

FIGURE 22. The right sector for the right place

The map portrays which conservancies depend mostly on tourism income to cover their running costs, and those that rely mostly on trophy hunting or other game harvesting. Hunting is clearly a vital source of cash income in a lot of areas, without which many conservancies would not have been able to form and could not exist. Trophy hunting concessions in communal areas increased from five in 1997 to 44 in 2013, which also indicates a widespread recovery of the wildlife base.
