2.4. SUPPORTING INFRASTRUCTURE

2.4.1 Basecamp

During the field assessment, it was discovered within the EPL (at a small settlement namely Kantikoppes) area is located a Youth Hostel facility / Centre (see **Figure 4**) with adequate supporting infrastructure that could be used as base-camp, thus helping to boost the local. The Facility is connected to national Power grid and local water supplied from several solar and wind-powered boreholes.

An administration, accommodation and maintenance camp shall be identified in consultation with the farms/land owners and setup within the EPL area, and will be cordoned off and off-limits to those not part of the exploration team. The camp is anticipated to host between 5
