

Public Announcement

Notification of the start of the EIA process for the project was advertised in two Namibian national newspapers, Republikein and Confidante, in accordance with Section 21 (2) (c) of the EMA Act No. 7 of 2007. Attached as Appendix A. The advertisements essentially informed the public about the project and the EIA study, as well as inviting them to participate. In addition, the newspaper advertisements asked I&APs to register.

There was no issue raised, and the public was delighted and eager to help in any way they could because they see the development as very own.
