

...a leap towards better environmental compliance.

Mr. Timoteus Mufeti
Environmental Commissioner
Department of Environmental Affairs and Forestry
Ministry of Environment, Forestry and Tourism
Private Bag 13306, Windhoek

Dear Sir / Madam

Subject: *Renewal of Environmental Clearance Certificate for Mining of Marble / Dimension Stone on Mining Claims 69320 and 69321 situated in the Karibib District, Erongo Region (Ref: APP-002074)*

Enviro-Leap Consultants cc has been appointed by **Mr. Inyenga I. T. Petrus** to facilitate the process of renewing his current Environmental Clearance Certificate (ECC due to expire on **19 Dec 2020**). On launching the renewal application on the online-system, it appears we are required to submit documents usually required for a new application instead i.e;

- Scoping Report
- Environmental Management Plan (EMP)
- Consent for Relevant Authority
- Project Site Area Map
- Consent From the National Heritage Council
- Proof of Public Consultation
- Proof of Payment

Herewith, we intend to clarify that as clearly stated in the BID submitted the application is for the renewal of an environmental clearance certificate that's due to expire in December 2020, and for an operation that has been in existence for over four decades now.

In view of this clarity, we are submitting the following documents instead and seek your guidance as to whether this shall suffice or if the documents list above shall still be required;

- Environmental Audit Report
- Updated EMP
- Current ECC – due to expire
- Resume of EAP
- Project Site Area Map
- Proof of Payment

Please do not hesitate to contact us for any additional information or input.

Sincerely yours,

Mr. Vilho P. Mtuleni
Environmental Assessment Practitioner
