LaLiga in the bag, but Barcelona still face huge problems

Barcelona may have won the LaLiga title on Sunday, but their outstanding domestic campaign has been somewhat overshadowed by turmoil off the pitch, including deepening financial problems and a refereeing scandal that could drag on for years.

Spanish prosecutors in March filed a complaint over alleged payments Barcelona made from 2001 to 2018 totalling €7.3 million to firms owned by former refereeing official Jose Maria Enriquez Negreira. A Barcelona court has agreed to take on the case.

Also in March, European football's governing body Uefa opened its own formal investigation into the club, looking into the same payments.

The club has denied any wrongdoing, saying that it paid an external consultant who supplied it with "technical reports related to professional refereeing", something many clubs do.

But Negreira was the vice-president of the refereeing

committee of the Spanish Football Association - one of the highest refereeing officials in the country - from 1993 to 2018, covering the entire period concerned.

However the case may play out, it has dealt a massive blow to the club's image, and could continue to do so as the legal process and Uefa's separate probe drag on.

And it comes at a time when Barcelona are already facing huge accounting problems related to their massive wage bill, to the Covid-19 pandemic, and to the club's 1.6 billion Euro renovation

project. Restricted by LaLiga's Financial Fair Play (FFP) rules, Barca were unable to re-sign club great Lionel Messi, who left as a free agent for Paris St Germain in the summer of 2021.

According to LaLiga, Barca are still about €200 million over the cap, and remain unable to register new contracts signed months ago with defender Ronald Araujo and midfielder Gavi, key players whose future is in doubt unless the club finds a way to fit them into its budget. - *Supersport.com*

PET FRIENDLY WINTER TIPS

HIDING IN THE HOOD - Warm engines attract cats and small animals. Bang your hood before starting the engine.

BE ALERT - Signs of Hypothermia include shivering, whining, sluggish or anxious behavior.

STAY INDOORS - Keep pets (cats, dogs, etc) inside at night, temperatures drop significantly at sun-down. Consider providing dry, well-insulated shelter for feral and neighborhood cats too.

GET COZY - Provide warm beds for naps. Keep your pets warm. If it's too cold for you to stay outside, it's too cold for your pet. Although some breeds can withstand colder temperatures, it is important to supply adequate housing with clean and dry blankets. Always have a clean water supply and food.

SUPERVISED CAR TRAVEL - Never leave your pet in the car. Even in winter, temperatures in Namibia can fluctuate quickly and result in hypothermia or overheating!
