

REPUBLIC OF NAMIBIA

ENVIRONMENTAL QUESTIONNAIRE FOR MINING CLAIMS IN NAMIBIA

BEING APPENDIX A TO THE ENVIRONMENTAL CONTRACT

1. BACKGROUND INFORMATION

- 1.1 Companies/Natural persons applying for MINING CLAIMS must complete this questionnaire. (Please fill in ALL questions).
- 1.2 The answers provided in this questionnaire shall be regarded as commitments which will become part of the Environmental Contract between the Holder and the Government of the Republic of Namibia, duly represented by the Ministry of Environment and Tourism (MET) and the Ministry of Mines and Energy (MME).
- 1.3 Once the Holder has completed this questionnaire MET and MME will either accept/reject/request further information regarding the environmental commitments made therein. MET and MME reserve the right to add further conditions.
- 1.4 Once agreed to by all parties concerned, the completed questionnaire shall form part of the Environmental Contract.
- 1.5 Please attach a map of the mining claim area and a copy of the application to register mining claims.

2. Holder details

2.1 Name of Holder	Amar Tjiposa
2.2 Name of Mining Claim Holder (if different from 2.1)	
2.3 Telephone, Fax, Cell Phone and/or E-Mail	Tel: 0817008063 Fax: E-Mail: harrytjiposht93@gmail.com Cell: 0812745907
2.4 Postal Address Residential/Registered Address	P.O. BOX 237 OPLUWO Maqela Dissipel Street Eef 6822
2.5 Reference Number	NEPL No: 9827 Expiry: 09/11/23
2.6 Registered Number(s)	
2.7 Location (Farm, District, Region) of mining claim(s)	GRN
2.8 Group(s) of Mineral(s) to be mined	SPS

2.9 How many people will work on your mining claim, and where will they live?

Number of people	Where will they live?
6	At the camp of the mining site.

3. Environmental commitments

3.1 Pollution and Waste

3.1.1 What will you do with normal litter (e.g. Kitchen spoils, cans, bottles, paper, etc.)?
The normal litter will be taken to a ^{dump} near to of the nearest town. Inserted in black plastic to be taken to the dump.

3.1.2 What industrial waste will be generated and what will you do with it (e.g. old machinery, vehicles, building rubble, batteries, paint, thinners, vehicle oil, etc.)?
The industrial waste will be taken to the dump dump site

3.1.3 Describe what type of toilet facilities will be provided.
There will be mobile toilets available.

3.2 Vehicle, earthmoving equipment, drilling and blasting

3.2.1 List the type and quantity of vehicles, earthmoving equipment, drilling equipment, and other machinery likely to be used on your mining claim (e.g. 2 x bakkies; 1 x bulldozer, etc.)

Vehicles:

X2

Earthmoving equipment:

Drilling equipment:

X1

Other equipment and/or machinery:

Truck (small)

3.2.2 Describe the environmental damage that is likely to result from the use of vehicles and machinery within the mining claim area (e.g. on the landscape in general, soil, vegetation, noise, dust, etc.).

No damage will be done, as we will use the existing roads - there will be machinery noise but only during day time.

3.2.3 How will you control the movement of vehicles and machinery in order to minimise environmental damage?

There is only one route to travel and the machinery will stay on site.
Trucks will make minimum trips only to load stones

3.2.4 Which routes will be used by vehicles to get to your mining claim and state whether you intend making new roads or tracks (both to your mining claim and within your mining claim)?

There is one existing route.

3.2.5 Will you do any blasting on your mining claim?

Yes: No: Unsure:

3.2.6 If "yes" above, explain how you intend minimising environmental impacts, including the safety of humans, livestock and wildlife?

We will implement appropriate measures before, during and after the operation. - by selecting explosives, blasting patterns and initiation systems that optimize blast efficiency and minimize noise, vibration dust and fumes.

3.3 Water

3.3.1 How much water do you intend using for various activities (e.g. human use, washing of equipment, washing sand/stones, dust control, gardens, etc.) and state how you intend saving water within each category of use.

Activity or category of use	Quantity of water needed per month (litres)	Water saving methods
Human consumption	4000 L	only use when needed minimise leaks from taps

3.3.2 Where will you get your water (e.g. river, own borehole, Water Affairs connection, etc.)?

own borehole

3.3.3 Explain how you will minimise or completely avoid polluting any water source, including underground water.

Isolation of mine waste and equipment from water sources.

3.4 Relations with neighbouring communities and/or the general public

3.4.1 Are there any people living in or near your mining claim?

Yes: _____ No: Unsure: _____

3.4.2 If "yes", explain where these people live and describe their economic activities.

3.4.3 If "yes" in 3.4.1, explain what you will do to maintain a good relationship with such people.

3.4.4 Will the activities on your mining claim restrict the movement of other people in the area (e.g. the general public, tourists, farmers, local people, etc.)?

Yes: _____ No: Unsure: _____

3.4.5 If "yes" for 3.4.4, please explain why their movements or access will be restricted.

3.5 Protection of plants and wildlife

3.5.1 How will you ensure that your activities will not cause unnecessary damage to plants and wildlife in or near your mining claim) e.g. hunting, plant collecting, fishing, etc.)?

By using eco-friendly equipments and lower-impact mining techniques.

3.6 Historical, archaeological and cultural heritage (e.g. rock art, graves, monuments, fossils, sacred sites, historical buildings, etc.)

3.6.1 Are there any historical, archaeological or culturally important sites within your mining claim area?

Yes: _____ No: Unsure: _____

3.6.2 If "yes", please describe briefly.

3.6.3 If such sites are known, how will you avoid damaging them?

N/A

3.6.4 If such sites are discovered after you have started working your mining claim, would you accept new conditions to this contract so that they can be properly protected?

Yes: _____ No: _____ Unsure: _____

3.7 Rehabilitation

3.7.1 When will you rehabilitate the environmental damage done during prospecting? (Tick the appropriate box)

I have no intention of rehabilitating any damage
On a continuous basis (i.e. simultaneous with prospecting)
Only after all prospecting has finally been completed
I don't know

✓

3.7.2 Describe the programme of mining from the start and the methods to rehabilitate damage.

The methods to rehabilitate damage are hydroseeding or revegetation of the mining site.

4. Existing Damage

Describe what environmental damage exists in your mining claim area now, in other words, damage caused by someone else before you began working on the mining claim. Where possible, provide evidence such as photos, statements, etc.

N/A

I hereby declare that the information provided in this questionnaire, is to the best of my knowledge, accurate and correct, and that I'm prepared to keep to the commitments stated therein.
