30 September 2023

PUBLIC CONSULTATION MEETING MINUTES:

PROJECT: Environmental Scoping Assessment (ESA) for Proposed Exploration Activities on Exclusive Prospecting License (EPL) No. 8969 & 8970 Near Uis, in Erongo Region.

Date: Tuesday, 19 September 2023

Time: 09h30

Venue: Dorob National Park

The public consultation meeting was attended by (5) people, including one environmental consultant and one archaeologist from Excel Dynamic Solutions (Pty) Ltd (EDS) - Please refer to the attached attendance register.

1. INTRODUCTION AND WELCOMING REMARKS

The meeting was opened by the environmental consultant by introducing the team and stating the purpose of the consultation meeting with the parties affected by the proposed project on prospecting and exploration activities on EPLs 8969 & 8970. The meeting attendance register was circulated for the attendees to sign and add their contact details, so that they could be added to the list of interested and affected parties (I&APs) and receive further information on the ESA process.

2. MEETING AGENDA AND PRESENTATION

The agenda of the meeting included the following main points:

2.1 Project Description

Ms. Iyaloo Nakale (Environmental Consultant) the EIA process to the attendees, and the reason for their invitation to the meeting (with reference to the Environmental Management Act (EMA) No. 7 of 2007 and its 2012 Environmental Impact Assessment (EIA) Regulations on Public Consultation). Ms. Nakale further explained the importance for the proposed project of requiring an ECC and attendee's role in the EIA process.

2.3 Presentation of Potential Project Impacts

To ensure transparency towards the public and understanding of proposed works by the attendees, the Environmental Consultant also presented the pre-identified potential positive & negative environmental and social impacts.

2.4 Public Open Discussion (Interactive Session)

Ms. Nakale provided the meeting attendees with the opportunity to raise their concerns/issues and/ or comment on the proposed project activities. The issues and comments recorded are presented in **Table 1** below.

Table 1: Comments and issues raised during the public consultation meeting, 19 September 2023

Comment/	Commenter name & issue / comment / question	Response and name of responder:	
issue No.			
1.	Commenter 1: (MEFT Chief Warden Mr. Solomon of the Dorob National Park) 1. Vehicle tracks are very visible within the Dorob National Park, and stay there for quite some time. With the types of vehicles/machines to be used one should take precaution and make use of one entry road in and out of the park. Using of existing tracks should be a priority getting to and from the target sites. I strongly recommend to mark your entry road with a sign that says "EPL No no Entry" so that people going through the park know that these certain tracks are for EPL activities 2. When selecting your camping sites, they should be small and should not be visible from the main road. 3. Be mindful of the health and safety of your employees because as you can see, the nearest hospital is very far way. Provide all the necessary measures	Iyaloo Nakale (IN): We take note of all the recommendation. After this we will proceed to do the biophysical and archaeological assessment on the EPLs. The meeting minutes, scoping report and environmental management plan will be drafted and shared with the interested and affected parties for further comments before submission to MEFT. It is good that the proponent is engaging you at this stage because moving forward if an ECC is granted then your office will play a big part in ensuring that the rules and mitigation measures are followed during the exploration phase. We appreciate the effort in taking part in this process and we will keep you updated on the progression of the project	

Comment/	Commenter name & issue / comment / question	Response and name of responder:
issue No.		
	4. You need to look into the type of toilets that you will	
	putting up and the type of ways you will store the	
	waste.	
	5. There is a healthy population of Welwitchia here, it	
	is crucial that these species are not disturbed and	
	should be avoided during exploration activities, I	
	recommend that they should be marked by way of	
	fencing them as an indication of a no go area.	
	6. Plastic bags are banned in the park, do not through	
	plastic bags away. Waste should be stored in sealed	
	containers.	
	7. There is a free entry permit system were all the	
	workers are required to have a permit/s or vehicle	
	permits when entering the parks. You should attach	
	the worker's information, car details, company	
	documents (ECC, EMP and Mineral License etc.)	
	when applying. Upon entry, name tags should be	
	provided to all workers on site, vehicles should be	
	branded with the company's name/logo and workers	
	should have their PPE on so that we are aware that	
	such activities taking place upon our inspections.	
	Sub-contractors must also have permits. If you are	

Comment/	Commenter name & issue / comment / question	Response and name of responder:
issue No.		
	found without a permit in the park, you are fined N\$ 2400 per person and it is only valid for 3 months. 8. proper training is given to each person according to the park rules, on when and what you are allowed to do and not to do, on rehabilitation, how to drive in the park. 9. Rehabilitation is costly, so the less impact you	
2.	make the less it will cost you to rehabilitate the area. 10. I would like to recommend that as part of social responsibility, the company considers the local communities in the conservancy for employment so that they can also develop their skills. There is a number of communities in the Tsiseb conservancy nearby.	Silas Shimakeleni Proponent Representative: We take note of that, what is the closes settlement from here? (IN): We will contact the conservancy/Uis office to get the information needed in that regard.

FINAL REMARKS AND CONCLUSION OF THE MEETING

Ms. Nakale thanked the attendees for their input through comments and by raising their concerns. He indicated to the attendees that all their comments, concerns and inputs had been noted down for consideration, and for addressing in the Environmental Scoping Assessment (ESA) Report, as well as incorporating their recommendations into the EMP.

Furthermore, Ms. Nakale informed the attendees that the draft meeting minutes, Environmental Assessment Report (EAR) and Environmental Management Plan (EMP) will be shared with them for their review and further comments. These documents will be made available through emails provided on the attendance register.

Once the review of the reporting is completed, the documents will be finalized and submitted to the Environmental Commissioner at the Department of Environmental Affairs and Forestry (DEAF) for evaluation and consideration for an ECC.

The meeting adjourned at 10h50
