Dear Sir,

Re: Environmental Clearance for the Environmental Impact Assessment and Plan for the Proposed SABMiller Brewery, Okahandja Namibia

Thank you for the submission of the Environmental Assessment and Plan for the above-mentioned project. The assessment done is sufficient as it takes into account the key environmental issues concerning the proposed activities. It is recommended that once the project is implemented regular environmental monitoring and possible improvements should be conducted.

In view of the fact that your project is located in an environmentally sensitive area, the MET reserves the right to attach further regulatory conditions during the operational phase of the project. Therefore, we issue the clearance with the following condition: *all key stakeholders, particularly the Local Authority concerned, must be properly consulted and their consent obtained prior to commencement of the project.*

On the basis of the above, this letter serves as an environmental clearance for the project to proceed. However, this clearance letter does not in any way hold the Ministry of Environment and Tourism accountable of any wrong or insufficient information, nor any adverse effects that may arise from this project's activities. Instead, full accountability rests with the developer and his/her consultants.

Thank you once again for your kind co-operation.

Yours sincerely

Dr. K. Shangula

Permanent Secretary
