25 April 2023

To: Potential Interested and/or Affected Parties

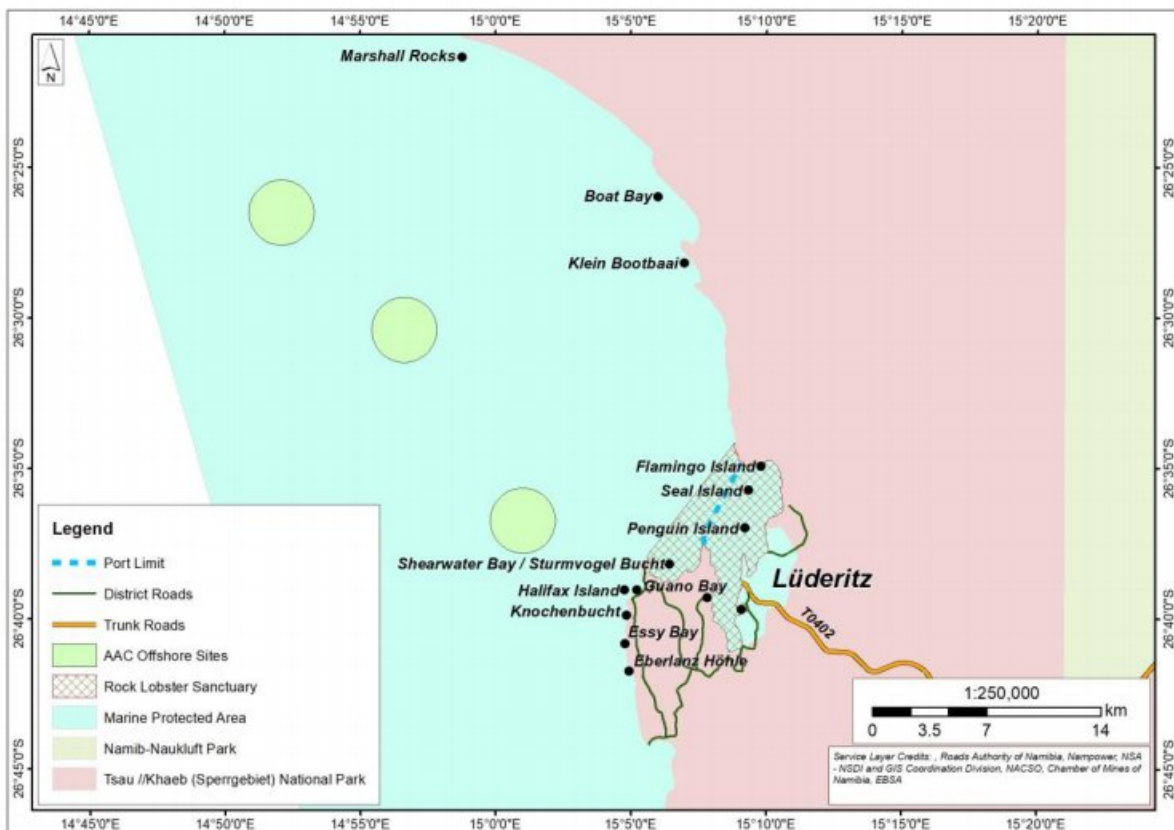

**Notice of an Environmental Assessment Process**

Dear Sir/Madam,

Notice is hereby given to all potentially Interested and/or Affected Parties (I&APs) that an application for an Environmental Clearance Certificate has been submitted to the Executive Director, Ministry of Fisheries and Marine Resources, and the Environmental Commissioner, Ministry of Environment, Forestry and Tourism in terms of the Environmental Management Act 7 of 2007 and the Environmental Impact Assessment Regulations (06 February 2012) for the following:

Proponent: African Aquaculture Company (Pty) Ltd (AAC)

Project Name, Location and Description: Environmental Assessment for the Proposed Farming of Atlantic Salmon *Salmo salar*, Lüderitz, //Karas Region, Namibia.

Source: Miss Maïke Prickett, 21 April 2023

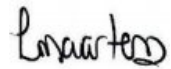

Environmental Assessment Practitioner: Dr Lima Maartens

In order to comment, raise concerns, and to receive further information relating to the Project, I&APs must please register; registration (name, contact details, and interest in the Project) and any comments and/or concerns must be submitted in writing to **LM Environmental Consulting** by no later than 26 May 2023.

P.O. Box 1284  
Windhoek  
Tel: +264 61 255750  
Fax2Email: 088 61 9004  
E-mail: lmehpp@gmail.com

Please feel free to distribute this Notice to anyone you feel may be Interested and/or Affected.

Yours sincerely,

Dr. L. Maartens

Subject: Aw: Draft Environmental Assessment Report for Review

Good afternoon Dr. Maartens,  
thanks for the interesting read.

Only one question for me, I am sure it is easy to answer.  
Is the applicant ultimately intending to utilize all 3 applied for farming areas to farm 50.000 tons/a, if yes can that be motivated / reasoned?

Thanks and all the best,  
johannes aldrian  
BBAqua Pty

Subject: RE: Draft Environmental Assessment Report for Review

Dear Johannes

Yes, as far as I know, and depending on the success of the pilot. Fish grading and fallowing (if and when required)?

Regards  
Lima

**Sent:** Tuesday, July 4, 2023 3:22 PM  
**To:** [imecPPP@gmail.com](mailto:imecPPP@gmail.com)  
**Subject:** RE: Draft Environmental Assessment Report for Review

Hi Lima

We are busy evaluating the AAC-I pilot area and I would like to get clarity on the following aspects from the report.

Measurements provided in the document

Pg 30, first paragraph:

“... the mooring footprint of the four (4) 90 m cages at site AAC-I will be approx. 0.49 km (at depth 50 m) .....

- Above should be “will be approx. 0.49 km<sup>2</sup>”
- Please confirm.

This will also be the max footprint for the pilot phase, correct?

#### Drawing

- Is it possible to get a high resolution drawing of Fig 9 (b)?
- I want to read the dimensions provided on this drawing.

AAC-I size as 16 km<sup>2</sup> (4 x 4 km)

With the pilot phase footprint of 0.49 km<sup>2</sup>, what will be the max area that needs to be kept clear as a buffer for navigation, diamond sampling and mining vessels?

Best regards  
Hans Hückstedt

Project Manager / Geologist  
Jean Boule Diamond Mines

**Subject:** FW: Re Draft Environmental Assessment Report for Review - Questions

Hi Hans

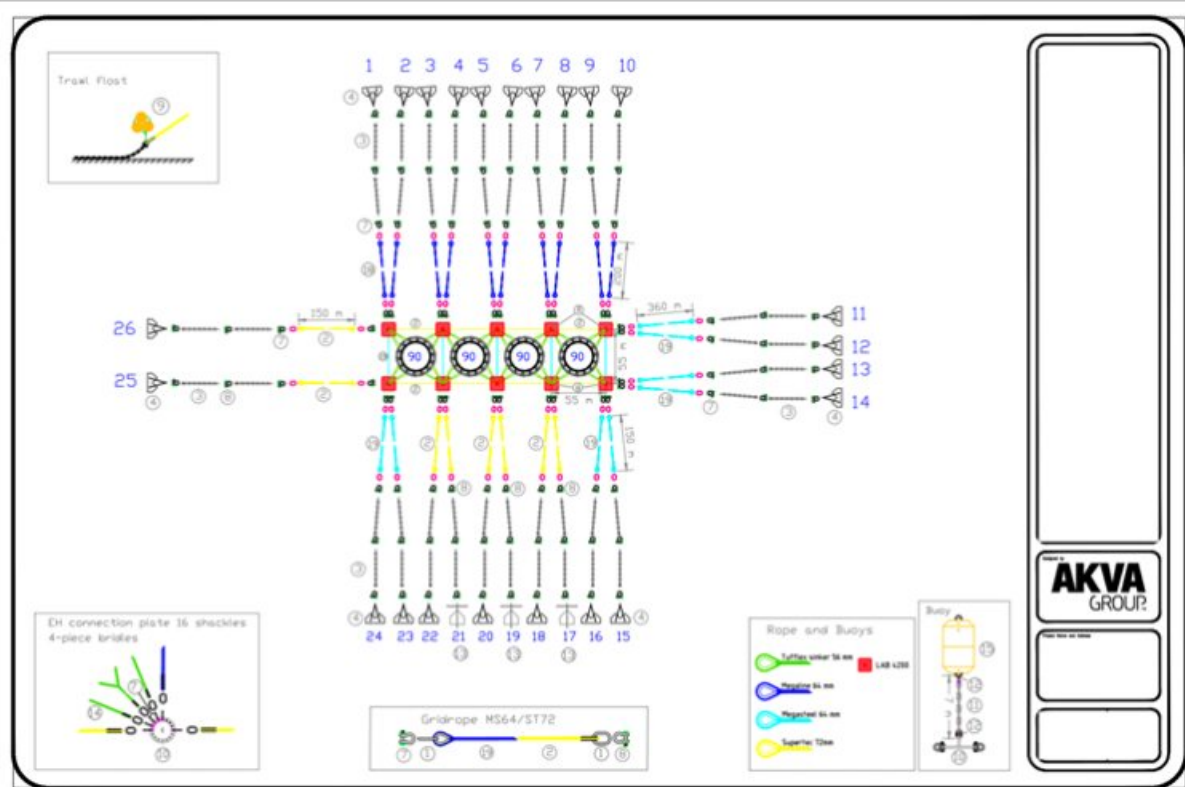

As requested.

Regards  
Lima

Yes, it is 0.49 km<sup>2</sup>. Mooring rule of thumb was used: length of mooring lines/chain is 3 times the depth, the final mooring design would be done once all current and wave information have been collected by the buoy. Therefore approximate figures only.

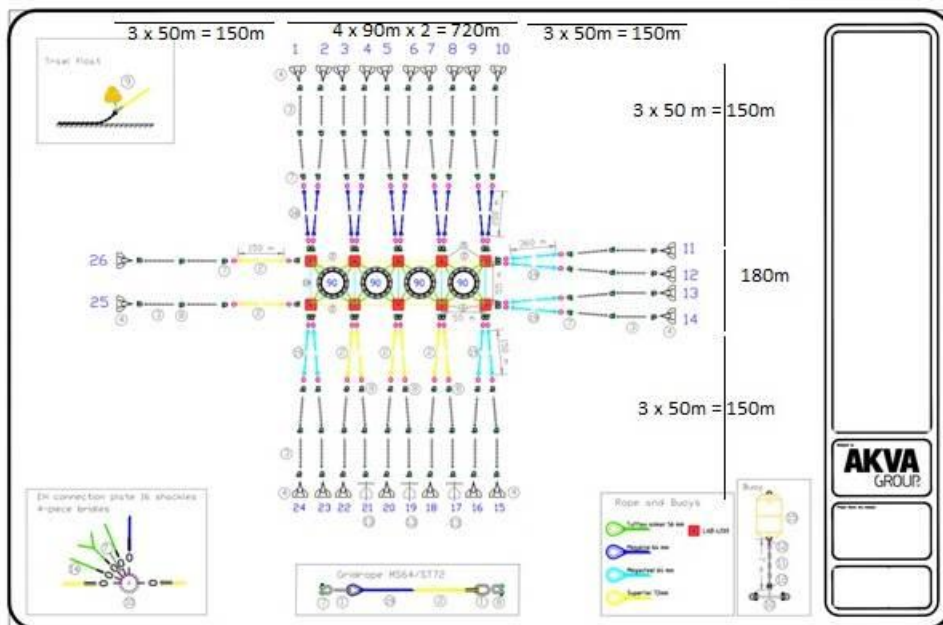

The figure doesn't have defined dimensions on it for the pilot:

I have added current assumptions to the figure below:

$$1020\text{m} \times 480\text{m} = 489\,600\text{ m}^2 = 48.96\text{ km}^2$$

The buffer zone will depend on the concession holders activity performed.

Regards

Barend

**To:** [imecPPP@gmail.com](mailto:imecPPP@gmail.com)  
**Subject:** RE: Re Draft Environmental Assessment Report for Review - Questions

Hi Lima

Thank you for the feedback.

However Barend's calculations are wrong.

He provided: "1020m x 480m = 489 600 m<sup>2</sup> = 48.96 km<sup>2</sup>"  
It should be: 0.4896 km<sup>2</sup>. – Huge difference.

- Hope he did/does not apply same incorrect calculations elsewhere (-:

Hi Lima

This is just to ask to register me as one of the I&AP's for the Norwegian salmon farming EIA. As jy wil he ek moet die vormpie invul, laat weet maar dan doen ek so.

Volgens jou kaart in die BID dokument (wat La Toya vir my gestuur het), lyk dit my oorweeg die kompanie nou sites NW van Luderitz, en nie meer Essey Bay nie??? Ten minste, ek hoop so.

Mooi dag verder.

KG

**From:** Hans Hückstedt [hans@sakawe.com](mailto:hans@sakawe.com)  
**Sent:** Monday, May 29, 2023 11:40 AM  
**To:** [imecPPP@gmail.com](mailto:imecPPP@gmail.com)  
**Subject:** FW: Notice of an Environmental Assessment Process

Good morning Lima

I would like to register Samicor as an I&AP:  
Hans Hückstedt  
Samicor Diamond Mining (Pty) Ltd  
[hans@sakawe.com](mailto:hans@sakawe.com)

Interest:

The 2 x AAC offshore sites (AAC-I and AAC-II) is within ML51 of which Samicor is the holder. See attach map.

Samicor has a diamond resource and mine programme for ML51 and the concern is that AAC sites might overlap and sterilise these prospective areas.

I am looking at how these sites will impact our mining and will revert soonest.

Best regards  
Hans Hückstedt

Project Manager / Senior Geologist  
LL Namibia Phosphates / Samicor

LL Namibia Phosphates / Samicor

SAMICOR DIAMOND MINING (Pty) Ltd

**For and on behalf of Samicor Diamond Mining (Pty) Ltd**

To:  
LM Environmental Consulting

29 May 2023

Dear Lima Maartens

**OBJECTION TO AAC PROPOSED OFFSHORE SITES WITHIN ML51**

Samicor Diamond Mining (Pty) Ltd ("Samicor") acknowledges receipt of the 20 May 2023 email from LMEC with information about the AAC proposed offshore aquaculture sites.

Samicor, as the licence holder of marine diamond mining licence ML51, subsequently plotted all three proposed AAC sites onto our concession map. We observed that part of site AAC-I and the entire site AAC-II fall within Samicor's diamond mining licence ML51. See attached the map with all three sites plotted together with ML51.

ML51 is a one of Samicor's primary mining resource areas generating annual royalties for the Namibian government, revenue to Samicor and Namibian employment. The proposed sites AAC-I and AAC-II overlap with our diamond resource areas destined for future mining campaigns. Furthermore, apart from the AAC-I and AAC-II positions the remaining areas within ML51 is similarly part of the Samicor resource earmarked for future mining.

Samicor therefore objects to the proposed positions of the AAC-I and AAC-II sites as well as any other proposed sites within ML51.

Yours faithfully

Hans Hückstedt  
Project Manager

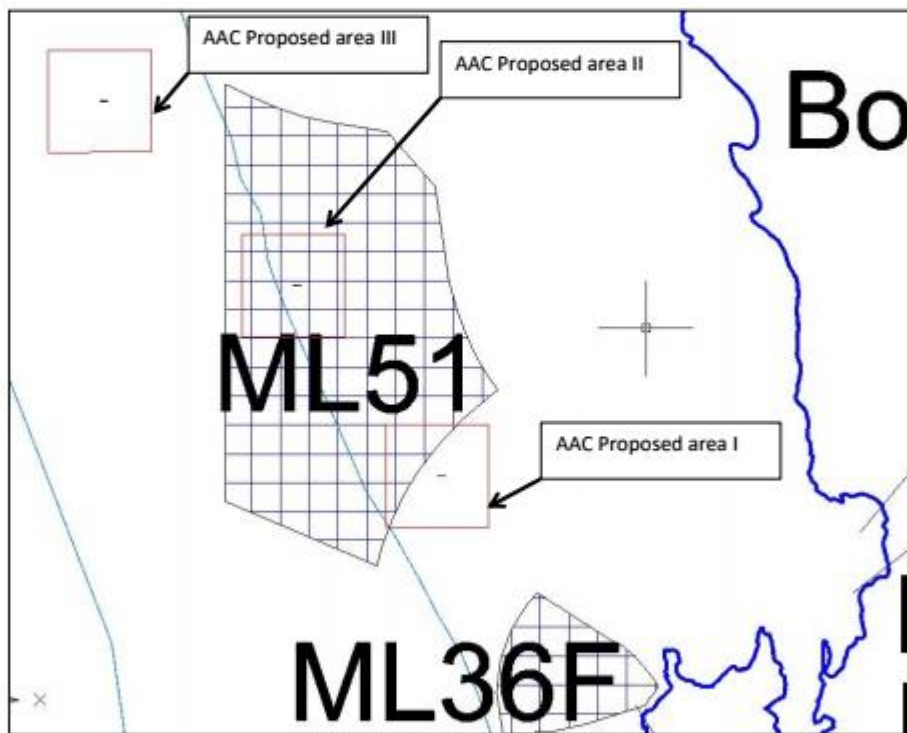

Samicor Diamond Mining (Pty) Ltd

**Cc:** 'Eli Nefussy' [eli@sakawe.com](mailto:eli@sakawe.com)  
**Subject:** RE: Notice of an Environmental Assessment Process

Dear Hans

Thank you for the feedback; as indicated to you on Monday, 29 May 2023, the comment period closed on Friday, 27 May 2023.

I had a discussion with the Client, African Aquaculture Namibia (Pty) Ltd (AAC), this morning;

The offshore pilot will be conducted at AAC-I. It will have a very small footprint (4 cages only); the installation can be moved. There will be no activities at AAC-II for the time being.

AAC believes that you/Samicor can work/co-exist together and they will be in contact with you.

Best regards  
Lima

**From:** Hans Hückstedt [hans@sakawe.com](mailto:hans@sakawe.com)

**Cc:** Eli Nefussy [eli@sakawe.com](mailto:eli@sakawe.com)  
**Subject:** RE: Notice of an Environmental Assessment Process

Dear Lima

To track back to dates of receipt of information and Samicor's feedback, please note below:

Be advised that I received the positional kmz files on 12 May 2023.  
On 15 May 2023, I replied:

*"The middle block falls within Samicor diamond ML51.  
- I will have to look at Samicor's resource map to make sure that area does not sterilise future mining  
- Will have to register Samicor as I&AP.."*

Thereafter I received amended kmz files on 20 May 2023. This is a mere 5 working days before the indicated close of comments on 27 May. Samicor's comments were emailed on the 6<sup>th</sup> working day after receipt of the amended kmz files.

This timeframe is way too short and not acceptable, please see that our comments are acknowledged and listed.  
- Confirm above.

Thank you.

Best regards  
Hans Hückstedt

Project Manager / Senior Geologist  
LL Namibia Phosphates / Samicor

**PLEASE NOTE THAT MR HÜCKSTEDT (ON BEHALF OF SAMICOR) REGISTERED AS AN I&AP ON 29 MAY 2023 (THE COMMENT PERIOD ENDED ON 26 MAY 2023);**

**MR HÜCKSTEDT DID REGISTER AS AN I&AP (ON BEHALF OF DIAMOND FIELDS NAMIBIA / JEAN BOULLE DIAMONDS ON 11 MAY 2023) AND THUS RECEIVED THE KMZ FILES MENTIONED ABOVE (SENT 20 MAY 2023)**

		<b>27 May 2023</b>

Dear Madam,

**RE: COMMENTS SUBMISSION IN RESPECT OF ENVIRONMENTAL ASSESSMENT FOR PROPOSED FARMING OF ATLANTIC SALMON (SALMO SALAR) IN LUDERITZ BY AFRICAN AQUACULTURE COMPANY PTY LTD ("AAC")**

1. We refer to your Environmental Assessment Process Notice issued by yourself on 25 April 2023.
2. We hereby act on the instructions of Benguela Blue Aqua Farming (Pty) Ltd ("Client"), an interested and affected party in respect of the proposed project pursued by your client, African Aquaculture Company (Pty) Ltd (hereinafter "AAC").
3. It is our instructions that our Client submitted an application for the Environmental Assessment of a proposed Cage Culture of Finfish off the Namibian coast in Luderitz; in the same vicinity as the proposed project of your client.
4. It is our further instructions that such an application, consequent to the outcome of public hearings conducted by officials of the Ministry of Fisheries and Marine Resources (the "Ministry") and concluded on or about February 2023, was declined.
5. We thus advise you as follows:  
5.1 Should the outcome of your Client's application be successful i.e. approved to conduct the proposed project on the same site as stated above, we hold instructions to appeal such a decision and pursue the enforcement of all rights available to our Client in that regard.

Dear Lima

I've been well, thank you. I was out of the office, and I had some difficulties with electronically signing the I & AP, hence the delay.

Please find attached the manually signed version and, should the project proceed, AAC can coordinate with us accordingly.

If there are any projects that you believe we could collaborate on, please do not hesitate to get in touch.

Thank you and best of luck.

Johannes

**Subject:** Notice of an Environmental Assessment Process - Change of Site AAC-I Location

Dear Sir/Madam

Please note that, after consultation with representative from NamPort and the Fishing Industry, the location of site AAC-I was moved ~2 km north and slightly westward (~5 nm from Diaz Point). The location of Sites AAC-II and AAC-III remain unchanged.

Also, the circles (12 km<sup>2</sup> and including a 2 km exclusion zone) have been changed to square areas of 4km x 4km (16km<sup>2</sup> and including the 2 km exclusion zone).

I am attaching an updated map, as well as the kmz files FYI.

Best regards  
Lima

**Subject:** Environmental Assessment for the proposed farming of Atlantic Salmon Salmo Salar, Luderitz, //Karas Region Namibia

Dear Dr. Lima Maartens

I hereby request to be registered as an I&AP for the EIA:

- Environmental Assessment for the proposed farming of Atlantic Salmon Salmo Salar, Luderitz, //Karas Region Namibia, as issued in your public notice in the Republikein newspaper on 02/05/ 2023. Please would you also forward me the Background Information Documents (BID) and the map (Preferably kmz format) or the exact coordinates of the farm?

Regards

 Subject: RE: Notice of an Environmental Assessment Process - Ignore if previously received / not interested and/or affected

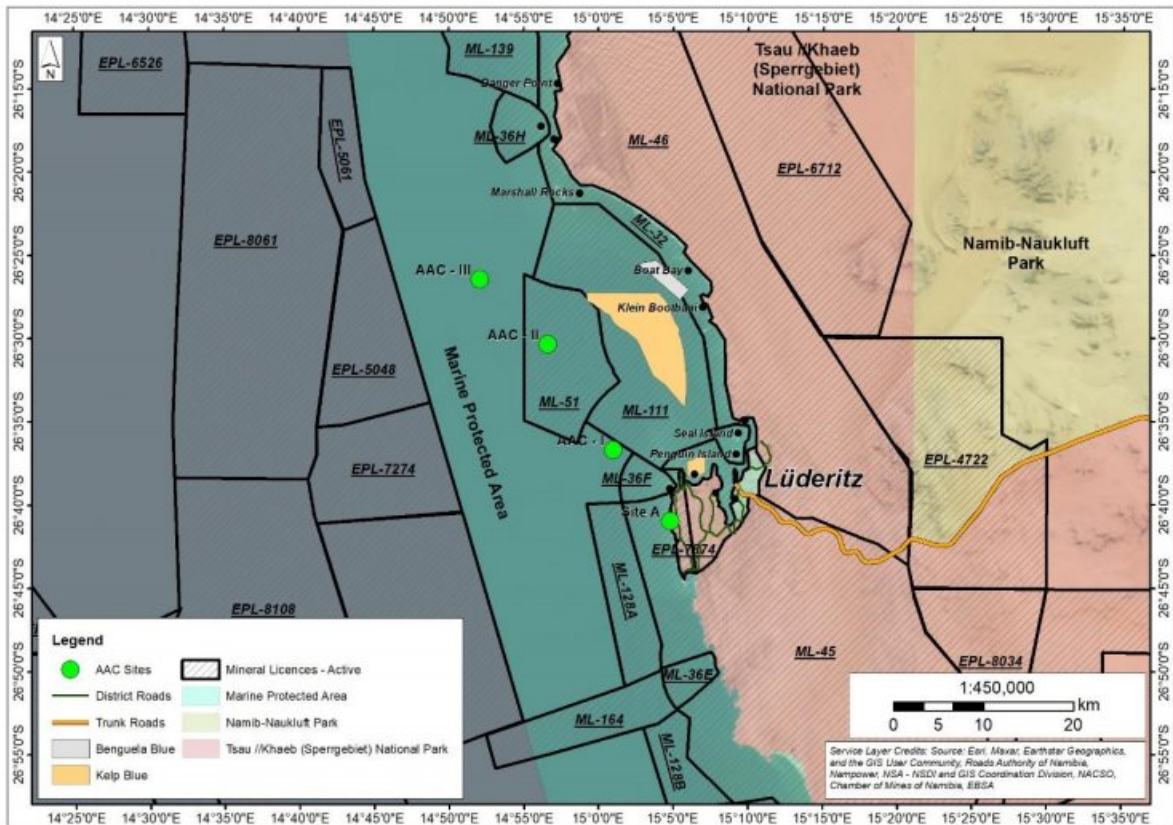

Dear Mr Shivolo

Thank you for the information, appreciated!

Please see the attached map; I will just make 100% sure that we have consulted all.

EPL and ML-holders; do we need to ask their permission to enter the areas / work there, or how does it work? MFMR indicated that the mineral license holders do not have exclusive rights, but I have not been able to obtain more information?

Regards  
 Lima

**Subject:** RE: Notice of an Environmental Assessment Process - Ignore if previously received / not interested and/or affected

I do not agree with the view that EPL and ML holders do not have exclusive rights as such.

An **EPL** stands for “**Exclusive** Prospecting Licence”, meaning the holder of such a license enjoys exclusivity in terms of the area and the group of minerals granted. In practice however, coexistence can take place with an agreement from parties, just like exploration activities that take place in tourism areas.

An **ML** holder also enjoys same exclusivity as far as mineral commodities are concerned. However, as far as land use is concerned, due to the nature of mining activities, the safety risks that might be associated with multiple activities could be high depending on the mode and level of mining and therefore coexistence may be a challenge.

Offshore can be tricky though!

**Sent:** Thursday, May 11, 2023 2:45 PM  
**To:** [Imecppp@gmail.com](mailto:Imecppp@gmail.com)  
**Subject:** RE: Notice of an Environmental Assessment Process

Good afternoon Lima

I confirm receipt.

I would like to register as an I&AP:  
Hans Hückstedt  
Diamond Fields Namibia (DFN)  
[Hans@jeanboullediamonds.com](mailto:Hans@jeanboullediamonds.com)

Interest:

The 3 x AAC offshore sites is within ML111 of which DFN is the holder.  
DFN has a diamond resource and mine programme for ML111 and the concern is that AAC sites might overlap and sterilise these prospective areas.  
I would like to receive the 3 x AAC sites in digital format as: dxf, dwg, shape files or kmz files.

Best regards  
Hans Hückstedt

Project Manager / Geologist

Dear Hans

Thanks, I have registered you; attached please find the BID.

We have a kmz file; I am just waiting for the Client to approve it. Also, the southern site may move (AAC has already moved it once to be outside ML 111).

Regards  
Lima

**Subject:** Re kmz files

Dear Hans

Attached please find the kmz file; they had to change the circles (12km<sup>2</sup>) to squares (16km<sup>2</sup>); it includes a 2 km exclusion zone.

Do you have exclusive rights to the area? MFMR says not. MME says yes. May fishing vessels/ships pass through? Do you have more details?

Then, what would be the next step?

Regards  
Lima

**Subject:** RE: Re kmz files

Hi Lima

The southern-most block overlaps 35% with ML111, the other 65% is in unallocated area.  
- I will have to look at DFN's resource map to make sure that overlap does not sterilise future mining.

The middle block falls within Samicor diamond ML51.  
- I will have to look at Samicor's resource map to make sure that area does not sterilise future mining  
- Will have to register Samicor as I&AP..

The northern-most block is in unallocated area, apart from a petroleum exploration licence.

Best regards  
Hans Hückstedt

Hi Lima

Following onto the below mention of site AAC-I overlapping with DFN's ML111, fyi find attach the map showing the overlap.

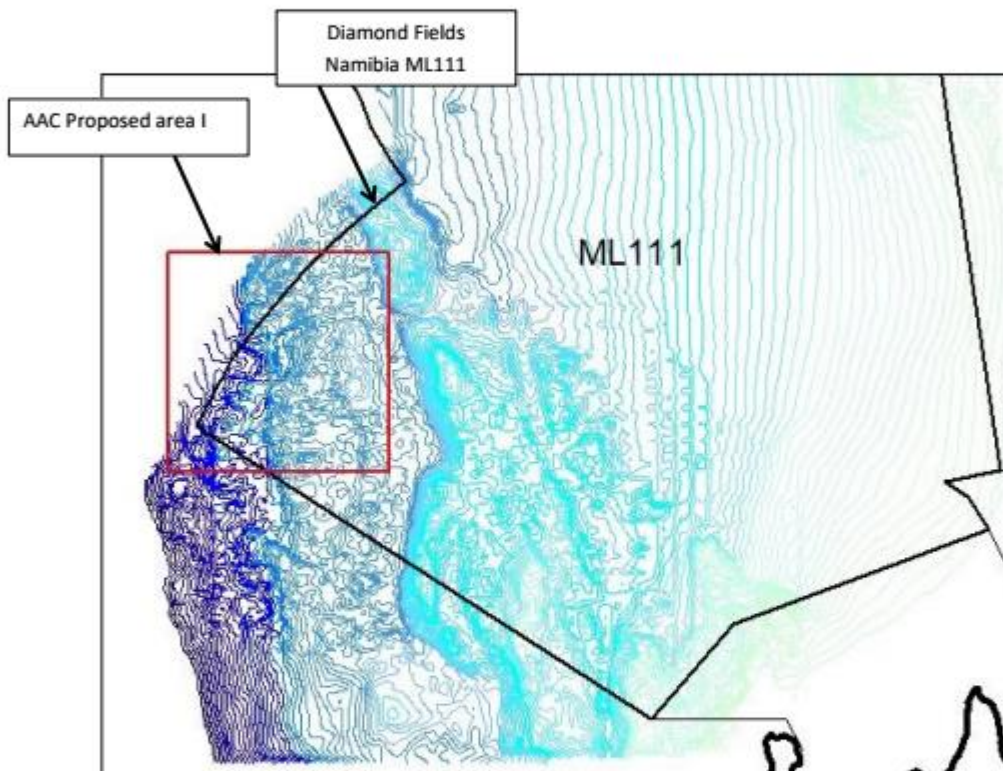

We are looking at this AAC-I area currently to evaluate if there will be conflict with our future mining operations.

Best regards  
Hans Hückstedt

Dear Hans

Thank you for the feedback; the comment period closed on Friday, 27 May 2023.

I had a discussion with the Client, African Aquaculture Namibia (Pty) Ltd (AAC), this morning;

The offshore pilot will be conducted at AAC-I. It will have a very small footprint (4 cages only); the installation can be moved. There will be no activities at AAC-II for the time being.

AAC believes that you/ can work/co-exist together and they will be in contact with you.

Best regards  
Lima

**Subject:** YOUR RECENT NOTICE - AFRICAN AQUACULTURE COMPANY - INTRODUCTION TO CONSULT

Dear Dr. Maartens,

With reference to the recent notification in the local tabloids and as introduction and subject of this email we introduce Consult 360 as a proudly Namibian entity that provides a very diversified HR/IR solution basket to the very diversified business sectors of Namibia. One of our core services is the provision of labour, throughout the skill tiers to the aforementioned sectors. Our experience over the last 20 years and unique understanding of the labour market in Namibia coupled with legal and related expertise and infrastructure incorporating best of breed technology acts as catalyst against disruption in what can be an extremely taxing environment at times.

As a registered Private Employment Agency we comply with all legal provisions in addition to aligning our solution to client company policies and procedures and enjoy the professional ability of managing all your staff entities, including payroll services.

Further to this introduction I attach our company profile for your perusal which may spark an interest in our offered services and initiate queries. We would be grateful if you could forward this email to your client or alternatively perhaps email us their email address so that we may offer them our services.

Thanking you for your time in this matter and I look forward to your favourable response.

Thank you and Kind Regards,

**Ulf**

**Subject:** RE: Notice of an Environmental Assessment Process  
**Importance:** High

Good afternoon All,

Please see the map below indicating the proposed positions of the AAC sites on your navigational map.

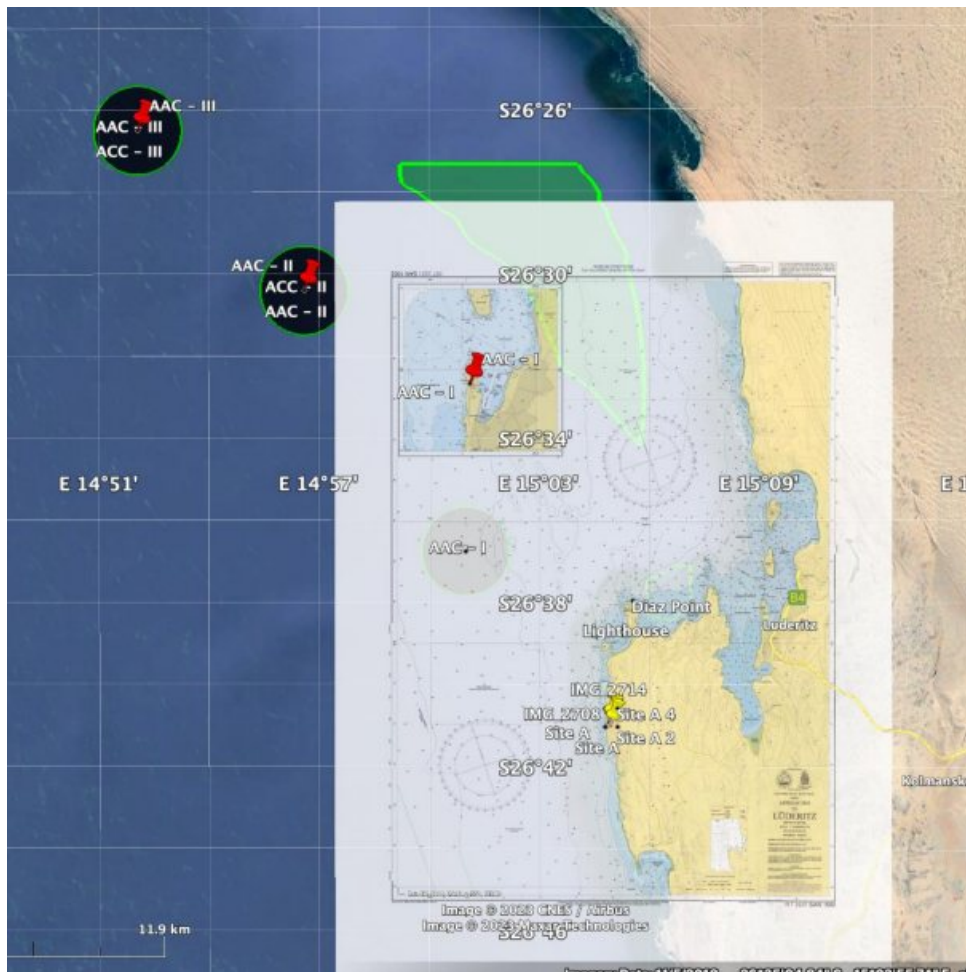

Kindly take note of the following:

The proposed sites are called **AAC-I** (26° 36' 46" S, 15° 01' 00" E), **AAC-II** (26° 30' 25" S, 14° 56' 37" E) and **AAC-III** (26° 26' 31" S, 14° 52' 05" E).

1. **Red pin** – indicates the original position of sites in relation to the navigational map.
  - a. Site **AAC-I old** (26° 32' 41" S, 15° 01' 07" E) was moved further south, this was done in an effort to avoid interference with an assumed shipping corridor.
    - Please note that the position indicated with the overlaid navigational map lands on the inset of the navigational map; the site is not on land.
  - b. Sites AAC-II and AAC-III are still in the same position.
2. **Green and black circles** indicating proposed areas of operation in relation to the navigational map.
  - a. Note that the AAC-I circle north-west of gridline S26°38' is the current site.
    - Although still in the same position, the circles (12 km<sup>2</sup> and including a 2 km exclusion zone) have been changed to a square area of 4km x 4km (16km<sup>2</sup> and including the 2 km exclusion zone)
    - **AAC-I boundaries:**
    - **AAC-I 1:** 26° 35' 39" S, 14° 59' 49" E
    - **AAC-I 2:** 26° 35' 41" S, 15° 02' 13" E
    - **AAC-I 3:** 26° 37' 52" S, 15° 02' 11" E
    - **AAC-I 4:** 26° 37' 50" S, 14° 59' 47" E

We would appreciate it if you could make available any additional information re fishing vessel / shipping lanes?

Thank you in advance.

Kind regards,

Good day All,

For area AAC-III and ACC-II I don't have any quotations.  
Area AAC-I is stay on routine way of vessels leaving or entering to the Luderitz, from/to West and South directions.  
Mentioned area given only 2 NM corridor for traffic (between AAC-I and shore rocks), for safe navigation it is not enough.

Best regards,

Alexey Zavitaev (Namport) *Port Captain*

**Subject:** RE: Notice of an Environmental Assessment Process

Dear Alexey

Possible that you can make available the coordinates for the traffic zone?

One of the I&APs noted: *We herewith raise our concern on your 1ste holding pen close to Diaz point ,this pen could hold significant risk to Marine traffic entering and exiting the Port as it is directly in the traffic zone.*

*Either you consider moving it more towards Halifax Island or closer to the other two sites you have indicated as the current site you have allocated will pose a risk.*

Thank you in advance!

Regards  
Lima

Dear Dr. Lima,

I would like to acknowledge the email you sent and express my interest in registering myself and the copied individuals as IA&Ps for the project mentioned in your email. As the proposed activity is in close proximity to the Lüderitz Port, we are particularly interested in the identified locations and would like to be included in the EIA process.

I trust that the above request meets the necessary requirements for participation and look forward to hearing back from you.

Thank you for your time and consideration.
