Indicate the geological nature of the deposit to be mined: **INDUSTRIAL MINERALS, BASE AND RARE METALS AND SEMI-PRECIOUS STONES**

Planned date of commencement of mining operations\*: **As soon as possible.**

Expected nature of mining operations\*: **Open cast mining operations only**

Expected rate of mining operations\*: **Small scale mining only**

\* The fundamental obligation of the holder of a mining claim is, subject to the provisions of section 31(1)(b)(i) of the Act, to carry on mining operations on such mining claim for the mineral or group of minerals in respect of which such mining claim has been registered.

Where, in terms of the provisions of section 31(1)(b)(i) of the Act, the applicant intends, during the six month period following the date of registration of the mining claim/s, to carry on prospecting operations in lieu of mining operations, provide details of the planned programme of prospecting operations:

**We will carry on with mining and exploration operation on the same area as applied for.**

Provide particulars of technical capability/resources: **Consultant geologist engages to advice on mineralogy and geology sampling.**

Provide particulars of financial capability/resources:

**Funds available to prospect and mining.**

Provide particulars of the condition of, and any existing damage to, the environment in the area to which this application relates. Additional details, photographs, etc. may be attached:

**No visible damage to the environment.**

Should any damage exist in the applied area as indicated above, are you prepared to take over such damage and to rehabilitate the area once your mining claims expire/are cancelled/are abandoned?

**Rehabilitation will be a continuous process with waste from open pits used to fill disused pits and production trenches.**

Estimate the effect which the proposed operations may have on the environment and the proposed steps to be taken to minimise or prevent any such effect (complete an Environmental Questionnaire and Pro-Forma Environmental Contract):

**Minimal damage to the environment is expected. The operation is a cut and backfill process.**

Provide details of any other matters which in the opinion of the applicant are relevant to the application:

**N/A**

Attach the following documents to this application:

1. A sketch plan in quadruplicate of the mining claim/s –
  - i). drawn as near as possible in ink on a 1:50 000 scale topo-map;
  - ii). showing the direction of either true or magnetic north pointing towards the edge of the map;

- iii). showing the relative position of every middle beacon, corner beacon, line beacon or indicatory beacon erected on the boundaries of such mining claim, **together with the co-ordinates of the corner beacons (in terms of section 40(3)(a) of the Act)**;
- iv). showing the position of all adjoining mineral rights marked by beacons, the holders of such mineral rights and the ordinal numbers appearing on the beacons;
- v). showing the position of such mineral right relative to –
  - a). the boundaries of and any buildings on, the property on which such mining claim is pegged and the approximate angle of direction to, and distance from, at least one of the corner beacons of the mining claim to the nearest corner beacon or peg of such property;
  - b). any building, water supply, road, railway, river-bed, fence, trigonometric beacon, mineral rights area which is marked with beacons within such mining claim or within 500 metres of any boundary of such mining claim, and;
- vi). showing any other particulars so as to enable the mining claim to be located on the land where it is situated and to be plotted on a topo-map, bearing the following signed and dated by the pegger –

"This sketch plan represents **10** mining claims with ordinal number **1-10** pegged on **06 November 2023**

under Non-Exclusive Prospecting Licence **10370** by me **Violet Maria Haoses** on the farm **Fransfontein**

**Reserve 6, Stateland** in the Magisterial District/Region **Khorixas, Kunene** owned by **GRN**, of Address

**GRN**

The sketch accurately locates the mining claim/s pegged, the claim beacons have been erected under the pegger's direct supervision in conformity with the requirements of the mining law, and permission to enter the land for the purpose of pegging the mining claim/s was obtained from the landowner/s in accordance with the provisions of section 16(2)(a) of the Minerals (Prospecting and Mining) Act, 1992."
