

Appendix 5

Minutes for the site stakeholders' engagement meetings for the Mooring and camping of Chobe Princess Houseboats on Kanywamenzi Island

Date	08 February 2024
Time	10h00
Venue	Kasika Conservancy Office
Attendance Register	Register included as Appendix 3
Comment/Concerns	Feedback
<p>i. On onset the stakeholders indicated need that the proponent was to be in the meeting to provide better explanations where the community may need.</p> <p>ii. There is need for the proponent to revert to the land owners and have consensus on operation going forward given that there may be family worries that need be heard and discussed to find way forward on how to operate. There is reservation on transparency in terms of the leases. More to this how did you as consultants get to be sent as agents while there may be issues of land that need the proponent.</p> <p>iii. There is indication of camping on the island that is in the BID, which seems to be a new activity, that wasn't agreed upon with the family that leases the land. If this is the case, then it is really necessary that the proponent reverts to the owners.</p> <p>iv. There grave concern on the benefits which are not tangible to the community of Kasika. There are none</p>	<p><u>Proponent presence:</u> although it can be beneficial, it is not a requirement for the proponent to be present. The consultants are independent and need to conduct consultation in an independent process where platform provide for open expression without fear. Issues raised by the community will be submitted to the proponent to consider and address.</p> <p><u>Proponent engagement of the landowners:</u> the advice of the proponent engaging the leasing families will be submitted to the proponent. We as consultants only receive to work on project after assurance of secure land rights. The proponents submitted letters that we can provide that indicate lease from the owners, from the Bukalo Khuta and supporting letter from Kasika conservancy. Without these assurances we do not accept to work on projects.</p> <p><u>Camping on the island:</u> this is an activity that is not possible and the proponent has been advised, despite being in the BID. However, we will get clarity on what camping is being referred to by camping.</p>

<p>from the area that work on those boats from youth to other abled bodied elders. This is matter that needs urgent attention if any allowances can be made under current use without any new activity considered.</p> <p>v. The village development committee need to call those leasing the land to come and outline the beneficiation of the Kasika community.</p>	<p><u>Community beneficiation</u>: this concern is well received and will be submitted with seriousness to the proponent to act upon.</p>
