Hi, Jeanette

In regards to the proposed sand mining activity in the Swakopmund River the following is our concerns:

- What is the impacts of this activity on the Swakopmund Coastline
- What is the social responsibility of Sand Mining Association for the local Swakopmund community
- There is an area where the sand miners store the sand which is close to a pumpstation, it is further way from their mining site. Is this also included in the EIA?

Please forward a copy of the EMP and ECC once obtained to the Swakopmund Council. We hope to hear from you.

Kind Regards
