

ADMINISTRATOR,

WINDHIEK.

30 MAR 1926

THE MAGISTRATE : SWAKOPMUND.

DISTRIBUTION OF GAME IN S. W. AFRICA.

With reference to my circular minute No. A. 205/10 of the 4th. February last, the Magistrate, Karibib, has advised me that he has included in his estimate, particulars relating to game and other animals found in the portion of your District which falls within the Usakos Periodical Court Area. When submitting your estimate, will you, therefore, kindly exclude that portion of your District.

MAGISTRATE  
BUREAU

Duikers.

Ref. F. 3547

Surveyor-General's Office Windhoek 1925

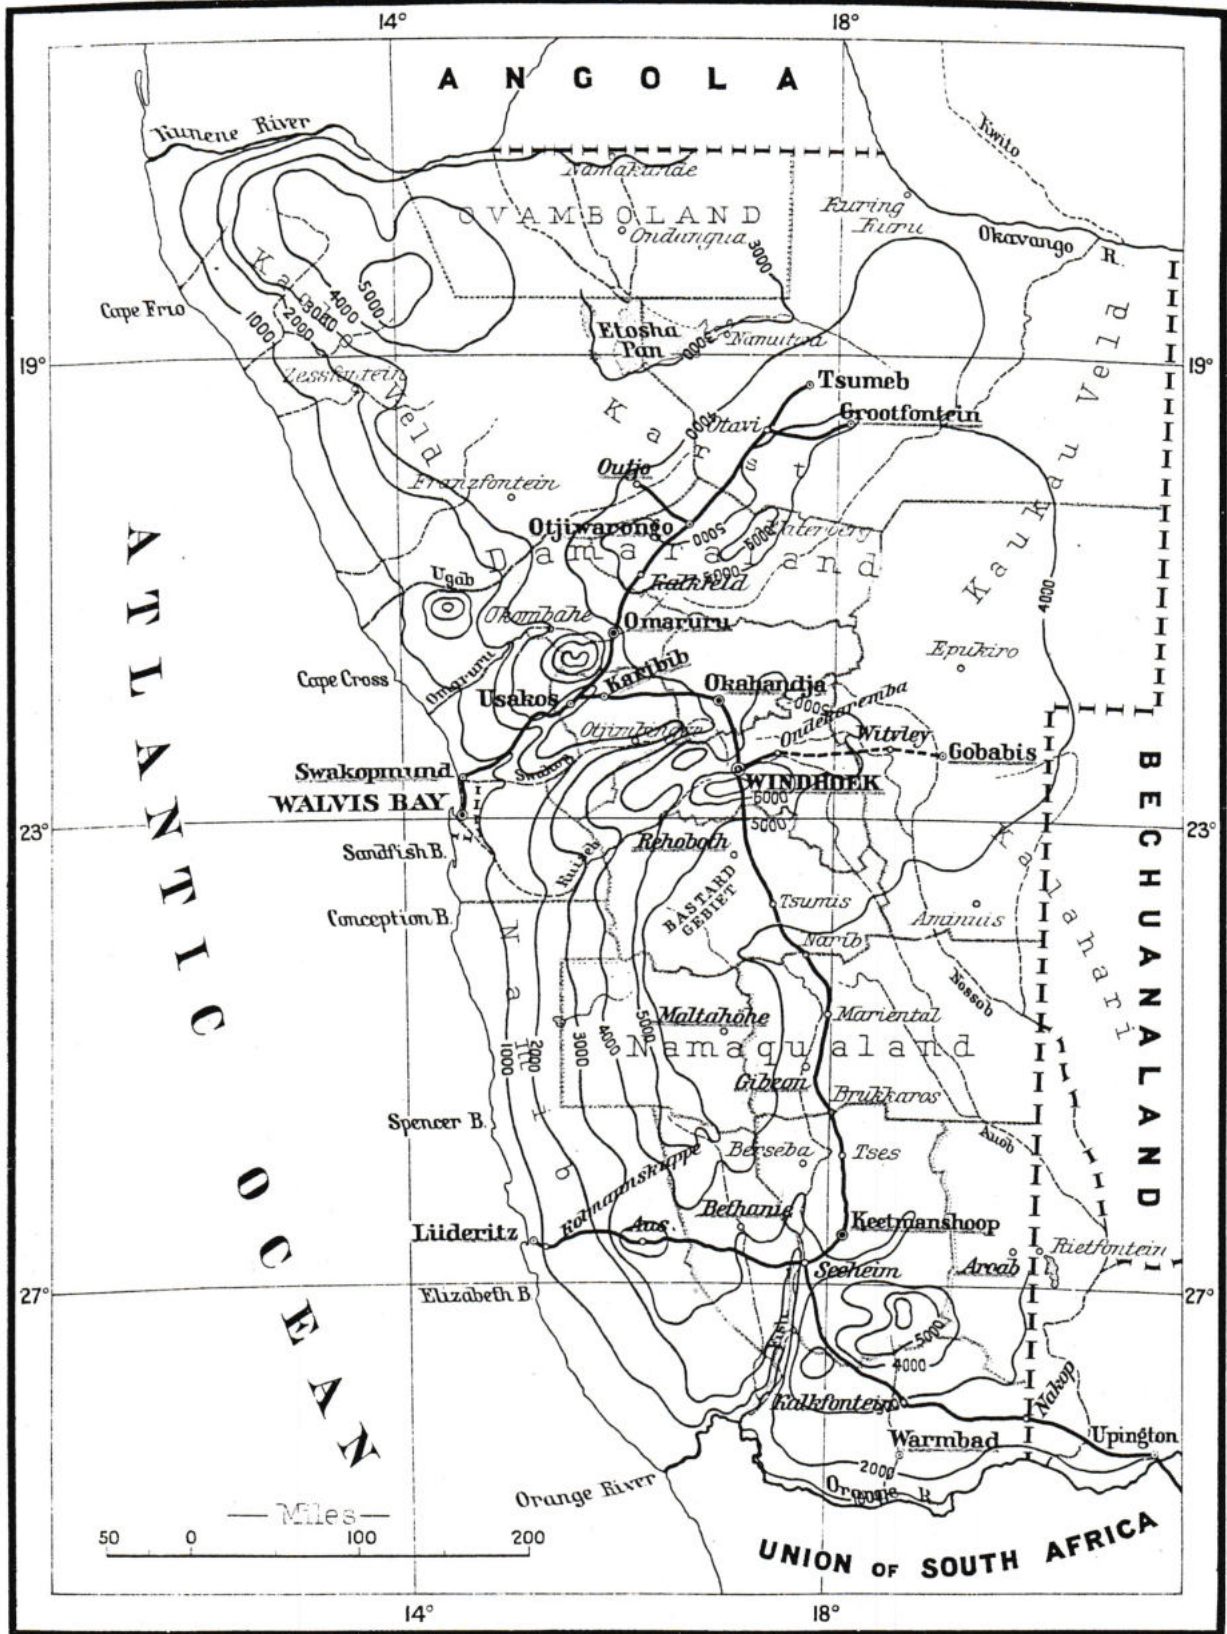

**SOUTH-WEST AFRICA**

Altitudes ..... —1000— (Feet)

District Boundaries .....

*Duikers are not plentiful; they are found along the Swakop River. Blue shaded portion indicates locality where the animals are to be found.*

Ref. F. 3547

Surveyor-General's Office Windhoek 1925

### SOUTH-WEST AFRICA

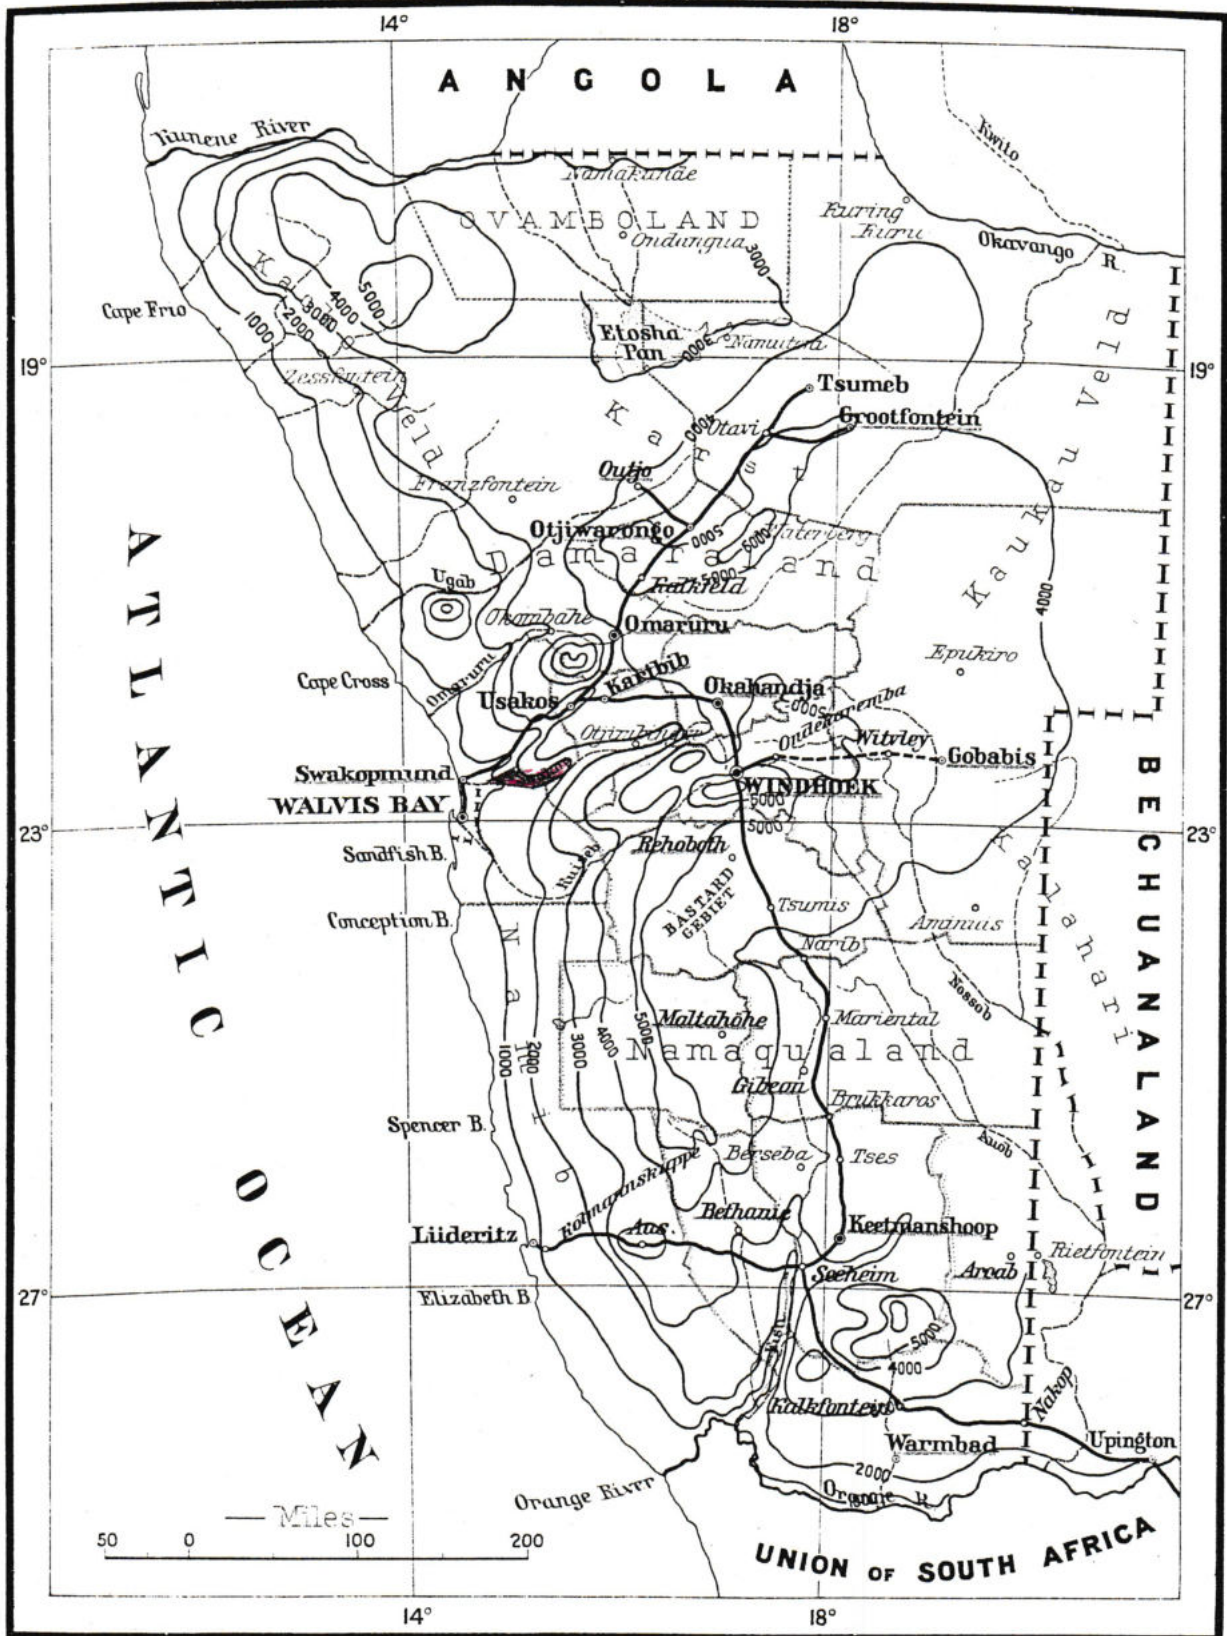

Altitudes ..... —1000— (Feet)

District Boundaries .....

*Gemsbuck occur sparingly in the district. But in wet seasons they will be found widely distributed over the whole district. In dry seasons the animals are found in the area of the Tanka plants (near Spitz Koh)*

*Kudde.*

Ref. F. 3547

Surveyor-General's Office Windhoek 1925

### SOUTH-WEST AFRICA

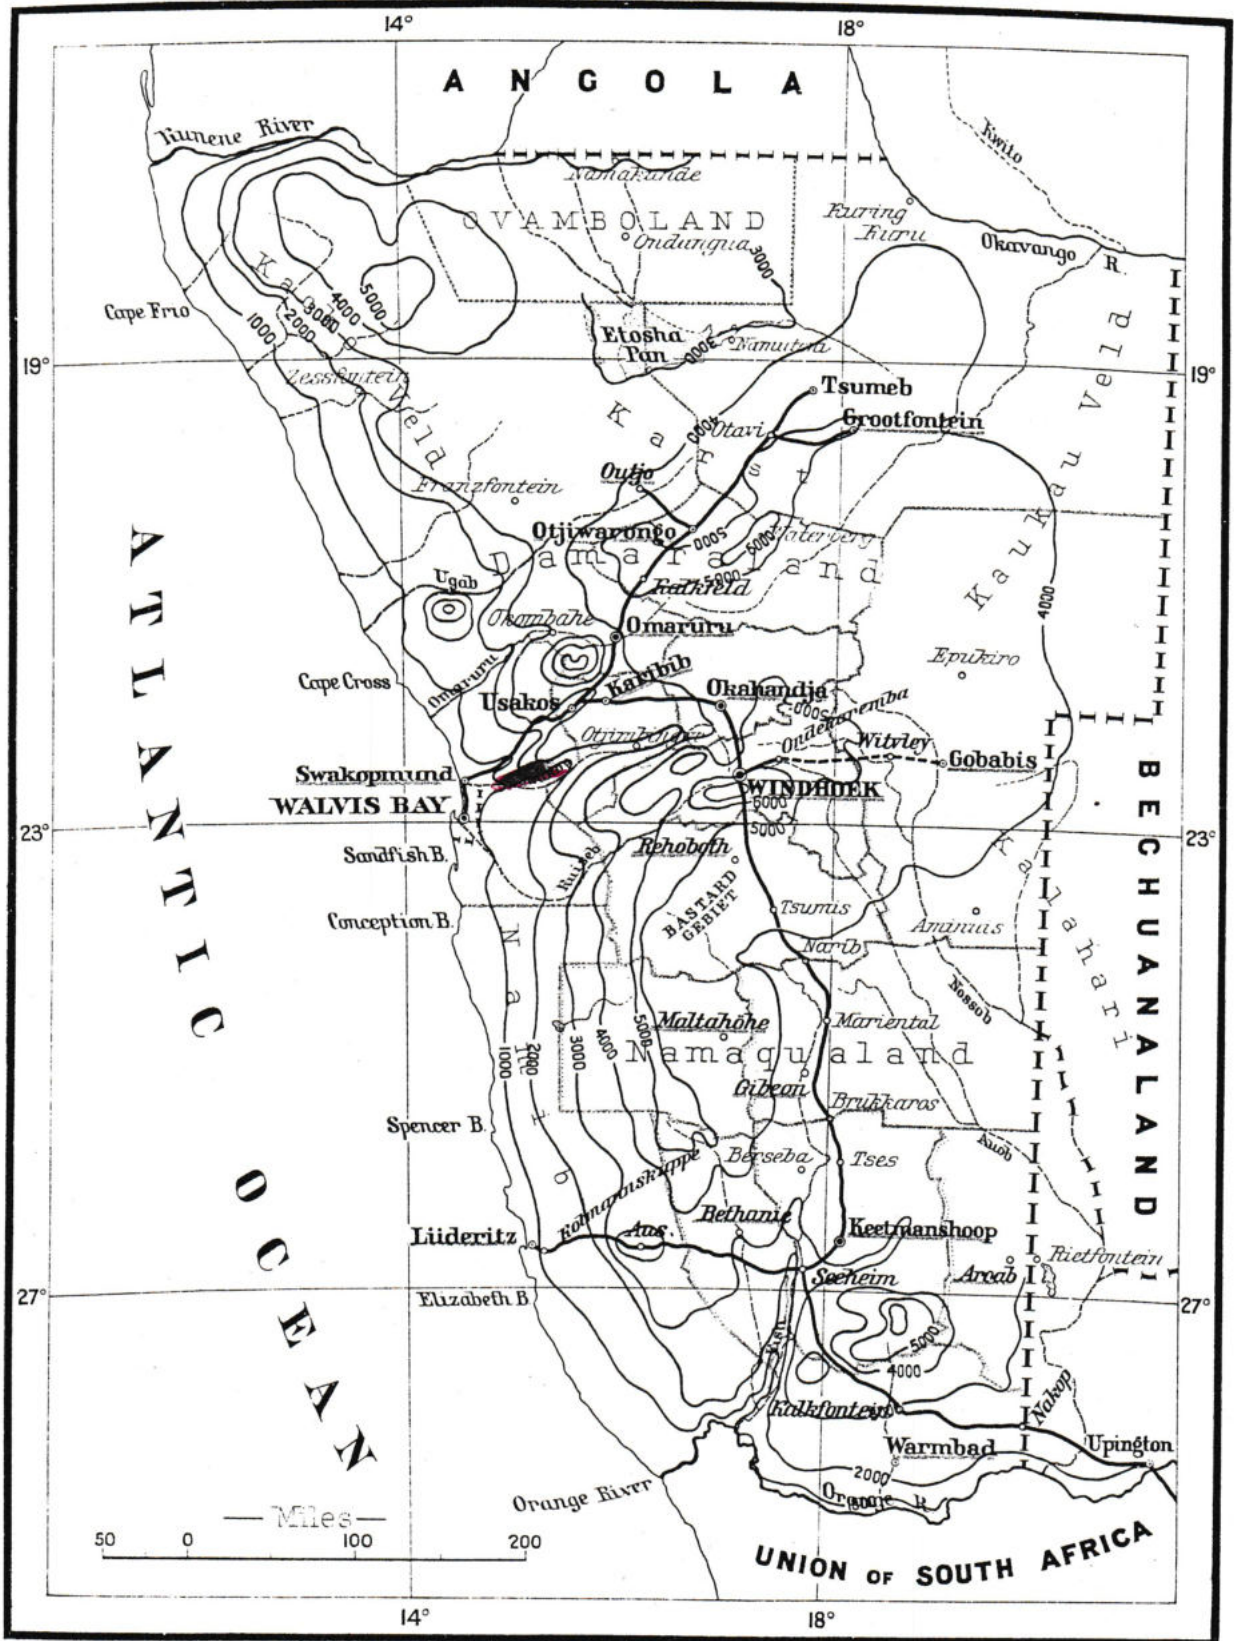

Altitudes ..... —1000— (Feet)

District Boundaries .....

*Kudde are to be found in the area of the Pforde Mountains, at Diepval, at Korabers and at Dorstbiermünd practically at all times of the year. These areas well shaded blue. During wet seasons the kudde wander over the whole district.*

*Klipspringers.*

Ref. F. 3547

Surveyor-General's Office Windhoek. 1925

**SOUTH-WEST AFRICA**

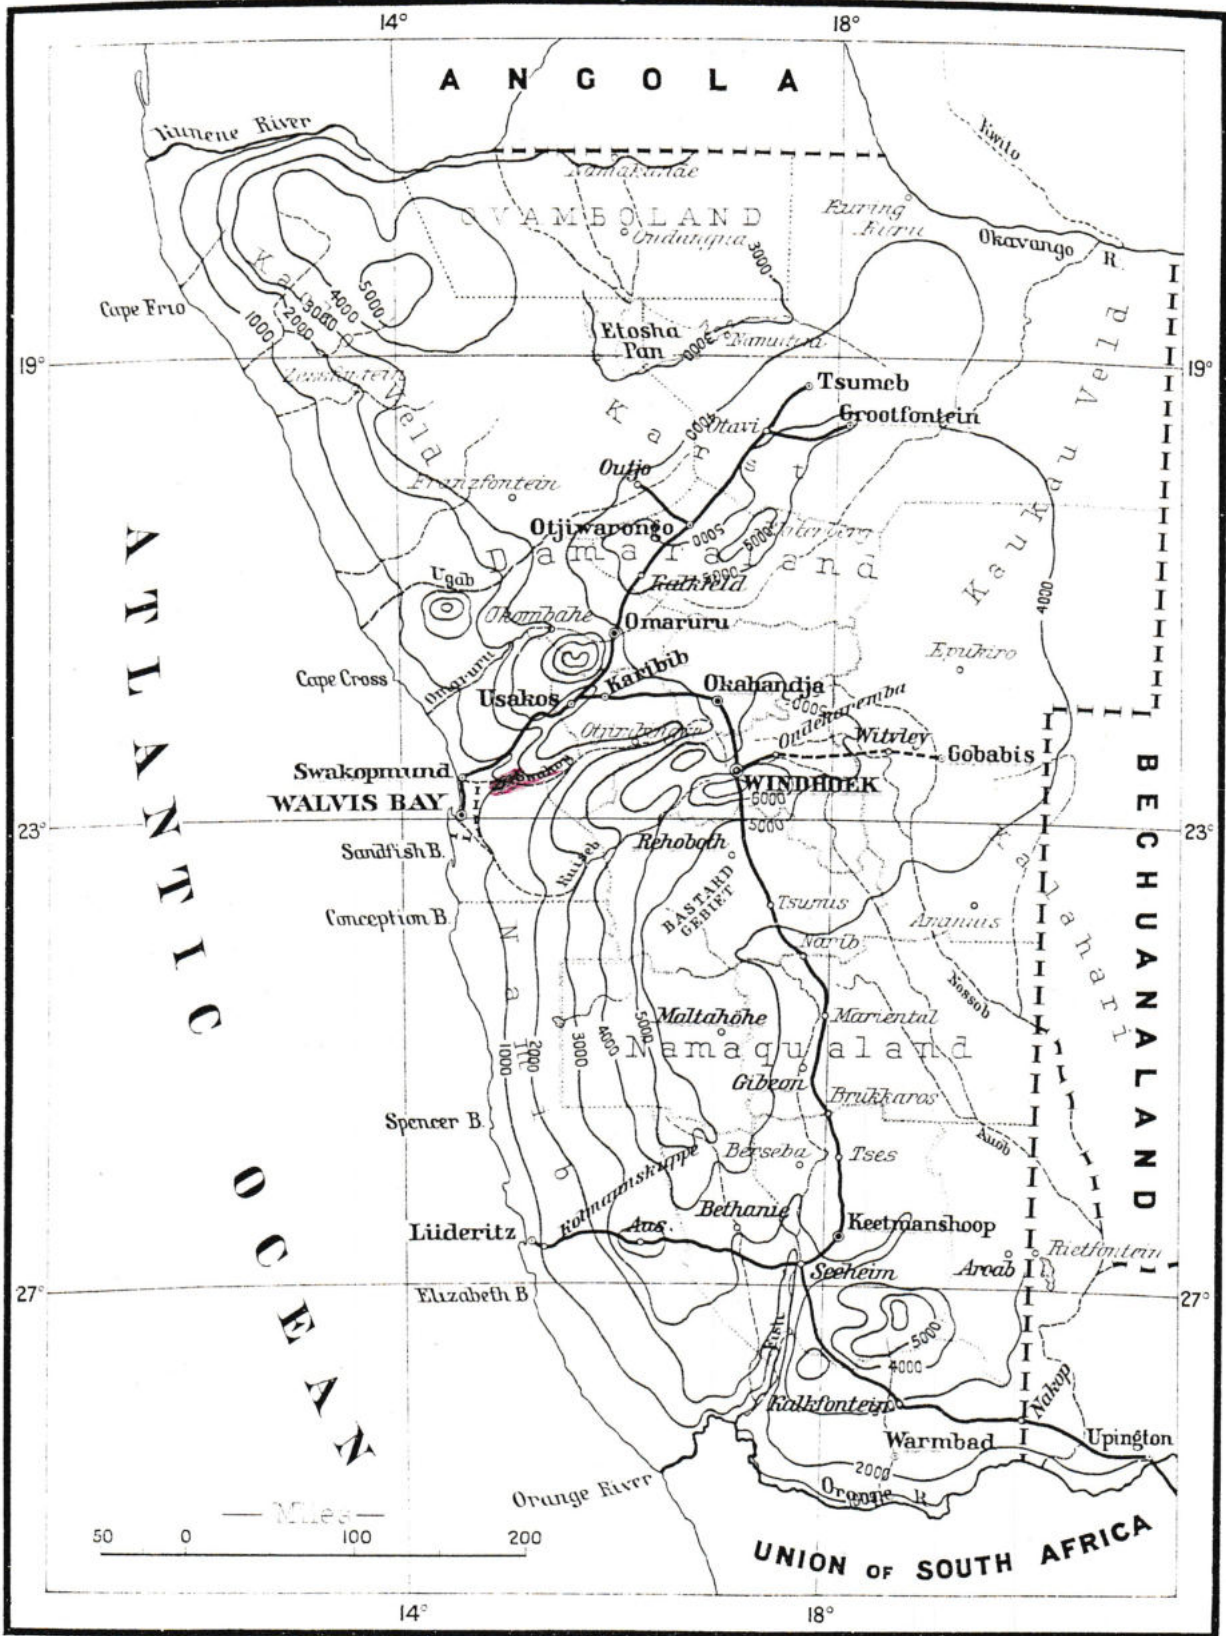

Altitudes ..... —1000— (Feet)

District Boundaries .....

*Klipspringers are to be found throughout the year in the area of the Pforde Mountains (shaded blue)*

*Springbuck*

Ref F. 3547

Surveyor-General's Office Windhoek. 1925

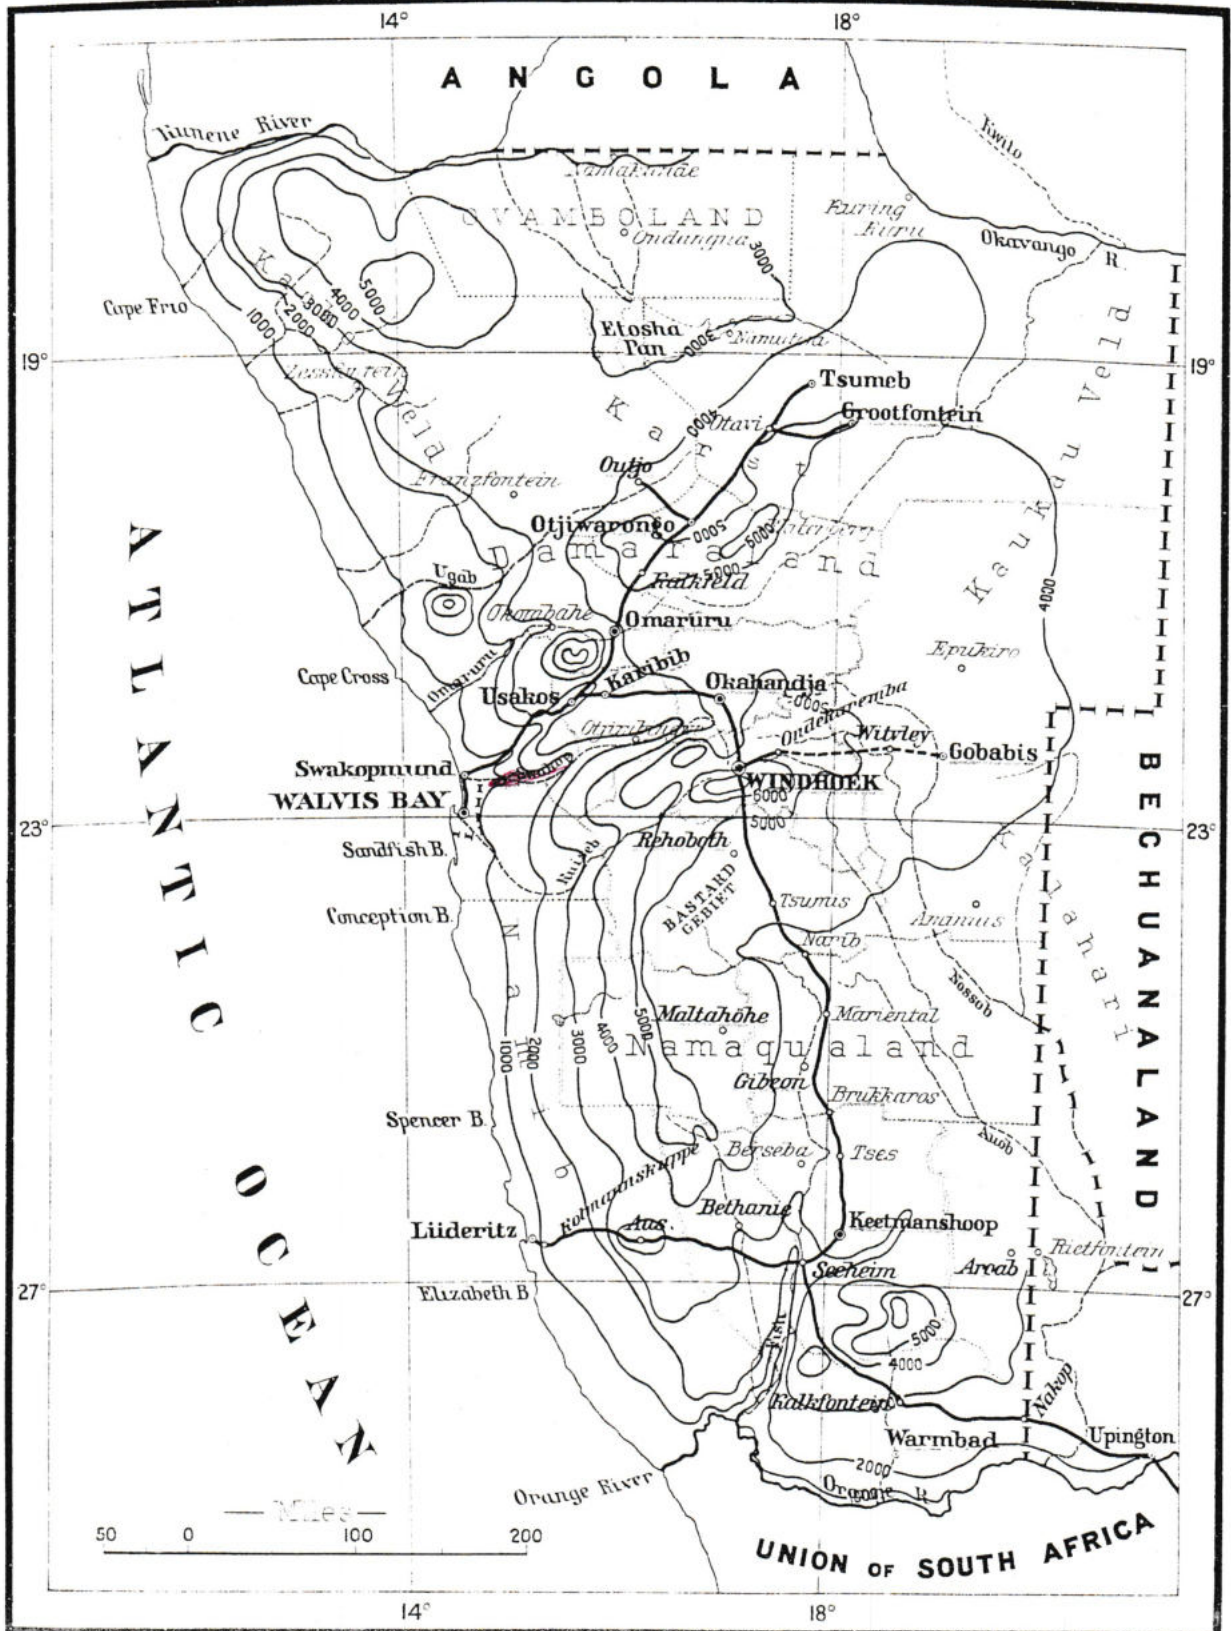

**SOUTH-WEST AFRICA**

Altitudes ..... —1000— (Feet)

(District boundaries)

*During wet seasons, Springbuck are to be found throughout the arid parts with the exception however, of the areas of the sand-dunes. In dry seasons, a few animals are to be found along the Swakop River and this area is indicated by the shaded portion (blue) hereon*

Steenbuck.
