The Environmental Scoping Assessment (ESA) and the reason why the Proponent appointed Excel Dynamic Solutions (Pty) Ltd (EDS), an independent Environmental Consultant to carry out the ESA and apply for the Environmental Clearance Certificate (ECC).

2.2 Explanation of what an ESA is, its Process, and the Public Role in the Process

Mr. Titus Shuuya explained to the attendees the purpose of the meeting and why they were invited (about the Environmental Management Act (EMA) No. 7 of 2007 and its 2012 Environmental Impact Assessment (EIA) Regulations on Public Consultation). Mr. Shuuya further explained what an ESA is and that the proposed exploration activities are one of the listed activities in the 2012 EIA Regulations of the EMA that cannot be undertaken without an ECC from the Environmental Commissioner.

2.3 Presentation of Potential Project Impacts

To ensure transparency and that the attendees understand both sides of the proposed project activities, the Environmental Consultant also presented the potential pre-identified potential positive & negative environmental and social impacts.

2.4 Public Open Discussion (Interactive Session)

Mr. Shuuya allowed the meeting attendees to raise their concerns/issues and/or comments on the proposed project activities. The concerns/issues and comments recorded are presented in **Table 1** below.
