2 MINUTES OF THE PUBLIC MEETING: PUBLIC PARTICIPATION PROCESS FOR THE EXPLORATION OF MINERALS EPL 4722.

**INTERESTED AND AFFECTED PARTIES (IAPs) ENGAGEMENT MEETING
ENVIRONMENTAL ASSESSMENT (EA) OF THE PROPOSED MINERAL EXPLORATION IN THE EPL
4722 & 8255, KARAS REGION, NAMIBIA**

Date: 21/01/2021 **Time:** 10h15 – 11h15

Venue: German Hall, Angra Pequena Senior Secondary School, Luderitz, Karas Region

Presenter: Hafeni Hiveluah (HH) -Project / Technical Coordinator

Agenda

1. Welcome (HH) & Project overview
3. Presentation
4. IP & AP comments and questions from audience
5. Next steps
6. Closing remarks

Present/ Attendees: refer to attendance register

Apologies: None

1. Welcome

HH welcomed everybody present and briefed on the agenda of the meeting. In the welcoming remarks he re-emphasised that the main objective of the meeting is to solicit comments and feedback from I&APS and also to make sure that regulatory requirements are met. On that note emphasis is on communication to create and maintain a mutually supportive environment.

HH reviewed the past year and addressed certain challenges, issues and successes.

A signed cooperation commitment between Pantarei Divinitus Commodity Trading Enterprises (PTY) Ltd and The Namibia Wild Horses Foundation was shared and touched upon during the meeting. A commitment letter will be an appendix in the final EIA report. This cooperation speaks to The Ministry of Environment and Tourism (MET) five-year management plan for wild horses

2. Presentation

HH then gave a MS POWER POINT presentation titled;

*EIA PROCESS: IP & AP STAKEHOLDERS MEETING
CONCESSIONS: EPL 8255 & 4722
Luderitz, Karas Region, 21st January 2021*

This presentation will be an appendix to the final EIA document. It was highlighted that most of the anticipated activities are non-intrusive. The geophysical component will incorporate the use of the ALDIAN handheld device that uses electromagnetic frequency to detect gemstones. It works by a long-range system to detect diamonds and underground gemstones, this system is reasonably accurate. The machine leaves no imprint on the environment except the operators' footprints.

4. I & AP comments and questions from audience

- Mr Wayne Handley (WH) who represented the Directorate of the National Parks (METF) highlighted the fact that the two EPLs overlap with the three national parks within the area, namely the Karas Park, Tsau //Khaeb (Sperrgebiet) and The Naukluft Park. WH therefore requested this point to be highlighted (and all parks to be indicated on all maps) in the final EIA report to be submitted to METF.
- WH directed the EIA process of the project to follow and comply with the recommendations and rules of the following documents and/ regulations/ white papers of the Ministry of Environment and Tourism, Directorate of Wildlife and National Parks
 - National Policy on Prospecting and Mining in Protected Areas
https://www.met.gov.na/files/downloads/c71_MET_Policy%20on%20Mining_4.pdf
 - Management Plan - TSAU--KHAEB (Sperrgebiet) National Park
[https://www.met.gov.na/files/files/Management%20Plan%20-%20TSAU_KHAEB%20\(Sperrgebiet\)%20National%20Park.pdf](https://www.met.gov.na/files/files/Management%20Plan%20-%20TSAU_KHAEB%20(Sperrgebiet)%20National%20Park.pdf)
 - https://namibiaturism.com.na/uploads/file_uploads/Tsau%20Khaeb%20National%20Park.pdf
- WH indicated the need to directly consult the Keetmanshoop MET regional office when it comes to permit issues

5. Next steps

- All relevant documents and materials will be forwarded to all attendees of the 21st January 2021 meeting.
- Finalisation and submission of final EIA report to MET in middle of February 2021. Appointed champion is Mr. Shawana

6. Closing remarks

Five threats to digital rights in Africa in 2020

Debt to personal data

A year when people were forced online for school and socialising exposed Africans to increased cyber attacks and privacy issues.

KIM HARRISBERG AND NITA BHALLA

From internet blackouts to contact tracing apps, digital rights across Africa were spotlighted in 2020 as millions of people were forced online to work, study and socialise amid lockdowns to stem the spread of the novel coronavirus. Rights advocates and research groups raised concerns that measures enacted to curb the spread of the virus allowed governments and hackers to start clamping down on other rights, too. Since 2010, internet access has improved in nearly all 54 African countries, according to the Mo Ibrahim Foundation 2020 report on African governance. But with increased access comes greater risk. These were five of Africa's biggest digital rights threats in 2020.

BLACKOUTS, CRACKDOWNS

Digital rights groups have warned that Africa is seeing a rise in government censorship of both citizen-created and political content on the internet, alongside shrinking protections for internet users' privacy and data.

Clampdowns on digital rights were seen by governance researchers as more severe than any other rights violations, according to researchers at the Mo Ibrahim Foundation.

One example was Ethiopia, where the government shut down the internet in June, July and November in the face of political dissent and protests.

The move prompted the United Nations to urge Ethiopian authorities in July to restore internet access "without further delay".

Shutting down the internet "disproportionately restricts the enjoyment of the right to freedom of expression, including freedom to seek, receive and impart information," read the UN statement.

In 20 countries, citizens are also facing more domestic internet and social media shutdowns than they were five years ago, with digital rights deteriorating the most in Mauritania, Benin and Cameroon, according to the Mo Ibrahim Foundation.

MOBILE LOANS AND DEBT

Several African mobile operators, such as MTN Group, Safaricom and Econet have launched mobile credit in key markets, including Kenya, Zimbabwe, and Rwanda.

These digital loan services - conveniently accessed on mobile phones - are bridging the gap for Africans who do not have bank accounts or steady enough incomes to borrow from formal financial institutions.

Over 6 million Kenyans have taken out at least one digital loan for everyday necessities since 2014, according

to research published in November 2019 by the Kenya Financial Sector Deepening programme, a trust that supports the development of financial markets in the country.

This number is expected to increase as the financial setbacks of Covid-19 continue to be felt, according to GeoPoll, a global research company.

A GeoPoll survey from July 2020 showed that of the 2,900 interviewees in Kenya, Nigeria, Côte d'Ivoire, Mozambique, and South Africa, nearly half took out a loan to cover costs linked to coronavirus.

But while these services can boost financial inclusion for the poor, they do not protect users from the industry's lack of transparency and high late repayment fees.

Financial inclusion advocates say those factors have pushed millions into debt and caused people in some countries to be blacklisted for further credit.

CYBER ATTACKS

As more Africans gain internet access, low levels of online security means growing numbers of internet users are falling victim to digital scams and cyber attacks.

South Africa, Kenya and Nigeria experienced millions of cyber attacks during 2020, according to a report by Kaspersky, a global cyber security firm.

By early August, these countries had seen 28 million malware attacks and 102 million detections of Potentially Unwanted Applications (PUAs) such as adware - software that displays unsolicited paid offers - or harmful application downloads.

These types of cyber attacks put internet users at risk of surveillance or data loss, according to Kaspersky.

DIGITAL DIVIDE

When schools closed to curb the spread of the coronavirus, 67 million children in East and Southern Africa - nearly half of those regions' students - were unable to access remote learning programmes, according to a report by the United Nations children's agency UNICEF.

While governments and charities innovated to try to help those who struggled to continue their studies online, rights groups warned that lack of internet and electricity could worsen existing inequalities for students.

Child rights organisations said this would have a devastating impact on children in Africa - particularly girls, who have become increasingly vulnerable to sexual violence and child marriage during lockdowns.

SURVEILLANCE

Like other countries all over the world, several African nations rolled out contact tracing applications with the aim of tracking and inhibiting the spread of Covid-19, including Tunisia, Morocco, Ghana, Botswana and South Africa.

Privacy advocates flagged concerns around the use of location tracking services that they warned could be used by the government for future surveillance on citizens' movements

Since 2010, internet access has improved in nearly all 54 African countries, according to the Mo Ibrahim Foundation 2020 report on African governance. PHOTO: NAAMEN/REUTERS

allowing users to see if they have come into contact with someone who has tested positive for Covid-19.

While the application is anonymous, digital rights researchers say there are questions around the security of users' personal data and that greater transparency is needed to protect individuals' digital freedoms now and in the future.

PUBLIC NOTICE:

TERMINI PROSPECT INVESTMENT (PVT) LTD. IS A PUBLIC NOTICE TO THE PROSPECTORS GENERAL, KAMPALA REGION, UGANDA.

Under the Environmental Management Act No. 1 of 2002 and its 2012 (AM) regulations, the proposed investment project is a listed activity that requires an Environmental Clearance Certificate (ECC) from the Department of Environment Affairs (DEA) before any activities are commenced.

The public is hereby notified that an application of an Environmental Clearance Certificate (ECC) will be submitted to the Environmental Commission.

Brief description of the project: Processing of industrial materials and product storage in the proposed 05, 025/121 040/040 hectare along the B4 road between Lubero and Adu.

Location of the project: The area covered by the proposed mineral exploration project is situated along the B4 road east of Lubero and Adu in Karamoja Region, Uganda approximately 0.2 km east of Lubero and 43.8 km west of Adu.

Project: Termini Prospect Investment (Pvt) Ltd

Environmental Consultant: Termini Prospect Investment (Pvt) Ltd, an independent environmental consultant, has been selected to conduct the EA process and submit the ECC application to the Environmental Commission on behalf of the project proponent. Members of the public are further invited to register as interested and affected Parties (IAPs) in order to communicate concerns or raise additional information about the EA process. Registerable requests and comments should be forwarded to Termini Prospect Investment (Pvt) Ltd contact details below.

Furthermore, IAPs are invited to the following meeting:
Date: Thursday 27th January 2021
Time: 10:00 AM
Venue: Lubero (Kindly contact us for the venue details)
Contact person: Mutiga Chawuka
Cell: +254 716 811 3573
Email: terminiprospect@gmail.com

PUBLIC NOTICE:

ENVIRONMENTAL ASSESSMENT (EA) OF THE PLANNED MINERAL EXPLORATION IN THE PROPOSED EPL 8255, KARAS REGION, NAMIBIA

Under the Environmental Management Act No. 7 of 2007 and its 2012 EIA regulations, the proposed exploration project is a listed activity that requires an Environmental Clearance Certificate (ECC) from the Department Of Environmental Affairs (DEA) before any activities are commenced.

The public is hereby kindly notified that an application of an Environmental Clearance Certificate (ECC) will be submitted to the Environmental Commissioner.

Brief description of the project: Prospecting of industrial minerals and precious stones in the proposed EPL 8255 (20 918,048 hectares) along the B4 road between Luderitz and Aus.

Location of the project: The area assigned for the proposed mineral exploration project is positioned along the B4 tarred road between Luderitz and Aus in Karas Region, Namibia, approximately 41.2 km east of Luderitz and 43.6 km west of Aus.

Proponent: Pantarel Divinitus Commodity Trading Enterprises (Pvt) Ltd

Environmental Consultant: Terrain Prospect Investment CC, an independent environmental consultant, has been selected to conduct the EIA process and submit the ECC application to the Environmental Commissioner on behalf of the proponent. Members of the public are further invited to register as Interested and Affected Parties (ISAPs), in order to comment/raise concerns or receive additional information about the EIA process. Registration requests and comments should be forwarded to Terrain Prospect Investment CC contact details below.

Furthermore, ISAPs are invited to the following meeting:
Date: Thursday, 21st January 2021
Time: 10h00 AM
Venue: Luderitz (Kindly contact us for the venue details)

PUBLIC NOTIFICATION

environmental Impact Assessment (EIA) for the proposed Mutjimangumwe Woodworks Cooperative in Mpungu settlement, Nkulivere Landscape, Kavango West Region.

Notice is hereby given to all Interested and Affected Parties (I&APs), that an application for an Environmental Clearance Certificate will be submitted to the Environmental Commissioner for the following activities.

Project title: Construction and operation of Mutjimangumwe Woodwork Cooperative
Project location: Mpungu settlement, Kavango West Region
Proponent: Mutjimangumwe Woodwork Cooperative (MWC)

Description: The Ministry of Environment, Forestry and Tourism (MEFT) in partnership with the United Nations Development Programme (UNDP) is implementing the Namibia Integrated Landscape Approach for Enhancing Livelihoods and Environmental Governance (NILALEG) Project to eradicate poverty with funding from the Global Environment Facility (GEF). In line with its Component 2, the NILALEG Project is supporting the proposed Mutjimangumwe Woodworks Cooperative (MWC) in Mpungu settlement, Nkulivere landscape Kavango West Region.

The MWC is aimed at promoting technical skills and knowledge in woodworks i.e., cabinet making wood carving, joinery, carpentry, and wood turning. In terms of the Environmental Management Act No.7 of 2007 and its Regulations of February 2012, the proposed project activities cannot be carried out without an EIA being undertaken.

All I&APs are hereby invited to register, request for the Background Information Document (BID), attend the public meeting and submit comments/inputs to cia@greengain.com.na The last day to submit input is **07 October 2022**.

The public meeting is scheduled as follow

Venue: Mpungu Constituency Office
Date: Saturday, 01 October 2022
Time: 10:30

NAMIBIA WILD HORSES FOUNDATION

(Not-for-profit Association incorporated under Section 21)

**To the
Ministry of Environment, Forestry and Tourism**
Windhoek
Namibia

Aus, the 18. January 2021

**Re:
Acknowledgement of envisaged Cooperation between
Pantarei Divinitus Commodity Trading Enterprises (Pty) Ltd. and the
Namibia Wild Horses Foundation**

This letter serves to inform the MEFT that a meeting between Pantarei Divinitus Commodity Trading Enterprises (Pty) Ltd. (thereafter called PDCTE) and 2 directors of the Namibia Wild Horses Foundation (NWHF) took place on the 17th of January 2021.

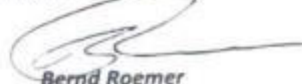

Based on a proposal document presented to MEFT and MME in 2020, Pantarei communicated its interest of collaboration to the benefit of the wild horses at Garub.
The proposal document was acknowledged and stamped by MEFT on the 7th of September 2020 and such document was presented to the Namibia Wild Horses Foundation during the meeting.

PDCTE indicated its interest in providing financial support to the maintenance of the wild horse population, to research, monitoring and special projects with regard to ensuring the long-term survival of said horse population. PDCTE's goal is to help foster conservation and protection of the population.

While no detail working relationship and course of action have been established as yet, both parties indicated their interest in collaboration and are looking forward to a fruitful cooperation.

The NWHF thanks PDCTE for its willingness to contribute to the conservation of the Wild Horses.
