

Public Consultation Process

Consultation with the public forms an integral component of the environmental licensing process. In terms of Section 21 of the EIA Regulations a call for open consultation with all interested and affected parties (I&As) at defined stages of the EIA process is required. This entails giving members of the public an opportunity to comment on the proposed project and environmental reports, so that they can raise issues or concerns regarding the proposed activities, their potential impacts and mitigation of these impacts.

The objectives of stakeholder engagement are to inform the public about the project on an ongoing basis, understand their concerns related to the project, to obtain local knowledge about the area and provide review opportunities at key stages in the process

The following tasks have been undertaken:

1 I & AP identification

An existing I&AP database provided by Namdeb was edited by Zutari for the purpose of the environmental licensing process. I&AP identification continues throughout the public consultation process. I&APs may register for the project at any time during the scoping life cycle. The I&AP database can be found in Appendix D of the Scoping Report.

2 Site Notices

Six site notices were placed at the following locations at and around Oranjemund:

Table 1: Proof of Site notices

	
<p>S -28,555964°, E 16,409119° (Site Entrance)</p>	<p>S -28,557882°, E 16,419931°</p>

NAMDEB
A NAMIBIA DE BEER PARTNERSHIP

Notice of Scoping Process

Invitation to register as an Interested and Affected Party for the proposed installation of meteorological masts in Namdeb Mining Area No. 1

Namdeb Diamond Corporation (Pty) Ltd is evaluating the prospects of a wind farm to supply a renewable source of electricity to its operations near Oranjemund. Wind measurement and monitoring is required to confirm the wind capacity. To this end, three (3) meteorological masts are proposed in the coastal area within the Tsau//khaeb (Sperrgebiet) National Park (TKNP) and Namdeb's Mining Licence (ML) ML43 area at the following locations (decimal degrees):

- Southern mast: latitude -28.4547°, longitude 16.3118°
- Central mast: latitude -28.2180°, longitude 16.0397°
- Northern mast: latitude -27.9454°, longitude 15.7141°

Namdeb appointed Zutari (Pty) Ltd to conduct the scoping process for the project.

Zutari submitted an application for an ECC to the Namibian Ministry of Environment, Forestry and Tourism (MEFT): Department of Environmental Affairs (MET: DEA) in 2020. MEFT confirmed, in reply to this application, that environmental scoping is required. The Environmental Management Act (No. 7 of 2007) (EMA) and Environmental Impact Assessment (EIA) Regulations (Government Notices 28 to 30 of 2012) require at least a Scoping Report to obtain an Environmental Clearance Certificate (ECC) from the MEFT before the project can proceed.

A draft Scoping Report will be made available to interested and affected parties (I&APs) for 21 calendar days. The application, draft and final reports will be submitted to the Environmental Commissioner in terms of the above-mentioned regulations.

You are requested to notify Andrea Siebritz (Andrea.Siebritz@Zutari.com) / +27 73 591 5407) or Karin du Plooy (Karin.duPlooy@Zutari.com) / +264 61 237 704) if you have an interest in the environmental impacts of the project.

DREAMS
Determined, Resilient, Empowered, AIDS-Free, Mentored and Safe (DREAMS) project

PROJECT HOPE
FOUNDED IN 1958

Project HOPE Namibia, Determined, Resilient, Empowered, AIDS-Free, Mentored and Safe (DREAMS) project

EXPRESSION OF INTEREST (Eoi) #	Eoi #0001
SERVICES REQUIRED	Technical Assistant (TA) for the establishment of partnership with the private sector
DATE OF ISSUANCE	24 February 2021
OFFERS CLOSING DATE	10 March 2021
CLOSING DATE FOR QUESTIONS	8 March 2021
OFFERS BASIS	Most competitive BID meeting specifications

BACKGROUND

The DREAMS project is funded by PEPFAR through USAID and implemented by Project HOPE Namibia (PHN) and aims to avert new HIV infections among adolescent girls and young women (AGYW). AGYW aged 10 - 24 are the primary target population. The DREAMS project delivers core packages of age appropriate interventions for AGYW beneficiaries. Moreover, interventions to strengthen families and reduce risk among sexual partners of AGYW are being provided.

PHN is seeking Expression of Interest (Eoi) from eligible bidders to provide technical assistance (TA) for the establishment of partnerships with the private sector in Namibia. PHN intends to establish TA agreements with several key service providers who have expertise in soliciting the private sectors to support the scale up of the above-mentioned interventions implemented under the DREAMS project. This TA agreement will be awarded under the PEPFAR/USAID funded DREAMS project. The procurement is subject to all applicable USAID and US Federal Government procurement regulations.

Eoi documents can be requested from qsarisee@projecthope.org. The last date for Eoi document requests is 8 March 2021. Please submit quotations to nambiaprocurment@projecthope.org by 10 March 2021 close of business as PDF documents.

Our Vision is Real Growth

CAREER OPPORTUNITY GEOLOGIST

QKR Namibia Navachab Gold Mine, situated in Karibib, Namibia seeks to appoint a suitably experienced and qualified Geologist. The candidate will be responsible to provide evaluation support functions to the Exploration Geologist through planning, continuous recording and reporting of information as well as consistent quality control of all processes. The position reports to the Senior Exploration Geologist.

KEY ACCOUNTABILITIES:

- Provide direct support to the Senior Exploration Geologist.
- Plan drill holes to satisfy relevant exploration objective on the target area (Resource upgrade, extension or inference).
- Generate and provide drill-hole layout plan to the Drilling Foreman as well as the Drilling Contractor.
- Timely log all R.C. chips and Diamond Drill core to capture all essential geological information for database updates.
- Ensure correct splitting of core and that sampling is correctly done to reflect recovery and lithological contents.
- Investigate and report any obvious discrepancies.
- Ensure that all planned and final drill-hole collars are correctly marked out by a Surveyor.
- Ensure that down-the-hole surveys are done on all inclined holes and all holes deeper than 100m.
- Ensure appropriate recovery is achieved and that samples remain representative.
- Check and ensure correct sample sequence, position of blanks, duplicates and CRMs that are used per drill hole.
- Complete and report statistical analyses and pictorial depictions on all QA/QC measurements (sample recovery and assays).
- Report any major discrepancies and deviations from expectations.
- Compare Resource Model to Grade Control model to assess performance and identify problem areas for rectification.
- Complete drilling and borehole logging progress reports.
- Complete drill-hole intersection summaries.
- Complete rosters and specific QA/QC reports.
- Complete sectional monthly geological reports.
- Geological mapping and sampling.
- Grid establishment, sampling of soils, rocks and stream sediments.

KEY REQUIREMENTS:

- BSc (Honours) Degree in Geology.
- Three (3) year's relevant experience, including exposure to Exploration, Geological Modelling, Grade Control and QA/QC systems.
- A basic knowledge of GIS software like ArcView will be an added advantage.
- Computer literacy - 3-d modelling software (Surfer) and Microsoft Office.
- Valid driver's license.

Persons from previously disadvantaged designated groups are encouraged to apply.
Closing date for applications: 16 March 2021.

Suitably qualified and experienced candidates should submit detailed CVs with certified supporting documents in confidence to the Recruitment Section, QKR Namibia Navachab Gold Mine, P O Box 150, Karibib, or email to: recruitment@navachab.com.na OR recruitment application boxes at the Navachab Gold Mine Security Gate or Administration block.

Only applications received via email and recruitment application boxes at the Navachab Gold Mine Security Gate and Administration block will be considered.

Only shortlisted candidates will be contacted, no documents shall be returned and no late applications shall be considered.

EXPRESSION OF INTEREST

EXPRESSION OF INTEREST

DBMNE0405: MARINE ENVIRONMENTAL RESEARCH AND APPLICATION

DESCRIPTION
Debmare Namibia is a marine diamond recovery company operating in the Atlantic 1 Mining Licence Area (ML47). Currently, mining operations occur at 90 to 150m water depths at an approximate distance of 20 kilometres from shore off the south-western coast of Namibia. The key objective of Debmare Namibia's research programme is to assess the effect of mining operations on the seabed and surrounding environment, and to monitor the time of recovery after disturbance. In order to develop a robust scientific programme and advance the knowledge of the environment in which it operates, the company would like to engage experienced interested parties to collaborate on various marine research projects within the Atlantic 1 Mining Licence Area.

Interested parties with expertise in the following fields are encouraged to submit their documents:

- Physical and Biological Oceanography
- Marine Ecology
- Marine Conservation and Biology
- Marine Toxicology
- Genetics
- Maritime Statistics
- Marine Hydrology
- Biogeochemistry
- Acoustics

DOCUMENTS TO SUBMIT:

- Company or institution profile;
- Clear outline of proposed areas of expertise within the various marine environmental fields;
- Highlight at least five (5) projects undertaken related to marine environmental research and application;
- Comprehensive CV detailing specialised skills of proposed Lead Scientist(s). A PhD qualification is a minimum requirement for the proposed Lead Scientist;
- List of published work.

Local academic institutions are encouraged to apply. Registered companies providing such services are requested to submit the required documentation with Reference Number: DBMNE0405 Marine Environmental Research and Application by 2 April 2021, at 12:00 noon, by electronic submission.

SUBMISSION DETAILS:
Email Address: DBMNEenders@debmarine.com.na
Subject: DBMNE: Marine Environmental Research and Application
File Type: Submissions to be in PDF format

ENQUIRIES:
The Procurement Officer Tel: +264 61 297 8481
Email: DBMNEenders@debmarine.com.na
Specify the Reference Number DBMNE0405

DISCLAIMER:
Debmare Namibia shall not be responsible for any costs incurred in the preparation and submission of a response to this Expression of Interest and furthermore reserves the right not to extend this Expression of Interest into any future tenders, negotiations and/or engagements.

Debmare Namibia will not accept submissions rendered after the closing date and time.

Subject: Registration as an Interested and Affected Party for the Namdeb Meteorological Masts

Dear Potential, Interested and Affected Party / Stakeholder

Namdeb Diamond Corporation (Pty) Ltd is evaluating the prospects of a wind farm to supply a renewable source of electricity to its operations near Oranjemund. Wind measurement and monitoring is required to confirm the wind capacity. To this end, three (3) meteorological masts (to measure the wind resource potential) are proposed in the coastal area within the Tsau//Khaeb (Sperrgebiet) National Park (TKNP) and Namdeb's Mining Licence (ML) ML43 area at the following locations (decimal degrees):

- Southern mast: latitude -28.4547°, longitude 16.3118°
- Central mast: latitude -28.2180°, longitude 16.0397°
- Northern mast: latitude -27.9454°, longitude 15.7141°

Namdeb appointed Zutari (Pty) Ltd to conduct the scoping process for the project.

Zutari submitted an application for an Environmental Clearance Certificate (ECC) to the Namibian Ministry of Environment, Forestry and Tourism (MEFT): Department of Environmental Affairs (MET: DEA) in 2020. MEFT confirmed, in response to this application, that environmental scoping is required in order to investigate the potential environmental impacts of the proposed masts. The Environmental Management Act (No. 7 of 2007) (EMA) and Environmental Impact Assessment (EIA) Regulations (Government Notices 28 to 30 of 2012) require at least a Scoping Report to obtain an ECC from the MEFT before the project can proceed.

Public consultation forms part of the scoping process. You have been identified as a potential I&AP and are hereby notified of the abovementioned project and invited to formally register as an I&AP should you wish to participate in the scoping process and receive future correspondence in this regard. Requests to register as an I&AP can be submitted via the contact details provided below or by replying to this email, together with your own full contact details and interest in the project. The table below must be completed when submitting your registration request. Note, only registered I&APs will be informed of the availability of the Scoping Report when it is made available to the public for the 21-day review and comment period.

Please find attached the Background Information Document (BID) for the proposed development of three meteorological masts.

The draft Scoping Report will be made available to interested and affected parties (I&APs) for review and comment for 21 calendar days in due course. All registered I&APs will be notified when the Draft Scoping Report is available. Following the comment period, the application, draft and final reports will be submitted to the Environmental Commissioner in terms of the above-mentioned regulations.

Please do not hesitate to contact us should you have any questions in this regard.
