Re: Construct and operate two (2) 100m high-guyed meteorological masts in the Tsau //Khaeb (Sperrgebiet) National Park, Karas Region within the Mining Licence 45 area allocated to Sperrgebiet Diamond Mining.

Sir / Madam,

Sperrgebiet Diamond Mining hereby supports the erection of two meteorological masts as described per document PtX Mast 1 and 2 BID.

This approval is given on condition of our Board's approval of the Memorandum of Understanding with CWP submitted for approval at our Board meeting held on 24 November 2020.

We would require CWP and/or their elected representatives or sub-contractors to conform to all relevant regulatory requirements and also our internal Health and Safety, Security and Operational controls.

Best regards,

Paul Lombard
General Manager

**Construct and operate two (2) 100m high guyed meteorological masts in the
Tsau //Khaeb National Park, Karas Region.**

Enviro Dynamics, on behalf of CWP Renew:

Propose to apply for environmental clearance (ECC) to construct and operate two (2) 100m high guyed meteorological masts at two separate locations in the Tsau //Khaeb National Park, Karas Region.

The mast stays require an open area of 80 m diameter each.

The two separate site localities are as follows.

Site 1 coordinates are:

-27,035180 15323706

-27,081279 15,333276

-27,072615 15,384327

-27,028365 15370015

Site 2 coordinates are:

-26,754767 15,229704

-26,789602 15,228319

-26,796897 15,265570

-26,762654 15,260316

The masts are to be erected within each of these boundaries.
