SUBDIVISION AND REZONING OF ERF 3825, KLEIN WINDHOEK
 Take notice that DU TOIT TOWN PLANNING CONSULTANTS, on behalf of the owner of Erf 3825, Klein Windhoek in terms of the stipulations of the Urban and Regional Planning Act, 2018 (Act No. 5 of 2018), intends to apply to the Windhoek City Council and the Urban and Regional Planning Board for:

- Subdivision of Erf 3825, Klein Windhoek into Portion A (± 7336,52m²) and the Remainder of Erf 3825, Klein Windhoek (± 18 170,48m²).
- Rezoning of Portion A from 'residential' with a density of 1 dwelling per 900m² to 'general residential' with a density of 1 dwelling per 900m².
- Rezoning of the Remainder of Erf 3825, Klein Windhoek from 'residential' with a density of 1 dwelling per 900m² to 'general residential' with a density of 1 dwelling per 500m².
- Consent to use the Erven in accordance with the new zoning while the rezoning is in process.

Erf 3825, Klein Windhoek is located in Michaelis Street, Avis and is 25 507m² in extent. The erf is zoned 'Residential' with a density of 1 dwelling per 900m² and one large residential dwelling with some outbuildings were constructed on the erf. Both the main residence and outbuilding are still in good very well-maintained condition.

It is the intention of the owner to subdivide the main residence from the remainder of the property and convert it in some sectional title units. At the density of 1 dwelling per 900, a total of 8 units can be developed on the property. The intention with the Remainder of Erf 3825, Klein Windhoek is to rezone to a higher density of 1 dwelling per 500 for the establishment of 36 sectional title units. The density of 1:500 is similar to a number of erven surrounding Erf 3825, Klein Windhoek where sectional title complexes have been developed on. All necessary building requirements such as building lines and parking requirements will need to be adhered to upon submission of final building plans.

Take notice that the locality plan of the erf lies for inspection on the Town Planning Notice Board in the Customer Care Centre, Municipal Offices, Rev. Michael Scott Street, Windhoek and at the offices of Du Toit Town Planning, 4 Dr. Kwame Nkrumah Avenue, Klein Windhoek.

Any person objecting to the proposed use of land as set out above may lodge such objection together with the grounds thereof with the City Council and the applicant in writing within 14 days of the last publication of this notice (final date for objections is 5 September 2023).

Applicant:

VERY GOOD ENGLISH, MS OFFICE AND SOCIAL MEDIA SKILLS

WILLINGNESS TO WORK VARIABLE HOURS AND STRONGLY SELF-DRIVEN

Please send detailed CV (max 5MB) to admin@gbcna.org

Pressure on Australia in semi-final

England midfielder Keira Walsh says the 'pressure is on Australia' in front of a home crowd in their Women's World Cup semi-final.

The Lionesses, who won Euro 2022 on home soil last summer, are playing in their third successive World Cup semi.

Co-hosts Australia are in the last four for the first time but will have strong backing in Sydney's 81 500-capacity Stadium Australia on Wednesday.

"That is a different thing to cope with. But they are a great team, whether they feel the pressure or not. The way they play, they don't look like they feel it. They are very physical and we have to be ready for that. It's just about going in confident and playing on the front foot. When you're playing against it and can quieten the crowd, it's a nice feeling. There's positives and negatives to both [sides]. We experienced it against Colombia in the quarter-finals," said Walsh.

The success of the Matildas has been celebrated across Australia with thousands of fans pouring into the streets of Sydney and in fan parks to watch their games on big screens.

Overnight viewing figures reported the quarter-final win over France was Australia's biggest television audience for a sporting event in more than two decades - since Cathy Freeman won gold at the Sydney Olympics in 2000 - with an average of 4.23 million.

National newspapers have been building up the sporting rivalry between Australia and England which was felt during the Ashes and the Netball World Cup. But Walsh says there is no added incentive to beat Australia due to a rivalry.

"The media do talk a lot but for us it's not about Australia, we want to win regardless. There's a rivalry in any team, it doesn't make any of a difference if the media is talking about beating England. Whatever game we play in we want to win; it doesn't matter who you are playing against. We aren't thinking about spoiling the party. We are very focused on reaching the World Cup final," she said.

England's Euro 2022 captain Leah Williamson, who was ruled out of the World Cup with an anterior cruciate ligament injury, flew out to Australia to support the Lionesses in their quarter-final win over Colombia.

"It's a massive boost for the team to see her supporting. It's the other side of the world, it's not an easy flight and that shows what she feels about this team. The first time I saw her she was outside my hotel window waving. She didn't want to distract us on game day. It was nice to get the win and celebrate after. I can imagine it's not easy for her to watch, she would have wanted to be playing, so we appreciate her support. It shows what a good character she is to be able to that for us," said Walsh. -www.bbc.com

Brave Lioness... Keira Walsh had an injury scare against Denmark but returned to the side after missing the final group game against China.

APPENDIX F - NOTIFICATION EMAILS AND LETTERS

Victoria Shikwaya

From: Ndesihafela Lucia Neliwa
Sent: Tuesday, 15 August 2023 3:14 pm
Subject: APPLICATION FOR ENVIRONMENTAL IMPACT ASSESSMENT FOR THE PROPOSED CONSTRUCTION OF TELECOMMUNICATION TOWERS IN WINDHOEK, KHOMAS REGION, NAMIBIA
Attachments: 23-0714_PowerCom BID_FINAL.pdf

Dear Potential Interested and Affected Party

GCS Water Environmental Engineering Namibia (Pty) Ltd (GCS) hereby give notice to all potentially Interested and Affected Parties (I&APs) that an application will be made to the Environmental Commissioner in terms of the Environmental Management Act (No 7 of 2007) and the Environmental Impact Assessment Regulations (GN 30 of 6 February 2012) for the below.

- Construction of a Telecommunication Tower in Rocky Crest Extension 1, Windhoek, Khomas Region;
- Construction of a Telecommunication Tower in Rocky Crest Extension 4, Windhoek, Khomas Region;
- Construction of a Telecommunication Tower in Katutura Extension 1, Windhoek, Khomas Region;
- Construction of a Telecommunication Tower in Katutura Extension 14, Windhoek, Khomas Region.

GCS has been appointed by PowerCom (Pty) Ltd to conduct the Environmental Impact Assessments (EIAs) and submit the required reports to the Environmental Commissioner as part of an application to apply for the Environmental Clearance Certificates (ECCs) in accordance with the Environmental Management Act (7 of 2007) and its 2012 Regulations.

Public consultation forms part of the EIA process. As part of the public consultation process, you have been identified as a potential interested and affected party with respect to the proposed activity, which is why you are receiving this email.

Furthermore, public meetings are scheduled to be held to provide more information regarding the proposed activities and to allow Interested and Affected Parties (I&APs) an opportunity to comment on the proposed activities. The public meetings are scheduled to be held as follows:

Rocky Crest Extension 1: Date: 28 August 2023 Time: 17h30 Venue: Erf 849, Rocky Ext 1	Rocky Crest Extension 4: Date: 29 August 2023 Time: 17h30 Venue: Erf 1763, Rocky Crest Ext 4
Katutura Extension 1: Date: 30 August 2023 Time: 17h30 Venue: Erf R/6268, Katutura Ext 1	Katutura Extension 14: Date: 31 August 2023 Time: 17h30 Venue: Erf 1178, Katutura Ext 14

Should you wish to send us any potential issues or comments that you would like to be considered as part of the impact assessment process and addressed in the scoping report, please send us your inputs before the end of business on Tuesday, 05 September 2023.

Once the scoping stage is completed, GCS will provide you with access to the draft scoping report, for your review, and you will have another opportunity to submit comments based on your review.

Please do not hesitate to contact us should you have any questions regarding the proposed activity and its EIA process.

Tel: +264 61 248 614
Cellphone: +264 81 4479 211

Should you require any additional information in this regard please feel free to contact our office.

Kind regards
Ndesihafela Neliwa

APPENDIX G - PROOF OF SITE NOTICES

SITE NOTICE

APPENDIX H - PUBLIC MEETING PRESENTATION

Environmental Assessment for the Proposed Construction of a Telecommunication Tower in Katutura Extension 14, Windhoek, Khomas Region

Public Meeting: Erf 1178 , Katutura Extension 14

31 August 2023

1

Background

PowerCom (Pty) Ltd (PowerCom or the proponent hereafter) proposes to erect a telecommunication tower on Erf 1178, Katutura Extension 14.

The proposed project aims to strengthen the coverage for mobile services, inclusive of voice and data services within the subject areas.

GCS Water Environmental Engineering Namibia (Pty) Ltd (GCS) has been appointed to conduct the process and submit the application to the Environmental Commissioner on behalf of the proponent.

3

3

Legal Requirements

Environmental Management Act No 7 of 2007 and Environmental Impact Assessment Regulations (Government Notice No 30 of 2012)

The following project activities trigger the need for an EIA in Namibia:

10.1 (g) *The construction of masts of any material or type and of any height, including those used for telecommunication, broadcasting, and radio transmission.*

5

5

Agenda

- Welcome and introduction
- Background
- Purpose of the meeting
- Legislative process
- Public Participation Process
- The proposed development
- The way forward
- How you can get involved
- Questions/Answers

2

Purpose of the meeting

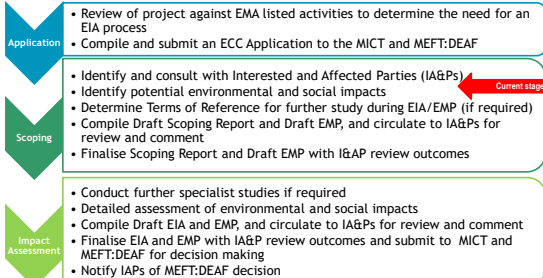

- To explain the Environmental Assessment Process.
- To provide information on the proposed development.
- To identify potential issues and concerns from the public in terms of:
 - Environmental;
 - Social;
 - Cultural; and
 - Economic.

4

4

Environmental Impact Assessment Process

6

6

Rationale for Environmental Impact Assessment

To identify potential negative and positive impacts (social, economic, cultural & biophysical) and to determine their likely significance

Assess alternative ways of undertaking the project such that negative impact are avoided or managed and positive impacts enhanced

To allow for public involvement

To inform the proponents decision-making

To inform the Environmental Authority's decision-making (Ministry of Environment, Forestry and Tourism: Department of Environmental Affairs and Forestry, MEFT:DEAF)

7

Public Participation Process

Advertisements: 15 August 2023 and 22 August 2023 in the New Era newspapers

Written notice and Background Information Document (BID) to pre-identified Interested and Affected Parties via email and/or registered mail.

Notice displayed on site.

Public meeting in Windhoek.

8

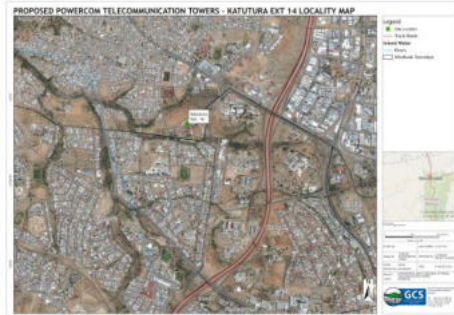

The proposed development: Need and Desirability

- Constant growth in use of mobile communication services
- Increasing need to expand the communications network
- Proposed structure aims to:
 - Provide capacity
 - Increase coverage
 - Improve quality of service

9

The proposed development: Site Location

10

The proposed development: Site Design

- 25-meter-high network tower
- Equipment room
- Site fenced to limit access

Network Structure Type	Palmtree Network Tower
Erf number	1178, Katutura Extension 14
Height	25 meters

Figure 1: Example of palmtree Network Tower erected by PowerCom

11

Potential Impacts

- **Telecommunications convenience:** Local mobile users will have improved infrastructure that will address problems with network coverage.
- **Disturbance:** During site establishment, the presence of the construction team may cause temporary disturbance to the direct neighbours.
- **Health and Safety issues:** Electromagnetic Radiation emitted from the antennae of cellular structures may affect human health. The study will assess whether the design standards applied will comply with the International Commission on Non-Ionizing Radiation Protection (ICNIRP) [Guidelines on Limiting Exposure to Electromagnetic Fields](#) and the National Radiation Protection Authority of Namibia recommendations.

More potential impacts of the proposed activity will be identified upon consultations with the public and further research on the area.

12

The Way Forward

Scoping Phase:

- 1st comment phase: from 15 August 2023 - 05 September 2023
- 2nd comment phase: Draft Scoping Report will be made available to all registered IAPs for review and comment for 14-day period.
- Preparation and Submission of Final Scoping Report to Ministry of Environment, Forestry and Tourism.

APPENDIX I - COMMENTS RECEIVED

Ndeshihafela Lucia Neliwa

From: Lenishwa Engelbrecht <archeology@nhc-nam.org>
Sent: Monday, 28 August 2023 4:37 pm
To: Victoria Shikwaya; Ndeshihafela Lucia Neliwa
Cc: 'Agnes shiningayamwe'; krtjiuoro@gmail.com
Subject: Draft Scoping Reports - Availability for Public Review
Attachments: Guidline for HIA.pdf; Consent Application.docx

Good day

I would hereby like to acknowledge receipt of your emails and Environmental Impact Assessment Reports regarding the Construction and operations of Telecommunication towers in the following areas:

- Oikokola (Etayi), Omusati Region
- Khoab Extension 4, Otavi, Otjozondjupa Region
- Ondangwa Extension 8, Oshana Region
- Otavi Extension 4, Otavi, Otjozondjupa Region
- Oshikuku Extension 4, Omusati Region

Kindly take note that in terms of section 27 (1) of the Environmental Management Act No. 7 of 2007, project and development activities which require an Environmental Clearance Certificate (ECC) also require a Consent from the National Heritage Council of Namibia (NHC) since August 2020. This consent has thus been made a requirement for approval for the Environmental Impact Assessment (EIA) and Environmental Management Plan (EMP) studies that provide environmental clearance certificates. An application for consent must be accompanied by a Heritage Impact Assessment (HIA) report, which is required in terms of Section 51 (3) of the National Heritage Act (Act no. 27 of 2004). The HIA report is to elaborate and confirm to what extent, if any, the proposed activities would impact any resources of heritage significance in and around the area of interest. The guideline for HIA reporting as well the application for Consent form are attached in this email.

This information would therefore also apply towards your public consultation efforts with regards to the proposed construction of telecommunication towers in Windhoek, Khomas Region:

- Construction of a Telecommunication Tower in Rocky Crest Extension 1, Windhoek, Khomas Region;
- Construction of a Telecommunication Tower in Rocky Crest Extension 4, Windhoek, Khomas Region;
- Construction of a Telecommunication Tower in Katutura Extension 1, Windhoek, Khomas Region;
- Construction of a Telecommunication Tower in Katutura Extension 14, Windhoek, Khomas Region.

-As well as the proposed Otjombinde rural Water Supply Scheme – Omaheke Region:

- Eiseb West Scheme – Development of a water supply scheme west of the Eiseb Graben;
- Eiseb South Scheme – Development of a water supply scheme south of the Eiseb Graben;
- Okarupuri Scheme – Development of a water supply scheme in the Okarupuri area; and
- Talismanis – Rietfontein – Extension of the existing NamWater Scheme.

I hope this email finds you well.

Kind regards

L. Engelbrecht
