1. INTRODUCTION

Public Participation Process (PPP) is an integral part of the EIA process as outlined in Section of 27(1) (h) of the Environmental Management Act and Section 32 of the Environmental Assessment Regulations. One of the objectives of the Scoping Assessment for this development was to identify key stakeholders so as to involve them in the EIA process.

Generally, the PPP is a platform which affords an opportunity to stakeholders, statutory stakeholders and interested and affected parties (IAPs) to participate in the EIA process for the envisaged development. During the PPP, such stakeholders are given an opportunity to express their views, provide comments and/or to voice any concerns which they might have with regard to the proposed development. In broader terms, the objectives of the PPP are the following:

- 🚩 To increase awareness and public confidence and in so doing to maximize benefits and minimise risks.
- 🚩 To ensure transparency and accountability in decision-making hence less conflict, since decisions are deemed to have been made through consensus.
- 🚩 To secure approval from stakeholders which gives some form of assurance and a sense of partnership with the promoters of the proposed development and prevents unnecessary disputes and costs associated with litigations

2. PROJECT DESCRIPTION & LOCATION

Erongo Petroleum CC (or 'EPC', for short) is proposing to develop a bulk liquid fuel storage and handling facility on Erf 5022 situated on Ben Amathila Street, in the industrial section of Walvis Bay. The proposed facility will have a designed capacity of 24 000 m³ and will handle one single product - automotive diesel oil (ADO) stored in six aboveground storage tanks.

Over two hundred fishing vessels of different sizes and capacities are operating in the local fishing sector, catching marine products and docking at factory jetties to offload. During the offloading, the fishing boat is refuelled and replenished with supplies. Refuelling involves road tankers carting fuel from the depot to the factory jetty terminal where the boat is anchored. Depending on the boat size, multiple trips are often made by road tankers to complete refuelling. This activity alone has several undesirable environmental impacts – traffic congestion on Ben Amathila Street, noise pollution and increased exhaust emissions leading to the already elevated ambient atmospheric emission levels in the harbour town.

The proposed development will function as a one-stop refuelling point for fishing vessels. Instead of road tankers carting fuel into the factory, the fishing boat simply docks at the fuel jetty terminal where it is refuelled and replenished with fresh supplies. This can be done before the fishing boat docks at its home jetty to offload its catch or soon after offloading. The project is therefore needed and indeed, desirable.

The development will be made on the premises of a fishing factory which has been in operation for many years. It is therefore a brownfield development involving demolition of an old wooden jetty and replacing it with a concrete one. Several redundant building structures will also be demolished to make way for the bulk liquid fuel storage and handling facility.

The project site is depicted in Fig. 1.

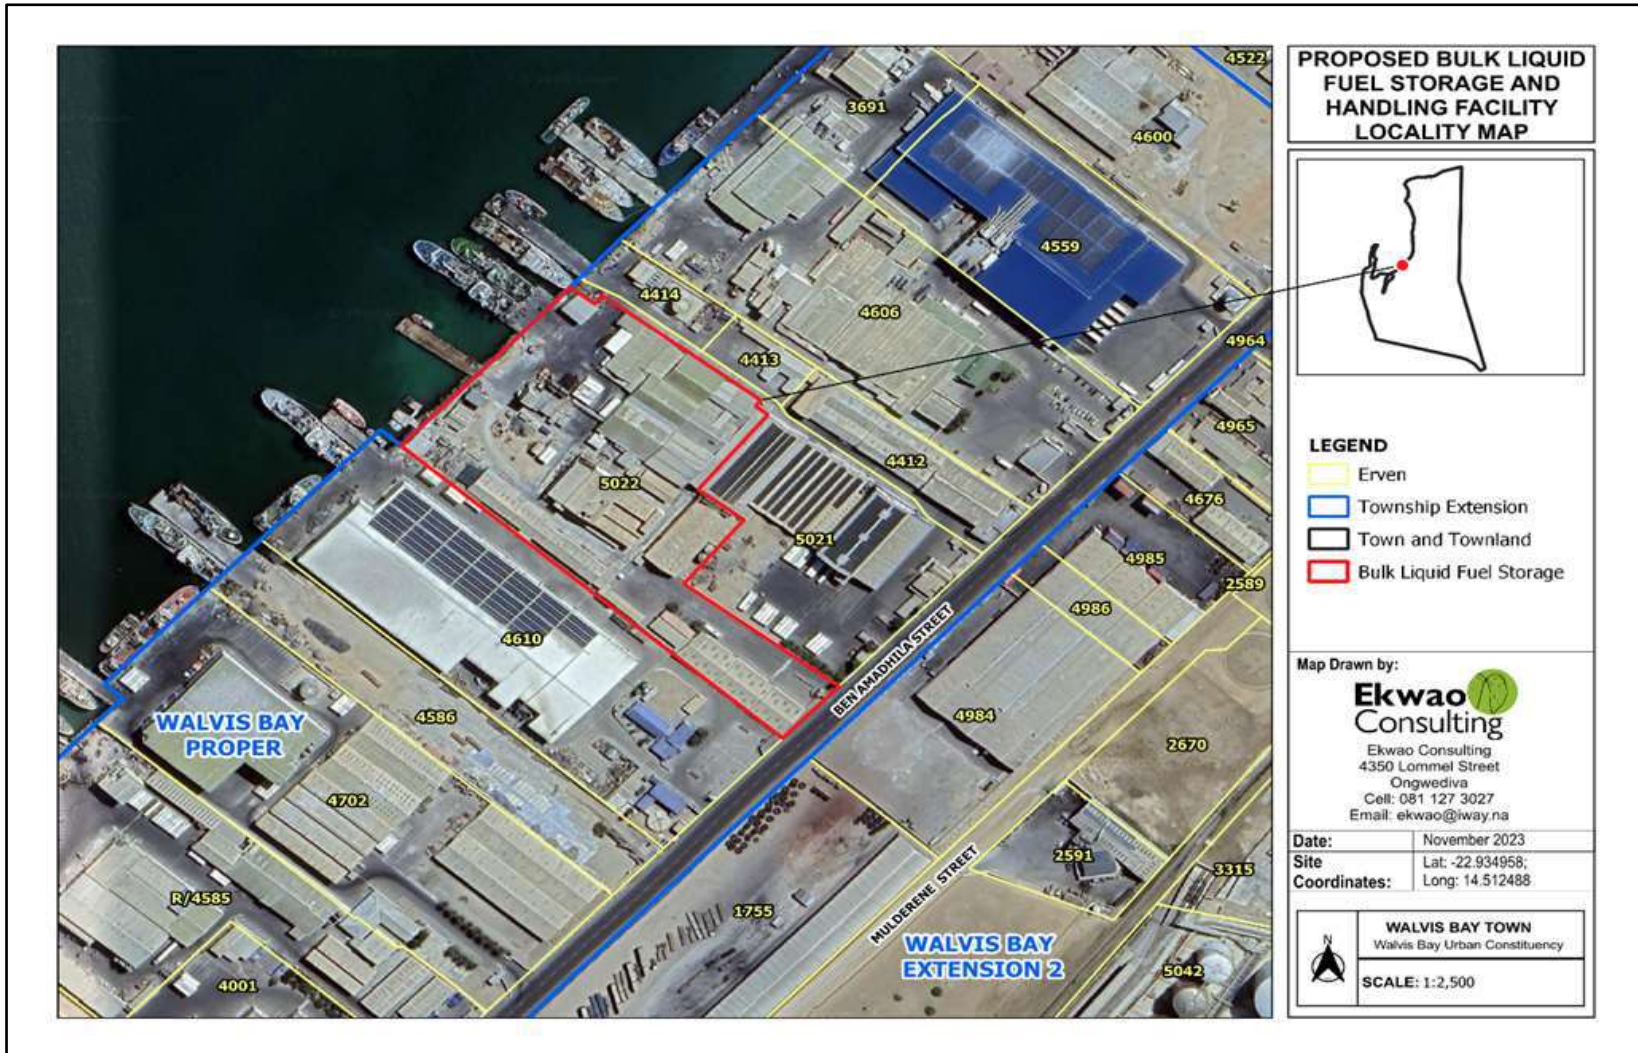

Figure 1: Project Location Map

3. PROJECT ANNOUNCEMENT

The project was announced in the local newspapers on the dates as shown in the table below. EIA notices describing the proposed project, its location, the proponent and the EIA Consultant were also affixed on the premises of the site earmarked for the development (**Fig. 2**)

In the adverts, an invitation was made to stakeholders and IAPs to participate in the EIA process being conducted for the development by providing comments, making contributions and or to voice any specific concerns which they might have with respect to the development.

Stakeholders were asked to register for the EIA using various forms of communication models: email, fax, letters, social media, etc). The project was advised as follows:

Table 1: Project Advertisements in Local Newspapers

Date	Publication	Distribution	Language	Publication Rate
17 Nov 2023	Namib Times	Coastal towns of: Walvis Bay, Swakopmund, Henties Bay & Arandis	English	Weekly on Tuesdays & Fridays
24 Nov 2023				
24 Nov-29 Nov 2023	Confid�ente	Nationwide	English	Weekly on Thursdays
30 Nov-7 Dec 2023				

4. IDENTIFICATION OF STAKEHOLDERS

The following were identified as stakeholders representing various State Organs and/or Agencies: entities, groups and or individuals:

Table 2: Statutory Stakeholders

Stakeholder	Designation	Names
Erongo Regional Council	The Governor	Hon A Neville
	Chairperson: Management Com.	Hon. Cllr. B Imbamba
	Chief Regional Officer	Mr M Ntelamo
	Director: Development Planning	Mr S Mubila
Walvis Bay Municipality (WBM)	Office of the Mayor	Hon. Cllr T Forbes
	Chairperson Management Com.	Hon. Cllr O Andrews
	Chief Executive Officer	Mr D UUshona (Acting)
	Manager: Environmental Health & Safety	Mr J Andreas
Ministry of Mines and Energy (MME)	Director of Energy	Mr J Titus
	Deputy Director - Licensing	Mr Nashilundo
	Petroleum Commissioner	Ms M Shino
	Petroleum Supply & Distribution	Mr. I Nghishoongele
	Fuel Retail Licencing	Mr Geingob
Ministry of Environmental Forestry and Tourism (MEFT)	Environmental Commissioner	Mr Timo Mufeti
	Deputy Environ. Commissioner	Dr C !Garus-Oas
	Head: Environmental Affairs	Mr D Nchindo
	Chief: Environmental Affairs	Mr H Mbura
Namibia Ports Authority (Namport)	Chief Executive Officer	Mr A Kanime
	Manager: Terminal Planning	Mr. W Mutwa
	Manager: Business Development	Mr. Ndjadila
	Walvis Bay Port Captain	Mr. L Kufuna

5. BACKGROUND INFORMATION DOCUMENT

A Background Information Document (BID) on the project was prepared and copies emailed or sent via social media platforms to identified stakeholders. The BID is attached as **Annex A**.

6. NOTICES FOR THE EIA

In addition to the announcement of the development in the local newspapers, distribution of BIDs to identified IAPs, EIA notices were also prepared and placed on the property.

The closing date for comments and or inputs was 10 December 2023.

7. COMMENTS AND RESPONSES

Not one single stakeholder or IAPs registered for the project and therefore no comments, complains or issues were received with respect to the proposed development by Erongo Petroleum CC.

ENVIRONMENTAL IMPACT ASSESSMENT

Construction, Operation and Maintenance of a Bulk Liquid Fuel Storage and Handling Facility

Walvis Bay, Erongo Region

Background Information Document (BID)

November 2023

INTRODUCTION

Erongo Petroleum CC (the promotor) is proposing to develop a Bulk Liquid Fuel Storage and Handling Facility and has appointed **Ekwao Consulting (Ekwao)** to attend to the environmental services of the project, while **Seal Consulting Engineers (SCE)** handles all engineering facets of the project, from

design to management of all related construction activities.

PROJECT LOCATION

The project will be developed on Erf 5022, Ben Amathila Street, Walvis Bay, Erongo Region as more or less depicted in **Fig. 1**

Figure 1: Project Site

PROJECT DESCRIPTION

The project entails the development of a Bulk Liquid Fuel Storage and Handling Facility with a designed capacity of 24 million litres. These construction activities will be involved:

- Demolition of an existing timber jetty and replacing it with a concrete jetty able to dock tanker vessels.
- A product conveying pipeline from the quay to the tank farm with a total length of about 200 m. Across the jetty section, the conveying pipeline will run in a sleeve buried in concrete while the rest of the pipeline will be partly underground (road crossings) and partly overland.
- Construction of a tank farm consisting of six tanks, each tank with a diameter of 17.5 m and a height of 16.8 m. The tank farm will have a footprint of $\pm 330 \text{ m}^2$ which is about 65% of the total land area making up Erf 5022.
- Upon completion of the construction activities, day-to-day operation and routine maintenance of the bulk liquid fuel storage and handling facility in line with industry practices and standards.

EIA OBJECTIVE

The objective of the EIA is to identify potential negative and positive impacts associated with the envisaged

development. Where negative impacts are identified, to provide management measure on how such impacts may be eliminated, avoided or minimised to acceptable levels. Where positive impacts are anticipated, to provide measures to enhance such positive benefits to accrue to the broader society.

The EIA will be conducted in full compliance of the provisions of the Environmental Management Act (Act No. 7 of 2007) and EIA regulations as gazetted.

PURPOSE OF THIS DOCUMENT

This BID is intended to provide information related to the proposed development to stakeholders – government agencies as well as Interested and Affected Parties (IAPs). In this regard, an invitation is extended to IAPs to register for the EIA in order to receive information on the project and to participate in the EIA process by providing inputs, comments or to voice any concerns which they might have with respect to the development.

ENVIRONMENTAL CLEARANCE CERTIFICATE

The EIA process in order to obtain an Environmental Clearance Certificate (ECC) for the proposed development is presented in **Fig. 2**.

NOTICE

PUBLIC NOTICE - ENVIRONMENTAL ASSESMENTS AND PUBLIC CONSULTATION PROCESS	
Notice is hereby given that an Environmental Scoping and Impact Assessment (ESIA) and a Public Consultation Process (PCP) are being conducted in terms of the Environmental Management Act (Act No. 7 of 2007) and related EIA regulations for the activity listed below:	
On completion of the aforesaid ESIA and PCP, a formal application will be submitted to the Office of the Environmental Commissioner for consideration to grant an Environmental Clearance Certificate (ECC) allowing the commencement of the proposed development.	
Listed Activity	The Construction, Operation and Maintenance of a greenfield Bulk Liquid Fuel Storage and Handling Facility and associated activities, e.g. starting from fuel offloading at the quay, conveying to the storage tanks, installation of six fuel storage tanks, each with a capacity of four (4) million litres, discharging from tanks into road tankers, etc.
Project Location	Gendev Factory, Erf 5022, Ben Amadhila Street, Walvis Bay, Erongo Region
Proponent	Erongo Petroleum
Engineering Consultant s	Seal Consulting Engineers
Intereted and Affected Parties (IAPs)	AIPs are hereby invited to register for the EIA and to submit written comments, objections and or concerns with respect to the envisaged activity. A Background Information Document (BID) is available upon request on registration.
Consultation Period	The duration to receive written submissions from IAPs is from 18 November 2023 to 10 December 2023
EIA Consultant :	 Cell: 081 127 3027 Fax: 088 645 026 Email: ekwao@iway.na

HORSE SHOE MARKET - STALL 81, MUNGINDA STREET, SINGLE QUARTER, WINDHOEK

NOTICE

Take notice that **HARMONIC TOWN PLANNING CONSULTANTS CC**, Town and Regional Planners, on behalf of the owners of the respective erf, intends to apply to the **Mariental Municipality** and the **Urban and Regional Planning Board** for the:

- Rezoning of Erf Remainder 337 Mariental from "Residential" with a density of 1:900 to "Residential" with a density of 1:600;
- Subdivision of Erf 337 Mariental into Portion 1 and the Remainder;
- Subsequent Rezoning of Portion 1 (a portion of Erf 337) Mariental from "Residential" with a density of 1:600 to "General Residential" with a density of 1:100; and
- Consent to commence with the development on Portion 1 (a portion of Erf 337) while the rezoning is in progress.

Erf Remainder 337, Mariental measures ± 1800 m² in extent and is zoned "Residential" with a density of 1:900m² according to the Mariental Zoning Scheme. The owners intend to Rezone the Erf to a density of 1/600 and subsequently subdivide the Erf into Portion 1 measuring 1000 m² and the Remainder measuring 800 m². The owners further intend to rezone Portion 1 (a portion of Erf 337) Mariental to a density of 1/100. The proposed rezoning will allow the owners to erect townhouse units on the erf optimising the use of the erf to its full potential.

Sufficient parking for the development will be provided in accordance with the requirements of the Mariental Zoning Scheme.

Further take notice that the plan of the erf lies for inspection on the town planning notice board at the **Mariental Municipality** and at **Harmonic Town Planning Offices, 76B Pasteur Street, Windhoek West**.

Further take notice that any person objecting to the proposed use of the land as set out above may lodge such objection together with the grounds thereof, with the **Mariental Municipality** and with the Applicant in writing within 14 days of the last publication of this notice (**final date for objections is Friday, 15 December 2023**).
