**Re: PETROLEUM CONSUMER INSTALLATION FOR ZED INVESTMENT**

1. This letter serves to certify that ZED Investment has a potential to supply petroleum for consuming.
2. ZED Investment was established in July 2008 with a purpose of providing services for the community and generating income. The purpose is to provide, handle and store petroleum and lubricants products. ZED Investment is allocated an area or piece of land by Ongandjera Traditional Authority at Otamanzi village.
3. The company is situated more than 35km from the areas with petroleum products. This makes it very difficult to the community members as they must drive almost every week to fill in vehicles that used for farming purposed. This will not only result in socio-economic benefits, but also create employment, combating crimes and generating income and addressing the problem of poverty.
4. Based on my own observation, if ZED Investment is acquiring the necessary assistance it will assist the community and that will alleviate great need of the services among the community.
5. It is against the above-mentioned background that, I have no objection to recommend ZED Investment to be offered with any assistance it is looking for.

Yours in Rural Development

*J. Iyambo*

Hon. Johannes Iyambo

Regional Councillor: Otamanzi Constituency
