NOTICE OF ENVIRONMENTAL ASSESSMENT AND PUBLIC PARTICIPATION PROCESS

Junior Baiano Industrial Consultants cc hereby gives notice to all potentially Interested and Affected Parties (I&APs) that an application will be made to Environmental Commissioner in terms of the Environmental Management Act (No 7 of 2007) and the Environmental Impact Assessment Regulations (GN 30 of 6 February 2012) for the following activity:

PROJECT DESCRIPTION:

Proposed construction and operation of 5MW merchant solar photovoltaic plant.

PROJECT LOCATION:

The site is located north of Rehoboth, a portion of the Remainder of Rehoboth Town & Townlands No. 302 along the Western side of the B1 Road Rehoboth, Hardap Region, Namibia

PROPONENT: Alensy RTC PV – Gen (PTY) Ltd

I&APs are invited to register with the consultant and give their comments and concerns in writing. Please take note of the following:

PUBLIC MEETING

Date: Saturday, 21 January 2023
Venue: Hermanus Van Wyk Hall, Rehoboth
Time: 14h00

To register or request for documents please submit your name, contact information and interest in the project, in writing to:

Mr Nghiyolwa, Fredrich
Tel: +264 (0) 81 147 2029
Email: juniorb200581@gmail.com

PUBLIC NOTICE

ENVIRONMENTAL IMPACT ASSESSMENT (EIA) FOR THE PROPOSED STOCKHOLDING OF GENERAL GOODS AND HAZARDOUS SUBSTANCES AT ERF 3757, GOBABEB STREET,

Notice is hereby given to all Interested and Affected Parties (I&APs) that an application for an Environmental Clearance Certificate will be submitted to the Environmental Commissioner in terms of the Environmental Management Act (Act No.07 of 2007) and the EIA Regulations (GN No.30 of 6 February 2012) for the following proposed activities:

Project: Proposed stockholding of general goods and hazardous substances

Project Location: Erf 3757, Gobabeb Street, Walvis Bay

Proponent: BEUCORP TRADING CC

EAP: Green Gain Environmental Consultants cc

Project Description: The proponent intends to operate a facility for stockholding of general goods i.e., Copper concentrate (CuFeS₂) and hazardous substances i.e., Petalite lithium (AlLi (Si₂O₅)₂) at Erf 3757, located in the light industrial area of Walvis Bay. In terms of the Environmental Management Act 07 of 2007 the intended activities cannot be conducted without an ECC.

I&APs are hereby invited to register, request for Background Information Document (BID) and send their comments to eia@greengain.com.na on or before the **27 January 2023**.

The need for a public meeting will be determined after consultation and communicated to all registered I&APs.

Wait, What's Going On With the Gas Stove Ban?

A rumored ban on gas ranges lit the internet on fire this week. Here's your explainer

ALIA AKKAM

Blue teardrop-shaped flames heating the underside of a skillet is one of the kitchen's most hypnotizing sights. So, when Richard L. Trumka Jr. of the US Consumer Product Safety Commission revealed in a Bloomberg article published earlier this week that soaring concerns over the pollutants emitted by these ranges could lead to a possible gas stove ban, the public was instantly whipped into a frenzy over the potential loss of their comforting cooking rituals. But could such a mandate be implemented?

The short answer is no. Trumka later tweeted that regulations would only apply to new products, sweetened by the promise that homeowners who willingly switched over to electric were eligible for \$840 rebates via the Inflation Reduction Act. A few days after the alarming article appeared, amid a barrage of commentary from irate politicians and natural gas industry bigwigs, Bloomberg followed up with another feature that brought a bit of relief to wound-up consumers across the country. This time around, Alexander Hoehn-Soric, chair of the Commission, confirmed that rather than pursuing a gas stove ban, the plan is to ramp up research efforts and determine ways of minimizing the hazardous effects indoors, like mounting range hoods.

Currently, around 40% of Americans have gas stoves, and while being forced to relinquish them is no longer a fear, a string of recent studies suggests that electric versions are indeed safer bets for the future. For example, Consumer Reports tested emissions

and found nitrogen dioxide levels that exceeded the levels recommended by the World Health Organization. Carbon monoxide and particulate matter are also unleashed, all of them linked to respiratory illness (a peer-

reviewed International Journal of Environmental Research and Public Health study connected nearly 13% of childhood asthma cases to gas-burning stoves).

Stanford University also made the

startling discovery that even when these ranges aren't in use, they leak methane, a potent greenhouse gas. Along with health risks, the effects on climate change are profound, prompting more than 50 cities and

counties in California last year to put the kibosh on gas hookups in new buildings. This week, New York governor Kathy Hochul also proposed barring new gas appliances statewide.

Cooking with gas has long distressed Bill Caleo, founder of the Brooklyn Home Company, a New York builder that embraces Passive House principles. "The Brooklyn Home Company desires to promote renewable energy sources and reduce indoor air pollution, making electric the right choice," he tells AD PRO. "With these goals in mind, we have been focused on selling all-electric buildings for some time when building new development condominiums and rentals." Good-looking Bertazzoni induction ranges are mainstays in Brooklyn Home Company projects.

Leah Alexander, the designer behind the Atlanta- and Los Angeles-based studio Beauty is Abundant, recently capped her existing gas line and installed a Samsung Bespoke electric stove as part of her own home's ongoing renovation. A ductless vent creates "flexibility for the kitchen layout," she says, noting another boon: the elimination of dealing with food-debris-clogged grates. "It's proving convenient and sleek with its smooth, easy-to-clean surface." But there is one caveat: Electric burners stain more easily than durable gas options, Alexander notes.

One of the biggest gripes about electric ranges in the past has been their precariousness. They heat up slowly, and not all types of cookware are compatible with them. "Gas has been the preferred method of cooking for serious chefs. Historically, it's more effective—ready, fast, and hot—than other methods," explains Dan Mazzarini, creative director and principal of the bicoastal firm BHDM Design. But he's encountered many proficient models as of late, like the Frigidaire Professional 30-inch Front Control he added during a revamp of his New York apartment: "The oven regulates the temperature more accurately than the gas counterparts. We also love the air-frying and convection features"—even if water takes a little longer to boil.

Even professional chefs are becoming fans. At Mr. Tuna in Portland, Maine, owner Jordan Rubin uses numerous electric induction burners. "They are a crucial part of our operation," he admits. "They have gotten a lot better over the years and can be set to a precise temperature—and after a long shift, I love how little mess they leave."—<https://www.architecturaldigest.com/>

BUSINESS

Expats are moving back to SA – and buying multi-million rand homes

Expats are moving back to South Africa – and buying multi-million rand homes

On top of a new wave of foreign buyers from Europe picking up multi-million rand houses in the Western Cape, property specialists are also counting a number of ex-pats who lived abroad for several years now returning to South Africa.

According to Stephan Thomas and David Burger, secure estate specialists for Lew Geffen Sotheby's International Realty in Constantiaberg, Cape Town, the group has seen a marked rise in high-value property sales in regions of the Western Cape.

"Constantiaberg has always been

a popular destination for foreign buyers who are attracted by the lifestyle, climate and host of world-class amenities, but during the past two years, there has been a surge in enquiries, especially in the estate market," the group said.

"We first noticed an increase in enquiries from foreign investors after the Brexit vote and then again once pandemic restrictions had eased and the war in Ukraine had begun," it said.

The realty group noted that most of its sales before 2020/21 pandemic were to so-called 'swallows' – people who bought in the area to escape the European winters. However, remote work – which has seen a massive

NOTICE FOR PUBLIC PARTICIPATION ENVIRONMENTAL IMPACT ASSESSMENT

increase over the last two years – has now also allowed foreigners to work from Cape Town while retaining their European jobs.

"Sotheby's International Realty research has shown that at least 40% of the global workforce is now 'location independent' and we, therefore, expect current buying trends to continue if not grow," the group said.

"There are also ex-pats who have lived abroad for several years where they married and had children and are now returning to South Africa with their families for lifestyle reasons."

Lew Geffen Sotheby's reported that most of these buyers are looking for properties between R10 million to R30 million.

The most popular luxury estates

include:

- Stonehurst;
- Silverhurst;
- Silvertree.

"The Constantia Valley offers everything they could want, from lifestyle and stunning natural beauty to the convenience of first-class shops and restaurants as well as restaurants, sporting facilities, beaches and a host of leisure and outdoor activities," said the two.

"Despite South Africa's issues, it seems that many of these buyers believe the benefits far outweigh the negatives," the group said.

"Last year, we dealt with a buyer from Mauritius who considered the possibility of negative growth (in US Dollar terms) as an acceptable risk considering the achievable lifestyle."

The partners said that semigration does, however, still remain a strong market driver, and upcountry buyers are, in fact, currently the origin of most of their enquiries and sales.

"We have had a very busy season with a constant stream of enquiries spilling over from December into the first month of this year," said the group.

BusinessTech looked at what some of the houses on offer in the mentioned luxury states look and cost:

Good morning Mr Liswaniso

Kindly also share the information herein with the Mayor and Town Planner.

Regards,

Colin

Dear Potential Interested and Affected Party

Environam Consultants Trading is a wholly Namibian owned environmental management consultancy providing an array of environmental services to our clients including: Strategic Environmental Assessments; Environmental Assessments; Strategic Environmental Management Plans; Environmental Management Plans; Environmental Management Systems; Environmental Auditing, Monitoring and Evaluation; Solid Waste Management; and Project Management. Our daily activities are underpinned by excellent environmental outcomes aimed at achieving a symbiotic relationship between development and the environment.

We have been appointed by **Omukwa Renewable Energy (Pty) Ltd** to undertake the environmental scoping exercise and apply for an environmental clearance certificate from the Environmental Commissioner for the project below:

Proposed Construction of the ORE 10MW Solar PV Power Plant in Katima Mulilo, Zambezi Region.

The generation of electricity; and the transmission and supply of electricity are listed activities as per the *List of Activities requiring Environmental Clearance* (Government Notice 29 of 6 February 2012) and accordingly require an Environmental Impact Assessment (EIA) to be conducted.

In line with Regulation 21(2) of the mentioned EIA Regulations, a Background Information Document (BID) is distributed to pre-identified Interested and Affected Parties as part of the public consultation process for this Environmental Impact Assessment.

An Environmental assessment will be undertaken to determine the potential impact of the development on the environment and to determine all safety, health and social impacts associated with the proposed development activities.

Should you require any additional information or would like to register as an I&AP, please contact us at Mobile: +264 81 458 4297, Fax: +264 61 258 470 or E-Mail: colin@environam.com; P.O. Box 24213, Windhoek, on or before **03 February 2023**.

Regards,

Colin P Namene

Good day Ms Ndopu-Lubinda

Kindly also share the information herein with the Katima Mulilo Constituency Councillor.

Dear Potential Interested and Affected Party

Environam Consultants Trading is a wholly Namibian owned environmental management consultancy providing an array of environmental services to our clients including: Strategic Environmental Assessments; Environmental Assessments; Strategic Environmental Management Plans; Environmental Management Plans; Environmental Management Systems; Environmental Auditing, Monitoring and Evaluation; Solid Waste Management; and Project Management. Our daily activities are underpinned by excellent environmental outcomes aimed at achieving a symbiotic relationship between development and the environment.

We have been appointed by **Omukwa Renewable Energy (Pty) Ltd** to undertake the environmental scoping exercise and apply for an environmental clearance certificate from the Environmental Commissioner for the project below:

Proposed Construction of the ORE 10MW Solar PV Power Plant in Katima Mulilo, Zambezi Region.

The generation of electricity; and the transmission and supply of electricity are listed activities as per the *List of Activities requiring Environmental Clearance* (Government Notice 29 of 6 February 2012) and accordingly require an Environmental Impact Assessment (EIA) to be conducted.

In line with Regulation 21(2) of the mentioned EIA Regulations, a Background Information Document (BID) is distributed to pre-identified Interested and Affected Parties as part of the public consultation process for this Environmental Impact Assessment.

An Environmental assessment will be undertaken to determine the potential impact of the development on the environment and to determine all safety, health and social impacts associated with the proposed development activities.

Should you require any additional information or would like to register as an I&AP, please contact us at Mobile: +264 81 458 4297, Fax: +264 61 258 470 or E-Mail: colin@environam.com; P.O. Box 24213, Windhoek, on or before **03 February 2023**.

Regards,

Colin P Namene

Dear Interested and Affected Party

We have the pleasure to inform you that the draft Environmental Scoping Report (DESR) and draft Environmental Management Plan (EMP) for the abovementioned project have been completed.

We herewith notify all registered Interested and Affected Parties that the document is available for public comment from **13 April 2023 to 27 April 2023**.

Please find the attached Executive Summary for your attention.

The Draft Environmental Impact Assessment Report, EMP and relevant documentation are available via the following Link:

https://drive.google.com/drive/folders/1-jhYbksFd8yVvWI3z9sLyvJ8LgKDrKpy?usp=share_link

Kindly provide your written comments and input to Environam Consultants Trading on or before **27 April 2023**, using any of the following methods:

P. O. Box 24213, Windhoek
Tel: +264 81 458 4297
Email: colin@environam.com
Fax: +264 61 258 470

Input received during the comment period will be incorporated into the Final Environmental Scoping Report that will be submitted to the Office of the Environmental Commissioner in the Ministry of Environment, Forestry and Tourism for consideration and decision making.

Kindly feel free to contact us for any further information.

Regards,

Colin P Namene

Dear Colin

I hope you are doing well, and thank you for sharing the BID with us!

The route for the 11kV OHL which has connect the PV project with Nored station, is that not supposed to form part of the EIA?

And also, take note that, there is an existing 66kV NamPower powerline running from the Zambezi substation to the Katima Mulilo substation, and this powerline has a 25 meters servitude right on both sides.

Kind Regards,

Subject: ENVIRONMENTAL IMPACT ASSESSMENT FOR THE CONSTRUCTION OF THE ORE 50MWAC SOLAR PV POWER PLANT IN KATIMA MULILO, ZAMBEZI REGION

Dear Interested and Affected Party

We have the pleasure to inform you that the draft Environmental Scoping Report (DESR) and draft Environmental Management Plan (EMP) for the abovementioned project have been completed.

We herewith notify all registered Interested and Affected Parties that the document is available for public comment from **13 April 2023 to 27 April 2023**.

Please find the attached Executive Summary for your attention.

The Draft Environmental Impact Assessment Report, EMP and relevant documentation are available via the following Link:

https://drive.google.com/drive/folders/1-jhYbksFd8yVvWI3z9sLyvJ8LgKDrKpy?usp=share_link

Kindly provide your written comments and input to Environam Consultants Trading on or before **27 April 2023**, using any of the following methods:

P.O. Box 24213, Windhoek
Tel: +264 81 458 4297
Email: colin@environam.com
Fax: +264 61 258 470

Input received during the comment period will be incorporated into the Final Environmental Scoping Report that will be submitted to the Office of the Environmental Commissioner in the Ministry of Environment, Forestry and Tourism for consideration and decision making.

Kindly feel free to contact us for any further information.

Regards,

Colin P Namene

Subject: Re: ENVIRONMENTAL IMPACT ASSESSMENT FOR THE CONSTRUCTION OF THE ORE 50MWAC SOLAR PV POWER PLANT IN KATIMA MULILO, ZAMBEZI REGION

Mr. Namene,

Please provide us with the Lat/Long coordinates for the two sites. We will like to view it in relation to our Mpacha Airport.

Provide the coordinates in the format similar to : 17°37'53.35"S, 24°10'38.33"E.

Thanks in advance.

Kind regards,

Ralph A. !Gaoseb, PrEng

Subject: ENVIRONMENTAL IMPACT ASSESSMENT FOR THE CONSTRUCTION OF THE ORE 50MWAC SOLAR PV POWER PLANT IN KATIMA MULILO, ZAMBEZI REGION

Dear Interested and Affected Party

We have the pleasure to inform you that the draft Environmental Scoping Report (DESR) and draft Environmental Management Plan (EMP) for the abovementioned project have been completed.

We herewith notify all registered Interested and Affected Parties that the document is available for public comment from **13 April 2023 to 27 April 2023**.

Please find the attached Executive Summary for your attention.

The Draft Environmental Impact Assessment Report, EMP and relevant documentation are available via the following Link:

https://drive.google.com/drive/folders/1-jhYbksFd8yVvWI3z9sLyvJ8LgKDrKpy?usp=share_link

Kindly provide your written comments and input to Environam Consultants Trading on or before **27 April 2023**, using any of the following methods:

P.O. Box 24213, Windhoek
Tel: +264 81 458 4297
Email: colin@environam.com
Fax: +264 61 258 470

Input received during the comment period will be incorporated into the Final Environmental Scoping Report that will be submitted to the Office of the Environmental Commissioner in the Ministry of Environment, Forestry and Tourism for consideration and decision making.

Kindly feel free to contact us for any further information.

Regards,

Colin P Namene
