

Project Background Information Document

Environmental Scoping Assessment for Kunene Grapes and Citrus Et Al (Proprietary) Limited in Otjomaungu village in Kunene Region, Namibia

1. WHAT DOES THIS DOCUMENT TELL YOU?

This document aims to provide you, as an Interested and/or Affected Party (I&AP), with background information regarding the application for Environmental Clearance Certificate for the proposed grape and citrus project in the Kunene Region. (Refer to Section 9: Locality Map), and Section 6 on the required environmental studies to be undertaken.

Any person, company, authority or other entities that might be directly or indirectly affected by the proposed activity can register as an Interested or Affected Party (I&AP). This includes, but is not limited to landowners, tenants, municipal and provincial authorities, interest groups, Non-Government Organisations and conservation groups.

This document further indicates how you can become involved in the project, receive information, or raise issues which may concern and/or interest you. The sharing of information forms the basis of the Public Participation Process and offers you the opportunity to become actively involved in the project from the outset.

2. STUDY AREA PROFILE

The two agricultural fields are situated in Kunene Region and extend across close to the Kunene River, some 16 kilometres west of Ruacana. All are situated in the Ruacana District and are accessible via gravel road (D3700).

3. SITE DESCRIPTION

The agricultural plot is located on the north-western plains, some 16 kilometres west of the town of Ruacana, bordering Angola towards the north. The plots are located in close proximity to the Kunene River and in some cases, the allocated land stretches along the Kunene River. The vegetation in the study area can broadly be classified as the western highlands thornbush shrubland.

4. PROJECT DESCRIPTION

Kunene Grapes and Citrus Et Al (Proprietary) Limited seeks to become active at planting and harvesting agricultural fruits such as grapes, citrus and avocado plantation in the northern western part of Namibia.

Kunene Grapes and Citrus Et Al (Proprietary) Limited has applied for about 670 hectares of land in Otjomaungu village in the Epupa Constituency. The allocated land is granted for grape projects.

Kunene Grapes and Citrus Et Al (Proprietary) Limited is a wholly owned Namibian company planting and harvesting grapes, citrus and avocados in the North Western part of Namibia. The agricultural activities will be conducted concurrently across the applied plot and is expected to be conducted throughout the two plot areas.

The planting and harvesting and the related agricultural activities are a listed activity in terms of the Environmental Management Act No. 7 of 2007, thus requiring an assessment.

5. POTENTIAL ENVIRONMENTAL IMPACTS ASSOCIATED WITH THE PROPOSED PROJECT

Potential environmental impacts associated with the proposed development have been identified and will be assessed in the Environmental Scoping / Impact Assessment (EIA) study. Specialist inputs which will form part of the EIA study includes:

Table 1: Relevant potential impacts

SPECIALIST FIELD	ORGANISATION
Socio-Economic	Augite Enviro Investments cc
Air / Noise Pollution	
Ecological Baseline	
Archaeological Baseline	To be appointed

A high animal diversity and endemism of mammal particularly birds and reptiles can be found in in the areaThis formed the catchment area of several major ephemeral rivers. Much of the area lies between 500m and 1000m above sea level and consists of metamorphic rock.

6. ENVIRONMENTAL STUDIES

An Environmental Impact Assessment (EIA) is an effective planning and decision-making tool, which allows for the identification of potential environmental consequences of a proposed project.

Listed activities to be applied and assessed in the EIA study will include:

Table 2: Relevant listed activities

LISTED NOTICE	ACTIVITY
GG. 4878 R.29	3 (3.2 & 3.3.) Agricultural and irrigation activities

As part of this EIA process all I&APs will be actively involved through a public participation process. The project will consist of three major phases as illustrated in Figure 3:

- 1) Phase 1: Application for Environmental Authorisation;
- 2) Phase 2: Environmental Scoping Phase; and
- 3) Phase 3: Environmental Impact Phase Study and Environmental Management Programme (EMPr)

These three phases will culminate in the approval or rejection of the project i.e. positive or negative Environmental Authorisation.

7. YOUR ROLE AS AND I&AP

If you consider yourself an I&AP for the proposed project, we encourage you to make use of the opportunities created through the Public Participation Process to become involved in the process and raise the issues and concerns which affect and/or interest you, and about which you require more information.

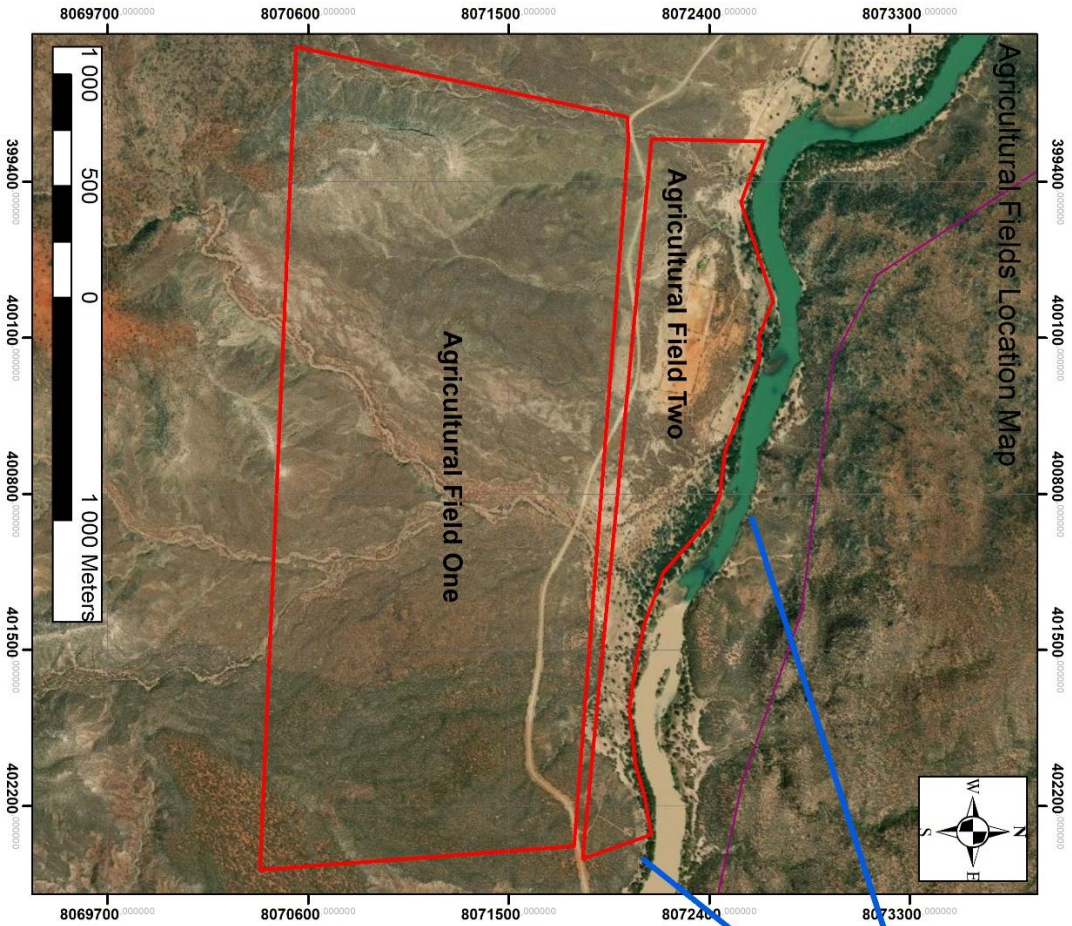

By completing and submitting the accompanying registration form, we will ensure that you are registered as an I&AP for the project, and ensure that you are provided with future information pertaining to the project as well as the availability of the draft and final for comments.

8. COMMENTS AND QUERIES

Please direct all comments, queries or inputs to:
