Interested & Affected Party / Stakeholder Letter

Dear Interested and Affected Party,

Subject: Invitation to Participate in the recently commissioned scoping assessment for the application for environmental clearance of EPL 6072, overlapping the Hardap and Khomas regions, Namibia for the proposed exploration activities on EPL 6072.

We hope this letter finds you well.

We are writing on behalf of Mr. Daniel Stefanus Malan to invite you to participate in the environmental assessment process for the proposed exploration activities to take place on EPL 6072.

As a key stakeholder, your participation is highly valued, and we believe that your input will be beneficial to the assessment process. Our goal is to foster transparency and reach mutual agreement on matters pertaining to the assessment and the proposed exploration activities.

The ESIA process aims to comprehensively assess the potential environmental and social impacts associated with Mr Malan' proposed exploration activities. By involving stakeholders like you, we aim to ensure that the project is conducted in a sustainable manner and that any adverse effects are effectively mitigated.

Your participation may involve attending meetings, providing expert opinions, sharing local knowledge, and offering feedback on key documents and findings. We understand the importance of your time and expertise and will provide the necessary information, documentation, and support to facilitate your engagement in the ESIA process.

To confirm your interest in participating and the mode most convenient to you (Personal focussed meeting, online or via email), we kindly request that you inform us by 22 February 2024 @ 18:00 PM. Once we receive your confirmation, we will share

☎ (+264) 81 602 2082

✉ info@tesnam.com

further details regarding the schedule, meeting agenda, and any relevant supporting materials.

Should you have any questions or require additional information, please do not hesitate to contact our dedicated ESIA team at projects@tesnam.com or info@tesnam.com or alternatively use the contact details provided below for telephonic communication. We are available to address any queries or provide clarifications as needed.

Thank you for considering our invitation, and we hope that you will accept our request to join us in this important endeavour. Your collaboration will contribute to responsible exploration practices that are in harmony with the environment and local communities.

We look forward to your response and the opportunity to work together in the ESIA process.

Yours sincerely,
