PUBLIC CONSULTATION MEETING MINUTES:

ENVIRONMENTAL SCOPING ASSESSMENT (ESA) FOR THE PROPOSED PROSPECTING & EXPLORATION ACTIVITIES ON EXCLUSIVE PROSPECTING LICENCE (EPL) No. 8201 LOCATED NORTH-EAST OF KARIBIB, ERONGO REGION.

Date: Wednesday, 18 January 2023

Time: 15:00 – 16:15

Venue: Karibib Town Hall

The public consultation meeting was attended by 9 people, including one (1) Environmental Consultant and one (1) archaeologist from Excel Dynamic Solutions (Pty) Ltd (EDS) - **Please refer to the attached attendance register.**

INTRODUCTION AND WELCOMING REMARKS

The meeting was opened by the Environmental Consultant with an introductory of the team and the purpose as to why they are consulting affected parties of the proposed prospecting and exploration activities on EPL 8201. The meeting attendance register was circulated for the attendees to write down their names, contact details and sign so that they could be added to the list of interested and affected parties (I&APs) and receive further information on the ESA process.

MEETING AGENDA AND PRESENTATION

The agenda of the meeting included the following main points:

2.1 Brief Description of the Project

The Environmental Scoping Assessment (ESA) and the reason that The Proponent appointed Excel Dynamic Solutions (Pty) Ltd (EDS), an independent Environmental Consultant firm to carry out the ESA and apply for the Environmental Clearance certificate (ECC).

2.2 Explanation of what an ESA is, its Process, and the public role in the ESA Process

Mr. Silas David explained to the attendees what the meeting was all about and why they were invited (with reference to the Environmental Management Act (EMA) No. 7 of 2007 and its 2012 Environmental Impact Assessment (EIA) Regulations on public consultation. Mr. David further explained what an ESA is and that the proposed exploration activities are one of the listed activities in the 2012 EIA Regulations of the EMA that cannot be undertaken without an ECC from the Environmental Commissioner.

2.3 Presentation of Potential Project Impacts

To ensure transparency and that the attendees understand both sides of the proposed project activities, the Environmental Consultant also presented the potential pre-identified potential positive & negative environmental and social impacts of the project.

2.4 Public Open Discussion (Interactive Session)

Mr. David provided the meeting attendees the opportunity to raise their concerns, issues and/or comment on the proposed project activities. The issues and comments recorded are presented in **Table 1** below.

Table 1: Comments and issues raised during the public consultation meeting, 07th of September 2022

Comment/ issue No.	Commenter name & issue / comment / question	Response and name of responder:
1.	<p>Commenter 1: Why is the Proponent not in the meeting?</p> <p>It is very important that the Proponent make an effort to attend the public consultation meeting, to show that they have an interest in the communities which is the social aspect for this proposed project.</p>	<p>Mr. (SD): Thank you for the comment. The Proponent planned to come but due to unforeseen commitments, he could not make it to the meeting. We fully take note of your concern, and we will try to ensure that this matter is addressed in the future.</p>
2.	<p>Commenter 2: Who is Damaraland Trading Enterprise CC?</p>	<p>Mr. SD: Damaraland Trading Enterprise CC is the Proponent for EPL No. 8201 and Mr. Marie Van Der Westhuisen is the Company representative for this project.</p>
3.	<p>Commenter 3: Better communication platform needs to be taken into consideration in how EDS communicates with the public. Placing site notices in offices is not sufficient.</p>	<p>Mr. SD: Noted, with thanks. Kindly take into account that communication was done with the public as per the Environmental Management Act 07 of 2007. Adverts were placed in two local newspapers (The Namibian and New Era). EDS has identified Karibib Town office and Karibib Constituency Office as influential office to try and</p>

		<p>communicate with the public and site notices have been placed on their site notices board.</p> <p>This is the second meeting we are hosting in this Hall and the first meeting no one attended that meeting. It is against this background that we are hosting a second public meeting to give the public a second chance, and EDS is thankful that you guys are here today.</p>
4.	<p>Commenter 4: If communications were done, why are the affected parties not here in the meeting?</p>	<p>Mr. SD: Thank you for the question. Kindly take note that we have identified our affected parties for this project and communication has been conducted, to inform them about the project and concurrently about the public consultation meeting. I think they have made their choices and have a reason as to why they cannot attend the meeting today. However, even though they could not make it today. We have added them to the stakeholder list and all communication regarding this project, will also be communicated too.</p>
5.	<p>Commenter 5: It is important EDS needs to consider where site notices are placed for the public interest. Placing site notices at offices is not sufficient for the public, as not all people come and read the site notice board. Placing site notices at public places such as shops is sufficient. In addition, radio communication needs to be taken into account as not all people read newspapers.</p>	<p>Mr. SD: Noted, thank you for the suggestion on these aspects.</p>

Comment/ issue No.	Commenter name & issue / comment / question	Response and name of responder:
6.	<p>Commenter 6: The background Information Document (BID) states that around 6- 11, people will be employed by this project. What class of employment will be employed will this be?</p> <p>Will people from the Karibib area be employed?</p>	<p>Mr. SD: The class that will be looked into is the skilled, semi-skilled, and unskilled labour that might be employed in the vicinity of the project area (i.e. Karibib).</p>
7.	<p>Commenter 7: It is very important that the Proponent needs to look into the corporate social responsibility for this project. To ensure that people around Karibib are also taken into consideration. We have experienced in the past whereby Proponents make empty promises that they are going to employ people from the Town but, in reality, they come with their own people.</p>	<p>Mr. SD: We take note of that, thank you.</p>

Comment/ issue No.	Commenter name & issue / comment / question	Response and name of responder:
	Karibib has a high unemployment rate and employment is needed.	
8.	Commenter 8: I have mining claims within the EPL. Will I not lose my mining claims (MCs) to the EPL holder?	Mr. SD: Thank you for the question. According to my knowledge, it is important to note that you have applied for those Mining Claims (MCs) and they are your properties even though they are covered by the EPL. The Ministry of Mines and Energy (MME) allows MCs to be applied within an EPL as long they do not intend to operate on the same commodities.

FINAL REMARKS AND CONCLUSION OF THE MEETING

Mr. David thanked the attendees for their crucial input through comments and raising of their concerns. He indicated to the attendees that all their comments, concerns, and inputs have been noted down for consideration and will be addressed in the Environmental Scoping Assessment (ESA) Report as well as incorporating their recommendations into the draft EMP.

Furthermore, Mr. David informed the attendees that the draft meeting minutes, Environmental Assessment Report, and Environmental Management Plan (EMP) will be shared with them for review and further comments. These documents will be made available through emails provided in the attendance register.

Once the review of the draft ESA Report and EMP is done, the documents will be finalized and submitted to the Environmental Commissioner at the Department of Environmental Affairs and Forestry (DEAF) for evaluation and consideration of an ECC.

The meeting adjourned at 16h15.
