Dear Mr Matatias,

Having perused the project proposal forwarded to us recently, herewith our comments:

1. The project proposal is feasible and once implemented, provides good prospects and an impetus for rural development, per se.

Once again, a very good initiative indeed and best wishes for the future.

Regards,

Martin Ndengu

## **11.8 ANNEX 8: INPUT FROM MINISTRY OF ENVIROMENT // ONGWEDIVA & ETOSHA**

Dear Moses,

I went through the project proposal, but I will really appreciate if your team make a proper presentation on the proposed project to the top management. **Attached is the map we made to see how far the proposed development is from the Etosha National Park Boundary.** The issue of Human Wildlife Conflict will increase drastically and might result in wildlife to be shot under the pretext of being problem individual.

Mr. Rehabeam can provide statistics of complained they receives on daily basis if needed, or you can do little bit of on ground survey, go to the settlements near the Etosha National Park that have crop fields, ask what their constant problem are? There is no mentioned of HWC in that proposed development that refers to the perceived “crop raiders”, therefore, expand your ground work to those settlements too. Get a balance views on the issue before making appointment to present at MEFT management. Having that proposed development near Etosha National Park in 'lay-man' term is enticing the wildlife to exit the park to greener vegetation (crop field).

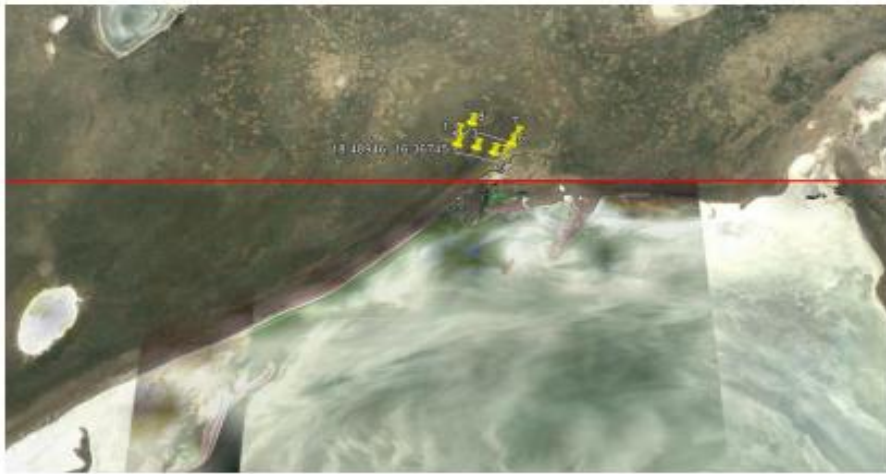

Personally, I prefer the team to explore a different location for the proposed development, which is very far from the ENP fence.

I copied some people who are in the management to peruse through the proposed development proposal and also to view the quick map we made in relation to the proposed development.

Kind regards,

**Marthin Kaukaha Kasaona**  
**Deputy Director**

[mkkasaona@hotmail.com](mailto:mkkasaona@hotmail.com)  
[m.kasaona@met.gov.na](mailto:m.kasaona@met.gov.na)

The proposed project is about 1 km from the northern boundary in the Onanke area.
