## **Executive Summary**

This environmental management (EMP) plan is updated for the application of the RENEWAL of the an Environmental Clearance Certificate , Environmental Management Plan (EMP) for **ECC 00669, Serial: S8af1x669** that issued on June 2022 for the construction and operation of a liquefied petroleum gas depot'. Since the issuance of the ECC in 2020, no activities were undertaken on site.

## **1. Overview**

This environmental management (EMP) plan is updated for the application of the RENEWAL of the an Environmental Clearance Certificate for ECC 00669, Serial: S8aflx669 that issued to Horizon Fuel and Logistics on June 2022 for the construction and operation of a liquefied petroleum gas depot’.

### **1.1. Purpose of the EMP**

This Environmental Management Plan (EMP) is a risk strategy that contains logical frameworks, monitoring programmes, mitigation measures and management control strategies to minimize environmental impacts. It further stipulates the roles and responsibility of persons involved in the project. These strategies are developed to reduce the levels of impacts of the project.

### **1.2. Compliance to the EMP**

This EMP is a legally binding document as given under the provisions of the Environmental Management Act, 2007 (Act No. 7 of 2007). Horizon Fuel and Logistics and its contractors must adhere to the framework of this document

### **1.3. Roles and Responsibility**

#### **1.3.1. Proponent**

The proponent, Horizon Fuel and Logistics shall take overall responsibility for proper implementation of the EMP. It remains the responsibility of the proponent to appoint key personnel for the implementation of the EMP such e.g. Site Manager and ensure that all employees and contractors are conversant with the EMP.

### 1.3.2. Site Manager

The Site Manager (SM) represents the proponent on site. He/she shall be responsible for daily activities in ensuring environmental protection. All communication with regard to the implementation of EMP must be channelled through the SM.

### 1.3.3. Employees

It shall be responsibility of employees to adhere to the provision of the EMP at all times when on site.

### 1.3.4. Environmental Compliance Officer

Compliance to EMP is enforced by the environmental inspector as provided for under Environmental Management Act (No. 7 of 2007) (EMA)

## **2. Disciplinary Action**

This EMP is a legally binding document, non-compliance to the EMP is punishable in accordance to the provisions of EMA

### 3. Project Description

#### 3.1. Location

The project is located on a 70 hectares' piece of land at Portion 3 of Katima Mulilo townland in Zambezi region.
