Bianca but Kim isn't paying attention to it.

"She is focused on the well-being of her children. Kanye's friends are hopeful that he can get help because he has been acting unstable lately."

West was first pictured with Censori - who has worked as an architectural designer

at his company Yeezy for several years - at the Waldorf Astoria in Beverly Hills earlier this week, and he was wearing a wedding ring, even though the marriage is not legally binding because the couple is yet to file a marriage certificate.

Sources claimed that the jewellery signifies the 45-year-old star's commitment to his new wife.

Meanwhile, Kim has admitted she is worried that people will be "scared" to date her because West isn't the "easiest" person to deal with.

She said: "There's a part of me that is like, 'Oh my God, is everyone gonna be scared because I don't have the easiest ex?'"

"I don't think that's fair for me to ever put someone in a situation or bring a new person in who could be super innocent.

"Then there's a side of me that's like, 'Why would I ever have to live that way?'"

CALL FOR PUBLIC PARTICIPATION

ENVIRONMENTAL IMPACT ASSESSMENT FOR PROPOSED SMALL SCALE MINING ON MINING CLAIMS (MCs: 74090 TO 74098, ERONGO REGION)

This notice serves to inform interested and affected parties that an application for the environmental clearance certificate will be launched with the environmental commissioner in terms of the Environmental Impact Assessment Management Act (No.7 of 2007) and Environmental Regulations (GN 30 of 6 February 2012) for the proposed activity:

Project: Proposed small scale mining activities on Mining Claims 74090 to 74098.

Location: The project is located in Erongo Region, approximately 43 km SW of Uis settlement, Dãures constituency, Erongo region, via C35 and D2342 from Uis.

Proponent: Ringmen Investment (Pty) Ltd

Project description: The proponent intends to mine the following commodities on small scale: Base & Rare metals, Dimension stone, Industrial Minerals and Semi-precious stones.

In accordance with Namibia's Environmental Management Act (No. 7 of 2007) and Environmental Regulations (GN 30 of 6 February 2012), all interested and affected parties (I&APs) are invited to register and submit comments, concerns and questions in writing to the emails given below on or before **10/02/2023**. Public meeting date to be communicated to all registered interested and affected parties.

Britney Spears makes rare comment about Justin Timberlake

Britney Spears has reminisced about her time with Justin Timberlake.

The 41-year-old pop icon dated NSYNC star Justin, 41, after they emerged as teen idols in the late 1990s before splitting in 2002. She took to social media on Tuesday to remember the times they would play basketball together.

Alongside a snap of them both playing the sport as part of a charity match the year before they split up, she wrote on Instagram: "When we used to shoot hoops TOGETHER ... that's when miracles happened (star emoji) !!!"

"I came out of my mom's stomach just like we all did !!! Psss ... why always cast me out ??? I'm equal as all !!!" (sic)

The "Baby One More Time" hitmaker went on to wed childhood sweetheart Jason Alexander for a total of 55 hours in 2004, before getting married to backing dancer Kevin Federline and divorcing him in 2007 before eventually tying the knot with actor Sam Asghari in June last year.

Years after their split, Spears – who has children Sean, 17, and 16-year-old Jayden with her second husband – received a public

apology from Timberlake about the way he was perceived to have handled their breakup and the incident at the 2004 Super Bowl with Janet Jackson, which saw him accidentally tear part of the "Control" singer's costume during the half-time show and leave her breast exposed.

At the time, he said: "I've seen the messages, tags, comments, and concerns and I want to respond. I am deeply sorry for the times in my life where my actions contributed to the problem, where I spoke out of turn, or did not speak up for what was right."

"I understand that I fell short in these moments and in many others and benefited from a system that condones misogyny and racism. I specifically want to apologise to Britney Spears and Janet Jackson both individually, because I care for and respect these women and I know I failed."

"I also feel compelled to respond, in part, because everyone involved deserves better and most importantly because this is a larger conversation that I wholeheartedly want to be part of and grow from."

Books to look out for in 2023

Johannesburg - With South Africa's literary scene growing exponentially, avid readers are given something to look forward to every year. Various authors together with publishers from across the country and on the international front have got some exciting offerings lined up for the year. Here are a few upcoming 2023 book releases you can expect.

I Will Find You Harlan Coben

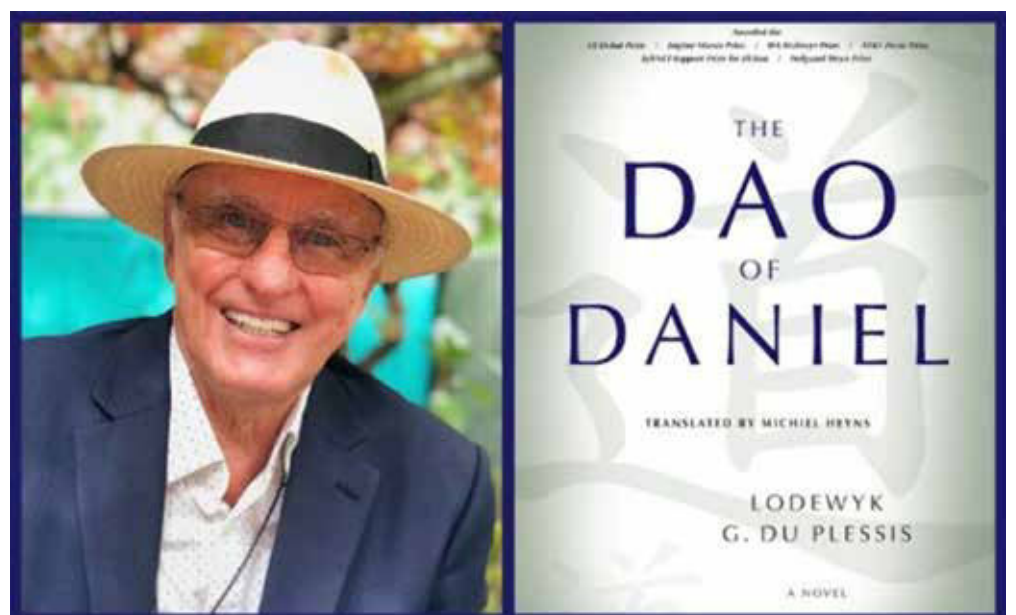

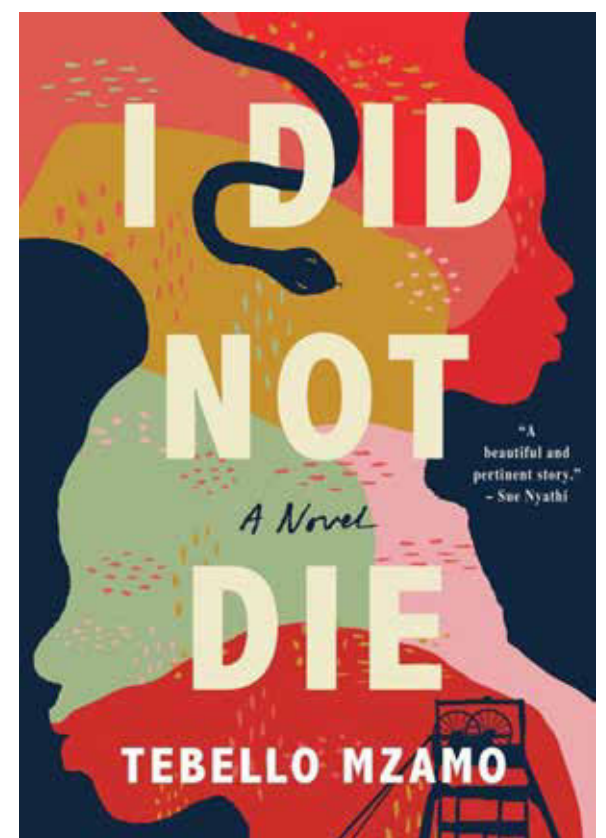

Penguin Random House

David and Cheryl Burroughs are living the dream - married, a beautiful house in the suburbs, and a three-year-old son named Matthew - when tragedy strikes one night in the worst possible way.

David awakes to find himself covered in blood, but not his own - his son's. And while he knows he did not murder his son, the overwhelming evidence against him puts him behind bars indefinitely. Five years into his imprisonment, Cheryl's sister arrives - and drops a bombshell.

She's come with a photograph that a friend took on vacation at a theme park. The boy in the background seems familiar - and even though David realizes it can't be, he knows it is. It's Matthew, and he's still alive.

David plans a harrowing escape from prison, determined to do what seems impossible - save his son, clear his name, and discover the real story of what happened that devastating night.

The Dao of Daniel Lodewyk G du Plessis, Michiel Heyns

NB Publishers

Daan van der Walt, a Latin-quoting, God-fearing former Kalahari farmer, visits his estranged son in China. He soon finds himself on a difficult path (the Dao of the title) to come to terms with his feelings of remorse and guilt. He sets out to write his Historia, or confessions, in the form of letters to his deceased wife and imaginary observations of his beloved dog. An astounding debut by an octogenarian author; the award-winning Afrikaans novel was translated by Michiel Heyns.

Holocaust survivor Ella Blumenthal relives history's darkest moments in new doccic 'I Am Here'

Holocaust survivor Ella Blumenthal, unveils chilling details of history's darkest systematic genocides during the World War II, in the award-winning documentary "I Am Here".

Holocaust is the genocide of over six million European Jews by Nazi Germany and its collaborators between 1941 and 1945.

The feature documentary "I Am Here" follows this spirited South African Holocaust survivor as she reveals her astonishing journey and unwavering appreciation of life.

As one of the last remaining survivors in South Africa, Blumenthal's message of love and tolerance "could not be more relevant in a world still plagued with xenophobia and discrimination".

In the documentary, Blumenthal admits to never wanting to visit her traumatic past.

"I love to talk to people, I love to meet people... but I try to never talk about my suffering and fight for survival," says Blumenthal.

She continues: "I was born in Warsaw (Poland). I was a happy teenager until the Nazis invaded Poland. I lost almost my entire family... just my niece Roma was left. We were sent to terrible places. We were condemned to death. I never lost hope. I was not ready to die..."

"We should not forget... And why was I chosen to survive?"

Directed by Jordy Sank, "I Am

Holocaust survivor Ella Blumenthal. Picture: Supplied

Here" is produced by Gabriella Blumberg and was supported by a grant from The Conference on Jewish Material Claims against Germany.

"Ella's feisty, upbeat personality

makes her a fantastic raconteur and wonderful character to follow in this film," comments Benjamin Cowley, CEO Gravel Road Distribution Group.

"In I Am Here, we meet Ella

Blumenthal (now 101) at her 98th birthday celebration, where she opens up to close friends and family about her journey of survival, in a way she has never done before.

"This documentary contrasts Ella's vibrant day-to-day life with stories of her survival. These memories are depicted through dynamic 2D animation, innovatively bringing her storytelling to life and resonating with audiences across generations.

"I Am Here' not only shines a light on her remarkable life but also pays tribute to the power of the human spirit. Her vivacious personality and her positive outlook on life are truly inspiring," explains Cowley.

The doccic is set to release at Cinema Nouveau Rosebank on Friday, January 27, to coincide with International Holocaust Remembrance Day.

Tickets are available for a special pre-release screening on Wednesday, January 25 at 7:30 pm.

The special screening will feature an appearance by Paul Salmons, followed by a question and answer session with the film-makers.

Salmons is a world-renowned exhibition curator and educator specialising in challenging histories and exploring the continued relevance of the past in today's complex world.

"I Am Here" won three prestigious Golden Horns at the 2022 South African Film and Television Awards for Best Documentary, Best Achievement in Editing and Best Achievement in Cinematography.

A\$AP Rocky's 'vulnerable' fourth album is 'finished'

A\$AP Rocky's fourth album is "finished".

The "Fashion Killa" star has revealed his follow-up to 2018's "Testing" just needs a few "finishing touches" before it's ready to be shared with the world.

Rocky has poured his heart and soul into the "vulnerable" lyrics, in which he shares his "perspective" on how he views his peers and community.

He said: "It's finished and we just putting the finishing touches on it.

"The new stuff is me being vulnerable, and it's just no filter, and just where I'm at, at my stage. My age and how I see things, my peers, the younger kids, the older cats, it's just my perspective." This week, the music star shared the latest single, "Same Problems?", which is dedicated to the hip-hop artists who died too young.

He said: "Without preaching too

much, I just wanted to touch on something a bit different opposed to just being braggadocious, flamboyant and just regular rap content for me."

Elsewhere, Rocky gushed that Rihanna's music comeback is "just incredible".

The rapper is thrilled that his partner – who gave birth to their baby boy last May – is staging a huge revival with her upcoming headline slot at the Super Bowl

half-time show on February 12.

He told Zane Lowe on Apple Music 1: "I'm so glad that my lady's back making music again and whatnot, and getting back out there.

"It's just incredible."

He said: "The Super Bowl is huge, and her being the creative she is, she going to bring it, man. I'm excited. I'm more excited than everybody else, honestly."

NOTICE OF ENVIRONMENTAL ASSESSMENT AND PUBLIC PARTICIPATION PROCESS

Junior Baiano Industrial Consultants cc hereby gives notice to all potentially Interested and Affected Parties (I&APs) that an application will be made to Environmental Commissioner in terms of the Environmental Management Act (No 7 of 2007) and the Environmental Impact Assessment Regulations (GN 30 of 6 February 2012) for the following activity:

PROJECT DESCRIPTION: Proposed construction and operation of 5MW merchant solar photovoltaic plant.

PROJECT LOCATION: The site is located north of Rehoboth, A portion of the Remainder of Rehoboth Town & Townlands No. 302 along the Western side of the B1 Road Rehoboth, Hardap Region, Namibia

PROONENT: Alensy RTC PV – Gen (PTY) LTD

I&APs are invited to register with the consultant and give their comments and concerns in writing. Please take note of the following:

PUBLIC MEETING
 Date: Saturday, 21 January 2023
 Venue: Hermanus Van Wyk Hall, Rehoboth
 Time: 14h00

To register or request for documents please submit your name, contact information and interest in the project, in writing to:

Mr. Nghiyolwa, Fredrich
 Tel: +264 (0) 81 147 2029
 Email: juniorb200581@gmail.com

PUBLIC NOTICE**ENVIRONMENTAL IMPACT ASSESSMENT PROCESS FOR THE PROPOSED MINERALS PROSPECTING ACTIVITIES WITHIN EXCLUSIVE PROSPECTING LICENCE (EPL) 9218, KHOMAS REGION**

On behalf of the proponent, Alliance Environmental Consultancy CC (AEC) herewith gives notice in terms of the Environmental Management Act No. 7 of 2007 and Environmental Impact Assessment (EIA) Regulations for the proposed prospecting activities within EPL 9218, Khomas Region.

Proponent: Nalonge Investments CC

Commodities: Base and Rare Metals, and Precious Metals.

Locality: Approximately 70km southwest of Rehoboth near Nauchas settlement in the Windhoek Rural Constituency covering portions of farms: 14 – Nauchas, 176 – Areb, 177 – Nauams, 899 – Alberta, and 909 – Aus Boerdery (Pty) Ltd.

All Interested and Affected Parties (I&APs) are hereby invited to register and submit comments duly motivated in writing on or before the 17th of February January 2023. Registration and Background Information Document (BID) for the project can be requested from the email address provided below.

Email: info@enviro-aec.com

Cell: +264857728929

**CALL FOR PUBLIC PARTICIPATION****ENVIRONMENTAL IMPACT ASSESSMENT FOR PROPOSED SMALL SCALE MINING ON MINING CLAIMS (MCs: 74090 TO 74098, ERONGO REGION)**

This notice serves to inform interested and affected parties that an application for the environmental clearance certificate will be launched with the environmental commissioner in terms of the Environmental Impact Assessment Management Act (No.7 of 2007) and Environmental Regulations (GN 30 of 6 February 2012) for the proposed activity:

Project: Proposed small scale mining activities on Mining Claims 74090 to 74098.

Location: The project is located in Erongo Region, approximately 43 km SW of Uis settlement, Dâures constituency, Erongo region, via C35 and D2342 from Uis.

Proponent: Ringmen Investment (Pty) Ltd

Project description: The proponent intends to mine the following commodities on small scale: Base & Rare metals, Dimension stone, Industrial Minerals and Semi-precious stones.

In accordance with Namibia's Environmental Management Act (No. 7 of 2007) and Environmental Regulations (GN 30 of 6 February 2012), all interested and affected parties (I&APs) are invited to register and submit comments, concerns and questions in writing to the emails given below on or before **10/02/2023**. Public meeting date to communicated to all registered interested and affected parties.

Tel: +264 85 761 4750

Email address: info@minera-xplore.com or frontdesk@minera-xplore.com

**NOTICE FOR PUBLIC PARTICIPATION ENVIRONMENTAL IMPACT ASSESSMENT**

Environam Consultants Trading (ECT) hereby gives notice to all potential Interested and Affected Parties (I&APs) that an application will be made to the Environmental Commissioner in terms of the Environmental Management Act (No 7 of 2007) and the Environmental Impact Assessment Regulations (GN 30 of 6 February 2012) for the following:

PROJECT NAME: Environmental Impact Assessment for the Construction of the ORE 10MW Solar PV Power Plant in Katima Mulilo, Zambezi Region

PROJECT LOCATION: Portion 3 of Katima Mulilo, Zambezi Region

PROJECT DESCRIPTION: The project entails the following:

- 10MWp Installed Capacity PV Plant
- Transmission Line Route and Interconnection

PROONENT: Omukwa Renewable Energy (Pty) Ltd

PUBLIC MEETING: A Public consultation meeting will be held on **27 January 2023** at the following venue and time:

- 9:00 - 11:00 at Zambezi Vocational Training Centre, Katima Mulilo, Zambezi Region

REGISTRATION OF I&APs AND SUBMISSION OF COMMENTS: All I&APs are hereby invited to register and submit their comments, concerns or questions in writing to:

Email: colin@environam.com

Mobile: 081 458 4297 on or before **03 February 2023**

In these years physical activity contributes to emotional regulation, and body positivity, and reduces risky behaviour. Picture: Pexels/Andrea Piacquadio

Zumba and it's surprising positive effects on you health

You've undoubtedly noticed the striking similarity between a Zumba class and the dance floor of a popular club on a Saturday night, if you've ever watched one.

A Zumba session has upbeat dancing music, clapping hands, and even the odd "Woo!" or exclamation of joy from an ardent participant, as opposed to the groans you'd hear at your average CrossFit or indoor cycling class.

Zumba is a workout that incorporates dancing moves set to music that are influenced by diverse Latin American dance forms. Around the world, it has emerged as a trendy and well-liked exercise. But does it work well for calorie burning, arm toning, and muscle building?

It is a full-body workout.

There are no right or wrong ways to do Zumba, which was created as a fusion of aerobics and salsa. You are engaging in the activity as long as you are moving in time with the music.

Zumba includes moving your entire body, including your arms, shoulders, and feet, so you'll receive a full-body exercise that doesn't seem like labour.

You'll lose weight and burn calories.

According to a short 2012 research paper titled Zumba: Is the 'Fitness-Party' a Good Workout? a typical 39-minute Zumba session burnt 9.5 calories per minute on average, working out to 369 calories for the duration of the lesson.

To encourage weight reduction and maintain a healthy body weight, the Register of Exercise Professionals of South Africa advises that people burn 300 calories every session. Zumba nicely satisfies their parameters.

A 12-week Zumba programme can significantly increase aerobic fitness, according to research in the study Cardiovascular effects, body composition, quality of life, and pain following a Zumba fitness programme in Italian overweight women.

You will hone endurance.

With just a few exercises, you may start to increase your endurance thanks to the fast-paced music used in Zumba classes.

According to the aforementioned study, participants in a 12-week Zumba programme had lower heart rates and systolic blood pressure with more effort. The rise in endurance and these developments are related.

Cardiovascular fitness will improve.

The Journal of Sports Science and Medicine reports that individuals should exercise at between 64% and 94% of their HRmax, a measurement of

an athlete's maximum heart rate, if they want to enhance their cardiovascular fitness.

An athlete's maximal oxygen consumption range, measured as VO₂ max, is between 40% and 85%.

All Zumba participants, according to the same study, were within these HRmax and VO₂ max limits. They were working out at an average heart rate of 79% and VO₂ maximum of 66%.

Zumba is, therefore, a useful workout for boosting aerobic capacity, a marker of cardiovascular health.

Better blood pressure

Following a 12-week Zumba exercise programme, participants in the aforementioned study on a group of overweight women had substantial drops in blood pressure and gains in body weight.

Another research from 2015 indicated that participants' blood pressure decreased after just 17 Zumba lessons, under the title Benefits of Zumba Fitness among inactive people with components of the metabolic syndrome: a pilot study.

It may be modified for any level of fitness.

Everyone can work out at their own energy level with Zumba since it's scalable and you move independently to the beat of the music.

It's communal.

Zumba is a communal exercise, so once you enter a class, you will essentially be welcomed into a social setting.

The benefits of group exercise include exposure to a social and enjoyable setting, an accountability aspect, and a safe and effective workout that you can follow along with, according to The Register of Exercise Professionals of South Africa.

This is everything in place of a fitness schedule that you must create and stick to on your own.

Your pain threshold may rise as a result.

Aspire to be tough? Go for Zumba! According to a 2016 study, participants in a 12-week Zumba programme experienced less severe pain and less pain interference.

You can enhance your standard of living.

A successful Zumba programme offers social advantages of a group workout in addition to health advantages. These combined benefits can help people live better lives.

Who's up for some dancing now? Today, check out a Zumba class at your neighbourhood gym. -iol

CALL FOR PUBLIC PARTICIPATION

NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT FOR THE DEVELOPMENT OF A SERVICE STATION ON ERF 266 OTJIMBINGWE

Notice is hereby given to all potential interested and Affected Parties (I&APs) that an application is made to the Environmental Commissioner in terms of the Environmental Management Act (No.7 of 2007) and the Environmental Impact Assessment Regulations (GN 30 in GG 4879 of 6 February 2012) for the following:

Project Name: Otjimbingwe Service Station
Project Location: Erf 266, Otjimbingwe
Project Description: A service station with four dispensing pumps for petrol and diesel.
Date & Venue: 18 February 2023

In this respect, interested and affected parties (I&APs) are hereby invited to register and submit comments concerns or issues regarding this project to the Environmental Consultant, Mr Julius Antonius at j88antonius@gmail.com or at cell 0818778855 on or before 20 February 2023. All I&APs are also cordially invited to a public meeting to be held on site.

CALL FOR REGISTRATION AS INTERESTED AND AFFECTED PARTIES

ENVIRONMENTAL ASSESSMENT FOR THE PROPOSED MINERAL EXPLORATION ACTIVITIES IN RESPECT OF BASE AND RARE METALS, INDUSTRIAL MINERALS AND PRECIOUS METALS, ERONGO REGION

1. PROJECT SITE AND DESCRIPTION

Ms. Iina Nelago Amupolo intends to apply to obtain an Environmental Clearance Certificate for the proposed mineral exploration activities on EPL 8949 in the Erongo Region. The key component of the proposed activity entails geological mapping and survey and small-scale mining activities. Access to the sampling or survey sites will be by existing tracks and on foot where vehicle access is limited.

2. PUBLIC PARTICIPATION PROCESS

Enviro-Leap Consulting hereby invites all Interested and Affected Party (I & AP) to register and receive Environmental Assessment (BID, Scoping and EMP) documents relating to the proposed project for their comments and input.

3. COMMENTS AND QUERIES

Interested and Affected Parties are herewith request to register by writing to us at the address below no later than **20 FEBRUARY 2023**.

3. COMMENTS AND QUERIES

Please register and direct all comments, queries to:

O&L extends to Europe

TUJOROMAJO KASUTO
Staff Writer

Germany has been chosen to strengthen the Group's resilience and offerings as part of the Ohlthaver & List (O&L) Group's recent expansion plans, which include developments for its Namibian subsidiaries such as establishing a new Hanganu Seafood factory and rebuilding Mokuti Etosha Lodge.

The company was officially established in November 2022 and is led by Steffen Kammerer as Managing Director (MD), will house the O&L Group's European businesses and operations, primarily in Germany.

O&L Europe will include the already established O&L Nexentury (in energy development), O&L Immobilien (property development and investment), O&LSustainable Finance (finance and investment), and in the hospitality industry

Kammerer said their European business model provides cradle-to-grave renewable energy infrastructure, real estate and hospitality asset development services and strategic capital to address Germany's and expand to Europe's most pressing energy and sustainability challenges.

Adding that sustainability is the strategic key which will address the market's energy and environmental issues and unlock success.

"This is a truly historical opportunity for the O&L Group to leverage the enormous growth potential of the German market and to set the stage for future expansion. O&L with its century-long history stands like no other company for continuity and sustainability, which will provide positive leverage to expand our new European businesses," he said.

According to Sven Thieme, O&L Group Executive Chairman, an investment of this nature grants the Group greater resilience to external shocks and contributes to a more stable environment wherein their existing businesses can thrive.

"It is extremely exciting to enter the new year with the possibilities of O&L

Europe on the horizon. Establishing relationships, growing our capabilities and expanding our footprint beyond our borders creates greater opportunities, not only for our Group, but for our people and the country, and I am eager to see these opportunities advance," he said.

Besides this, originally one of a trio of O&L Nexentury MDs, Kammerer will continue to serve as MD on the O&L Nexentury board. Of the other two O&L Nexentury MDs, Bernd Walbaum will be responsible for leading Nexentury Africa which has operations in Namibia, South Africa and Ivory Coast; and Rollie Armstrong will be leading Nexentury Europe, with Germany as its market.

Steffen Kammerer

Interest rate hike places pressure on SA's most credit stressed

Alarm bells have been sounded for South Africa's most credit-stressed consumers, following this week's interest rate hike by the South African Reserve Bank (SARB).

This is according to Eighty20, a consumer strategy, analytics and research company that releases a quarterly Credit Stress Report in collaboration with Xpert Decision Systems (XDS) that provides insight into South African credit behaviour. Alarm bells have been sounded for South Africa's most credit-stressed consumers, following this week's interest rate hike by the South African Reserve Bank (SARB).

This is according to Eighty20, a consumer strategy, analytics and research company that releases a quarterly Credit Stress Report in collaboration with Xpert Decision Systems (XDS) that provides insight into South African credit behaviour.

Eighty20's ENS segmentation groups all South African adults into one of eight segments and 46 sub-segments.

The Q3 report outlined some worrying trends in the four most credit active segments which make up 85% of all credit active South Africans and 99.6% of all loan value.

In particular the middle-class workers, a segment of 4.1 million adults typically earning between R8 000 and R30 000 per month, are feeling the most financial strain.

Almost 75% of this segment is credit active, 30% of which have home loans and one-third of car loans in South Africa, this market segment will feel the pinch with even the smallest hike.

The latest rate hike of 25 basis points brings the prime lending rate to 10.75%, the highest it has been since 2009.

Lesetja Kganyago

For someone who took advantage of the lowest interest rates in a generation during 2021 and purchased a R1.5m home will have seen their monthly instalments increase by nearly R3 400 in little over a year.

It is unlikely that their salary would have grown a similar 28% over the same period.

This is the reality facing 2.2 million people with a home loan in South Africa.

What has been most challenging for consumers is how quickly the prime rate has risen, increasing by 3.5 percentage points in the past 14 months.

For someone who took advantage of the lowest interest rates in a generation during 2021 and purchased a R1.5m home will have seen their monthly instalments increase by nearly R3 400 in little over a year.

It is unlikely that their salary would have grown a similar 28% over the same period.

This is the reality facing 2.2 million people with a home loan in South Africa.

If, as is likely to be the case, this household also has a car loan, those monthly payments will also be increasing, along with the fuel price.

And while inflation appears to be down from the last quarter of 2022, it is still above SARB's target ceiling of 6%.

With children back to school this month, uniforms, books and school fees will be consuming what is left of most people's discretionary income.

The total value of home loans moving into default in Q3 2022 for the middle-class workers increased by nearly 20% quarter on quarter.

South Africa's most wealthy and credit active segment, the heavy hitters, is also starting to feel the pinch with a 10% increase in home loan balances moving into default in Q3.

This is only expected to get worse.

Below is a snapshot of the proportional expenditure categorically segmented based on variable household income, with financial pressure on the middle-class placing pressure on disposable income:

Middle-class workers

The average instalment to income ratio has increased nearly 9% over the last year to 66% which means that two-thirds of the average middle-class salary goes to servicing debt.

The middle class worker is a strongly aspirational segment holding 25% of all VAF loans.

Owning property is not always achievable for these customers so instead they may opt to own a vehicle.

The 630 000 who have VAF (down by 60 000 from a year ago) are in particular distress, with the proportion of current

VAF balances going into default this quarter up by 21% while average instalments increased by 11% year-on-year (R535).

For the middle-class workers who do have a mortgage, their average bond instalments are up 15% (R452) on last year and balances newly in default is up a frightening 19%.

Heavy hitters

This is the wealthiest 5% of the population, with more assets than any other segment. Their current debt load is more than three times that of the middle-class workers segment.

They have the largest span of incomes of any segment and as a result need to be divided into seven sub-segments with an average monthly income ranging from R30 000 to over R120 000.

Heavy hitters hold 52% of home loans and 54% of car loans.

Many heavy hitters bought assets on credit while interest rates were low.

Interest rate hikes together with high inflation is starting to put real financial pressure on the lower income sub-segments of this segment, who have experienced an 18% increase in home loan balances going into default over the quarter. -BUSINESS REPORT

CALL FOR PUBLIC PARTICIPATION

ENVIRONMENTAL IMPACT ASSESSMENT FOR PROPOSED SMALL SCALE MINING ON MINING CLAIMS (MCs: 74090 TO 74098, ERONGO REGION)

This notice serves to inform interested and affected parties that an application for the environmental clearance certificate will be launched with the environmental commissioner in terms of the Environmental Impact Assessment Management Act (No.7 of 2007) and Environmental Regulations (GN 30 of 6 February 2012) for the proposed activity:

Project: Proposed small scale mining activities on Mining Claims 74090 to 74098.
Location: The project is located in Erongo Region, approximately 43 km SW of Uis settlement, Dãures constituency, Erongo region, via C35 and D2342 from Uis.
Proponent: Ringmen Investment (Pty) Ltd
Project description: The proponent intends to mine the following commodities on small scale: Base & Rare metals, Dimension stone, Industrial Minerals and Semi-precious stones.

In accordance with Namibia's Environmental Management Act (No. 7 of 2007) and Environmental Regulations (GN 30 of 6 February 2012), all interested and affected parties (I&APs) are invited to register and submit comments, concerns and questions in writing to the emails given below on or before **10/02/2023**. Public meeting date to communicated to all registered interested and affected parties.

Dear Interested and Affected Party,

This communication serves to inform your office that Ringmen Investments (Pty) Ltd is of the intention to apply for an Environmental Clearance Certificate for the proposed mineral prospecting & exploration and consequently small scale mining on Mining Claims (MCs: 74090-74098), Tsiseb Conservancy, Dâures Constituency, Erongo Region. In accordance with Namibia's Environmental Management Act (No. 7 of 2007) and EIA regulations (GN 30 of 6 February 2012), you/r office as a potentially Interested and/or Affected Party (I&AP), is hereby informed of the Proponent's intention to apply for an Environmental Clearance Certificate and is invited to register as an I&AP and to provide comments and/or feedback, should there be any.

Find attached, The Background Information Document (BID), providing information relevant to the proposed development, short overview of the receiving environment, and an invitation to submit comments/questions/concerns is available from our office.

Comments and questions should be submitted **in writing** to Minera-Xplore Consultancy CC by way of:

- E-mail your comments/concerns or input to Minera-Xplore Consultancy CC (info@minera-xplore.com / frontdesk@minera-xplore.com) or

-Post your comments/concerns or input to Minera-Xplore Consultancy CC (PO Box 31671, Windhoek).

DEADLINE FOR REGISTRATION AND SUBMISSION OF COMMENTS AS PART OF PUBLIC CONSULTATION IS 24 March 2023

All registered I&AP will be kept informed throughout the process.

Should there be any questions, please contact us?

Kind regards

N. Ndakunda
