Dear Mr. Hishongwa,

**SUBJECT: SUPPORT TOWARDS THE SETTING UP OF EENGHONO HYBRID POWER PLANT IN OSHIKUNDE, OHANGWENA REGION.**

The energy sector remains one of the essential pillars for Namibia's economic development ambitions. The ability for Namibia to achieve a sustainable energy mix is an ambition that the Ministry is willing and able to support within our mandate to stimulate and promote the growth of the wider energy sector within Namibia.

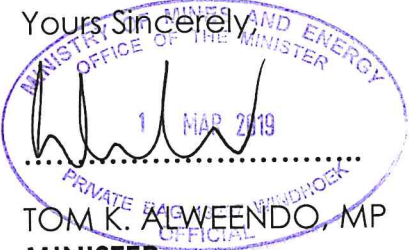

It is within this context and following your engagements with the Ministry that I would like to lend my support to Eenghono Power Pty (Ltd) for the development of the proposed Eenghono Hybrid Power Project in Oshikunde, Ohangwena region. The ministry will continue to support sustainable private sector investments in projects such as yours for the achievement of our national development objectives as captured in policies such as the Harambee Prosperity Plan, Growth at Home Strategy and the National Development Plan V within Vision 2030

I encourage you to continue to diligently consult the necessary public and private sector stakeholders to ensure that your project complies with all national and

international legislative, environmental and regulatory imperatives that will ensure the sustainable development of this project.

My office remains open for further engagements as your project develops.

Yours Sincerely,
