

REPUBLIC OF NAMIBIA

PRO-FORMA ENVIRONMENTAL CONTRACT

WHEREAS the Applicant/Company referred to below, has been notified under section 48(4) of the Minerals (Prospecting and Mining) Act, 33 of 1992 (hereinafter "the Act"), that the Minister of Mines and Energy is prepared to grant the applicant a _____ subject to certain terms and conditions and;

WHEREAS such terms and conditions include the condition precedent that the applicant enters into an Environmental Contract with the Government of Namibia;

IT is hereby agreed as follows:

1. PARTIES

The parties to this contract are Guetho W. Van Schalkwyk (hereinafter referred to as "the Holder") being the holder of Non-Exclusive Prospecting Licence/Exclusive Prospecting Licence/Reconnaissance Licence/Mining Claim(s)/Mining Licence (~~delete those not applicable~~) number 9941 MC74554

on the one hand, and THE GOVERNMENT OF NAMIBIA (hereinafter referred to as "the Government")

duly represented by: THE MINISTRY OF ENVIRONMENT & TOURISM (MET), and THE MINISTRY OF MINES & ENERGY (MME)

on the other.

2. GENERAL OBLIGATIONS

- 2.1 The provisions contained in this contract are in addition to and do not detract from any obligations which the Holder may have under the Act.
- 2.2 The Holder recognises that its prospecting/mining operations may have significant impacts on the environment. Accordingly the Holder undertakes that during the course of its operations it will take every practicable step necessary to ensure the mitigation of such impacts. In doing so it will liaise with MET and MME as provided for in 3.3 and 4 below.
- 2.3 In particular the Holder will undertake necessary and adequate steps to ensure that environmental damage is reduced to a minimum and prevented insofar, as is practicable.
- 2.4 Should the Holder not carry out its environmental obligations it shall be liable for the environmental damage which may result. In this regard the Government reserves the right to:
 - 2.4.1 demand at any time financial or other guarantees to restore the environment or mitigate environmental damage which has, or which may occur, as a result of the Holder's activities;

2.4.2 itself undertake such mitigatory or restorative measure and to recover the costs thereof from the Holder;

2.4.3 claim compensation for environmental damage, which may have been brought about by the Holder's activities.

2.5 The Holder shall on completion or suspension of its operations, ensure that the impact on the environment is minimised and that every reasonable and practicable step is undertaken to ensure that the environment is left in a reasonable state. The provisions of clause 2.4 apply *mutatis mutandis* to environmental damage evident after prospecting, mining or other operations have been suspended or completed.

2.6 The Holder acknowledges that should it apply for a mining licence in consequence of its prospecting or other operations, it will have to comply with Namibia's National Environmental Assessment Policy (Directorate of Environmental Affairs, January 1995) and that this will entail the carrying out of an Environmental Assessment (EA).

3. THE ENVIRONMENTAL CONDITIONS

3.1 In accordance with section 68(f) of the Act, which provides that an application for a licence shall contain particulars of the existing condition of the environment, an estimate of the effect which the proposed operations may have, and the proposed steps to be taken to prevent or minimise such effect, the Holder has attached Environmental Conditions marked "Appendix A".

3.2 The Holder acknowledges that once the MET and MME has determined that the information furnished in Appendix A is satisfactory, it will form part of this contract.

3.3 The Holder warrants that the information contained in Appendix A is to the best of its knowledge and belief true and correct and that it will notify the Government of any material changes therein. Should there be such material changes, the Government reserves the right to re-negotiate the terms and conditions of this agreement.

4. COMPLIANCE AND NOTIFICATION

4.1 The Holder acknowledges that the reports, which it is obliged to furnish to MME (which is provided for in the notice from the Office of the Mining Commissioner under section 48(4) of the Act), will include an Environmental Report.

4.2 The Holder acknowledges that officials from MME and/or MET may at any time conduct a compliance and/or performance inspection of its operations.

4.3 The Holder will keep records of its environmental performance and make these available to the officials referred to in 4.2.

SIGNED AT Windhoek ON THIS 10 DAY OF March 2023

For the Holder: Alan Schaefer

(Duly authorised thereto)

For the Government of Namibia:

Mr Timoteus Mufeti
Environmental Commissioner
Ministry of Environment and Tourism
And

Chirchir 09/06/2023

Ms Isabella Chirchir
Mining Commissioner
Ministry of Mines and Energy

REPUBLIC OF NAMIBIA

ENVIRONMENTAL QUESTIONNAIRE FOR MINING CLAIMS IN NAMIBIA

BEING APPENDIX A TO THE ENVIRONMENTAL CONTRACT

1. BACKGROUND INFORMATION

- 1.1 Companies/Natural persons applying for **MINING CLAIMS** must complete this questionnaire. (Please fill in ALL questions).
- 1.2 The answers provided in this questionnaire shall be regarded as commitments which will become part of the **Environmental Contract** between the Holder and the Government of the Republic of Namibia, duly represented by the Ministry of Environment and Tourism (MET) and the Ministry of Mines and Energy (MME).
- 1.3 Once the Holder has completed this questionnaire MET and MME will either accept/reject/request further information regarding the environmental commitments made therein. MET and MME reserve the right to add further conditions.
- 1.4 Once agreed to by all parties concerned, the completed questionnaire shall form part of the **Environmental Contract**.
- 1.5 **Please attach a map of the mining claim area and a copy of the application to register mining claims.**

2. Holder details

2.1 Name of Holder	Guelin W. Van Schalkwyk
2.2 Name of Mining Claim Holder (if different from 2.1)	
2.3 Telephone, Fax, Cell Phone and/or E-Mail	Tel: 081 366 8716 Fax: E-Mail: guelinewhke@gmail.com Cell: 081 366 8716
2.4 Postal Address Residential/Registered Address	P. O. Box 95267 Soweto Nauasport no1 Windhoek Rural Constituency
2.5 Reference Number	NEPL No: 9941 Expiry: 02/02/2024
2.6 Registered Number(s)	14/2/11/19941 MC 74554
2.7 Location (Farm, District, Region) of mining claim(s)	Windhoek Rural Constituency Khomas
2.8 Group(s) of Mineral(s) to be mined	BRT 1 SPS

2.9 How many people will work on your mining claim, and where will they live?

Number of people	Where will they live?
10-30	Peoples homesteads are 500 5km from the claim area, they stay at their homes

3. Environmental commitments

3.1 Pollution and Waste

3.1.1 What will you do with **normal litter** (e.g. Kitchen spoils, cans, bottles, paper, etc.)?

Bins will be available through suppliers from local recycling office or can create lids with openings. By picking up litter this can be recycle into something usefull again

3.1.2 What **industrial waste** will be generated and what will you do with it (e.g. old machinery, vehicles, building rubble, batteries, paint, thinners, vehicle oil, etc.)?

In many cases its unavoidable but its a criminal offence to dump hazadous industrial waste or dispose it outside of government regulations. We will arrange safe, responsible industrial waste local collection experts

3.1.3 Describe what type of **toilet facilities** will be provided.

Ablution units multihouse, this units are ready to use. easy to assembled and delivered to site in less time can either connected to sewerage line, if there is or waste can be disposed of chemical. can cope with hygiene and clean

3.2 Vehicle, earthmoving equipment, drilling and blasting

3.2.1 List the type and quantity of vehicles, earthmoving equipment, drilling equipment, and other machinery likely to be used on your mining claim (e.g. 2 x bakkies; 1 x bulldozer, etc.)

Vehicles:

3x four by four bakkies vehicle will be use. Its recommended when driving through remote areas

Earthmoving equipment:

mini Excavator will be use to remove minimum dirt. Scoop, a wheel tractor scraper. Steer loader and compact track loader & trucks that can only carry 30 to 50 ton

Drilling equipment:

There will be no drilling, so we don't need drilling equipment. We will only used Jack hampers.

Other equipment and/or machinery:

Metal Drilling Machine

3.2.2 Describe the environmental damage that is likely to result from the use of vehicles and machinery within the mining claim area (e.g. on the landscape in general, soil, vegetation, noise, dust, etc.).

Environmental awareness means a lot, being aware of the natural environment and making choices that benefit the earth, rather than hurt it. We truly believe in the power of ~~action~~ ^{small mining} than a livelihood, and sustainable environment activity, by all means we will support and educate miners the best practice by strengthening their knowledge in environmental conservation and proper environmental management. Humans impact environment air by air pollution, dust. Dust may affect respiration, Mine operation may result in land-use change, and may have associated negative impacts on environment including erosion, contamination and alteration of soil, streams and increase in noise level.

3.2.3 How will you control the movement of vehicles and machinery in order to minimise environmental damage?

Careless, reckless and unsafe operation of equipment is strictly prohibited. Each person who operates equipment must have a valid driver's license that legally operate the type of vehicle. Equipment operators make a preinspection: Barricade ^{will} must be provided to mark the work area. Speed limits must be obey. Involving and consulting with small miner.

3.2.4 Which routes will be used by vehicles to get to your mining claim and state whether you intend making new roads or tracks (both to your mining claim and within your mining claim)?

The routes that will be mainly used, will be B1, C23, C15, B2, C32 and C14

I am not intend to making any other new roads or track.

3.4 Relations with neighbouring communities and/or the general public

3.4.1 Are there any people living in or near your mining claim?

Yes: _____ No: NO Unsure: _____

3.4.2 If "yes", explain where these people live and describe their economic activities.

People are living 500m⁺ from my mining claim
5 km

3.4.3 If "yes" in 3.4.1, explain what you will do to maintain a good relationship with such people.

3.4.4 Will the activities on your mining claim restrict the movement of other people in the area (e.g. the general public, tourists, farmers, local people, etc.)?

Yes: _____ No: NO Unsure: _____

3.4.5 If "yes" for 3.4.4, please explain why their movements or access will be restricted.

3.5 Protection of plants and wildlife

3.5.1 How will you ensure that your activities will not cause unnecessary damage to **plants and wildlife** in or near your mining claim) e.g. hunting, plant collecting, fishing, etc.)?

I made a proper investigation before
apply for the mining claim, it would not
cause any unnecessary damage to
plant or wild life. There will be no
blasting or drilling.

3.6 Historical, archaeological and cultural heritage (e.g. rock art, graves, monuments, fossils, sacred sites, historical buildings, etc.)

3.6.1 Are there any historical, archaeological or culturally important sites within your mining claim area?

Yes: _____ No: NO Unsure: _____

3.6.2 If "yes", please describe briefly.

3.6.3 If such sites are known, how will you avoid damaging them?

With all means, I will avoid to damaging them

3.6.4 If such sites are discovered after you have started working your mining claim, would you accept new conditions to this contract so that they can be properly protected?

Yes: Yes No: _____ Unsure: _____

3.7 Rehabilitation

3.7.1 When will you rehabilitate the environmental damage done during prospecting? (Tick the appropriate box)

I have no intention of rehabilitating any damage _____
On a continuous basis (i.e. simultaneous with prospecting) [x]
Only after all prospecting has finally been completed _____
I don't know _____

3.7.2 Describe the programme of mining from the start and the methods to rehabilitate damage.

The small Schale mining will operates through sequence of stages; first it will be exploration, discovery, development, production and reclamation. All this stages provides direct economic stimulus. Most common and affective restoration activity of rehabilitating will be from our side tree planting, coral rehabilitation, natural ground water filtration. To get return a vegetate cover to stop erosion. Make sure no ground water to be blast.

4. Existing Damage

Describe what environmental damage exists in your mining claim area now, in other words, damage caused by someone else before you began working on the mining claim. Where possible, provide evidence such as photos, statements, etc.

With the inspection I have done before applying I did not observe any damage. Will do any thing with my power not to damage the environment.

I hereby declare that the information provided in this questionnaire, is to the best of my knowledge, accurate and correct, and that I'm prepared to keep to the commitments stated therein.
