Dear Mr Mufeti

**ENVIRONMENTAL ASSESSMENT FOR PROSPECTING AND EXPLORATION ACTIVITIES ON EPL 8097, ERONGO REGION.**

The Environmental Clearance Certificate System requires that a copy of consent from the Conservancy Management be uploaded. The proponent and their Geologist have provided information that the bulk of the footprint of EPL 8097 (Approximately 90%) is outside of the conservancy area managed by !Khorro !goreb Conservancy. The remaining 10% is not an area of interest for the prospecting and exploration activities of the proponent.

We attach a map depicting the location of EPL 8097 relative to !Khorro !goreb Conservancy (red oval) for ease of reference.

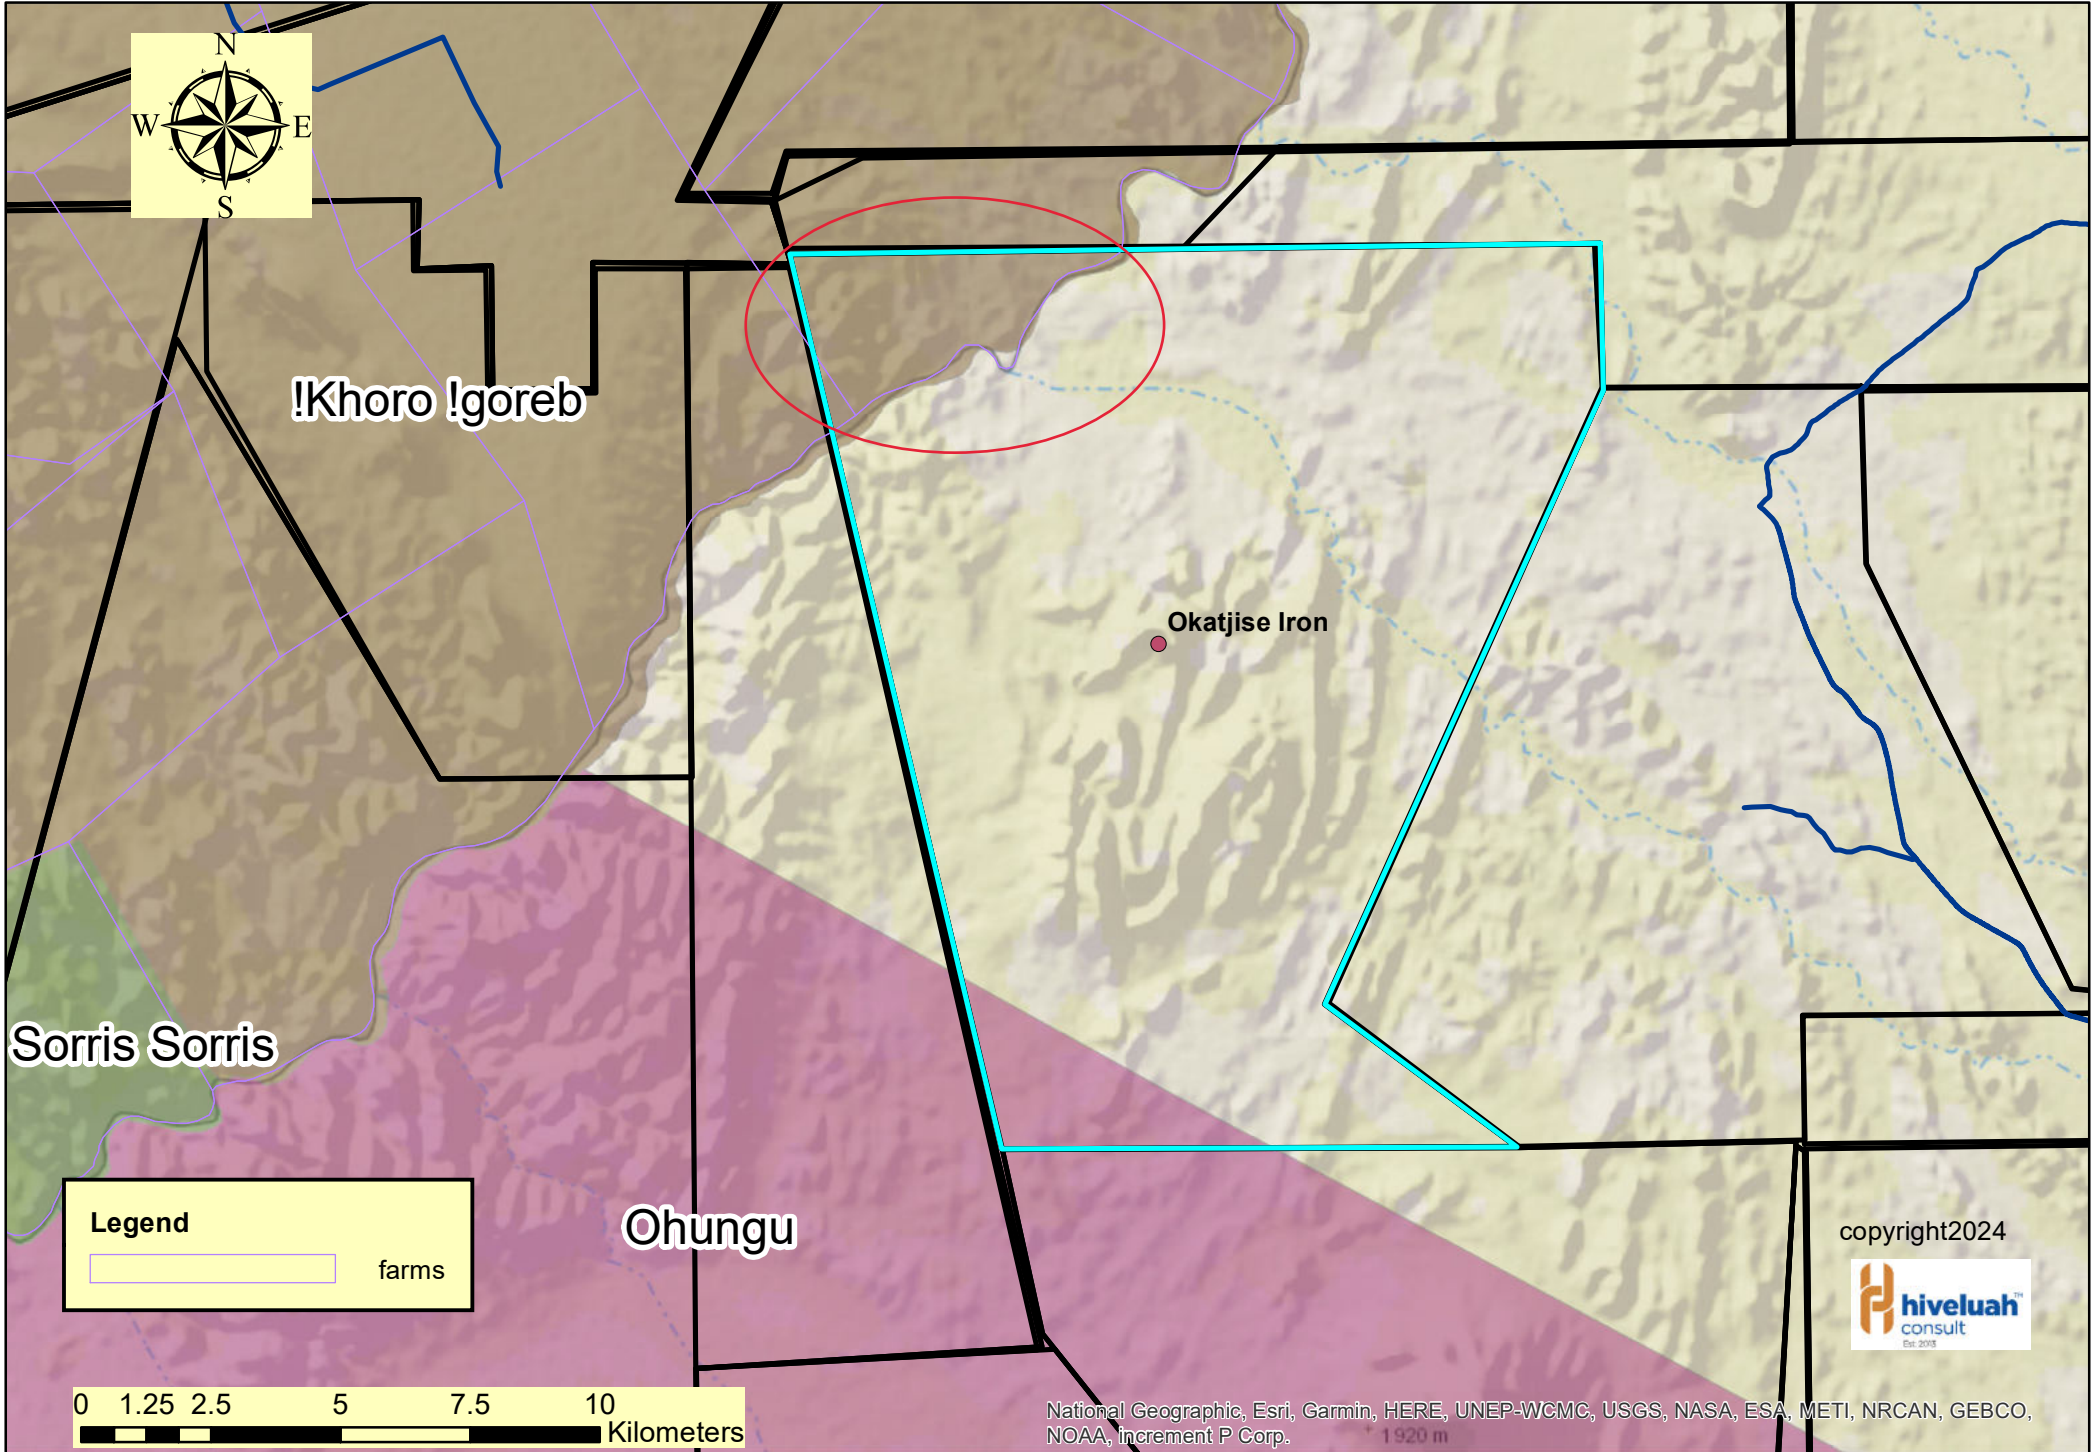

We trust that you will find this in order.

Yours faithfully,

**Colin P Namene**  
Managing Director
