

PROPOSED INSTALLATION AND OPERATION OF A 48M LATTICE TELECOMMUNICATION TOWER AT AMWIIMBI COMBINED SCHOOL, OHANGWENA REGION, NAMIBIA

PROPONENT: MOBILE TELECOMMUNICATION LIMITED (MTC)

ENVIRONMENTAL IMPACT ASSESSMENT-AUGUST 2023

INTRODUCTION

Mobile Telecommunication Limited (PTY) LTD intends to achieve the objective of improved telecommunication connectivity, and continue to expand network coverage in the remote areas of Namibia with the aim of bringing development close to the people in line with the decentralization approach. MTC intends to install and operate a 48m lattice telecommunication tower at Amwiimbi Combined School in Epembe circuit, in Ohamwiimbi Village, Ohangwena region.

In this respect Junior Baiano Industrial Consultants (JBIC) cc have been appointed to carry out an Environmental Assessment study to obtain an environmental clearance certificate as per the requirements of the Ministry of Environment, Forestry and Tourism in terms of infrastructure development.

The study will incorporate biophysical, ecological and socio-economic baseline investigations relating to the proposed project.

In terms of the Namibian environmental Impact Assessment Regulations of 2012, an Environmental Clearance Certificate is to be obtained before the project can proceed.

This is because under the Government Notice 29 of 2008, Section 10 INFRASTRUCTURE states that

1. The construction of -

(g) Communication networks including towers, telecommunication and marine telecommunication lines and cables.

THE PUBLIC PARTICIPATION PROCESS

The Public Participation Process (PPP) is an integral part of the EIA process whereby it allows the public to obtain information about the proposed project, to view documentation, to provide input and voice any concerns concerning the project. The Public Participation Processes that will be undertaken will include consultation with the local authority, line ministries, government extension offices, owners of neighboring properties and other I&AP's living around the proposed area.

During the meeting participants will be availed an opportunity to comment, ask questions and raise any concerns be it environmental or social regarding the proposed project. Comments will be recorded and considered in the Environmental Assessment report that will be submitted to the Ministry of Environment for review

AIMS & OBJECTIVES OF THIS EIA PROCESS

The aims of this EIA:

- To comply with Namibia's Environmental Assessment Policy, Environmental Management Act (No. 7 of 2007) with its 2012 EIA Regulations and;
- Consult all interested and affected parties such as local residents, town council and regional council to ensure that their inputs are taken into account;
- To assess the significance of issues and concerns raised;
- Review the legal and policy framework and its relevance to this project;
- Describe general and socio-economic environment of the project to determine impacts and suitability to the project site.
- Identify and assess impacts related to the continued operations.
- Compile an Assessment Report and Management Plan (EMP) which includes recommendations and methods to minimize the identified negative environmental impacts of the proposed project.
- To identify existing environmental conditions and associated environmental sensitivities within and adjacent to the project area that may potentially be affected, i.e. Environmental sensitivity and monitoring procedures.

PROJECT DESCRIPTION

MTC intends to construct a 48m lattice telecommunication tower at Amwiimbi Combined School in Epembe circuit, Ohamwiimbi Village. The Company anticipates that this project will increase the network connectivity and at same time expand network coverage that will bring development closer to the people in remote areas.

The network structure will consist of strips of metal crossed and fastened together with square or diamond shapes left between, used as a fence or support. The lattice tower has low weight, better shear strength and lower wind resistance than solid structures.

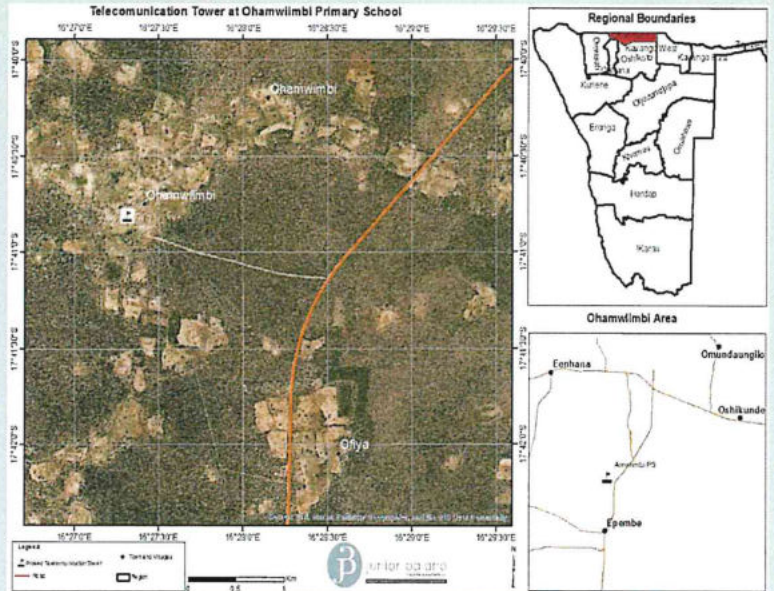

The proposed infrastructure will have minimal impacts on the natural resources, i.e. water, fauna and flora.

The operations will ensure compliance to all necessary statutory requirements

PROJECT LOCATION

The different project site is located at Amwiimbi Combined School, in Ohamwiimbi Village in Ohangwena region

Figure1: Site Locality table

ANTICIPATED PROJECT IMPACTS

Potential Impacts	Assessment to be Undertaken
Negative Impacts	
Land use Change (Aesthetic value)	baseline assessment
Impacts on fauna and Flora	JBIC EIA Team baseline assessment and If there is need for specialist Assessment, the consultation process will Inform.
Impacts on surface and groundwater resources	JBIC EIA Team baseline assessment
Health and Safety hazards	JBIC EIA Team baseline assessment
Cumulative impacts of the project Operation	JBIC EIA Team baseline assessment
Positive Impacts	
Revenue generation	JBIC EIA Team baseline assessment
Renewable energy	JBIC EIA Team baseline assessment
Employment creation	JBIC EIA Team baseline assessment

HOW TO PARTICIPATE?

This Public Consultation process forms an important component of the Environmental Assessment process. It is defined in the EIA Regulations (2012), as a “process in which potential interested and affected parties are given an opportunity to comment on, or raise issues relevant to, specific matters” (S1).

You can participate through the following:

- Responding to the newspaper adverts for public meeting, availability of scoping report and decision made by MET.
- **A public meeting will be held on Wednesday, 9th of August 2023 at Amwiimbi Combined School, at 13h00.**

NOTICE

KAISOSI EXTENSION 14; ESTABLISHMENT OF THE TOWNSHIP, RUNDU TOWN COUNCIL.

Notice is hereby given in terms of Section 107(1) of the Urban and Regional Planning Act, 2018 (Act No. 5 of 2018), that HARMONIC TOWN PLANNING CONSULTANTS CC, Town and Regional Planners, on behalf of the owners of the respective erf, has applied to the Rundu Town Council and the Urban and Regional Planning Board in terms of Section 105(1)(b) of the Urban and Regional Planning Act, 2018 (Act No. 5 of 2018), for the:

- Approval to establish a township on Erf 3302, Kaisosi Extension 10, Rundu in terms of the provisions of Section 64 (2) of the Urban and Regional Planning Act 2018 (Act No. 5 of 2018) to be known as Kaisosi Extension 14; and
- Approval of the layout and new zoning within the township.

Erf 3302 Kaisosi Extension 10 is located South of Rundu College. Erf 3302 measures approximately 8130 778m² according to General Plan B 314. The erf is zoned undetermined according to the Rundu Zoning Scheme. The owners intend to establish a township, on Erf 3302 Kaisosi Extension 10. It is proposed that a new township establishment on Erf 3302 be known as Kaisosi Extension 14, Kaisosi Extension 14 will consist of 233 erven and the Remainder Street.

The proposed layout is envisioned for single residential erven development to cater to the Rundu residents. The proposed development is desired to cater for an existing and growing demand for housing and serviced residential erven in Rundu.

Further, take notice that the plan of the erf lies for inspection on the town planning notice board at the Office of the Ministry of Urban and Rural Development, Division, Planning, 2nd Floor, Room no. 227, GIBI Office Park in Windhoek and at Harmonic Town Planning Offices, 78B Pastoor Street, Windhoek West.

Further take notice that any person objecting to the proposed use of the land as set out above may lodge such objection together with the grounds thereof, with the Rundu Town Council and with the Applicant in writing within 14 days of the last publication of this notice (final date for objections is Friday, 18th of August 2023).

PUBLIC NOTICE

Please take note that Kamau Town Planning and Development Specialist has been appointed by the owner of Erf 2229 Extension 9, Okahao to apply to the Okahao Town Council and the Urban and Regional Planning Board for the:

- REZONING OF ERF 2229, EXTENSION 9 OKAHAO FROM 'GENERAL RESIDENTIAL' WITH A DENSITY OF 1:250 TO 'RESIDENTIAL' WITH A DENSITY OF 1:300
- SUBDIVISION OF ERF 2229 EXTENSION 9 OKAHAO INTO 5 PORTIONS AND THE REMAINDER OF ERF 2229

In terms of the Okahao Town Planning Scheme and Part 2, Section 105 of the Urban and Regional Planning Act 5 of 2018.

Erf 2229 is located south west of Okahao town, in the suburb of Extension 9, a newly developed suburb. The respective Erf measures 1992sqm in extent as per the Title Deed (T 5380/2022), and has a current zoning of 'General Residential' with a density of 1:250.

The Client proposes a zoning of 'Residential' with a density of 1:300, and subsequently proposes a rezoning of the rezoned Erf 2229 into 5 portions and the Remainder of Erf 2229.

Please further take note that -

(a) For more enquiries regarding the Rezoning and Subsequent subdivision application, visit the Okahao Town Council's department of Planning

(b) If any person having objections to the rezoning and subdivision concerned or who wants to comment, may in writing lodge such objections and comments, together with the grounds, with the Chief Executive Officer of the Okahao Town Council, and with the applicant within 14 days of the last publication of this notice, i.e. no later than, i.e. no later than 17 August 2023.

As a result, from 2015 to 2019 the country has spent on average N\$115,2 million every year importing washed potatoes.

The border is open for the importation of watermelon, sweet melon, sweetcorn, pumpkin, and gem squash, according to the notice.

The total annual domestic potato consumption for the country is estimated to be 40,670 metric tonnes. With 10 328 metric tonnes being consumed through the formal market and 262 metric tonnes exported while 7 177 metric tonnes are estimated to be consumed through the informal market.

Email: erastus@thevillager.com.na

Out of the 19 special fresh produce, there are other 8 that will also be imported on a pro-rata basis (on percentage allocation), because the farmers' data have indicated that their harvest is not adequate.

The eight to be imported on pro rata are beetroot, butternuts, carrots, English cucumber, coloured and green pepper, jam tomatoes, and lettuce.

abandoned large-scale irrigation systems. hence, stoppage produced three rice varieties of Supa, Irga
CONTINUES ON | PG. 20

and Angola. It is regrettable that the Kalimbeza is without normal production on the 229 hectares of land in Kabbe North Constituency.

Therefore, investment in green scheme re-evaluate should not be an issue of debate but rather on how to improve the performances of various irrigation schemes across the country by addressing the various challenges encountered.

Generally, the government is now aware of the significant role of irrigation development and its efficient utilisation of food security and economic growth.

Moreover, as is widely accepted, if Namibia is to witness sustainable green schemes resuscitate and poverty reduction it will need to learn from other countries such as China, the United States, and India whilst in Africa we can learn from Sierra Leone, Ethiopia, and South Africa amongst others.

The Ministry of Agriculture, Water, and Land Reform should recognize the importance of flexibility in the timing and design of reform processes to achieve practical and effective policy changes.

Governments should prepare future reforms, via continued research, education, and governance efforts, to help take advantage of reform opportunities when the timing is right.

Additionally, there is light at the end of the tunnel as Namibia Training Authority encouraged the National Policy on Work-integrated Learning for Technical and Vocational Education and Training (TVET).

In order to meet this challenge, the agricultural sector in Namibia needs serious reforms and an increase in public investments in agriculture.

To reach these goals the development of skills and knowledge plays a key important cross-cutting and value-adding strategy.

On the basis of a review and revaluation activities of Green Scheme irrigated agriculture projects in these regions, the general situation appears to be that monitoring and evaluation are having far less impact on the management process than expected or even possible.

One of the main reasons for this sad state of affairs is that monitoring and evaluation are being imposed from Senior Managers who are based in Windhoek to the farm managers.

In conclusion, this requires a great deal of courage to stay the course in the face of setbacks and to make decisions that may be unpopular with short-term-oriented stakeholders.

Effective partnerships between the government and private sector in critical areas of infrastructure and long-term investments would expedite development.

Therefore, faced with this difficult task, the easy option for policymakers would be to maintain the status quo.

But better policies for green schemes hold tremendous promise for meeting the challenge of food security and nutrition, livelihoods, and environmental sustainability.

Proponent	Edge-Makwade Energy Trading (Pty) Ltd
Interested and Affected Parties (I&APs)	I&APs are hereby invited to register for the EIA and to submit written comments, objections and or concerns with respect to the proposed activity. A Background Information Document (BID) is available upon request on registration. No public meetings will be held.
Consultation Period	The duration to receive written submissions starts from 11 th to 25 th September 2023
EIA Consultant:	 Cell: 081 418 3125 Fax: 088 645 026 Email: ekwao@iway.na

Consent Use Notice

Please note that NAMLAND TOWN AND REGIONAL PLANNING & ENVIRONMENTAL MANAGEMENT CONSULTANTS, on behalf of the owner of Portion B (Number 134) Sees Small holding cc, intends to apply to the Windhoek City Council for:

Consent to use Portion B (Number 134) for incineration services

Portion B has size of 54,7 ha and currently zoned small holding located in Khomas Region , 57 km outside of Windhoek. The area in which the portion B is located is predominantly small farm holding as illustrated in the locality plans. The Portion is 54,7 Hacters

The consent use will allow the owners to operate the incineration service on the property. Access to the erf will be obtained from the existing entrance. Parking will be provided in accordance with the requirements of the Windhoek City Planning Scheme.

Note that the locality plan of the erf lies for inspection on the Town Planning Notice Board at the City of Windhoek

Further take note that any person objecting to the proposed use of land set out above may lodge such objection, together with the grounds therefore, with the Town Council and with the applicant in writing within 14 days after the appearance of the last notice (final date for objections is **Date 1 October 2023**).

Applicant:
NamLand Town and Regional Planning & Environmental Management Consultants
PO Box 98234 Windhoek
Contact details:0812343637/0812795499
Email: consultancy@namland.com

NOTICE

Take notice that HARMONIC TOWN PLANNING CONSULTANTS CC, TOWN AND REGIONAL PLANNERS, on behalf of the owner of the respective erf, intends to apply to the Rehoboth Town Council and the Urban Regional Planning Board for:

- Rezoning of Erf Nr. Rehoboth G 153 from "Single Residential" with a density of 1:300 to "General Residential" with a density of 1:100; and
- Consent to commence with the proposed development while the rezoning is in progress.

Erf Rehoboth, G 153, measures ±936 m² in extent and is zoned "Single Residential" with a density of 1:300. In its current density, the owner can erect 3 dwelling units on the erf. The proposed rezoning to "General Residential" with a density of 1:100 will enable the erf owner to develop flats on the erf. Parking to the development will be provided in accordance with the requirements of the Rehoboth Zoning Scheme.

Further take notice that the plan of the Erf lies for inspection on the town planning notice board at the Rehoboth Town Council and at Harmonic Town Planning Offices, 76B Pasteur Street, Windhoek West.

Further take notice that any person objecting to the proposed use of the land as set out above may lodge such objection together with the grounds thereof, with the Rehoboth Town Council and with the Applicant in writing within 14 days of the last publication of this notice (final date for objections is **Friday, 13 October 2023**).

NOTICE

KAISOSI EXTENSION 14: ESTABLISHMENT OF THE TOWNSHIP, RUNDU TOWN COUNCIL

Notice is hereby given in terms of Section 107(1) of the Urban and Regional Planning Act, 2018 (Act No. 5 of 2018), that HARMONIC TOWN PLANNING CONSULTANTS CC, Town and Regional Planners, on behalf of the owners of the respective erf, has applied to the Rundu Town Council and the Urban and Regional Planning Board in terms of Section 105(1)(b) of the Urban and Regional Planning Act, 2018 (Act No. 5 of 2018), for the:

- Approval to establish a township on Erf 3302, Kaisosi Extension 10, Rundu in terms of the provisions of Section 64 (2) of the Urban and Regional Planning Act 2018 (Act No. 5 of 2018) to be known as Kaisosi Extension 14; and
- Approval of the layout and new zonings within the township.

Erf 3302 Kaisosi Extension 10 is located South of Rundu College. Erf 3302 measures approximately 1130 77m² according to General Plan B 316. The erf is zoned undetermined according to the Rundu Zoning Scheme. The owners intend to establish a township, on Erf 3302 Kaisosi Extension 10. It is proposed that a new township establishment on Erf 3302 be known as Kaisosi Extension 14. Kaisosi Extension 14 will consist of 233 erven and the Remainder Street.

The proposed layout is envisioned for single residential erven development to cater to the Rundu residents. The proposed development is desired to cater for an existing and growing demand for housing and serviced residential erven in Rundu.

Further, take notice that the plan of the Erf lies for inspection on the town planning notice board at the Office of the Ministry of Urban and Rural Development: Division: Planning, 2nd Floor, Room No. 227, GRN Office Park in Windhoek, and at Harmonic Town Planning Offices, 76B Pastoor Street, Windhoek West.

Further take notice that any person objecting to the proposed use of the land as set out above may lodge such objection together with the grounds thereof, with the Rundu Town Council and with the Applicant in writing within 14 days of the last publication of this notice (final date for objections is Friday, 18th of August 2023).

PUBLIC NOTICE

Please take note that Kamau Town Planning and Development Specialist has been appointed by the owner of Erf 2229 Extension 9, Okahao to apply to the Okahao Town Council and the Urban and Regional Planning Board for the:

- REZONING OF Erf 2229, EXTENSION 9 OKAHAO FROM 'GENERAL RESIDENTIAL' WITH A DENSITY OF 1:250 TO 'RESIDENTIAL' WITH A DENSITY OF 1:300
- SUBDIVISION OF Erf 2229 EXTENSION 9 OKAHAO INTO 5 PORTIONS AND THE REMAINDER OF Erf 2229

In terms of the Okahao Town Planning Scheme and Part 2, Section 105 of the Urban and Regional Planning Act 5 of 2018.

Erf 2229 is located south west of Okahao town, in the suburb of Extension 9, a newly developed suburb. The respective Erf measures 1992sqm in extent as per the Title Deed (T 5180/2022), and has a current zoning of 'General Residential' with a density of 1:250.

The Client proposes a zoning of 'Residential' with a density of 1:300, and subsequently proposes a subdivision of the rezoned Erf 2229 into 5 portions and the Remainder of Erf 2229.

Please further take note that -

(a) For more enquiries regarding the Rezoning and Subsequent subdivision application, visit the Okahao Town Council's department of Planning

(b) (i) any person having objections to the rezoning and subdivision concerned or who wants to comment, may in writing lodge such objections and comments, together with the grounds, with the Chief Executive Officer of the Okahao Town Council, and with the applicants within 14 days of the last publication of this notice, i.e. no later than, i.e. no later than 17 August 2023.

09 August 2023

MTC meeting

- Planning Official [Mr. Samuel Sakaria], noted the unwired block.
- School Strengths
 - Qualified Teachers
 - Electricity
 - Tap Water
- Weaknesses
 - No Administration Block
 - No Library & Laboratories
- Hon. Nanghama, Councillor of Epembe Consti...
 - Greeted the audience and welcomed the mtc & JB consultants.
 - He further thanked MTC for selecting our Area to install a tower.
- Junior Baiano Industrial Consultants cc (Mr. Friedrich Nghiyolwa)
- * Purpose of the meeting
 - Environmental Assessment in order to obtain an Environmental Clearance Certificate
 - To identify environmental potential impacts, toward people & animals.
 - Address the community & get their intake on the project.
- MTC Representatives [Mr. Jonathan Leonard]
 - Gave a brief introduction on the establishment of MTC. [been in existence for almost 50 years]
 - Partially owned by the Gov (60%) & nation 40% now.

- CRAN identified Amwiimbi as one of those areas that are in need of network services.
- MTC was then tasked to install the network tower.

Type of a tower

- Standby alone tower
- 48 m Tall
- Range approx.. 10-20 km

Questions from the Community

1. Mr Nuuyoma R; Are the workers going to be taken from the Community or MTC will bring their own?
→ Handman will come from the community.
2. Mr Sheya, ~~Is the network~~ Effect of network on our animals & water resources?
→ No effect on animals/water
3. Which type of workers will come from the community?
→ Labour workers, Handman

Points

4. How is the employment process going to be?
→ The responsible company will consult the school on how many and the types of workers they will need.

5. Mr Frans, Recommended highly on the network tower!

6.

Announcements

16-17 August : Birth Certificates for San Communities
@ Epembe Const. office
