

## Summary of Consultation Activities Undertaken for EPL-8955

To ensure that I&APs were timeously and openly notified of the planned project activities, the following tasks were undertaken by OMAVI:

- A list of pre-identified stakeholders was compiled. These formed part of the first email communication sent out soon after the first newspaper adverts for the ESIA Study.
- Formal public notices announcing the commencement of the Environmental Assessment process and extending a formal invitation to the general public to register as I&AP as well as to attend the public consultation meeting were published in *New Era* and *Windhoek Observer* newspapers (dated 29 August and 05 September 2023) - please refer to the attachments.
- A notification email (with Background Information Document (BID)) was circulated to all identified and registered I&APs on 05 September 2023 announcing the commencement of the EIA process and an invitation to register as an I&AP – attached. The email also provided information on the community consultation meeting (an invitation) which was scheduled for 11h00 on 21<sup>st</sup> of September 2023. The BID contained a high-level and preliminary description of the planned scope of activities for the proposed mineral prospecting project.
- Printed formal written site notices were placed at various publicly accessible locations in the Region as outlined below (as per some photos below):
  - Kunene Regional Council notice board
  - Ehomba Convenient Shop & Bar entrance
  - Kunene River Conservancy premises.

The clear copy of the site notice (poster) is attached to hereto.

**The A3 Posters pasted at the; A - Kunene Regional Council in Opuwo and B - community convenient Shop & Bar IN Ehomba**

- A community consultation meeting was scheduled and held with the local public on the 21<sup>st</sup> of September 2023 in Ehomba (being the closest to the EPL area and based on the community's choice of meeting venue). The meeting was attended by twenty-three (23) people – as shown on the photos below. The consultation meeting minutes were taken and are attached.

**The community consultation meeting in progress on 21 September 2023 in Ehomba, north of EPL-8955**

A summary of the main issues and concerns raised during these engagements is provided in the table below. Overall, no objections with merit were raised or received from the I&APs in relation to the project particularly during the one-on-one meeting.

**Summary of key issues and concerns raised in relation to activities on EPL-8955**

Issue	Summary
Employment opportunities	The community requests that the Proponent should consider them for job opportunities during exploration

Infrastructure improvement	The access roads to the EPL should be able to serve the communities so that they can reach the villages east and south of the EPL instead of the D3701
Timely communication	The Proponent should timely communication their intentions to commence exploration to the leaders and communities

## PUBLIC NOTICE FOR THE APPLICATION OF NEW ENVIRONMENTAL CLEARANCE CERTIFICATE (ECC) – MINERAL PROSPECTING AND EXPLORATION ACTIVITIES ON EXCLUSIVE PROSPECTING LICENCE (EPL) NO. 8967 IN THE KUNENE REGION – NAMIBIA

In accordance with the Environmental Management Act, 2007. (Act No. 7 of 2007) & the EIA Regulations 30 of 2012, mineral prospecting activities are a listed activity which may not be undertaken without a valid Environmental Clearance Certificate (ECC). OMAVI Geotechnical & Environmental Services has been appointed to undertake an Environmental & Social Impact Assessment (ESIA) and prepare an Environmental Management Plan (EMP) to support the application for this project's ECC.

**Proprietor:** Max Kefas Nuseb

**Site Locality:** EPL-8967 is located about 70km northwest of Sesfontein in the Kunene Region. The EPL covers an area of 19,996.3883 hectares (Ha). In terms of the requirements of the EIA Regulations, all Interested & Affected Parties (I&APs) must be provided with opportunities to participate in the ESIA process. I&APs are therefore, hereby invited to register & submit written comments/ concerns/ suggestions by close of business on Thursday, 28 September 2023 to the contact information provided below. A Background Information Document (BID) is available to I&APs upon registration. Further communications regarding the ESIA process for this project will only be made with registered I&APs.

A Public Consultation Meeting is anticipated in the week of 18 September 2023 at 11h00. Once confirmed, the final meeting details (exact date, time and venue) will be communicated to all stakeholders and registered I&APs.

**Tel:** +264 81 478 6303 (SMSes or WhatsApp Texts preferred for record keeping purpose)  
**Email:** info@omavi.com.na

to [redacted] me ▾

Wed, 6 Sept, 07:47 ☆ ↶ ⋮

Good day Stakeholder / Interested & Affected Party,

Max Kefas Nuseb has applied to the Ministry of Mines & Energy (MME) for an Exclusive Prospecting License (EPL) No. 8955 with the intention of carrying out mineral exploration on the EPL. The EPL is located about 50km north of Opuwo between the villages of Ehomba, Okahozu and Etoto in the Epupa Constituency, Kunene Region and overlies the southeastern area of the Kunene River Conservancy - [Please refer to the attached Background Information Document \(BID\)](#). The commodities of exploration interest include Base & Rare Metals, Dimension Stone, Industrial Minerals, and Precious Metals.

Please note that prospecting and exploration activities are listed in the 2012 Environmental Impact Assessment (EIA) Regulations of the Environmental Management Act (EMA) No. 7 of 2007, whereby exploration is one of the activities that cannot be undertaken without an Environmental Clearance Certificate (ECC) from the Environmental Commissioner, issued upon approval of an Environmental Impact (EIA) or Environmental & Social Impact Assessment (ESIA) Study. An ECC Application for EPL8955 has been launched with the Ministry of Environment, Forestry & Tourism (MEFT) and assigned an ECC application number APP-02053.

Once the ECC is issued by the Environmental Commissioner, the project Proponent (Mr. Nuseb) will then submit the ECC to the MME to finalize the EPL application and consideration of its approval.

To fulfil the requirements of the EMA and its EIA Regulations, the Proponent appointed OMAVI Geotechnical & Environmental Services to conduct the required ESIA study and apply for the ECC on their behalf.

**A Consultation Meeting will be held as per the following details:**

- **Date:** Thursday, 21 September 2023
- **Time:** 11h00
- **Venue:** Ehomba Village, Epupa Constituency

Should you have any comments or issues that you would like us to record and be included in the ESIA Report and Environmental (& Social) Management Plan (EMP), please submit them to OMAVI Consultants before close of business on **Thursday, 28 September 2023**.

Best regards,

Fredrika & Etuna: Environmental Assessment Practitioners

**Date: 21 September 2023**

**PUBLIC/COMMUNITY CONSULTATION MEETING MINUTES FOR THE:  
ENVIRONMENTAL & SOCIAL SCOPING ASSESSMENT (ESSA) FOR THE PROPOSED MINERAL  
PROSPECTING AND EXPLORATION ACTIVITIES ON EPL 8955 SITUATED NORTH OF OPUWO TOWN  
IN THE KUNENE REGION, NAMIBIA**

**Date:** Thursday, 21 September 2023

**Time:** 11h30 – 12h40

**Venue:** Ehomba Public Gathering Tree, Ehomba Village

The Meeting was attended by twenty-three (23) community members and two Environmental Consultants (Environmental Assessment Practitioner) from OMAVI Geotechnical & Environmental Services - Please refer to the attached attendance register.

## **1. INTRODUCTION AND WELCOMING**

Ms. Fredrika Shagama (Environmental Assessment Practitioner / Consultant from OMAVI Geotechnical & Geo-Environmental Consultants cc) opened the meeting by introducing her team, welcomed, and thanked everyone in attendance for making time to attend the meeting. She briefly explained to the attendees the purpose of the meeting with reference to the Environmental Management Act No. 7 of 2007's 2012 EIA Regulations on Public Consultation).

Ms. Shagama presented the meeting agenda. Since some of the meeting attendees were local elders who only spoke Otjherero and Otjizemba languages, to ensure transparency and effective communication in the meeting, Ms. Vejavehe Van Der Merwe (the Secretary to the Ehomba Headman) translated for the elders (from English to Otjherero and vice versa) throughout the meeting. This was also done to ensure that all comments and other inputs presented in both English and the local language were recorded in the minutes for consideration in the ESSA Report. Since some elders are not able to write, they requested Ms. Van Der Merwe to write their names in the attendance register on their behalf.

The copy of the background information document (BID) was distributed to the attendees and attendance register was circulated for the attendees to write down their names, contact details to receive further information on the ESA process.

## 2. MEETING AGENDA AND PRESENTATION

Ms. Shagama presented the agenda of the meeting which included the following main points:

### 2.1 Explanation of what an ESA is, its Process and the Public Role in the Process

Ms. Shagama explained what an ESA is and why it is required for the proposed exploration activities (she explained that exploration works are one of the listed activities that cannot be undertaken without an environmental clearance certificate (ECC) from the Environmental Commissioner). She further explained that the EPL is solely for prospecting and exploration and not mining as this is always the case in these types of meetings.

### 2.2 Project Desirability and Brief Description of the Project

The project desirability was explained to the meeting attendees and how the proposed activities would be undertaken (brief project description).

### 2.3 Presentation of Potential Project Impacts

Ms. Shagama also presented the potential impacts that are associated with the proposed project activities, based on experience and pre-identified potential positive and negative environmental and social impacts associated with exploration activities on EPLs.

### 2.4 Public Open Discussion (Interactive Session)

At the end of the presentation of the ESA process, project activities description and potential impacts, the floor was open whereby the meeting attendees were afforded an opportunity to ask questions and/or raise their concerns with regards to the proposed exploration. The Public Open Discussion was done in an interactive session form whereby the members of the public in the meeting could raise their concerns with the Environmental Consultant. These were noted down to be include them in the ESSA Report and Environmental Management Plan (EMP). There were not much of comments and or issues raised during the meeting, apart from the points noted and summarized in Table 1 below.

**Table 1: Issues, suggestions and comments received during the Public Consultation Meeting on 21 September 2023**

No.	Name of the speaker/commenter	Comment/Issue/Suggestion	Response by the Environmental Consultant
1.	Ms. V. Van Der Merwe as collectively requested by the attendees	Employment opportunities: The community requests that the Proponent should consider them for job opportunities during exploration	<u>Ms. Fredrika Shagama</u> : This has been well noted, and of course for unskilled and semi-skilled job opportunities that the community members are capable of, will be given to them. We will also recommend this in the EMP.

No.	Name of the speaker/commenter	Comment/Issue/Suggestion	Response by the Environmental Consultant
2.		Infrastructure improvement: The access roads to the EPL should be able to serve the communities so that they can easily access/reach the villages east (Etoto) and south of the EPL (such as Okahozu) instead of using the D3701 that goes to Epembe first.	<u>Ms. Fredrika Shagama</u> : This has been well noted. However, although the Proponent will be working in the area, he will not really make money because he is not mining yet (it will be more of him putting money into the EPL without a guarantee that he will find something worthy of mining to recover the exploration costs). Despite this, he will still be advised to do what he can for the communities while operating in the area, including assisting in bettering the existing single track roads that they would be using for exploration works too.
3.		Timely communication: The Proponent should timely communication their intentions to commence exploration to the leaders and communities	<u>Ms. Fredrika Shagama</u> : This has been well noted.

There were no further questions or comments/concerns.

The meeting was concluded by Ms. Shagama and encouraged the community members (attendees) to still send their concerns through SMSes since some of them only had cellphones (non-smartphones). Alternatively, they can submit their comments in writing on paper and give them to the Secretary who will then forward them to OMAVII Consultants for incorporation into the final ESSA and EMP.

The meeting was adjourned at 12h40.

# **PUBLIC NOTICE: APPLICATION FOR ENVIRONMENTAL CLEARANCE CERTIFICATE: PROPOSED MINERAL PROSPECTING AND EXPLORATION ACTIVITIES ON EPL 8955 SITUATED NORTH OF OPUWO TOWN IN THE KUNENE REGION, NAMIBIA**

**The Project Proponent:** Max Kefas Nuseb intends to undertake Proposed Mineral Prospecting and Exploration Activities on Exclusive Prospecting License (EPL) No. 8955. The license is located about 50km north of Opuwo in the Kunene Region, covering a surface area of approximately 19,768.0277Ha and within the Kunene River Conservancy as shown in the locality and land use map below. The project area can be accessed via D3700 and D3701 gravel roads in the area.

**OMAVI Geotechnical & Environmental Services** have been appointed by the Proponent to conduct the required Environmental Assessment (EA), draft the Environmental & Social Management Plan (ESMP) and apply for the Environmental Clearance Certificate (ECC) in terms of the Environmental Management Act (No. 7 of 2007) and its 2012 Environmental Impact Assessment (EIA) regulations. For more information on this project, and to comment or register as an Interested and Affected Party (I&AP), please contact OMAVI on the details provided below. I&APs are encouraged to submit their comments and concerns in writing before or on **28 September 2023**. A background information document is available for circulation to I&APs upon registration.

**The public consultation period runs from: 30 August 2023**

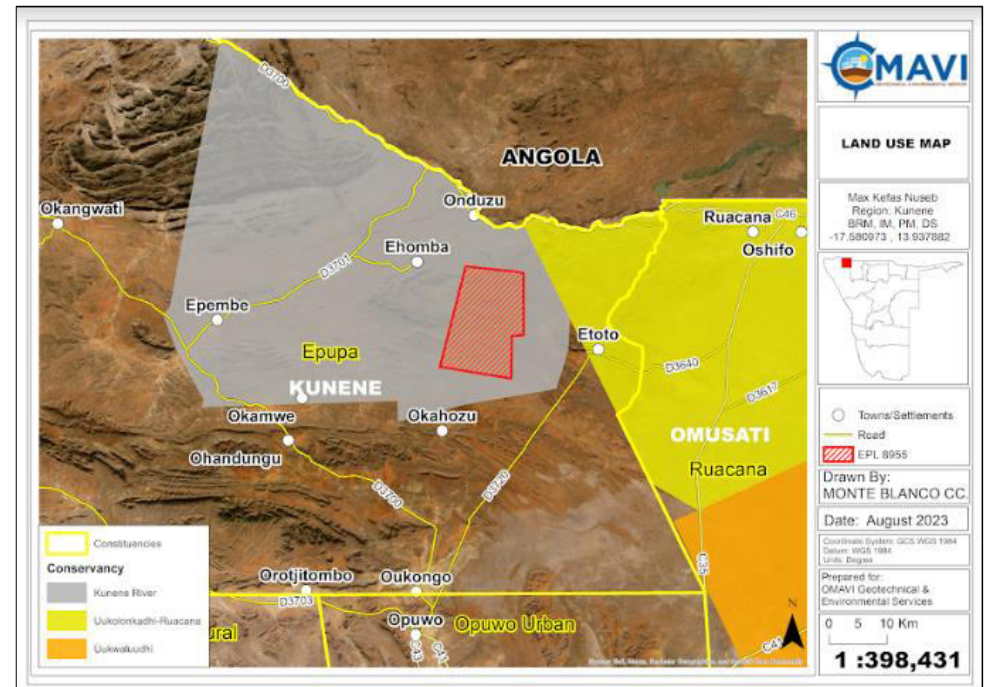

**Closing Date for the submission of inputs: Thursday, 28 September 2023.**

Should you have any questions, comments or issues and concerns that you would like us to include in the Environmental Assessment Report and ESMP, Please send these in writing to the contact details below:
