 You forwarded this message on 1/7/2024 3:52 PM.

Dear Interested & Affected Party (I&APs),

This email serves as the official notice of the public participation process for the Environmental and Social Impact Assessment study being undertaken by OMAVI Geotechnical & Environmental Services to support the application for Environmental Clearance for the **proposed Offshore geophysical surveying and bulk exploration sampling for precious stones, precious metals, base and rare metals on EPL 8889 which is located offshore off the southern west coast of Namibia**. You are therefore receiving this email because you have been identified as an I&APs for this project, and we would therefore, require your valuable inputs, contributions and involvement in the design, execution planning and implementation of this project.

The concerned offshore Exclusive Prospecting License (EPL) is located between the 50m and the 200m water depth contour, and about 20 to 35km off the Namibian coast directly west of Cham eis Bay and Bongefels. Exploration will primarily focus on marine diamonds with opportunistic exploration focusing on the other commodities listed where sampling results justify such.

In accordance with the Environmental Management Act of 2007 and its Environmental Impact Assessment (EIA) regulations of 2012, the proposed activities are classified as Listed activities which may not be undertaken without an Environmental Clearance Certificate (ECC). A Background Information Document (BID) on the project is attached for your consideration and review, as well as for sharing with any relevant/ affected parties you may know of. The BID provides an overview of the proposed exploration activities. Please note that the BID is by no means an Environmental Impact Assessment report nor an Environmental Management and Rehabilitation Plan (EMRP), but is rather a high-level non-technical summary of the planned project's activities. We have also included a Comments Register form where you may populate your details to formally register as an I&AP for this project and to provide our office with any concerns, inputs or suggestions you may have on this project. You are hereby informed that only once you have registered will we formally add you to our database of I&APs for this project, and you shall then receive all necessary communications and documents relating to this project going forward for your review and inputs.

In order to ensure inclusivity and transparency, and to fulfil the requirements of Section 21 to 24 of the EIA regulations, we have made provision to receive, register and incorporate your inputs and concerns with our office before close of business on **19<sup>th</sup> January 2024**. Please note that a public consultation meeting may be scheduled in Luderitz if there is significant public interest in the project.

We look forward to you registering and forwarding all your valuable inputs, suggestions and comments for this project to our office.

Kind Regards

On behalf of: OMAVI Geotechnical & Environmental Services

## TODAY IS... NATIONAL LETTER WRITING DAY

Get ready to write some heartfelt letters on National Letter Writing Day, which falls on Dec. 7! This special day was created by the United States Postal Service in 2005 as a way to encourage people to rediscover the joy of putting pen to paper and connecting with friends, family and loved ones via personalized notes. It's also an opportunity for us all to reflect on our relationships and express our appreciation for those who support us.

### 035 Regskennisgewings Legal Notices

**PUBLIC NOTICE FOR APPLICATION OF NEW ENVIRONMENTAL CLEARANCE CERTIFICATE FOR THE PROSPECTING OF BASE AND RARE METALS, PRECIOUS METALS AND PRECIOUS STONES ON OFFSHORE EPL 8889 - SOUTH-WESTERN COAST, NAMIBIA**

In accordance with the Environmental Management Act, 2007, (Act No. 7 of 2007) & the EIA Regulations 30 of 2012, mineral prospecting activities are a listed activity which may not be undertaken without a valid Environmental Clearance Certificate (ECC). OMAVI Geotechnical & Environmental Services has been appointed to undertake an Environmental & Social Impact Assessment (ESIA) and prepare an Environmental Management Plan (EMP) to support the application for ECC for this project.

Proponent: Eland Mining and Prospecting CC  
 Site Locality: The EPL 8889 is located directly offshore of Chameis Bay & Bogenfels with its most western boundary located approximately 30km off the coastline, and stretching for approximately 60-70km along strike of the coastline.

In accordance with the requirements of the EIA Regulations of 2012, all Interested & Affected Parties (I&APs) must be provided with an opportunity to participate in the ESIA process. I&APs are therefore, hereby invited to register & submit written comments/ concerns/ suggestions by close of business on 19 January 2024 to the contact details provided below.

A Background Information Document (BID) is available to I&APs upon formal registration. Further communications regarding the ESIA process for this project will only be made with registered I&APs.

Tel: +264 81 478 6303 (SMSes or WhatsApp Texts preferred for record keeping purpose) Email: [info@omavi.com.na](mailto:info@omavi.com.na)

## NOTICE

**I, Angaleni Ndinelago Nampala**, the registered owner of Erf 2038, Ekuku, Extension 7, Oshakati, hereby give notice of my intention & application to the Oshakati Town Council for **CONSENT TO OPERATE A DENTAL PRACTICE on Erf 2038**, in terms of Table A of Oshakati Zoning Scheme.

Erf 2038 is situated at the new Ekuku location on Extension 7, measuring 774 m<sup>2</sup> (square metres), zoned for Single Residential purposes. I intend to construct a dental practice on the said Erf.

There is enough space to erect a dental clinic, a residential unit on top of it, enough parking space for my clients.

Note that the locality map of the Erf is available for inspection during office hours, at Oshakati Town Council planning notice board.

Any person objecting to the proposed consent may lodge their objection with grounds thereof, with the Oshakati Town Council and applicant within **14 days from last publication of this notice.**

**PUBLIC NOTICE FOR APPLICATION OF NEW ENVIRONMENTAL CLEARANCE CERTIFICATE FOR THE PROSPECTING OF BASE AND RARE METALS, PRECIOUS METALS AND PRECIOUS STONES ON OFFSHORE EPL 8889 - SOUTH-WESTERN COAST, NAMIBIA**

In accordance with the Environmental Management Act, 2007, (Act No. 7 of 2007) & the EIA Regulations 30 of 2012, mineral prospecting activities are a listed activity which may not be undertaken without a valid Environmental Clearance Certificate (ECC). OMAVI Geotechnical & Environmental Services has been appointed to undertake an Environmental & Social Impact Assessment (ESIA) and prepare an Environmental Management Plan (EMP) to support the application for ECC for this project.

Proponent: Eland Mining and Prospecting CC  
 Site Locality: The EPL 8889 is located directly offshore of Chameis Bay & Bogenfels with its most western boundary located approximately 30km off the coastline, and stretching for approximately 60-70km along strike of the coastline.

In accordance with the requirements of the EIA Regulations of 2012, all Interested & Affected Parties (I&APs) must be provided with an opportunity to participate in the ESIA process. I&APs are therefore, hereby invited to register & submit written comments/ concerns/ suggestions by close of business on 19 January 2024 to the contact details provided below.

A Background Information Document (BID) is available to I&APs upon formal registration. Further communications regarding the ESIA process for this project will only be made with registered I&APs.

**APPLICATION FOR ENVIRONMENTAL CLEARANCE CERTIFICATE (ECC): PROPOSED OFFSHORE GEOPHYSICAL SURVEYING AND BULK SAMPLING EXPLORATION FOR MARINE DIAMONDS WITHIN EXCLUSIVE PROSPECTING LICENSE (EPL) 8889, SOUTHERN WEST COAST OF NAMIBIA**

**The Project Proponent:** Rand Mining and Prospecting CC (the project proponent) together with its technical partners intends to undertake offshore geophysical surveying and bulk sampling exploration for marine diamonds within EPL 8889. The concerned EPL is located offshore as shown below and stretches between the 30m and the 200m water depth contour, lies between 20m and 30km directly west of Chama's Bay and the ghost town of Sengatels. Exploration will primarily focus on marine diamonds with opportunistic exploration for the other commodities such as base, rare and precious metals. Collectively, the license covers a surface area of approximately 18900 ha.

OMAVI Geotechnical & Environmental Services have been appointed by the Proponent to conduct the required Environmental Assessment (EA), draft the Environmental Management Plan (EMP) and apply for the Environmental Clearance Certificate (ECC) in terms of the Environmental Management Act (No. 7 of 2007) and its 2012 Environmental Impact Assessment (EIA) regulations. For more information on this project, and to comment or provide input or suggestions, and formally register as an interested and Affected Party (I&AP), please contact OMAVI on the details provided below. I&APs are encouraged to submit their comments and concerns in writing before or on **24<sup>th</sup> January 2024**. A background information document is available for circulation to I&APs upon registration.

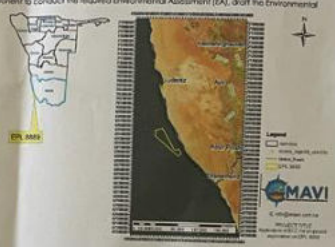

**A public consultation meeting may be scheduled to take place in Luderitz if there is significant public interest in the project.**

- The details of such a meeting will be communicated at least 5 to 7-days in advance to registered interested and affected Parties (I&APs) only.
