Company Overview

In 1989 I brought a farm near Grootfontein. Since then I am farming with cattle. In 1993 I brought a truck to transport my cattle to the local auction as well as to Meatco. In that time I saw an opportunity to start a transport business. In 2005 I brought a farm 15km from Grootfontein where I was growing maize and sorghums for the feedlot. Now I have seen another opportunity - Sand which can be used for brick making and building houses.
