# CONSENT USE NOTICE

I, Cecilia Shyral Beukes, the registered owner of Erf 10, Nautilus, Luderitz, herewith inform you that I intend to apply to the Lüderitz Town Council for the following:

CONSENT TO OPERATE TWO (2) SELF-CATERING UNITS ON ERF. 10, NAUTILUS, LUDERITZ, IN TERMS OF THE LÜDERITZ

ZONING SCHEME. Erf 10, Nautilus, is located along strial Road

729m2. Currently it is occupied by a 4-bedroom house, with a granny flat at the back. However, it is my intention to add

self-catering units for commercial use. This will be rented out to tourists as temporary accommodation and will not be used as permanent residence. The units will have ensuite bathrooms, and a kitchenette as no food or liquor will be sold on site to visitors. All parking requirements of the Luderitz Zoning Scheme will

be adhered to. Should you have any objections or comments against the proposed use of Erf 10, Nautilus, please submit

these in writing to me and to Town Council (details below) not later than 15 May 2023.

### **PUBLIC CONSULTATION MEETING MINUTES:**

ENVIRONMENTAL SCOPING ASSESSMENT (ESA) FOR THE PROPOSED PROSPECTING & EXPLORATION ACTIVITIES ON EXCLUSIVE PROSPECTING LICENCES (EPLS) No. 7709 LOCATED NEAR USAKOS, ERONGO REGION.

Date: Friday, 19 May 2023

**Time:** 09h00 - 10h16

**Venue:** Stinkbank Main Opstal (under the tree)

The public consultation meeting was attended by 16 people, (mainly farmers that are directly affected), including an Environmental Assessment Practitioner (EAP), Mr Titus Shuuya and Archaeologist, Mr Roland Mushi (Archaelogist) from Excel Dynamic Solutions (Pty) Ltd (EDS). - Please refer to the attached attendance register.

### 1. INTRODUCTION AND WELCOMING REMARKS

The EAP opened the meeting and welcome the community and introduced EDS and its representative, brief project description, purpose of the public consultation meeting, including specifically why Interest and Affected Parties (I&APs) consultation for the proposed prospecting and exploration activities on EPLs 7709. The meeting attendance register was circulated for the attendees to write down their names, and contact details so that they can be added to the list of I&APs and receive further information on the ESA process. In order to ensure appropriate communication with the I&APs, Mr Izaak Isaaks, owner of Stinkbank North Pos 62 volunteered to translate from English to Afrikaans, because most of the attendees understood Afrikaans much better.

## 2. MEETING AGENDA AND PRESENTATION

The agenda of the meeting included the following main points:

# 2.1 Brief Description of the Project

Physical Address: 112, Robert Mugabe Avenue, Windhoek
Postal Address: P.O Box 997154 Maerua Mall, Windhoek

Email: info@edsnamibia.com Web: www.edsnamibia.com

The Environmental assessment process, the Proponent (Mr Elia Erastus) and appointment of the Environmental Consultant (EDS) – a Namibian independent Environmental Consultant to carry out the ESA and apply for the Environmental Clearance Certificate (ECC) – upon approval by the Competent authority.

# 2.2 Explanation of what an ESA is, its Process, and the Public Role in the Process

EAP briefly explained the EPL 7709 additional information, location, extent and the list of I&APs. The EAP further explained to the attendees the purpose of the meeting and why they were invited (about the Environmental Management Act No. 7 of 2007 and its 2012 Environmental Impact Assessment (EIA) Regulations on Public Consultation). The EAP further explained the ESA and EMP – and how the proposed prospecting and exploration activities are one of the listed activities in the 2012 EIA Regulations of the Environmental Management Act No.7 of 2007 that cannot be undertaken without an ECC.

## 2.3 Presentation of Potential Project Impacts

The EAP explained the pre-identified potential positive & negative environmental and social impacts – including their mitigation measures.

# 2.4 Open Discussion (Interactive Session)

The EAP allowed the meeting attendees to raise their concerns/issues and/or comments on the proposed project activities. The concerns/issues and comments recorded are presented in **Table 1**.

Table 1: Comments/comment and issues raised during the public consultation meeting, on 19th of May 2023

Comment/	Landowner ID: issue/comment/question	Response and name of responder
issue No.		
1.	Farmer 1: When you start mining, for example you will be using dynamite, will the government move us from here? If yes, to which area and what about our grazing? The livestock will not move easily.	<b>EAP:</b> Thank you for the question. I would like to make it clear that there is a difference between mining and exploration. The current proposed project phase is for prospecting and exploration. In simple terms, the current proposed project is basically applying for permission to look or see or find out if the targeted commodities does occur within the EPL. It is unlikely that mining will occur, however, if it occur there shall be a mutual agreement between the proponent and landowners with the terms and conditions attached, including relocation if required. Mining stage will also require a detailed Environmental Impact Assessment (EIA) and Environmental Management Plan (EMP) including specialist studies in order to support the application for the mining license. Disturbance of the grazing land or livestock and relocation shall be addressed in the EIA and EMP documents.
2.	Famer 2: During this operation, will there be boreholes drilled or what? How long will prospecting and exploration activity takes?	<b>EAP:</b> Prospecting and exploration is divided into two (2) phases: phase 1 – is a non-invasive techniques which involves desktop study such as a review of geological maps and historical drilling, field observation to locate the suitable host rock outcrops etc. If phase 1 is successful, then the proposed project will proceed to phase 2, which is an invasive technique. Phase 2 involve drilling the targeted areas to define and evaluated the available resources – thus drilling will only occur during phase 2. The

Comment/	Landowner ID: issue/comment/question	Response and name of responder
issue No.		
		duration of the current prospecting and exploration activities is three (3) years,
		however, this might be extended for another two (2) or longer depending on the
		findings and availability of resources.
3.	Farmer 3: The ECC, is it only for the area or	<b>EAP:</b> The ECC is a legal certificate which is only issued to a specific project and it
	can anyone come with an ECC somewhere	has reference, for example a certificate number that is issued by the Government,
	else and show us that they came to explore	project title, location and terms and conditions. It is advisable that you as a farmer
	minerals? If we have signed an agreement	should keep a copy of the written agreement that you sign which can be shared with
	with the proponent, how will our children know	the community for future reference.
	that we have signed such agreement?	
4.	Farmer 4: If there are illegal mining who are	<b>EAP:</b> Illegal mining is not allowed. The small miner should obtain legal documents to
	collecting stones such as tourmaline within	extract such minerals. In such as situation, the proponent shall have a mutual
	the EPL, will the proponent chase out such a	agreement with small miners to extract the commodities of their interest.
	person?	
5.	Archaeologist: I know we were here last	Famer 3: Yes, by the mountain behind the railway and we can show you.
	time, but I would like to know if there are any	
	heritage site or paintings?	
6.	Famer 1: What will happen if the proponent is	<b>EAP:</b> It is unfortunate that the proponent is not available to answer the question. The
	bankrupt or does not have enough money	proponent is open to engage with the I&APs, local and international investors who
	anymore to invest? Will he sell the land to	are willing to invest in the project – and farmers are welcome to engage with the
	foreigners?	proponent.

Comment/ issue No.	Landowner ID: issue/comment/question	Response and name of responder
7.	Farmer 2: We have drawn up already what is the impact of mining it is and what we want but it is not yet signed, we are waiting for the Chief to sign the document and share it with you.	EAP: Noted, we are looking forward to receive the signed document.

### FINAL REMARKS AND CONCLUSION OF THE MEETING

The EDS Team thanked the attendees for their crucial input through comments and raising their concerns. They indicated to the attendees that all their comments, concerns, and inputs had been noted down for consideration and addressed in the Environmental Scoping Assessment (ESA) Report and draft EMP and further requested permission to access the farms.

Furthermore, the EAP informed the attendees that the draft meeting minutes, Environmental Assessment Report, and Environmental Management Plan (EMP) will be shared with them for review and further comments. These documents will be made available through emails provided on the attendance register.

Once the review of the draft ESA Report and EMP is done, the documents will be finalized and submitted to the Environmental Commissioner at the Department of Environmental Affairs and Forestry (DEAF) for evaluation and consideration of an ECC.

The meeting adjourned at 10h16.
