To: Whom it May Concern

REF: Consent letter for the application for an Environmental Clearance Certificate for the exploration of base and rare metals (copper ore) at EPL 7625 at Otjikondavirongo Village, Kunene Region.

The leadership of the Tomo Royal House and their subject community have no objection for the application for an Environmental Clearance Certificate for the exploration of base and rare metals (copper ore) at EPL 7625 at within our jurisdiction.

The proponent, Mr. Shivute Alfeus Angula must however adhere to all mandatory requirements as per the agreed social responsibility with the Traditional Authority and the community of Otjikondavirongo village and should continue to engage with our office so that the community benefits from these exploration and mining activities through the community trust fund to allow for our developmental priorities to be undertaken.

Yours truly,

.....

Chief Hiazondu Kuvandara

Tomo Royal House

→ Mining system:

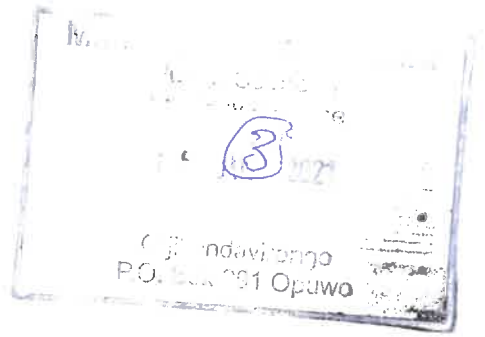

→ Open pit -

→ Mining pit -

→ permission from ENVIRONMENT IMPACT assessment give you the right to do all after investigation. Community must be informed monthly.

Question: Kainamasha Koruhama: Who recruit workers at the mining site?

Answer: Angula: The owner of the company but they will get the guidance from the community.
