Hi Colleagues

All comments are noted with appreciation.

The issuing of an "Environmental Content Letter" from us is one of those initial process in obtaining an MET ECC. For the sake of progress on this consent letter - Can I thus please get a copy of Council resolution or letter indicating approval of the lease (from Jack or Colin) and confirmation of zoning from Town Planning.

Kindest regards,

**David DH Uushona (CMP)**

Good afternoon

The response from Ephraim is noted. The ownership of the area referred to is with Council. The applicant has lease option with was approved by Council. However, before any lease can be entered with the applicant they must attend to set conditions for example obtain lease diagram and Environmental clearance form MET.

Regards

J Manale

**Subject:** RE: Proposed Construction of an 18MW Solar Power Plant on Farm 38, Rooikop, Walvis Bay, Erongo Region.

Good afternoon colleagues and Colin,

Good question David especially on ownership, I have added Jack to this email response to give much clarity regarding the ownership issue which I presume is a lease agreement with Council and further accompanied with such an arrangement is the following that we from TP will need from the applicant:

1. Council resolution or letter indicating approval of the lease area and its true extent;
2. A approved lease diagram (from a land surveyor) indicating the exact locality of the proposed activities; and
3. A clearance letter from Mines and Energy of any encroachments of the project area with registered EPL's in the area, and so also an area exclusion confirmation IF such encroachments exists.

The above information is crucial in determining the status of the proposed area of operation and please note that point 3 above won't be necessary if no EPL's are registered within the area of operation. Such information can be obtained from a land surveyor as part of the preparation of the lease diagram if instructed so.

Hope the above is in order for more clarity please do not hesitate to contact the Town Planning Section.

Regards,

EN

**Subject:** FW: Proposed Construction of an 18MW Solar Power Plant on Farm 38, Rooikop, Walvis Bay, Erongo Region.

Hi Colin - This is to acknowledge receipt of your below email from my side. One main issue I want to recommend is to rather place your adverts in The Namib Times and The Namibian as the two most popular-read newspapers in Walvis Bay. This will ensure reaching most of the relevant I&APs for this project.

Dear Efu – I note that you were copied into the initial email below. Can you please confirm ownership and zoning of the project area to enable Environment to draft the “Consent Letter” as requested?

Kindest regards,

**David DH Uushona (CMP)**

Yes Colin,

Not at all it just proper to have a demarcated area to work from and to make my work much easier to align the proposed area with our GIS.

Regards,

EN

**Subject:** RE: Proposed Construction of an 18MW Solar Power Plant on Farm 38, Rooikop, Walvis Bay, Erongo Region.

Good morning Ephraim

Thank you, we will definitely bring it to the attention of the proponent. Our understanding is that the surveying is an important condition to be met before any activities commence, but it will not necessarily derail the environmental assessment process from continuing.

Regards,

Subject: RE: Proposed Construction of an 18MW Solar Power Plant on Farm 38, Rooikop, Walvis Bay, Erongo Region.

Good morning Colin,

Thanks for the Council confirmation, I think its imperative now to have a surveyor to clearly mark out the area of preference and the surveying of it. We will recommend for you to use our local surveyor Mr Rickisson Munyonga at [rickisonm@gmail.com](mailto:rickisonm@gmail.com) or [rickymu@iway.na](mailto:rickymu@iway.na) cell: 0811 22 3299 he has done almost all surveys in the area, he will also be in a position to give clear site location preferences.

Regards,

EN

You replied to this message on 12/10/2020 22:11.

Good morning, Colin

We acknowledge receipt of the draft EIA and EMP for the proposed construction of an 18MW Solar Power Plant on farm 38, Walvisbay, Erongo Region with appreciation as a registered I&AP as confirmed by yourself. NamPower will peruse the document and provide its comments if any within the timelines provided.

Thank you once again for your prompt response to both our request for registration and provision of the two drafts documents.

**Kind Regards,**

Colleagues

Not sure if also received by Environment and to be circulated as is usually the case.  
I would like to see a map indicating their location on Farm 38, them being quite a sizeable project.

**TP - We need to utilize our budgeted funds to move towards a formal layout design and services on Farm 38 given quite a large number of leases allowed to date.**

Kind Regards

**Subject:** Comments: Proposed Construction of an 18MW Solar Power Plant on Farm 38, Rooikop, Walvis Bay, Erongo Region.

Morning Mr. Collin

Please see below our Comments for the Proposed Construction of an 18MW Solar Power Plant on Farm 38, Rooikop, Walvis Bay, and Erongo Region.

1. Are there any major water pipelines running in the public space? If there are, please indicate on your maps. NamWater pipeline infrastructure have a servitude of +/- 15 m 7.5m on both sides, this ensures that our maintenance teams have access to the infrastructure in case of pipe breaks or any installations.
2. In the BID you have indicated that the area is partly developed with industrial infrastructure, please elaborate on the types of developments taking place.
3. Even though the area might be partly developed, there is a 29 hectare of land loss, which might directly or indirectly influence land degradation and habitat loss.
4. Maps should be redesigned to clearly indicate farm 38 locality Map, which should include a legend to help in identifying features.
5. Coastal Biodiversity is rare and sometimes endemic, a detailed biophysical study on the vertebrate fauna and flora is thus ideal.

Regards

F. Aupokolo

Dear Colin,

Apologies for only sending through my comments now.

Herewith are the comments on the EIA report:

- **Cover: Title & Section 1.1.:** Please refer to the correct description of the site e.g. Lease XYZ of Farm 38 (or Portion XYZ of Farm 38).
- **Locality Plan:** Include the Portion or Lease Number on the locality plans.
- **Page 9, Table 2:** Please note that the Township and Division of Land Ordinance 11 of 1963 has been repealed by the Urban and Regional Planning Act (Act of 2018).
- **Page 10, Table 2:** Farm 38 is zoned as "Undetermined" in terms of the Walvis Bay Town Planning Scheme – see the attached document outlining the permissible uses.
- **Sections 9.3: Surrounding Land Use & 14.1.2. Land Use Change:** Please also assess the potential impacts of the proposed solar plant on the proposed residential townships across Farm 38, (i.e. on Farm 37).

The above comments are also applicable to the EMP report.

Regards,

Kristy Asino  
Town Planner

**Subject:** RE: PROPOSED CONSTRUCTION OF AN 18MW SOLAR POWER PLANT ON FARM 38, WALVIS BAY, ERONGO REGION

Dear Nangula

Thank you for the email. Please find attached electronic copies of the EIA and EMP reports, as well as sketch plans showing the locality of the proposed development.

Regards,

Colin
