

maximising wildlife returns by minimising threats...

Conservancy status summary

Returns from natural resources in 2014

the chart shows the main sources of returns and values and their percentage of the total returns

Approximate Total Returns N\$ 1,720,570

Two of the most significant returns for the conservancy:  
 ✓ cash income to the conservancy to cover running costs and invest in developments  
 ✓ employment to conservancy residents

Conservancy income		N\$
Employment	Private Sector	
	Conservancy	

Cost of natural resource conflicts in 2014

estimates are based on average national values

Estimated human wildlife conflict cost	N\$ 0
Estimated poached high value species loss	N\$ 0
<b>Total conflict cost estimate</b>	<b>N\$ 0</b>

Natural resource cost-return ratio in 2014

the chart shows the approximate ratio of returns to costs

Management performance in 2014

Category	Score	Performance
1 Adequate staffing		
2 Adequate expenditure		
3 Audit attendance		
4 NR management plan		
5 Zonation		
6 Leadership		
7 Display of material		
8 Event Book modules		
9 Event Book quality		
10 Compliance		
11 Game census		
12 Reporting & adaptive m/ment		
13 Law enforcement		
14 Human Wildlife Conflict		
15 Harvesting management		
16 Sources of NR income		
17 Benefits produced		
18 Resource trends		
19 Resource targets		

Wildlife status summary in 2014

Key to the status barometer

Conservancies reduce environmental costs while increasing environmental returns. Returns from wildlife can far outweigh human wildlife conflict costs.

Human wildlife conflict

Human wildlife conflict trend

the chart shows the total number of incidents each year, subdivided by species, grouped as herbivores and predators

Most troublesome problem animals 2012-2014

the chart shows the number of incidents per species for the last 3 years; the darkest bar (on the right) indicates the current year for each species

Type of damage by problem animals 2012-2014

the chart shows the number of incidents per category for the last 3 years; the darkest bar (on the right) indicates the current year for each type

Poaching

Number of incidents per year

Commercial poaching is a serious threat to conservancy benefits. The chart shows the number of incidents per category

Traps and firearms recovered

number of incidents per category

Arrests and convictions

number of incidents per category

Wildlife removals – quota use and value

Species	Quota 2014			Animals actually used in 2014					Potential Trophy Value N\$	Potential Other use Value N\$	
	Total	Trophy	Other Use	Trophy	Own Use & Premium	Shoot & Sell	Capture & Sale	Problem Animal			Total Use
Ostrich	5	5		1					1	1,040	
Springbok	150	20	130	3	15	20			54	1,370	520

Potential value estimates (N\$) for species are based on:  
 • **Potential trophy value** - the average trophy value for that species in the conservancy landscape  
 - trophy values vary depending on trophy quality, international recognition of the hunting operator and the hunting area  
 • **Potential other use value** - the average meat value for common species  
 - the average live sale value of each high value species (indicated with an \*) [high value species are never used for meat]

Not all data or species are shown on this report; use your Event Book for more information

## monitoring numbers and trends for a healthy conservancy...

### Current wildlife numbers and status

Species	Animals Seen 2014	Estimated population range	Wildlife Status		
			Count Trend	National Guideline	Desired Number
Duiker			Dark Orange	Yellow	
Elephant			Dark Orange	Yellow	
Gemsbok			Dark Orange	Green	
Giraffe			Dark Orange	Yellow	
Jackal	1		Yellow	Green	
Klipspringer			Dark Orange	Green	
Kudu	8	38 - 87	Green	Yellow	
Mtn. zebra		27 - 34	Dark Orange	Green	
Ostrich	7	66 - 127	Dark Green	Green	
Springbok	165	2690 - 6170	Dark Orange	Green	

#### Wildlife Status

**Count trend** – gives the species status in the conservancy based on game count trend data.

**National guideline** – gives the species status in the conservancy using national guidelines for the conservancy; for example, lions may cause local problems, but are of high value and are rare at landscape level.

**Desired number** – gives the species status in the conservancy based on what the conservancy would like to have.

**dark green** (abundant) – there should be less;  
**light green** (common) – the desired number is reached;  
**yellow** (uncommon) – there should be more;  
**light orange** (rare) – there should be more than double;  
**dark orange** (very rare) – there should be more than triple;  
**red** (extinct) – the species needs to be reintroduced.

### Locally rare species

Sightings indicator □ 2012 □ 2013 □ 2014

**Locally rare and endangered species** are not found very often in the conservancy and need special conservation attention.

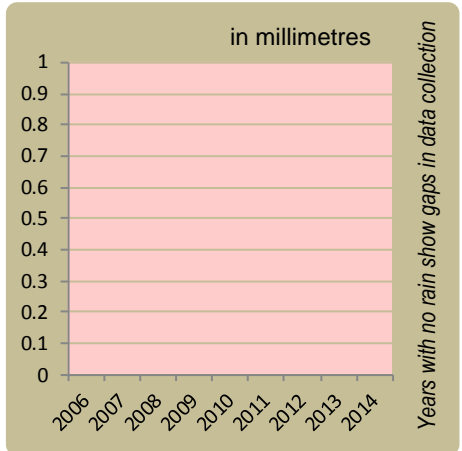

### Wildlife introductions

### Wildlife mortalities

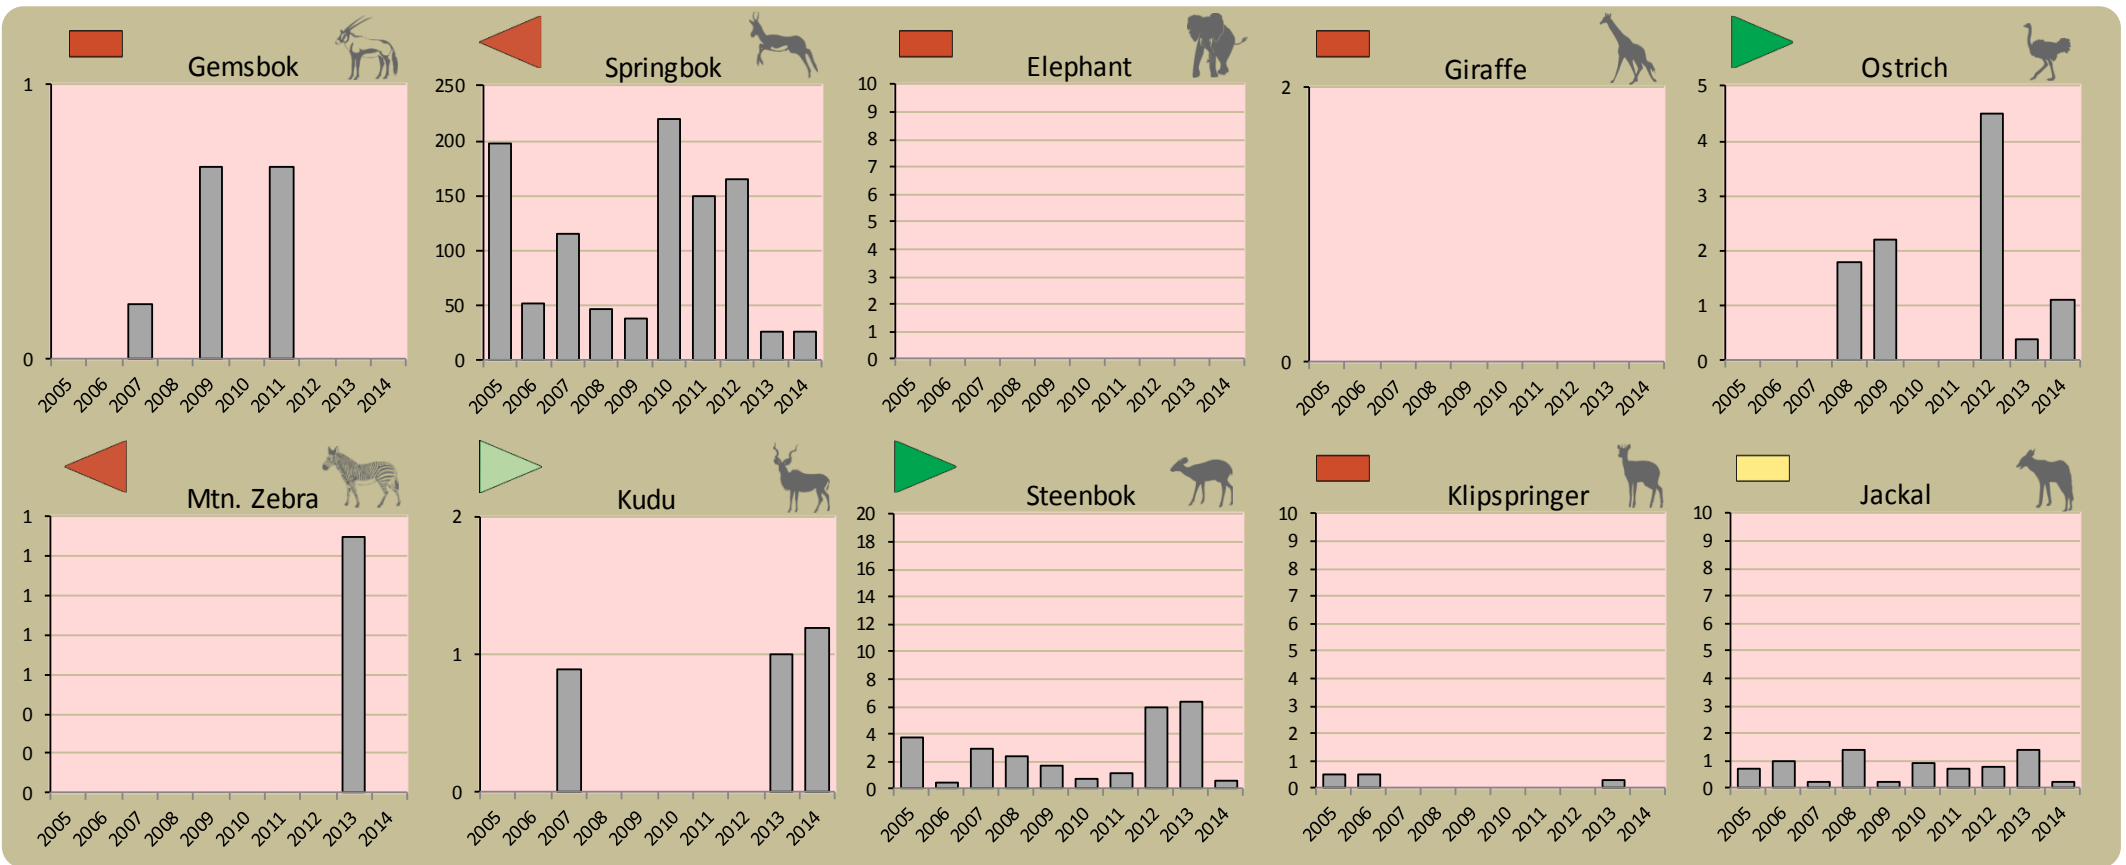

### Annual rainfall

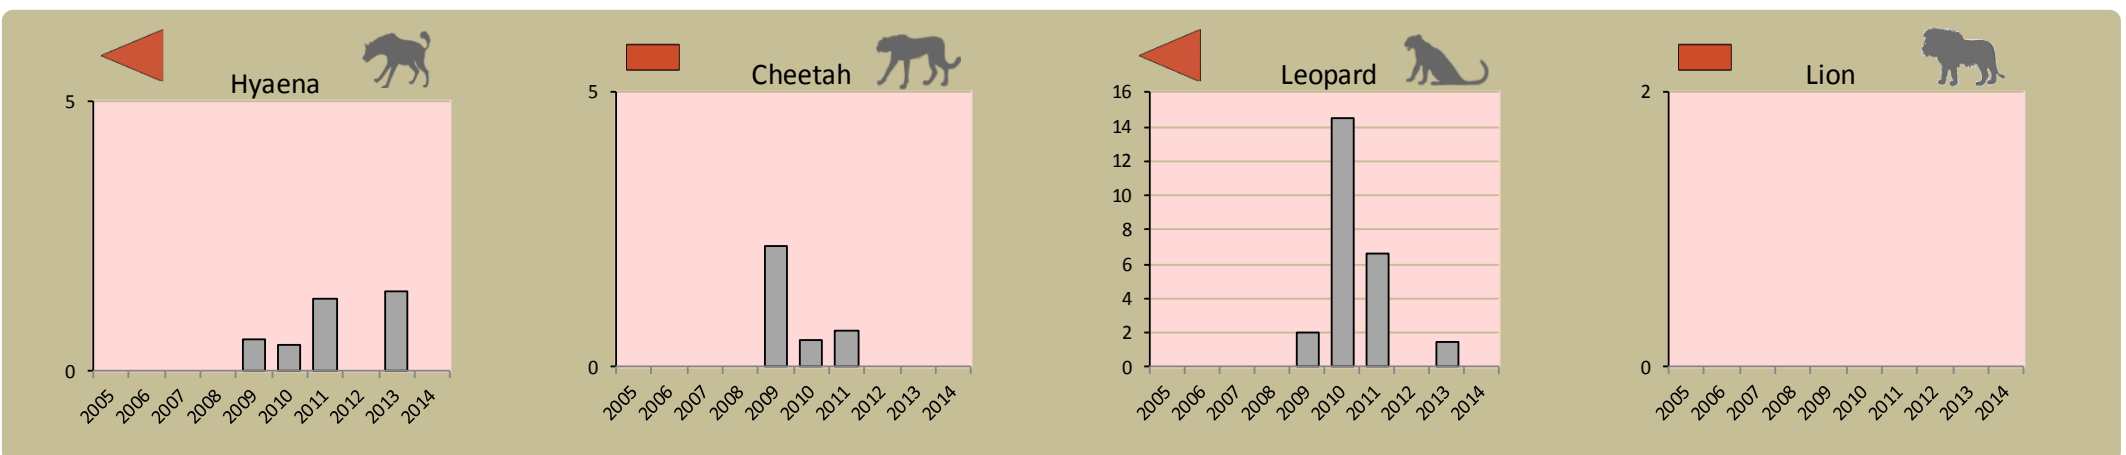

### Annual game count

charts show the number of animals seen each year per 100 km driven during the game count status barometers reflect the general count trend over the last 5 years

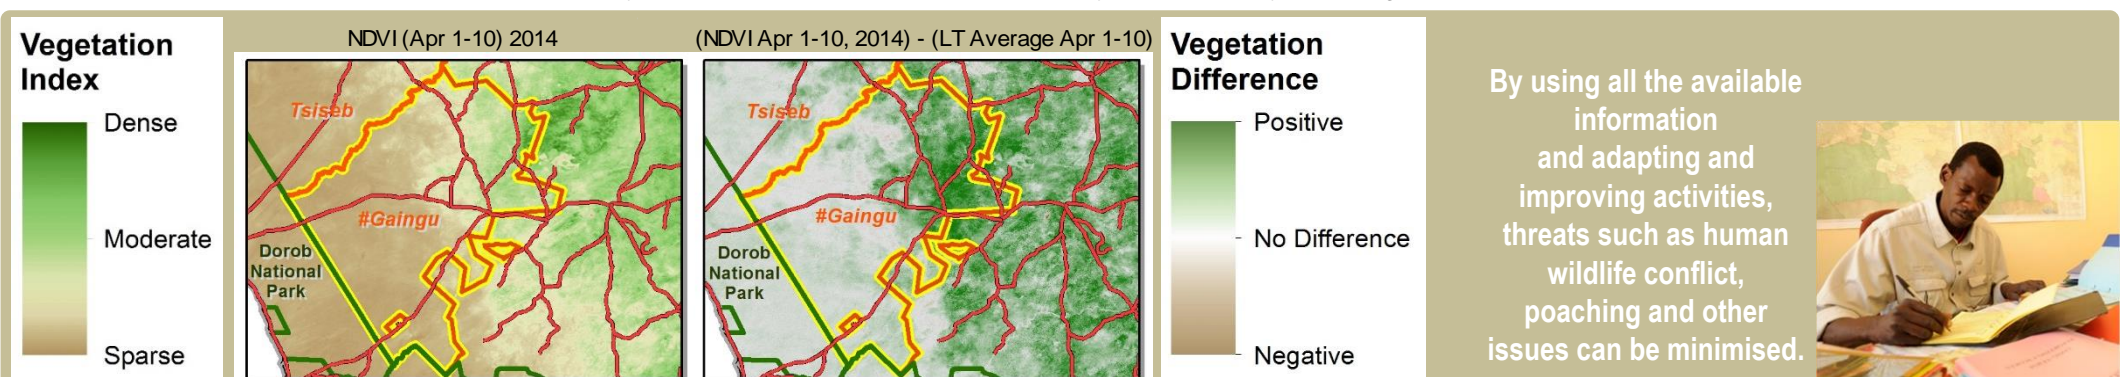

### Predator monitoring

charts show the average number of animals seen per Event Book each year status barometers reflect the general sightings trend over the last 5 years

### Vegetation monitoring

Green vegetation index (NDVI). Maps show vegetation cover in the first 10 days of April of the current year and the difference between the current year and the 10 year average (2001-2010)

## Enabling wise conservancy governance...

### Conservancy statistics

Date Registered:	March 2004
Members:	920
Size (square kilometres):	7731

### Conservancy Governance

Number of management committee members:	12
Date of last AGM:	
Attendance at AGM:	Men: ; Women:
Date of next AGM:	
Other important issues	
Financial report approved?	✗
Budget approved?	✗
Work plan approved?	✗

### Constitutional adherence

Approved constitution	✓
AGM held	✗
Management and utilisation plan	✓
Financial annual report	✗
Benefit distribution plan	✗
Audit of the constitution	✗

### Employment

Conservancy staff: Male	0
Female	1
Community game guards:	4
Community resource monitors:	0
Lodge staff: Male	0
Female	0

### Benefits

Independence Celebration	
Game Count	
Funeral Support	

### Conservancy Self Evaluation

How well does the conservancy consider it has performed in the past year?

Effectiveness of implementation	Poor	Fair	Good	Explanation of effectiveness rating
