## **BACKGROUND INFORMATION DOCUMENT (BID):**

# **ENVIRONMENTAL IMPACT ASSESSMENT PROCESS FOR THE PROPOSED TOWNSHIP ESTABLISHMENT OF KUISEBMOND EXTENSIONS 14 AND 15, WALVIS BAY, ERONGO REGION**

9 August 2021

**Proponent: Municipality of Walvis Bay**

GCS Project Number: 21-0304

### **ENVIRONMENTAL ASSESSMENT PRACTITIONER: GCS (PTY) LTD**

GCS Water Environmental Engineering (Pty) Ltd (GCS) is a fully integrated water, environmental, and earth science consulting services company based in the Republic of South Africa, with offices in Namibia, Botswana, and the Czech Republic. GCS provides a professional consulting service in the fields of environmental, water and earth sciences. GCS has a team of highly trained staff with considerable experience in the fields of environmental and water science.

GCS will act as the Independent Environmental Assessment Practitioner (EAP), as well as the Public Participation Practitioner for this environmental authorisation process.

ABBREVIATIONS	
BID	Background Information Document
CRR	Comments and Response Report
EAP	Environmental Assessment Practitioner
EIA	Environmental Impact Assessment
EMA	Environmental Management Act (No 7 of 2007)
EMP	Environmental Management Plan
I&AP	Interested and Affected Party
MEFT: DEAF	Ministry of Environment, Forestry and Tourism: Department of Environmental Affairs and Forestry
PPP	Public Participation Process

## 1 INTRODUCTION

The Municipality of Walvis Bay (The Proponent) proposes to establish the township to be known as Kuseibmond Extensions 14 and 15, Walvis Bay. The proposed developments include the creation of predominantly residential erven, a cemetery, streets and installation of bulk services within the proposed township.

Under the Environmental Management Act (2007) and its Regulations (2012), an Environmental Impact Assessment (EIA) is required for:

- **Activity 10.1 (a) Infrastructure**

*The construction of oil, water, gas and petrochemical and other bulk supply pipelines (The proposed development includes the installation of bulk services)*

- **Activity 10.1 (b) Infrastructure**

*The construction of public roads (The proposed project includes the construction of roads)*

- **Activity 10.2 (a) Infrastructure**

*The route determination of roads and design of associated physical infrastructure where - it is a public road; (The proposed project includes the route determination of roads)*

- **Activity 11.2**

*Construction of cemeteries, camping, leisure and recreation sites (The proposed development includes the provision of an erf to be reserved for the development of a cemetery).*

This Background Information Document (BID) has been compiled by GCS Water Environmental Engineering Namibia (Pty) Ltd (GCS) with the following aims:

- To introduce the proposed project and related activities to potential Interested and Affected Parties (I&APs);
- To provide information on the Environmental Impact Assessment (EIA) and related processes;
- To inform I&APs on how to be involved in the EIA process;
- To invite all parties to register as I&APs on the EIA database; and
- To provide all I&APs with an opportunity to comment on the proposed project and associated process, including biophysical and socio-economic aspects, as well as any other issues of concern.

## 2 PROJECT DESCRIPTION

The Proponent proposes to establish the townships Kusebmond Extensions 14 and 15, Walvis Bay, on Erven 8635 and 5757, Kusebmond respectively.

### 2.1 Need and desirability for the development

Namibia continuously experiences pressure in urban areas due to increased urbanisation. As such, the demand for affordable housing and serviced land within urban localities continues to outweigh the supply (Remmert & Ndhlovu, 2018). Local Authorities often find it challenging to meet these demands which results in the growth of informal settlements.

Walvis Bay is expected to experience a population increase of 180 000 people by 2030 (based on a 4.7% annual growth rate) (Urban Dynamics Africa, 2014). In order to meet the residential land demand that goes with the increased population projection, the Municipality of Walvis Bay must establish and service 90 new residential townships by 2030, which constitutes more townships than has been developed since the establishment of the town.

A need has additionally been identified for the planning and development of a cemetery within the township. Currently the town is served by three cemeteries which cater to the Kusebmond, Narraville and Walvis Bay neighbourhoods. In order ensure that there is enough burial space to cater for the future demand a cemetery is planned to be developed in Kusebmond to allow for enough space for burials within the neighbourhood.

As such the Municipality of Walvis Bay has identified a need to develop additional townships in order to meet the demands for residential townships within the town.

## 2.2 Description of Activity

### 2.2.1 Site Location

The proposed townships are located adjacent to one another within the eastern part of the Kusebmond township in Walvis Bay. Please refer to **Figure 1** for the locality Map and **Table 1** for the site location details.

**Table 1: Site location details**

<b>Location</b>	Walvis Bay
<b>Area size</b>	Kusebmond Extension 14: 67 070 m <sup>2</sup>
	Kusebmond Extension 15: 138 934 m <sup>2</sup>

### 2.2.2 Proposed Development

#### 2.2.2.1 Kusebmond Extension 14

Kusebmond Extension 14 is proposed to be established on Erf 8635 Kusebmond. The proposed township will provide predominantly residential erven which will be supported by additional land uses such as institutional (schools, clinics etc), local business and public open spaces. The total number of erven to be created within the township are 172 erven and the Remainder (Street). **Table 2** below outlines the number of erven to be created within the township for each land use.

**Table 2: Number of erven per land use in Kusebmond Extension 14**

Erf No.:	Number of Erven:	Size of Erven M <sup>2</sup> :	Erven % of Total	Proposed use:
5-169	165	38497	57%	Single Residential
1	1	1201	2%	Institutional
2&3	2	2115	3%	General Business
171-172	2	2625	4%	Public Open Space
170	1	92	0%	Utility Services
4	1	1102	2%	Municipal Purpose
Remainder Erf 8635 Kusebmond	0	21438	32%	Street
<b>TOTAL</b>	<b>172</b>	<b>67070</b>	<b>100%</b>	

### 2.2.2.2 Kusebmond Extension 15

Kusebmond Extension 15 is proposed to be established on Erf 5757 Kusebmond. The proposed township will provide predominantly residential erven which will be supported by additional land uses such as institutional (schools, clinics etc), local business and public open spaces. The proposed township also includes the creation of an erf which is to be developed into a cemetery. The total number of erven to be created within the township are 140 erven and the Remainder (Street). **Table 3** below outlines the number of erven to be created within the township for each land use.

**Table 3: Number of erven per land use in Kusebmond Extension 15**

Erf No.:	Number of Erven:	Size of Erven M²:	Erven % of Total	Proposed use:
4-133	130	29994	22%	Single Residential
1 & 2	2	49816	36%	Combined Land Use
138-140	3	2625	2%	Public Open Space
134-136	3	2621	5%	Parking
137	1	92	0%	Utility Services
3	1	1102	1%	Cemetery
Remainder Erf 5757 Kusebmond	0	52684	38%	Street
<b>TOTAL</b>	<b>140</b>	<b>138934</b>	<b>100%</b>	

### 2.2.3 Engineering services and Access Provision

It will be the responsibility of the municipality to provide engineering infrastructure (electricity, water, sewage and roads) to be utilized for the development and to link the municipal services provided for by the Municipality of Walvis Bay.

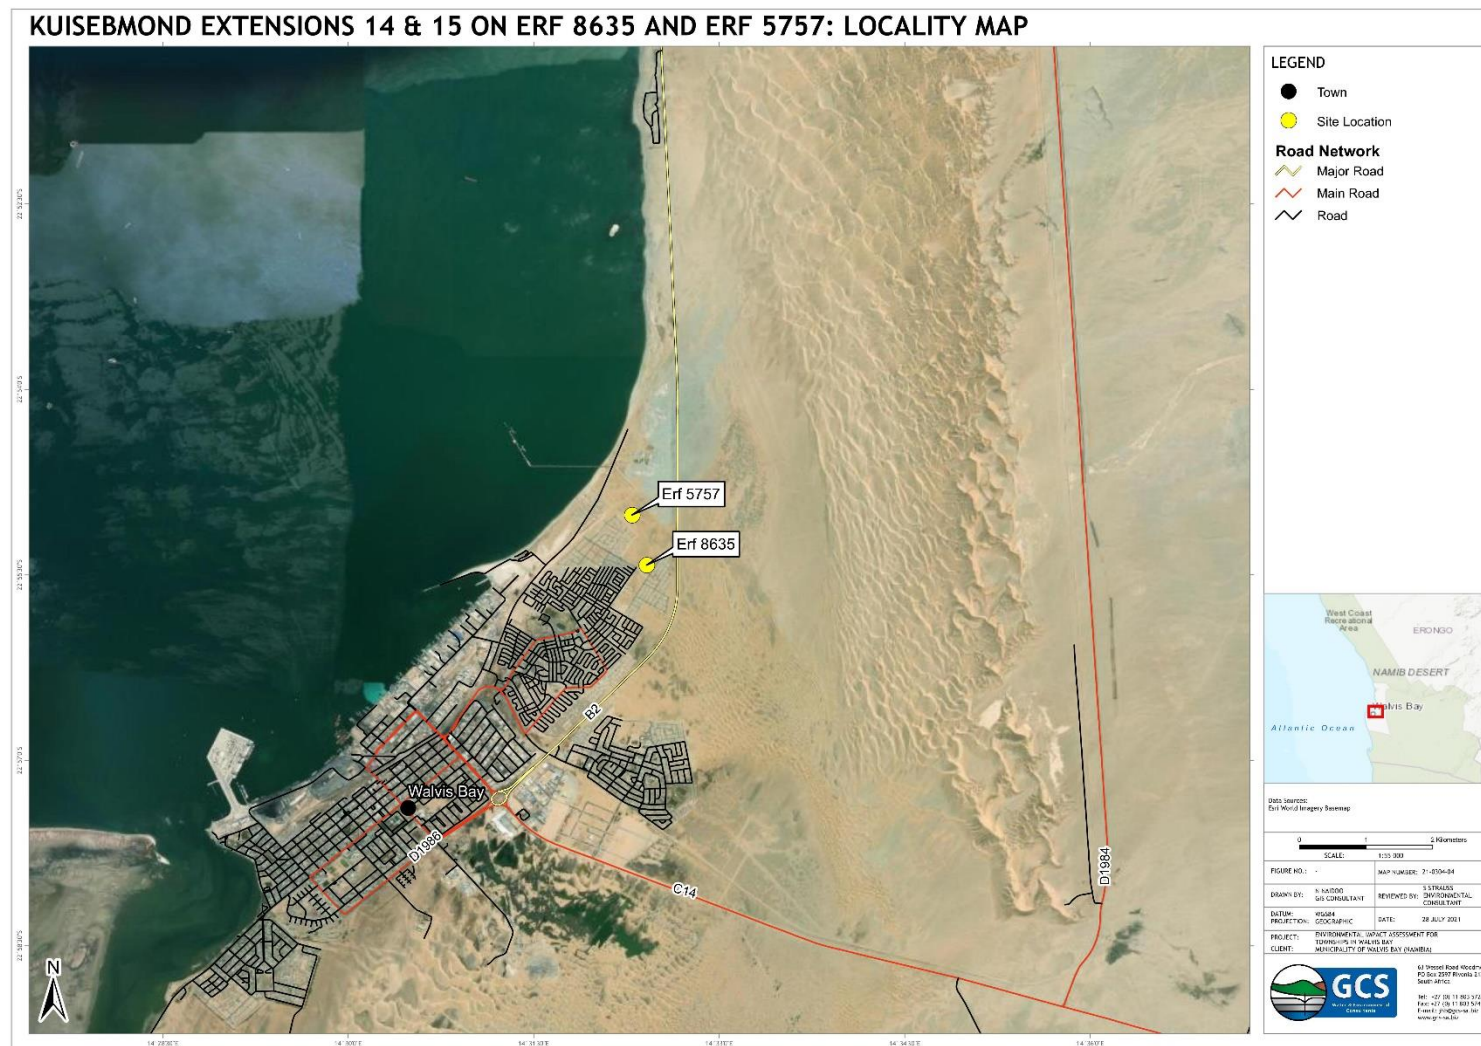

Figure 1: Locality map of proposed Kuseibmond Extensions 14 and 15

### 3 POTENTIAL IMPACTS

The following potential impacts have been identified from the proposed activity so far:

- **Temporary job creation** through the hiring of workers to be involved during the construction of the associated services.
- **Impact on vegetation and fauna:** some vegetation may need to be removed to during construction. This may also lead to habitat destruction for some fauna.
- **Traffic safety:** slow construction vehicles may compromise traffic safety in the area. Traffic may also be increased in the area once the areas are fully developed
- **Environmental degradation** through different types of waste generated on the site.
- **Waste** may be generated during construction on site which would have to be disposed of at an approved landfill site.
- **Noise and dust** generated by construction vehicles and activities.
- **Health and safety risks** which may result to workers operating on site.
- **Soil erosion** due to the use of soils in burials which often result in stockpiled loose soil which may be susceptible to wind and/or surface-water runoff.
- **Soil and Groundwater impacts** may result during the construction and operational activities due to possible pollution of ground water, land degradation and soil pollution. This may particularly occur during operations at the cemetery due to the use of certain chemicals used during burials.

Phases of EIA
<b>APPLICATION PHASE</b>
Review of project against EMA listed activities to determine the need for an EIA Process
Compile and submit an ECC application to DEA
<b>SCOPING PHASE WE ARE HERE</b>
Identify and consult with Interested and Affected Parties (IAPs) and conduct baseline studies to determine the sensitivity of the receiving environment and population to the proposed project
Identify potential environmental and social impacts based on the baseline studies and consultation with IAPs
Determine the Terms of Reference for further study during EIA/EMP (If required).
Compile Draft Scoping Report and Draft EMP detailing the above process and outcomes, and circulate to IAPs for review and comment.
Finalise Scoping Report and Draft EMP with IAP review outcomes and submit to DEA for adjudication.

#### PURPOSE OF THE ENVIRONMENTAL ASSESSMENT PROCESS

The Environmental Management Act, 2007 (Act No. 7 of 2007), and supporting Environmental Impact Assessment (EIA) Regulation of 18 January 2012, prescribes the processes to be followed when conducting the Environmental Clearance Certificate (ECC) Application and associated Environmental Impact Assessment (EIA) process.

In broad terms, the purpose of the EIA process is to assess the current environment (including the socio-economic and cultural setting) in which a proposed activity will take place and assess all potential impacts.

The process aims to ensure that all relevant factors are considered when evaluating the potential impacts of a project, as well as developing appropriate environmental management measures (in the form of an Environmental Management Plan – EMP) to mitigate these impacts.

The EMP describes the goals and objectives for impact management to minimise or eliminate potential negative impacts; the action plans to bring effect to those goals and objectives; the procedures to be implemented to ensure integration of environmental management into the daily operations; as well as a plan to raise awareness of employees and the surrounding community with regards to environmental management.

## 4 ENVIRONMENTAL ASSESSMENT PROCESS

### 4.1 Environmental Management Act No. 7 of 2007

The Environmental Management Act (EMA) provides a list of activities, the development or execution of which require an Environmental Clearance Certificate (ECC) from the Ministry of Environment, Forestry and Tourism: Department of Environmental Affairs and Forestry (MEFT: DEAF) prior to construction. Due to the nature of the proposed project, an ECC will be required prior to project commencement. Accordingly, an Environmental Impact Assessment (EIA) process as per the requirements of EMA: Environmental Impact Assessment Regulations (18 January 2012) must be conducted to inform the ECC decision.

### 4.2 Environmental Impact Assessment

The EMA defines the EIA as a process of identifying, predicting, and evaluating the significant effects of activities on the environment, the risks and consequences of activities, alternatives to these activities and options for mitigation of such activities. This is done with a view of minimising negative impacts, maximising benefits, and promoting compliance with the principles of environmental management.

### 4.3 Competent Authority

The competent authority administering the EIA process and deciding on the issue of an ECC is the Ministry of Environment, Forestry and Tourism's Department of Environmental Affairs and Forestry (MEFT: DEAF). As such, the application for an ECC and all reports and documentation associated with the EIA process will be submitted to the MEFT: DEAF.

## 5 REGISTRATION OF I&APS AND THEIR COMMENTS/CONCERNS

### PUBLIC PARTICIPATION PROCESS

Public involvement is an essential part of any Environmental Assessment process. Interested and Affected Parties (I&APs) include any person or organisation that will be directly or indirectly involved and/or affected by the project.

You have been identified as a potential I&AP who may want to receive information regarding the above-mentioned project and/or provide input into the Environmental Impact Assessment process. To be recognised as an I&AP and to be kept informed of the proposed project and EIA process going forward, one must register with GCS to be added to the Stakeholder Database for the project. You may communicate via fax, email, or telephone to obtain further information or comment on the proposed project.

Registered I&APs will be kept informed of the Public Participation Process throughout the EIA process, will be given the opportunity to review and comment on the EIA reports and documents, will receive feedback on how comments have been taken into account, and will be informed of the outcome of the assessment. All comments will be recorded and presented to the project team and competent authority by means of the Project Comments and Responses Register (CRR).

Attached to this BID is a comment form which you can complete and record any comments you may have with respect to the proposed activity. The contact details of the EAP to whom the comments can be addressed are outlined below.

A public meeting is scheduled to be held as follows:

**Date:** Friday, 20 August 2021

**Time:** 17h30

**Venue:** Kusebmond Council Chambers

### PUBLIC PARTICIPATION - CONTACT DETAILS

**Contact Person:** Stephanie Strauss  
**Tel:** +264 61 248 614

## **APPENDIX E**

### **NEWSPAPER ADVERTS**

Reduced mobility

# Delta variant crimps oil demand outlook

The Delta variant undermined deliveries in China, Indonesia and other parts of Asia.

Global oil demand is expected to grow slower than previously forecast this year as the spread of Covid's Delta variant has prompted lockdowns in major consuming countries, the International Energy Agency said Thursday.

Demand surged in June as mobility increased in North America and Europe. But it "abruptly reversed course" in July as the Delta variant undermined deliveries in China, Indonesia and other parts of Asia, the IEA said in a monthly report. "The outlook for the remainder of the year has also been appreciably downgraded due to the worsening of the pandemic and revisions to historical data," the report said.

"New Covid-19 restrictions imposed in several major oil consuming countries, particularly in Asia, look set to reduce mobility and oil use." The agency now forecasts demand rising by 5.3 million barrels per day in 2021 to 96.2 mbd. That is down 300 000 bpd from its previous estimations. Global output, meanwhile, is expected to rise further after the OPEC group of major oil producers and its allies agreed to boost production, the IEA said. With USpetrolprices rising, the White House complained on Wednesday that the production increase by the OPEC+ group was "simply not enough" to fuel the global economic recovery from the pandemic.

INTOUCH INTERACTIVE MARKETING an equal opportunity employer has the following vacancy for a dynamic and energetic person with Namibian Citizenship.

## PROJECT COORDINATOR

Paterson Grade B4 | Duty Station: Windhoek

### Duties & Responsibilities

- Coordinate between clients and operations and also internally between different stakeholders
- Manage, oversee operational workflow – web, signage, specialized development and other relevant teams
- Coordinate Intouch power introductions or breakfast sessions
- Oversee and coordinate Intouch social media engagement and marketing initiatives where needed
- Manage team members to keep Intouch websites and Portal up to date with latest projects and developments
- Intercept quote requested and oversee quotes and / or proposals where necessary
- Maintain a full record of all the SOP's (Standard Operating Procedures) for all departments, stakeholders and relevant parties
- Coordinate the relevant staff and stakeholders to update the SOP's
- Implement, enforce and maintain Risk strategies and Policies and making recommendations to management

Interested candidates who qualify for the above position can forward their CV, accompanied by a covering letter (compulsory), certified copies of qualifications and other relevant documentation to:

## China rejects need for further WHO probe

LAURIE CHEN

China on Friday rejected the World Health Organization's calls for a renewed probe into the origins of Covid-19, saying it supported "scientific" over "political" efforts to find out how the virus started.

Pressure is once more mounting on Beijing to consider a fresh probe into the origins of a pandemic which has killed more than four million people and paralysed economies worldwide since it first emerged in the central Chinese city of Wuhan.

A delayed and heavily politicised visit by a WHO team of international experts went to Wuhan in January 2021 to produce a first phase report, which was written in conjunction with their Chinese counterparts. It failed to conclude how the virus began.

On Thursday the WHO urged China to share raw data from the earliest Covid-19 cases to revive its probe into the origins

of the disease.

China hit back, repeating its position that the initial investigation was enough and that calls for further data were motivated by politics instead of scientific inquiry.

"We oppose political tracing and abandoning the joint report" issued after the WHO expert team's Wuhan visit in January, vice foreign minister Ma Zhaoxu told reporters. "We support scientific tracing."

That report said the virus jumping from bats to humans via an intermediate animal was the most probable scenario, while a leak from Wuhan's virology labs was "extremely unlikely". MA rejected suggestions of new lines of investigation.

"The conclusions and recommendations of WHO and China joint report were recognised by the international community and the scientific community," he said.

## ENVIRONMENTAL IMPACT ASSESSMENT PROCESS FOR THE PROPOSED TOWNSHIP ESTABLISHMENTS IN WALVIS BAY

GCS Water Environmental Engineering Namibia (Pty) Ltd (GCS) hereby give notice to all potentially Interested and Affected Parties (I&APs) that an application will be made to the Environmental Commissioner in terms of the Environmental Management Act (No 7 of 2007) and the Environmental Impact Assessment Regulations (GN 30 of 6 February 2012) for the below.

### Township establishments, creation of streets and installation of bulk services for the following:

- Meersig Extensions 3 and 4;
- Kuisebmond Extensions 14 & 15;
- Narraville Extensions 17, 18 & 19 and
- Township to be established on Farm 38.

**Site location:** Walvis Bay, Erongo Region

**Proponent:** Municipality of Walvis Bay

**Environmental Assessment Practitioner (EAP):** GCS Water Environmental Engineering Namibia

### Public meetings are scheduled to be held as follows:

#### Kuisebmond Extensions 14 & 15

**Date:** Friday, 20 August 2021

**Time:** 17h30

**Venue:** Kuisebmond Council Chambers

#### Meersig Extensions 3 & 4 and Farm 38

**Date:** Saturday, 21 August 2021

**Time:** 10h00

**Venue:** Town Hall, Civic Centre

#### Narraville Extensions 17, 18 & 19

**Date:** Saturday, 21 August 2021

**Time:** 14h00

**Venue:** Narraville Community Hall

Please note that the meetings will strictly adhere to the current COVID-19 regulations. Please note that no entry to the venue will be allowed without a face mask.

### Interested & Affected Parties (I&AP) Registration and submission of comments:

To comment or receive further information on the projects, please register with GCS (contact details below) as an I&AP before end of business on **Monday, 30 August 2021**.

All registered I&APs will be informed throughout the assessment process and will be provided with further opportunities for review and submission of comments.

## Sales Representative: Walvis Bay

**A vacancy exists for a Sales representative based in Walvis Bay**

The position will be reporting to the Sales Manager: Strategic Segments. The purpose of this position is to meet and exceed sales and overhead budget by growing customer base and providing excellent customer service.

**Key Areas of Responsibility include, but is not limited to the following:**

- Gain understanding of customer requirements and develop measures to improve service delivery
- Design, implement & update account plans, opportunity roadmaps and risk assessments for all major customers in the assigned portfolio.
- Target new business by conducting a gap analysis on current and potential clients.
- Conduct regular cylinder- safety audits at customer sites.
- Regularly train and assess customer staff on the safe operation and handling of cylinders & equipment.
- Manage assets on customer sites to ensure the required return on investments and safety objectives are met.
- Monitor debt levels and develop methods to reduce outstanding debt at customers in the portfolio.
- With the assistance of the manager, conduct regular price reviews at customers to ensure prices are negotiated in accordance with the price cost recovery requirements of the company.
- Actively contribute to the country SHEQ programme.

### Minimum Requirements:

- The preferred applicant should be in possession of a valid Diploma in Sales and Marketing
- or a valid Grade 12 (at least 23 points) certificate with at least 3 – 5 years sales and marketing experience.
- Must have a valid drivers licence older than 3 years

Must have strong interpersonal and technical skill with knowledge of welding products, processes and systems, credit policies, safety requirements, negotiation skills and basic financial management will be an added advantage. The incumbent will be a Namibian citizen.

At Kongsberg, we believe in tackling challenging problems and delivering extreme performance for extreme conditions. We do that through excellent products and services developed for delivering the greatest benefits to our customers.

# Netherlands hands over 75 000 doses AstraZeneca vaccines to Namibia

Eileen van der Schyff

The United Kingdom of the Netherlands officially handed over 75 000 doses of the AstraZeneca vaccine as a donation to Namibia on Wednesday, 11 August 2021. The vaccines arrived in Namibia on Sunday, 8 August 2021.

The AstraZeneca doses have been dispatched to all regions across the country for administering pending second doses to over 68 000 people. The Deputy Minister of the Ministry of Health and Social Services (MoHSS), Esther Utjiua Muinjanguue thanked the Netherlands government for the donations and said, "We look forward to continued engagement with EU member states to secure additional doses of vaccines, particularly to ensure that all persons at increased risk of Covid-19 infection and severe diseases, are fully vaccinated."

**From:** Stephanie Strauss  
**Sent:** Monday, August 9, 2021 12:23 PM  
**Subject:** 21-0304 Environmental Impact Assessment Process for the proposed Township Establishments in Walvis Bay  
**Attachments:** 21-0304 BID Meersig Ext 3 and 4\_09082021.pdf; 21-0304 BID Naraville Extension 18 and 19\_09082021.pdf; 21-0304 BID Naraville Extension 17\_09082021.pdf; 21-0304 BID Kuisebmond Extension 14 and 15\_09082021.pdf; 21-0304 BID Farm 38\_09082021.pdf

Dear Potential Interested and Affected Party

GCS Water Environmental Engineering Namibia (Pty) Ltd (GCS) hereby give notice to all potentially Interested and Affected Parties (I&APs) that an application will be made to the Environmental Commissioner in terms of the Environmental Management Act (No 7 of 2007) and the Environmental Impact Assessment Regulations (GN 30 of 6 February 2012) for the below.

- **Meersig Extensions 3 & 4;**
- **Kuisebmond Extensions 14 & 15;**
- **Narraville Extensions 17, 18 & 19; and**
- **Township to be established on Farm 38.**

GCS has been appointed by the Municipality of Walvis Bay to conduct the Environmental Impact Assessments (EIAs) and submit the required reports to the Environmental Commissioner as part of an application to apply for the Environmental Clearance Certificates (ECCs) in accordance with the Environmental Management Act (7 of 2007) and its 2012 Regulations.

Public consultation forms part of the EIA process. As part of the public consultation process, you have been identified as a potential interested and affected party with respect to the proposed activity, which is why you are receiving this email. Please find attached the Background Information Documents (BIDs) for these activities. Furthermore, public meetings are scheduled to be held to provide more information regarding the proposed activities and to allow Interested and Affected Parties (I&APs) an opportunity to comment on the proposed activities. The public meetings are scheduled to be held as follows:

### **Kuisebmond Extensions 14 & 15**

Date: Friday, 20 August 2021

Time: 17h30

Venue: Kuisebmond Council Chambers

### **Meersig Extensions 3 & 4 and Farm 38**

Date: Saturday, 21 August 2021

Time: 10h00

Venue: Town Hall, Civic Centre

### **Narraville Extensions 17, 18 & 19**

Date: Saturday, 21 August 2021

Time: 14h00

Venue: Narraville Community Hall

***Please note that the meetings will strictly adhere to the current COVID-19 regulations. Please note no entry to the venue will be allowed without a face mask.***

Should you wish to send us any potential issues or comments that you would like to be considered as part of the impact assessment process and addressed in the scoping report, please send us your inputs before the end of business on **Monday 30 August 2021**.

Once the scoping stage is completed, GCS will provide you with access to the draft scoping report, for your review, and you will have another opportunity to submit comments based on your review.

Please do not hesitate to contact us should you have any questions regarding the proposed activity and its EIA process.

Kind regards,

## Stephanie Strauss

**From:** Stephanie Strauss  
**Sent:** Tuesday, August 17, 2021 3:38 PM  
**Subject:** 21-0304 Environmental Impact Assessment Process for the proposed Township Establishments in Walvis Bay

Dear Potential Interested and Affected Party

GCS Water Environmental Engineering Namibia (Pty) Ltd (GCS) hereby give notice to all potentially Interested and Affected Parties (I&APs) that an application will be made to the Environmental Commissioner in terms of the Environmental Management Act (No 7 of 2007) and the Environmental Impact Assessment Regulations (GN 30 of 6 February 2012) for the below.

- **Meersig Extensions 3 & 4;**
- **Kuisebmond Extensions 14 & 15;**
- **Narraville Extensions 17, 18 & 19; and**
- **Township to be established on Farm 38.**

GCS has been appointed by the Municipality of Walvis Bay to conduct the Environmental Impact Assessments (EIAs) and submit the required reports to the Environmental Commissioner as part of an application to apply for the Environmental Clearance Certificates (ECCs) in accordance with the Environmental Management Act (7 of 2007) and its 2012 Regulations.

Public consultation forms part of the EIA process. As part of the public consultation process, you have been identified as a potential interested and affected party with respect to the proposed activity, which is why you are receiving this email.

The Background Information Documents (BIDs) for these activities can be found at the link below:

<https://www.gcs-sa.biz/public-documents/>

Furthermore, public meetings are scheduled to be held to provide more information regarding the proposed activities and to allow Interested and Affected Parties (I&APs) an opportunity to comment on the proposed activities. The public meetings are scheduled to be held as follows:

### **Kuisebmond Extensions 14 & 15**

Date: Friday, 20 August 2021

Time: 17h30

Venue: Kuisebmond Council Chambers

### **Meersig Extensions 3 & 4 and Farm 38**

Date: Saturday, 21 August 2021

Time: 10h00

Venue: Town Hall, Civic Centre

### **Narraville Extensions 17, 18 & 19**

Date: Saturday, 21 August 2021

Time: 14h00

Venue: Narraville Community Hall

***Please note that the meetings will strictly adhere to the current COVID-19 regulations. Please note no entry to the venue will be allowed without a face mask.***

Should you wish to send us any potential issues or comments that you would like to be considered as part of the impact assessment process and addressed in the scoping report, please send us your inputs before the end of business on **Monday 30 August 2021**.

Once the scoping stage is completed, GCS will provide you with access to the draft scoping report, for your review, and you will have another opportunity to submit comments based on your review.

Please do not hesitate to contact us should you have any questions regarding the proposed activity and its EIA process.

Kind regards,

## Stephanie Strauss

**Sent:** Thursday, October 28, 2021 8:59 AM  
**Subject:** 21-0304 Environmental Impact Assessment Process for the proposed Township Establishments in Walvis Bay

Dear Interested and Affected Party

Following our previous communication dated 16 August 2021, GCS Water and Environmental Engineering (Pty) Ltd (GCS) hereby give notice to all Registered I&APs that the Draft Environmental Scoping Report (DESR) is now available for the below proposed townships establishments for public comment from the **28<sup>th</sup> of October 2021 until the 11<sup>th</sup> of November 2021**.

- **Meersig Extensions 3 & 4;**
- **Kuisebmond Extensions 14 & 15, inclusive of cemetery;**
- **Narraville Extensions 17, 18 & 19; and**
- **Township to be established on Farm 38.**

Electronic copies of the full reports are available for download at the link below:  
<https://www.gcs-sa.biz/public-documents/>

A hard copy of each report is available for viewing at the following venues:

**Meersig Extensions 3 and 4, and proposed township on Farm 38**

Municipality of Walvis Bay office (Nangolo Mbumba Drive, Walvis Bay)

**Kuisebmond Extensions 14 and 15, inclusive of cemetery**

Municipality of Walvis Bay Kuisebmond office (2nd Avenue, Walvis Bay)

**Narraville Extensions 17, 18 and 19**

Narraville Library (Kruis Street, Walvis Bay)

Should you wish to comment on the proposed project, kindly do so in writing on or before **11<sup>th</sup> November 2021** at the below contact information.

**Contact: Stephanie Strauss**  
**PO Box 81808 Windhoek**  
**Tel: +264 61 435 8228**  
**Fax: +264 61 435 8201**  
**E-mail: stephanies@gcs-na.biz**

Should you require any additional information in this regard please feel free to contact our office.

Kind regards  
Stephanie Strauss

## Public Meeting Minutes

**Subject:** Public Participation Meeting for the Environmental Assessment for the Proposed Township Establishment of Kuisebmond Extensions 14 and 15, Walvis Bay

**Venue:** Kuisebmond Council Chambers

**Date:** 20 August 2021

**Time:** 17h30

**Attendance:** See attached attendance register

## **1 INTRODUCTION**

The meeting was opened by Stephanie Strauss the consultant from GCS. Stephanie provided a background with regards to proposed Township Establishment of Kusebmond Extensions 14 and 15. Stephanie proceeded to explain the purpose for the meeting which was to provide more information on the proposed activities and the intended Environmental Impact Assessment (EIA) to be undertaken for the Township Establishments. Kristofina Asino from the Municipality of Walvis Bay presented the locality and layout of the proposed Township Establishments, after which the floor was opened to questions. This opened an interactive session between the consultant and the public members.

## **2 QUESTIONS AND COMMENTS REGARDING THE PROPOSED PROJECT**

The issues/concerns raised by the attendants during the meeting are presented in the table below:

Table 3-1: Questions and comments raised during the meeting.

Question/Comment By	Question/Comment	Respondent	Response
Knowledge Ipinge (Community Representative)	Is the layout the same with the urban spatial development framework?  How many residential erven for Extension 14?	Kristofina Asino (Municipality of Walvis Bay)	The framework does not go into details of the subdivisions. It will just show that there should be a cemetery, residential area etc.  Extension 14 has 165 single residential erven
Knowledge Ipinge (Community Representative)	Did you consider the fact that NamPort is currently having an expression of interest for green hydrogen projects?	Stephanie Strauss (GCS)	For the moment we are still busy looking at all different developments that is happening in close proximity to see how it impacts combined with the impacts identified in our development overtime. But in terms of electricity/power development we haven't looked at its impact or how it could potentially be used for our development.
		Kristofina Asino	Between the extension to NamPort there is a 250m wide corridor for services and that corridor is forming as a like a buffer between the residential area and the NamPort activities. Additionally, the cemetery is also that side, so it acts as a filter.
Kristofina Asino (Municipality of Walvis Bay)	Please check what would be the impacts of the activities to the corridor.	Stephanie Strauss (GCS)	Yes, we will.

Question/Comment By	Question/Comment	Respondent	Response
Kristofina Asino (Municipality of Walvis Bay)	As a municipality we need a strong EMP in regards with what to do at the cemetery because we had an incident (Narraville cemetery) where the area was not compacted properly which led to the burial site to have water. And no family would want to experience for their loved one.	Stephanie Strauss (GCS)	Yes, we will recommend accordingly.
	To which extent is the geohydrologist is going to look into this cemetery water table issue?	Stephanie Strauss (GCS)	Unfortunately, he is not here right now, I will give him your input as discussed today.
Kristofina Asino (Municipality of Walvis Bay)	Additionally, we are busy with the revision of the spatial development framework and we have addressed that we need more institutional land.		Comment is noted.
Kristofina Asino (Municipality of Walvis Bay)	Due to the low attendance is there something we can take it up with our public relations to put more on social media (Facebook) for comments?	Stephanie Strauss (GCS)	Yes, if we get a low turnout, we have to use other means to try to get comments from the community. We can post more on social media, WhatsApp group and the website. Once the report is available then we will also have it at a public place in each township where the public can come and view the document.
Knowledge Ipinge (Community Representative)	I see there is an institutional Erf in Extension 14, how big is that erf?	Kristofina Asino (Municipality of Walvis Bay)	Its 1201 square meters.  By institutional the church can also be part of that. And we have a lot of churches that have been approaching us. Unless we put conditions in the township establishment that no church should establish there.
Knowledge Ipinge (Community Representative)	There is a demand for hospitals in Kusebmond aswell. There is parties that want to put such an establishment.	Kristofina Asino (Municipality of Walvis Bay)	Yes, but I think this is a bit too smaller for the hospital in that regards.

Question/Comment By	Question/Comment	Respondent	Response
			<p>But to answer that, we are busy with other layouts, although it's not townships they might require an EIA.</p> <p>As you enter to Kabeljou Street, there is a carwash on the other side. We are proposing to create commercial/institutional erf on the area.</p> <p>Unfortunately, the problem with Kusebmond we don't have any more land that's why we are trying to maximize and look for spaces.</p> <p>I suggest for people come talk to council and have informal discussions.</p>

### **3 WAY FORWARD**

The documented questions and comments from the meeting will be incorporated and fully addressed in the Environmental Scoping report. This report will be circulated to all registered Interested and Affected Parties (I&APs) for review before it can be submitted to the Ministry of Environment, Forestry and Tourism: Department of Environmental Affairs for evaluation.

### **4 CONCLUSION**

After the attendees had all raised their points and comments, Stephanie Strauss gave a vote of thanks. The meeting was adjourned at 18h40.

## **Issues and Response Trail for the Environmental Impact Assessment (EIA) for the Proposed Township Establishment of Kuisebmond Extensions 14 and 15**

<b>Question/Comment By</b>	<b>Question/Comment</b>	<b>Respondent</b>	<b>Response</b>
Ingrid Mthethwa via email dated 30/08/2021	Pollution, and when the projects will start and how they will be ran. Updates when the plots would be ready and how much for the natural flora will be disturbed.	GCS	<i>These aspects have been addressed in the scoping report which will be made available to I&amp;APs to review and comment on.</i>
Max via telephone call dated 19 August 2021	Enquired regarding the street width of Herman Klein Hitpas Street. Also enquired regarding the size of the cemetery erf.	GCS via WhatsApp dated 19 August 2021	<i>The street is 20 meter wide, sent an updated map for Kuisebmond Extension 15</i>
Stefanus Gariseb (Namport) via email dated 3 November 2021	The proposed Kuisebmond Extensions 14 & 15, are immediately bordering the Namport North Port development. Based on the proposed layout of our development, bulk commodities are planned for the site and such a buffer in the form at the cemetery would be preferred as the immediate neighbor to the Port Boundary. I could not make it out clearly how the proposed extension aligns with the port boundary. Can you please clarify the immediate proposed land uses.	GCS via email dated 4 November 2021	<p>Please find attached the layout maps for Kuisebmond Extensions 14 and 15. It is only Kuisebmond Extension 15 that is bordering Farm 39 which belongs to Namport. The majority of the area in Kuisebmond Extension 15 bordering Farm 39 is reserved for the cemetery. However, to the south of the cemetery there are some residential erven proposed to be included there.</p> <p>Please do let us know should you have any further comments.</p>

Question/Comment By	Question/Comment	Respondent	Response
Stefanus Gariseb (Namport) via email dated 8 November 2021	Thank you for detailed layout map. From current port operations (24 hours, industrial area), having residential properties as immediate neighbors becomes problematic over time. It is advisable to leave a buffer zone between the port boundary and residential area.	GCS via email dated 16 November 2021	With regards to the proposed Kuisebmond Extension 15 comments as per below email. The Walvis Bay Municipality has confirmed that there is a 250 meter services corridor provided for between the proposed extension and the Namport development, thus serving as a buffer between the proposed residential area and the port development.
<b>Public Meeting Comments</b>			
Knowledge Ipinge (Community Representative)	Is the layout the same with the urban spatial development framework?  How many residential erven for Extension 14?	Kristofina Asino (Municipality of Walvis Bay)	The framework does not go into details of the subdivisions. It will just show that there should be a cemetery, residential area etc.  Extension 14 has 165 single residential erven
Knowledge Ipinge (Community Representative)	Did you consider the fact that NamPort is currently having an expression of interest for green hydrogen projects?	Stephanie Strauss (GCS)	For the moment we are still busy looking at all different developments that is happening in close proximity to see how it impacts combined with the impacts identified in our development overtime. But in terms of electricity/power development we haven't looked at its impact or how it could potentially be used for our development.  <i>NamPort has been notified of the intended development and provided their comments.</i>

Question/Comment By	Question/Comment	Respondent	Response
		Kristofina Asino	Between the extension to NamPort there is a 250m wide corridor for services and that corridor is forming as a like a buffer between the residential area and the NamPort activities. Additionally, the cemetery is also that side, so it acts as a filter.
Kristofina Asino (Municipality of Walvis Bay)	Please check what would be the impacts of the activities to the corridor.	Stephanie Strauss (GCS)	Yes, we will.
Kristofina Asino (Municipality of Walvis Bay)	As a municipality we need a strong EMP in regards with what to do at the cemetery because we had an incident (Narrawille cemetery) where the area was not compacted properly which led to the burial site to have water. And no family would want to experience for their loved one.	Stephanie Strauss (GCS)	Yes, we will recommend accordingly.  <i>An EMP is attached to the draft scoping report outlining the mitigation measures for the cemetery. A hydrogeological assessment has been undertaken and incorporated in the scoping report as it relates to groundwater contamination from the cemetery and how the proponent must manage that.</i>
	To which extent is the geohydrologist is going to look into this cemetery water table issue?	Stephanie Strauss (GCS)	Unfortunately, he is not here right now, I will give him your input as discussed today.
Kristofina Asino (Municipality of Walvis Bay)	Additionally, we are busy with the revision of the spatial development framework and we have addressed that we need more institutional land.		Comment is noted.
Kristofina Asino (Municipality of Walvis Bay)	Due to the low attendance is there something we can take it up with our public relations to put more on social media (Facebook) for comments?	Stephanie Strauss (GCS)	Yes, if we get a low turnout, we have to use other means to try to get comments from the community. We can post more on social media, WhatsApp group and the website. Once the report if available

Question/Comment By	Question/Comment	Respondent	Response
			then we will also have it at a public place in each township where the public can come and view the document.
Knowledge Ipinge (Community Representative)	I see there is an institutional Erf in Extension 14, how big is that erf?	Kristofina Asino (Municipality of Walvis Bay)	Its 1201 square meters.  By institutional the church can also be part of that. And we have a lot of churches that have been approaching us. Unless we put conditions in the township establishment that no church should establish there.
Knowledge Ipinge (Community Representative)	There is a demand for hospitals in Kuisebmond aswell. There is parties that want to put such an establishment.	Kristofina Asino (Municipality of Walvis Bay)	Yes, but I think this is a bit too smaller for the hospital in that regards.  But to answer that, we are busy with other layouts, although it's not townships they might require an EIA.  As you enter to Kabeljou Street, there is a carwash on the other side. We are proposing to create commercial/institutional erf on the area.  Unfortunately, the problem with Kuisebmond we don't have any more land that's why we are trying to maximize and look for spaces.  I suggest for people come talk to council and have informal discussions.

## 6 REGISTRATION OF I&amp;APS AND THEIR COMMENTS / CONCERNS

**From:** Stephanie Strauss <stephanies@gcs-na.biz>  
**Sent:** Monday, 09 August 2021 12:23  
**Subject:** 21-0304 Environmental Impact Assessment Process for the proposed Township Establishments in Walvis Bay

Dear Potential Interested and Affected Party

GCS Water Environmental Engineering Namibia (Pty) Ltd (GCS) hereby give notice to all potentially Interested and Affected Parties (I&APs) that an application will be made to the Environmental Commissioner in terms of the Environmental Management Act (No 7 of 2007) and the Environmental Impact Assessment Regulations (GN 30 of 6 February 2012) for the below.

- **Meersig Extensions 3 & 4;**
- **Kuisebmond Extensions 14 & 15;**
- **Narraville Extensions 17, 18 & 19; and**
- **Township to be established on Farm 38.**

GCS has been appointed by the Municipality of Walvis Bay to conduct the Environmental Impact Assessments (EIAs) and submit the required reports to the Environmental Commissioner as part of an application to apply for the Environmental Clearance Certificates (ECCs) in accordance with the Environmental Management Act (7 of 2007) and its 2012 Regulations.

Public consultation forms part of the EIA process. As part of the public consultation process, you have been identified as a potential interested and affected party with respect to the proposed activity, which is why you are receiving this email.

Please find attached the Background Information Documents (BIDs) for these activities. Furthermore, public meetings are scheduled to be held to provide more information regarding the proposed activities and to allow Interested and Affected Parties (I&APs) an opportunity to comment on the proposed activities. The public meetings are scheduled to be held as follows:

**Kuisebmond Extensions 14 & 15**

Date: Friday, 20 August 2021

Time: 17h30

Venue: Kuisebmond Council Chambers

**Meersig Extensions 3 & 4 and Farm 38**

Date: Saturday, 21 August 2021

Time: 10h00

Venue: Town Hall, Civic Centre

**Narraville Extensions 17, 18 & 19**

Date: Saturday, 21 August 2021

Time: 14h00

Venue: Narraville Community Hall

***Please note that the meetings will strictly adhere to the current COVID-19 regulations. Please note no entry to the venue will be allowed without a face mask.***

Should you wish to send us any potential issues or comments that you would like to be considered as part of the impact assessment process and addressed in the scoping report, please send us your inputs before the end of business on **Monday 30 August 2021**.

Once the scoping stage is completed, GCS will provide you with access to the draft scoping report, for your review, and you will have another opportunity to submit comments based on your review.

Please do not hesitate to contact us should you have any questions regarding the proposed activity and its EIA process.

Kind regards,

**Stephanie Strauss**

**Subject:** 21-0304 Environmental Impact Assessment Process for the proposed Township Establishments in Walvis Bay

Dear Interested and Affected Party

Following our previous communication dated 16 August 2021, GCS Water and Environmental Engineering (Pty) Ltd (GCS) hereby give notice to all Registered I&APs that the Draft Environmental Scoping Report (DESR) is now available for the below proposed townships establishments for public comment from the **28<sup>th</sup> of October 2021 until the 11<sup>th</sup> of November 2021**.

- **Meersig Extensions 3 & 4;**
- **Kuisebmond Extensions 14 & 15, inclusive of cemetery;**
- **Narraville Extensions 17, 18 & 19; and**
- **Township to be established on Farm 38.**

Electronic copies of the full reports are available for download at the link below:

<https://www.gcs-sa.biz/public-documents/>

A hard copy of each report is available for viewing at the following venues:

**Meersig Extensions 3 and 4, and proposed township on Farm 38**

Municipality of Walvis Bay office (Nangolo Mbumba Drive, Walvis Bay)

**Kuisebmond Extensions 14 and 15, inclusive of cemetery**

Municipality of Walvis Bay Kuisebmond office (2nd Avenue, Walvis Bay)

**Narraville Extensions 17, 18 and 19**

Narraville Library (Kruis Street, Walvis Bay)

Should you wish to comment on the proposed project, kindly do so in writing on or before **11<sup>th</sup> November 2021** at the below contact information.

**Contact:** Stephanie Strauss

**PO Box** 81808 Windhoek

**Tel:** +264 61 435 8228

**Fax:** +264 61 435 8201

**E-mail:** [stephanies@gcs-na.biz](mailto:stephanies@gcs-na.biz)

Should you require any additional information in this regard please feel free to contact our office.

Kind regards  
Stephanie Strauss

**Subject:** 21-0304 Environmental Impact Assessment Process for the proposed Township Establishments in Walvis Bay

Dear Potential Interested and Affected Party

GCS Water Environmental Engineering Namibia (Pty) Ltd (GCS) hereby give notice to all potentially Interested and Affected Parties (I&APs) that an application will be made to the Environmental Commissioner in terms of the Environmental Management Act (No 7 of 2007) and the Environmental Impact Assessment Regulations (GN 30 of 6 February 2012) for the below.

- **Meersig Extensions 3 & 4;**
- **Kuisebmond Extensions 14 & 15;**
- **Narraville Extensions 17, 18 & 19; and**
- **Township to be established on Farm 38.**

GCS has been appointed by the Municipality of Walvis Bay to conduct the Environmental Impact Assessments (EIAs) and submit the required reports to the Environmental Commissioner as part of an application to apply for the Environmental Clearance Certificates (ECCs) in accordance with the Environmental Management Act (7 of 2007) and its 2012 Regulations.

Public consultation forms part of the EIA process. As part of the public consultation process, you have been identified as a potential interested and affected party with respect to the proposed activity, which is why you are receiving this email.

The Background Information Documents (BIDs) for these activities can be found at the link below:

<https://www.gcs-sa.biz/public-documents/>

Furthermore, public meetings are scheduled to be held to provide more information regarding the proposed activities and to allow Interested and Affected Parties (I&APs) an opportunity to comment on the proposed activities. The public meetings are scheduled to be held as follows:

**Kuisebmond Extensions 14 & 15**

Date: Friday, 20 August 2021

Time: 17h30

Venue: Kuisebmond Council Chambers

**Meersig Extensions 3 & 4 and Farm 38**

Date: Saturday, 21 August 2021

Time: 10h00

Venue: Town Hall, Civic Centre

**Narraville Extensions 17, 18 & 19**

Date: Saturday, 21 August 2021

Time: 14h00

Venue: Narraville Community Hall

***Please note that the meetings will strictly adhere to the current COVID-19 regulations. Please note no entry to the venue will be allowed without a face mask.***

Should you wish to send us any potential issues or comments that you would like to be considered as part of the impact assessment process and addressed in the scoping report, please send us your inputs before the end of business on **Monday 30 August 2021**.

Once the scoping stage is completed, GCS will provide you with access to the draft scoping report, for your review, and you will have another opportunity to submit comments based on your review.

Please do not hesitate to contact us should you have any questions regarding the proposed activity and its EIA process.

Kind regards,

**Stephanie Strauss**
