## **PUBLIC CONSULTATION MEETING MINUTES**

ENVIRONMENTAL SCOPING ASSESSMENT (ESA) FOR THE PROPOSED PROSPECTING & EXPLORATION ACTIVITIES ON EXCLUSIVE PROSPECTING LICENCE (EPL) No. 8251 LOCATED NEAR FRANSFONTEIN IN KUNENE REGION.

Date: Friday, 20 September 2023

Time: 10:20 - 13:00

Venue: Swartbooi Traditional Authority Hall; Fransfontein

The public consultation meeting was attended by 66 people, including an environmental consultant and an Archaeologist from Excel Dynamic Solutions (Pty) Ltd (EDS), and the proponent - Please refer to the attached attendance register.

## 1. INTRODUCTION AND WELCOMING REMARKS

The meeting was opened by the environmental consultant, Ms.Iyaloo Nakale, with the introduction of the team, who they are, and the purpose as to why they are consulting affected parties of the proposed prospecting and exploration activities on EPL 8251. The meeting attendance register was then circulated for the attendees to write down their names and contact details so that they can be added to the list of interested and affected parties (I&APs) and receive further information on the ESA process.

## 2. MEETING AGENDA AND PRESENTATION

The agenda of the meeting included the following main points:

## 2.1 Brief Description of the Project

Physical Address: 112, Robert Mugabe Avenue, Windhoek
Postal Address: P.O Box 997154 Maerua Mall, Windhoek

Email: info@edsnamibia.com Web: www.edsnamibia.com

The Environmental Scoping Assessment (ESA) process and the reason why the Proponent appointed Excel Dynamic Solutions (Pty) Ltd (EDS), an independent Environmental Consultant to carry out the ESA and apply for the Environmental Clearance Certificate (ECC).

## 2.2 Explanation of what an ESA is, its Process, and the Public Role in the Process

Ms. Nakale explained to the attendees what the meeting was all about and why they were invited (with reference to the Environmental Management Act (EMA) No. 7 of 2007 and its 2012 Environmental Impact Assessment (EIA) Regulations on Public Consultation). Ms. Nakale further explained what an ESA is and that the proposed exploration activities are one of the listed activities in the 2012 EIA Regulations of the EMA that cannot be undertaken without an ECC from the Environmental Commissioner.

## 2.3 Presentation of Potential Project Impacts

To ensure transparency and that the attendees understand both sides of the proposed project activities, the Environmental Consultants also presented the potential pre-identified potential positive & negative environmental and social impacts.

## 2.4 Public Open Discussion (Interactive Session)

Ms. Nakale provided the meeting attendees with the opportunity to raise their concerns/issues and/ or comment on the proposed project activities. The issues and comments recorded are presented in **Table 1** below.

Table 1: Comments and issues raised during the public consultation meeting, 20<sup>th</sup> September 2023

| Comment/  | Issue/comment / question  | Response and name of responder:   |
|-----------|---|---|
| issue No. |   |   |
| 1.        | Ccommenter 1: Most community members do not have access to the newspaper, and some only heard about the meeting a day before. Can the consultant also look at different measures to invite stakeholders to the public consultation meeting e.g announcing in the local radio. | Ms. Iyaloo Nakale: We have taken note of that,  Communication is always an issue especially taking into consideration that some farm areas do not have the best network. We have been in communication with the chief and we have reached out to commercial farm owners, Our sincere apologies for those who heard about the meeting a day before.  |
| 2.        | Commenter 2: My concern is that I have mining claims within the EPL and the proponent is refusing to give me consent to mine on the EPL.  | <b>Ms. Nakale:</b> We have taken note of the concern; I have a question, are your claims within this EPL? Are the commodities the same? If not what I can advise in cases like this, is that there needs to be an agreement between the Mining Claims owner and the EPL holder, whereby the EPL holder needs to give a consent to the MCs holder. You perharps need to meet and discuss these concerns with the proponent and see if you can come to a common ground. |
| 3.        | Commenter 3: How did the proponent apply for the EPL before consulting the affected farmers?  | <b>Ms. Nakale</b> : Applications for EPLs, MCs, MLs are done through the Ministry of Mines and Energy. Once the proponent's application for the EPL has been approved then they get an intention to grant, the next step is to conduct an Environmental Scoping Assessment which is a requirement by the Ministry of Environment, Forestry and  |

| Comment/  | Issue/comment / question                           | Response and name of responder:  |
|-----------|--|--|
| issue No. |  |  |
|           | Once the ECC is granted , what is the way forward? | Tourism, as stipulated by the EMA act. The proponent is then required to appoint an Environmental Consultant to do the EIA on their behalf. It is at the phase of public consultation that we are required to reach out to all Interested & Affected Parties (I&APs) covered by the EPL, in order for each and every one to get an opportunity to raise their concerns regarding the proposed project.  With the concerns raised and addressed in the reports they are then reviewed by the Ministry of Environment, Forestry and Tourism (DEA) for the consideration of an Environmental Clearance Certificate (ECC).  Once the Proponent gets the ECC and are ready to come and prospect and explore on the EPL, they must then come to the office of the traditional authority, present their ECC and see how they can work together so that everyone benefits from the project. Terms and conditions are drawn up to see how the proponent can contribute to the social responsibility and how the should compensate the farmers on any damages that may occur during the exploration. |

| Comment/  | Issue/comment / question   | Response and name of responder:   |
|-----------|--|---|
| issue No. |  |   |
| 4.        | Commenter 4: Can the ministry speed up the reviwing process, the community wants the benefits that will be derived from the this proposed project such employment  | Ms. Nakale: We will take note of that.  |
| 5.        | Commententator: What will happen after the meeting?  How are we going to get the reports to review?  How will the mitigation measures be addressed during the exploration activities?                    | After this meeting, we are going to do the biophysical and archeaological assessment on the EPL. share the meeting minutes with all registered Interested and Affected Parties (I&AP) and then incorporate the comments and issues raised by I&AP (during the meeting or via email) into the draft ESA report and the Environmental Management Plan (EMP). These documents will be shared with all registered I&AP for review for two weeks, once the review of the drafts are complete, these documents will be finalized and submitted to the Environmental Commissioner at the Department of Environmental Affairs and Forestry (DEAF) for evaluation and consideration of an ECC. Once an ECC is acquired, that's when the proponent can commerce with exploration activities.  The scoping report and EMP that our office will share for stakeholders to review will state the mitigation measures are to be implemented during and after the exploration activities ths is to reduce or avoid the pre and post indetified negative impacts. |
| 6.        | Commentator 6: There is a fontein along the mountain range that is very significant to the Fransfontein community, that is in the EPL. What impact will the exploration activities have on the fountain? | <b>Ms. Nakale</b> : We have taken note of that and will like to see wre the fontein is after the meeting. Exprolation activities will only take place within the EPL and since the fontein is within the EPL, no exploration activities will take place near it, a no go zone area will be created and illustrated on maps in the reports to indicate the sensitive areas on the EPL. Alsol, a sign will be placed at the fouteins during the exploration phase.  |

| Comment/ issue No. | Issue/comment / question  | Response and name of responder: |
|--------------------|---|---------------------------------|
| 7.                 | Commentantor 7: Will we get an opportunity to review the finalized report before submitting it to MEFT? |                                 |

## FINAL REMARKS AND CONCLUSION OF THE MEETING

Ms. Nakale thanked the attendees for their crucial input through comments and raising their concerns. He indicated to the attendees that all their comments, concerns, and inputs had been noted down for consideration and addressing in the Environmental Scoping Assessment (ESA) Report as well as incorporating their recommendations into the draft EMP.

Furthermore, Ms. Nakale informed the attendees that the draft meeting minutes, Environmental Assessment Report, and Environmental Management Plan (EMP) will be shared with them for review and further comments. These documents will be made available through emails provided on the attendance register.

Once the review of the draft ESA Report and EMP is done, the documents will be finalized and submitted to the Environmental Commissioner at the Department of Environmental Affairs and Forestry (DEAF) for evaluation and consideration of an ECC.

The meeting adjourned at 13h00.
