# 20 Annual Ondjou 16 Conservancy Status Summary & Natural Resource Report 16 Audit Report Status Summary & Natural Resource Report

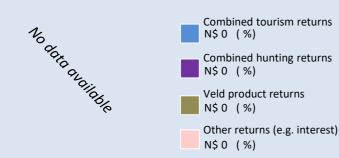

# maximising wildlife returns by minimising threats...

## **Conservancy status summary**

#### Returns from natural resources in 2016

the chart shows the main sources of returns and values and their percentage of the total returns

#### Approximate Total Returns N\$

Two of the most significant returns for the conservancy: ✓ cash income to the conservancy to cover running costs and invest in developments

✓ employment to conservancy residents

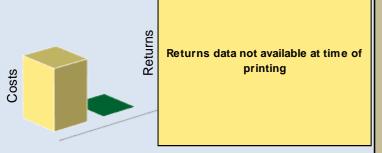

Conservancy	N\$		
	Private Sector		
Employment	Conservancy		

#### Cost of natural resource conflicts in 2016

Estimated human wildlife conflict cost	N\$ 202,820
Estimated poached high value species loss	N\$ 4,850
Total conflict cost estimate	N\$ 207,670

#### Natural resource cost-return ratio in 2016

the chart shows the approximate ratio of returns to costs

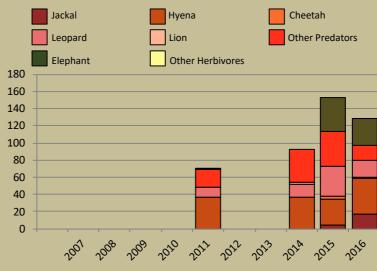

#### Management performance in 2016

Category	Performance
1 Adequate staffing	
2 Adequate expenditure	
3 Audit attendance	
4 NR management plan	
5 Zonation	
6 Leadership	
7 Display of material	
8 Event Book modules	
9 Event Book quality	
10 Compliance	
11 Game census	
12 Reporting & adaptive m/ment	
13 Law enforcement	
14 Human Wildlife Conflict	
15 Harvesting management	
16 Sources of NR income	
17 Benefits produced	
18 Resource trends	
19 Resource targets	

# Human wildlife conflict

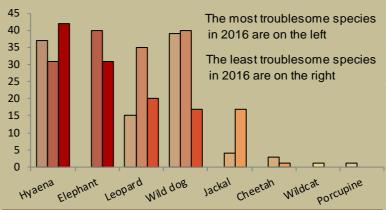

#### Human wildlife conflict trend

the chart shows the total number of incidents each year, subdivided by species, grouped as herbivores and predators

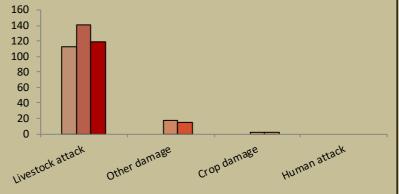

#### Most troublesome problem animals 2014-2016

the chart shows the number of incidents per species for the last 3 years; the darkest bar (on the right) indicates the current year for each species

#### Type of damage by problem animals 2014-2016

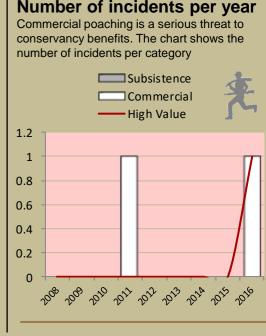

the chart shows the number of incidents per category for the last 3 years; the darkest bar (on the right) indicates the current year for each type

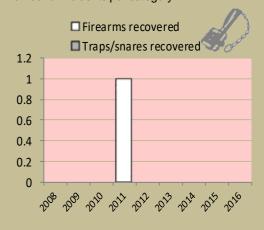

## Wildlife removals - quota use and value

		Quota 201	.6		Anim	als actually	y used in 20	016		- Potential	Potential
Species	Total	Trophy	Other Use	Trophy	Own Use & Premium	Shoot & Sell	Capture & Sale	Problem Animal	Total Use		Other use Value N\$
Caracal	2	2								800	
Duiker	2	2								1,200	
Elephant*	3	2	1							172,500	90,000
Gemsbok	4	2	2							2,900	2,160
Hyaena	1	1								6,600	
Jackal	2	2								600	
Kudu*	6	2	4							4,900	19,400
Leopard	1	1								12,300	
Steenbok	2	2								1,100	
Warthog	3	2	1							1,600	400

# Poaching

#### Traps and firearms recovered number of incidents per category

#### Arrests and convictions number of incidents per category

Wildlife status summary in 2016

Duives Leonard Graffe Jadd Inter Long Officer Spinesot

#### Potential value estimates (N\$) for species are based on:

Potential trophy value - the average trophy value for that species in the conservancy landscape

- trophy values vary depending on trophy quality, international recognition of the hunting operator and the hunting area

- · Potential other use value the average meat value for common species
- the average live sale value of each high value species (indicated with an \*)[high value species are never used for meat]

#### Key to the status barometer

# monitoring numbers and trends for a healthy conservancy...

#### Current wildlife numbers and status

	Animals	Estimated population range	Wildlife Status				
Species	Seen 2016		Count Trend	National Guideline	Desired Status		
Duiker							
Elephant							
Gemsbok							
Giraffe							
Jackal							
Klipspringer							
Kudu							
Mtn. zebra							
Ostrich							
Springbok							

#### Wildlife Status

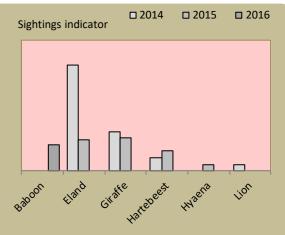

**Count trend** – gives the species status in the conservancy based on game count trend data.

**National guideline** – gives the species status in the conservancy using national guidelines for the conservancy; for example, lions may cause local problems, but are of high value and are rare at landscape level.

**Desired number** – gives the species status in the conservancy based on what the conservancy would like to have.

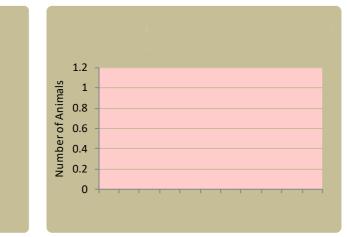

dark green (abundant) – there should be less;
light green (common) – the desired number is reached;
yellow (uncommon) – there should be more;
light orange (rare) – there should be more than double;
dark orange (very rare) – there should be more than triple;
red (extinct) – the species needs to be reintroduced.

## Locally rare species

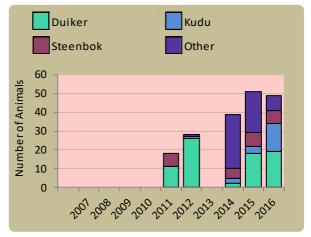

Locally rare and endangered species are not found very often in the conservancy and need special conservation attention.

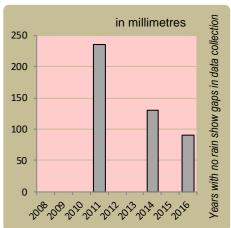

### Wildlife introductions

#### Wildlife mortalities

#### Annual rainfall

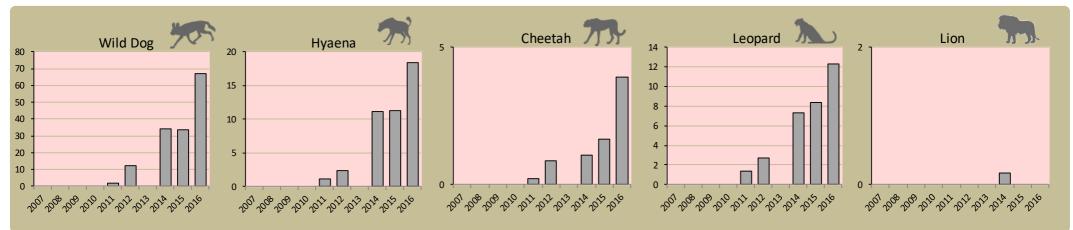

#### Annual game count currently not done

#### **Predator monitoring**

charts show the average number of animals seen per Event Book each year status barometers reflect the general sightings trend over the last 5 years

Wildlife provides a wide range of benefits. Some wildlife can cause conflicts, but all wildlife is of value to tourism, trophy hunting and a healthy environment.

By using all the available information and adapting and improving activities, threats such as human wildlife conflict, poaching and other issues can be minimised

# Ondjou Institutional Report

Not all institutional data are shown on this report: use your governance institution audit for more information

# Enabling wise conservancy governance...

## **Conservancy statistics**

Date Registered:	October 2006
Population (2011 census):	2720
Size (square kilometres):	8731

#### **Conservancy Governance**

Number of management committee members:	12	
Date of last AGM:	Sun, December 18, 2016	
Attendance at AGM:	Men: 182; Women: 92	
Date of next AGM:	Sun, December 10, 2017	
Other important issues Budget approved? Work plan approved?	*	

#### **Constitutional adherence**

Approved constitution	<b>~</b>
AGM held	<b>v</b>
Management and utilisation plan	~
Financial annual report approved at AGM	~
Financial report external review	*
Benefit distribution plan	<b>v</b>

#### Employment

Conservancy staff: Male	13
Female	2
Community game guards:	12
Community resource monitors:	0
Lodge staff: Male	0
Female	0

### **Benefits**

Cash	In Kind
	Other Benefits Social Benefits

**Conservancy Self Evaluation** How well does the conservancy consider it has performed in the past year?

Effectiveness of implementation	Poor	Fair	Good	Explanation of effectiveness rating
Game Management and Utilisation				Game guards do conduct patrols around the conservancy - partially.
Zonation Plan				
Benefit Distribution				
Human Wildlife Conflict Management				
Sustainable Business and Financial Planning				
Tourism				
Staff Management				The conservancy's treasurer didn't get financial training.
Assets Management/Register				
HIV/AIDS				
Communication
