Namibia

Dear Mr. Nghitila

Renewal of Etango Project ECC – Environmental & Social Impact Assessment & Management Plan Documentation

The Etango Project Environmental & Social Impact Assessment and the Environmental Management Plan have been submitted to the Ministry of Environment, Forestry & Tourism (MEFT) with the original application for the Environmental Clearance Certificate. The ESIA and EMP were prepared by Alexander Speiser Environmental Consultants (ASEC) and Environmental Resources Management (ERM). These are several volumes including specialist assessments and thus many documents of large size and volume.

As the Etango Project has not yet commenced and there are no changes to any of the documentation, would it be acceptable to assume that the MEFT has the required documentation already to consider the renewal of the ECC?

Should there however be any questions in this regard, please let me know.

Yours sincerely

Werner Ewald
