

monitoring numbers and trends for a healthy conservancy...

Current wildlife numbers and status

Species	Animals Seen 2014	Estimated population range	Wildlife Status		
			Count Trend	National Guideline	Desired Number
Elephant				Dark Orange	
Gemsbok				Green	
Giraffe				Red	
Jackal				Yellow	
Klipspringer				Green	
Kudu				Yellow	
Mtn. zebra				Orange	
Ostrich				Yellow	
Springbok				Yellow	
Steenbok				Green	

Wildlife Status

Count trend – gives the species status in the conservancy based on game count trend data.

National guideline – gives the species status in the conservancy using national guidelines for the conservancy; for example, lions may cause local problems, but are of high value and are rare at landscape level.

Desired number – gives the species status in the conservancy based on what the conservancy would like to have.

dark green (abundant) – there should be less;
light green (common) – the desired number is reached;
yellow (uncommon) – there should be more;
light orange (rare) – there should be more than double;
dark orange (very rare) – there should be more than triple;
red (extinct) – the species needs to be reintroduced.

Locally rare species

Sightings indicator □ 2012 □ 2013 □ 2014

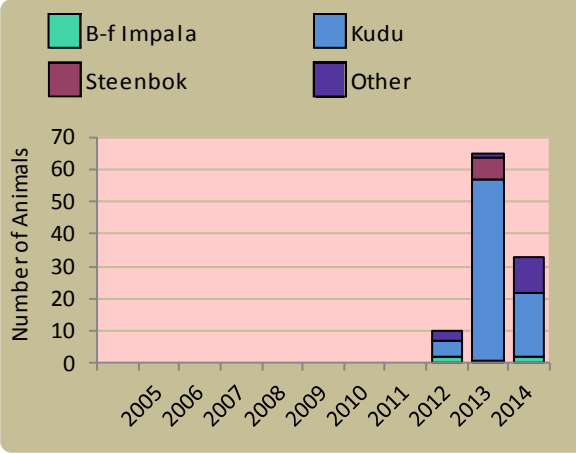

Locally rare and endangered species are not found very often in the conservancy and need special conservation attention.

Wildlife introductions

Wildlife mortalities

Annual rainfall

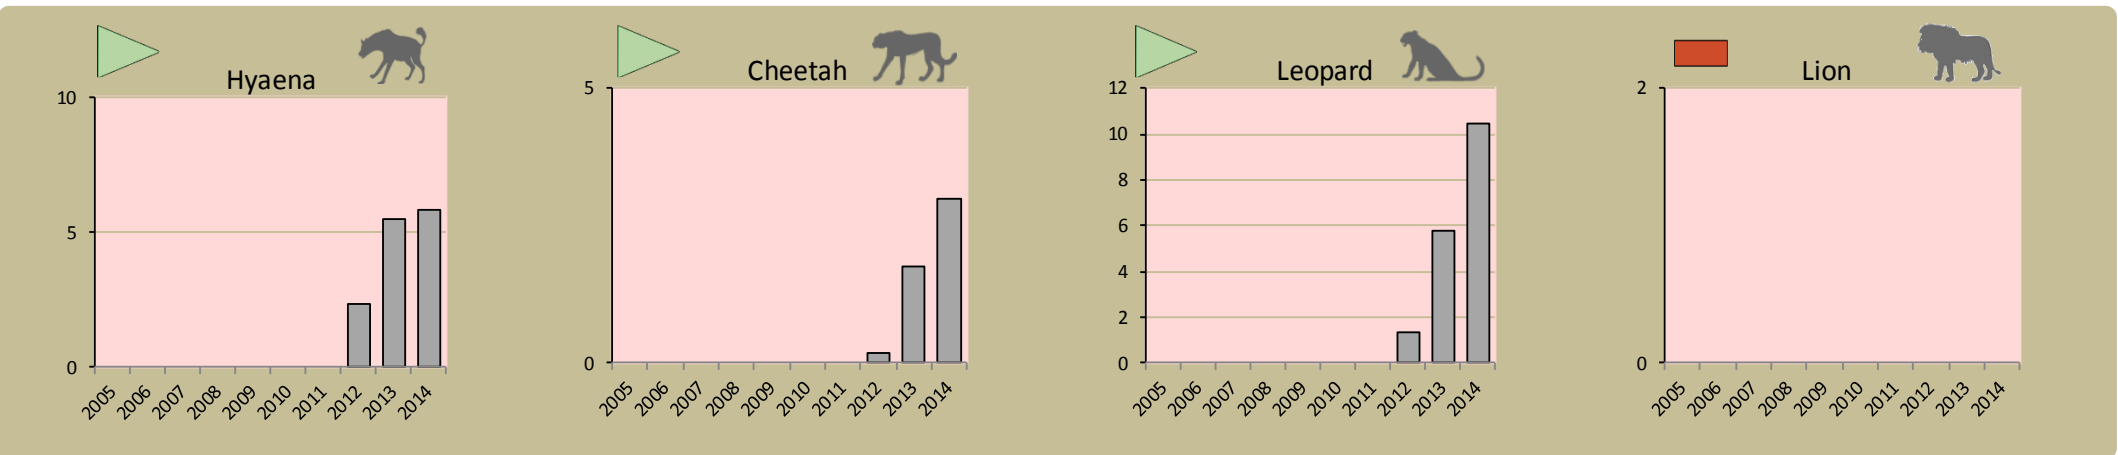

Annual game count

charts show the number of animals seen each year per 100 km driven during the game count status barometers reflect the general count trend over the last 5 years

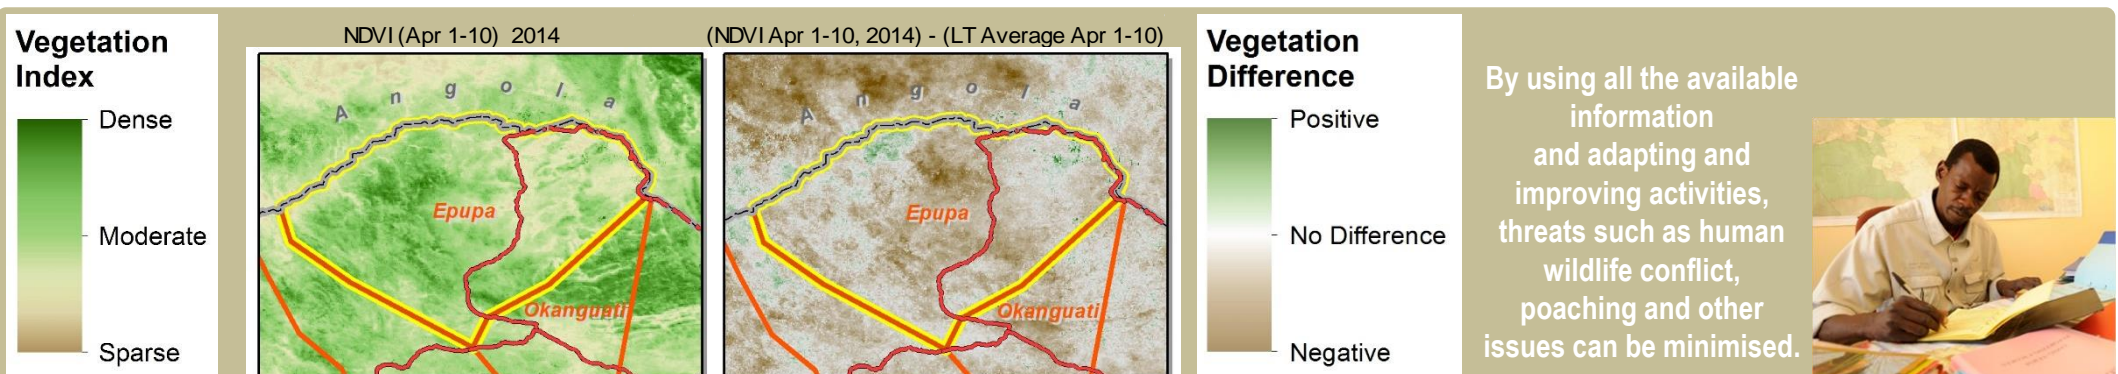

Predator monitoring

charts show the average number of animals seen per Event Book each year status barometers reflect the general sightings trend over the last 5 years

Vegetation monitoring

Green vegetation index (NDVI). Maps show vegetation cover in the first 10 days of April of the current year and the difference between the current year and the 10 year average (2001-2010)

Enabling wise conservancy governance...

Conservancy statistics

Date Registered:	October 2012
Members:	360
Size (square kilometres):	2912

Conservancy Governance

Number of management committee members:	13
Date of last AGM:	30 October 2014
Attendance at AGM:	Men: 77; Women: 33
Date of next AGM:	30 October 2015
Other important issues	
Financial report approved?	✓
Budget approved?	✓
Work plan approved?	✓

Constitutional adherence

Approved constitution	✓
AGM held	✓
Management and utilisation plan	✓
Financial annual report	✓
Benefit distribution plan	✓
Audit of the constitution	✗

Employment

Conservancy staff: Male	2
Female	0
Community game guards:	8
Community resource monitors:	0
Lodge staff: Male	10
Female	11

Benefits

Traditional Authority	
Meat Distribution	

Conservancy Self Evaluation How well does the conservancy consider it has performed in the past year?

Effectiveness of implementation	Poor	Fair	Good	Explanation of effectiveness rating
Game Utilisation and Management Plan			✓	We have tried very hard to encourage farmers and they do it.
Zonation Plan				
Natural Resource Plan				
Human Wildlife Conflict Plan			✓	Because farmers do what we encourage them to do.
Tourism Plan		⚠		Because there is a delay in the paying within the agreed period.
Sustainable Financial Plan		⚠		Need financial management training
Benefit Distribution Plan			✓	We give whenever requested.
Staff Plan		⚠		The training they received was not enough and the treasurer was not at the training.
Assets Plan		⚠		They don't have assets yet.
HIV/AIDS Plan			✓	Is done at every community meetings
Communication Plan			✓	Message is reaching the member were needed.
