Attention: Dr. Carol Garus -Oas

**RE: ENVIRONMENTAL MANAGEMENT PLAN FOR RIGHT-PATH'S
INSTALLATION OF AN ABOVE-GROUND OIL STORAGE TANK**

Herewith, we would like to inform you that the Okahandja Constituency Office is aware of the on-going EIA process for the above-mentioned project.

We, therefore, urge the environmental consultant to consider and make an assessment of all possible impacts relating to the proposed activities, and provide relevant and clear mitigation measures which Right-Path should entirely commit to, in order to prevent any negative issues, i.e. possible spillages, fires and explosions, resulting from the proposed oil storage tank.

In lieu of the above mentioned issue the Okahandja Constituency has no objection but to allow the envisage investor to continue with their feasibility study without any interruption, since this type of project is highly needed in my Constituency in order to create business hub and employment opportunities.

I hope you will find the above information in order.

Yours in Community development and progress

.....
Hon Bethuel Tjaveondja
Regional Councilor, MP
Okahandja Constituency

Otjzondjoo: Regionaal Council
