BACKGROUND INFORMATION DOCUMENT

BACKGROUND INFORMATION DOCUMENT (BID):

ENVIRONMENTAL IMPACT ASSESSMENT PROCESS FOR THE PROPOSED TOWNSHIP ESTABLISHMENT ON PORTION A OF THE REMAINDER FARM 38, WALVIS BAY, ERONGO REGION

9 August 2021

Proponent: Municipality of Walvis Bay

GCS Project Number: 21-0304

ENVIRONMENTAL ASSESSMENT PRACTITIONER: GCS (PTY) LTD

GCS Water Environmental Engineering (Pty) Ltd (GCS) is a fully integrated water, environmental, and earth science consulting services company based in the Republic of South Africa, with offices in Namibia, Botswana, and the Czech Republic. GCS provides a professional consulting service in the fields of environmental, water and earth sciences. GCS has a team of highly trained staff with considerable experience in the fields of environmental and water science.

GCS will act as the Independent Environmental Assessment Practitioner (EAP), as well as the Public Participation Practitioner for this environmental authorisation process.

ABBREVIATIONS	
BID	Background Information Document
CRR	Comments and Response Report
EAP	Environmental Assessment Practitioner
EIA	Environmental Impact Assessment
EMA	Environmental Management Act (No 7 of 2007)
EMP	Environmental Management Plan
I&AP	Interested and Affected Party
MEFT: DEAF	Ministry of Environment, Forestry and Tourism: Department of Environmental Affairs and Forestry
PPP	Public Participation Process

This Background Information Document (BID) has been compiled by GCS Water Environmental Engineering Namibia (Pty) Ltd (GCS) with the following aims:

- To introduce the proposed project and related activities to potential Interested and Affected Parties (I&APs);
- To provide information on the Environmental Impact Assessment (EIA) and related processes;
- To inform I&APs on how to be involved in the EIA process;
- To invite all parties to register as I&APs on the EIA database; and
- To provide all I&APs with an opportunity to comment on the proposed project and associated process, including biophysical and socio-economic aspects, as well as any other issues of concern.

1 INTRODUCTION

The Municipality of Walvis Bay (The Proponent) proposes to establish a township on Portion A of the Remainder of Farm 38, Walvis Bay. The proposed development includes the creation of streets and installation of bulk services within the proposed township.

Under the Environmental Management Act (2007) and its Regulations (2012), an Environmental Impact Assessment (EIA) is required for:

- **Activity 10.1 (a) Infrastructure**

The construction of oil, water, gas and petrochemical and other bulk supply pipelines (The proposed development includes the installation of bulk services)

- **Activity 10.1 (b) Infrastructure**

The construction of public roads (The proposed project includes the construction of roads)

- **Activity 10.2 (a) Infrastructure**

The route determination of roads and design of associated physical infrastructure where - it is a public road; (The proposed project includes the route determination of roads)

2 PROJECT DESCRIPTION

The Proponent proposes to establish a township on Portion A of the Remainder of Farm 38, Walvis Bay.

2.1 Need and desirability for the development

Walvis Bay is an important port town which operates an extensive fishing industry, and which is an important import and export point for many landlocked SADC countries. In terms of the Integrated Urban Spatial Development Framework for Walvis Bay (IUSDF) the town is expected to become a primary industrial city by 2030.

As such the Municipality of Walvis Bay has identified a need to develop an industrial township in order to meet the demands for industrial erven within the town.

2.2 Description of Activity

2.2.1 Site Location

The proposed township is located in the eastern part of Walvis Bay adjacent to the M36 and D1983 roads. Please refer to **Figure 1** for the locality Map and **Table 1** for the site location details.

Table 1: Site location details

Location	Walvis Bay
Area size	794 Hectares

2.2.2 Proposed Development

The proposed township will provide predominantly industrial and light industrial erven, with three public open spaces additionally provided in the township. The total number of erven to be created within the township are approximately 100 erven and the Remainder (Street). **Figure 2** below depicts the layout of the proposed township.

The primary activities that may be undertaken on an Industrial erf ranges from industrial buildings, panel beating, scrap yard, service and light

industry, service station, warehouse, storage and building yard as per the Walvis Bay Town Planning Amendment Scheme No 35. Light Industrial land uses are reserved for industry activities which are not noxious and may include accommodation for a caretaker on the premises or the selling of goods manufactured or processed on the premises.

2.2.3 Engineering services and Access Provision

It will be the responsibility of the municipality to provide engineering infrastructure (electricity, water, sewage and roads) to be utilized for the development and to link the municipal services provided for by the Municipality of Walvis Bay.

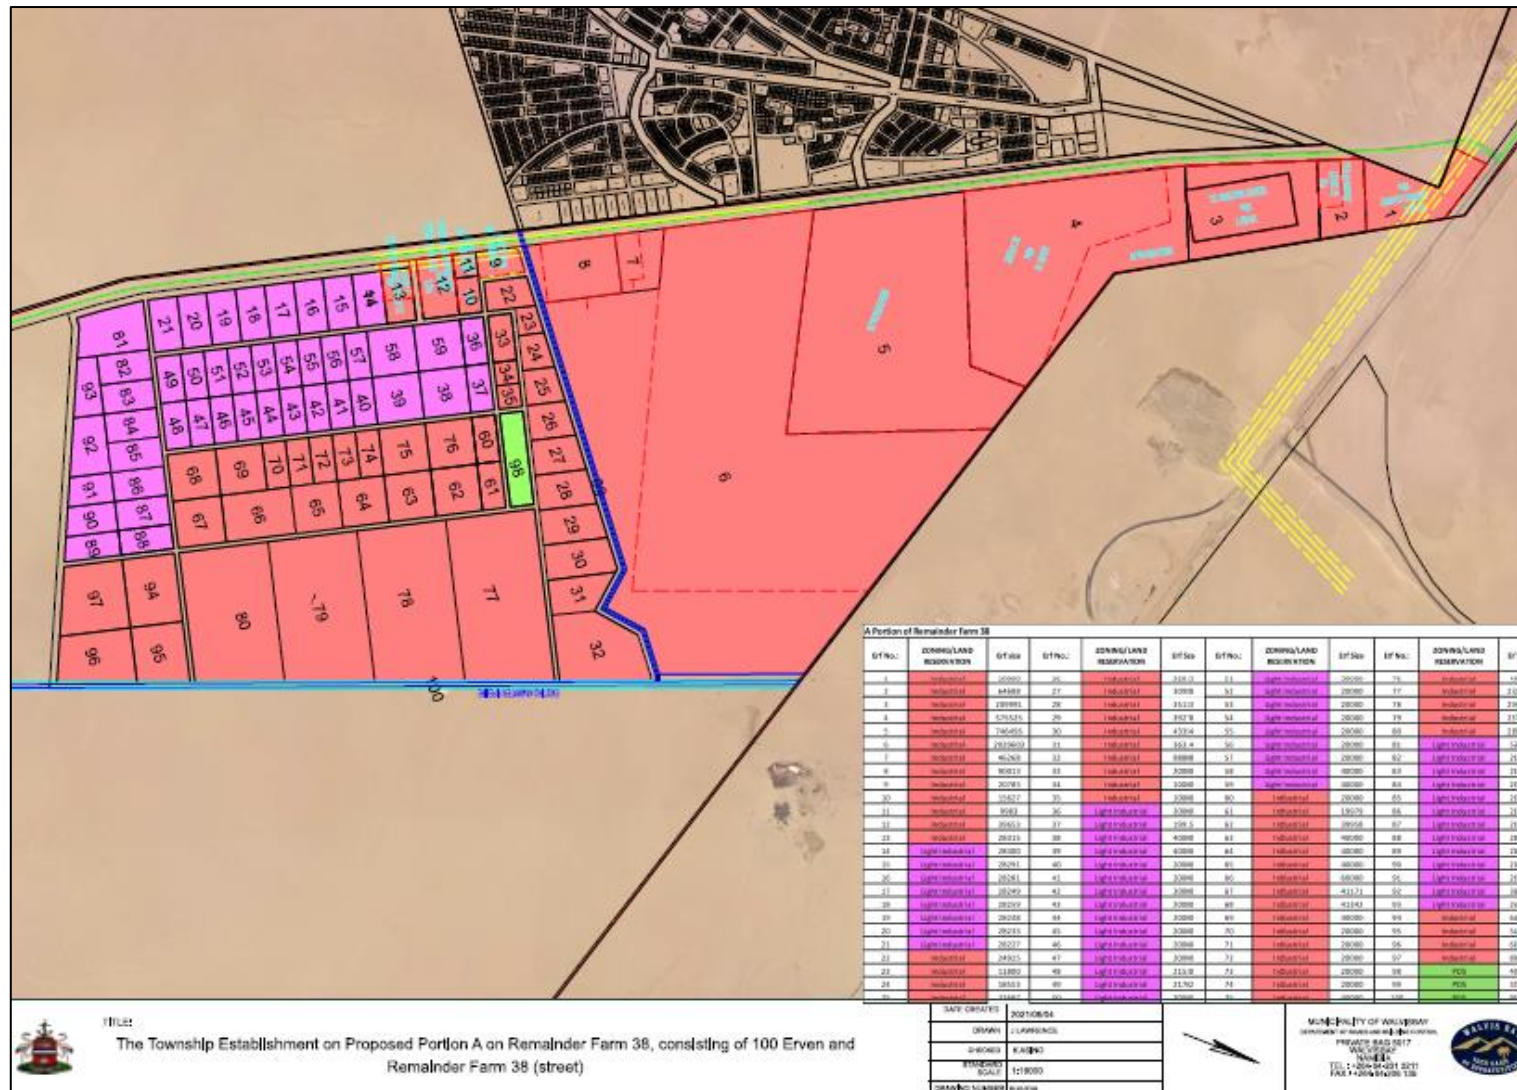

Figure 2: Layout Map of proposed township on Farm 38

3 POTENTIAL IMPACTS

The following potential impacts have been identified from the proposed activity so far:

- **Temporary job creation** through the hiring of workers to be involved during the construction of the associated services.
- **Impact on vegetation and fauna:** some vegetation may need to be removed to during construction. This may also lead to habitat destruction for some fauna.
- **Traffic safety:** slow construction vehicles may compromise traffic safety in the area. Traffic may also be increased in the area once the areas are fully developed
- **Environmental degradation** through different types of waste generated on the site.
- **Waste** may be generated during construction on site which would have to be disposed of at an approved landfill site.
- **Noise and dust** generated by construction vehicles and activities.
- **Health and safety risks** which may result to workers operating on site.
- **Surface and groundwater** impacts may occur due to the storage, use and handling of hazardous substances during construction and operation.

Phases of EIA
APPLICATION PHASE
Review of project against EMA listed activities to determine the need for an EIA Process
Compile and submit an ECC application to DEA
SCOPING PHASE WE ARE HERE
Identify and consult with Interested and Affected Parties (IAPs) and conduct baseline studies to determine the sensitivity of the receiving environment and population to the proposed project
Identify potential environmental and social impacts based on the baseline studies and consultation with IAPs
Determine the Terms of Reference for further study during EIA/EMP (If required).
Compile Draft Scoping Report and Draft EMP detailing the above process and outcomes, and circulate to IAPs for review and comment.
Finalise Scoping Report and Draft EMP with IAP review outcomes and submit to DEA for adjudication.

PURPOSE OF THE ENVIRONMENTAL ASSESSMENT PROCESS

The Environmental Management Act, 2007 (Act No. 7 of 2007), and supporting Environmental Impact Assessment (EIA) Regulation of 18 January 2012, prescribes the processes to be followed when conducting the Environmental Clearance Certificate (ECC) Application and associated Environmental Impact Assessment (EIA) process.

In broad terms, the purpose of the EIA process is to assess the current environment (including the socio-economic and cultural setting) in which a proposed activity will take place and assess all potential impacts.

The process aims to ensure that all relevant factors are considered when evaluating the potential impacts of a project, as well as developing appropriate environmental management measures (in the form of an Environmental Management Plan – EMP) to mitigate these impacts.

The EMP describes the goals and objectives for impact management to minimise or eliminate potential negative impacts; the action plans to bring effect to those goals and objectives; the procedures to be implemented to ensure integration of environmental management into the daily operations; as well as a plan to raise awareness of employees and the surrounding community with regards to environmental management.

4 ENVIRONMENTAL ASSESSMENT PROCESS

4.1 Environmental Management Act No. 7 of 2007

The Environmental Management Act (EMA) provides a list of activities, the development or execution of which require an Environmental Clearance Certificate (ECC) from the Ministry of Environment, Forestry and Tourism: Department of Environmental Affairs and Forestry (MEFT: DEAF) prior to construction. Due to the nature of the proposed project, an ECC will be required prior to project commencement. Accordingly, an Environmental Impact Assessment (EIA) process as per the requirements of EMA: Environmental Impact Assessment Regulations (18 January 2012) must be conducted to inform the ECC decision.

4.2 Environmental Impact Assessment

The EMA defines the EIA as a process of identifying, predicting, and evaluating the significant effects of activities on the environment, the risks and consequences of activities, alternatives to these activities and options for mitigation of such activities. This is done with a view of minimising negative impacts, maximising benefits, and promoting compliance with the principles of environmental management.

4.3 Competent Authority

The competent authority administering the EIA process and deciding on the issue of an ECC is the Ministry of Environment, Forestry and Tourism's Department of Environmental Affairs and Forestry (MEFT: DEAF). As such, the application for an ECC and all reports and documentation associated with the EIA process will be submitted to the MEFT: DEAF.

5 REGISTRATION OF I&APS AND THEIR COMMENTS/CONCERNS

PUBLIC PARTICIPATION PROCESS

Public involvement is an essential part of any Environmental Assessment process. Interested and Affected Parties (I&APs) include any person or organisation that will be directly or indirectly involved and/or affected by the project.

You have been identified as a potential I&AP who may want to receive information regarding the above-mentioned project and/or provide input into the Environmental Impact Assessment process. To be recognised as an I&AP and to be kept informed of the proposed project and EIA process going forward, one must register with GCS to be added to the Stakeholder Database for the project. You may communicate via fax, email, or telephone to obtain further information or comment on the proposed project.

Registered I&APs will be kept informed of the Public Participation Process throughout the EIA process, will be given the opportunity to review and comment on the EIA reports and documents, will receive feedback on how comments have been taken into account, and will be informed of the outcome of the assessment. All comments will be recorded and presented to the project team and competent authority by means of the Project Comments and Responses Register (CRR).

Attached to this BID is a comment form which you can complete and record any comments you may have with respect to the proposed activity. The contact details of the EAP to whom the comments can be addressed are outlined below.

A public meeting is scheduled to be held as follows:

Date: Saturday, 21 August 2021

Time: 10h00

Venue: Town Hall, Civic Centre

APPENDIX E

NEWSPAPER ADVERTS

Reduced mobility

Delta variant crimps oil demand outlook

The Delta variant undermined deliveries in China, Indonesia and other parts of Asia.

Global oil demand is expected to grow slower than previously forecast this year as the spread of Covid's Delta variant has prompted lockdowns in major consuming countries, the International Energy Agency said Thursday.

Demand surged in June as mobility increased in North America and Europe. But it "abruptly reversed course" in July as the Delta variant undermined deliveries in China, Indonesia and other parts of Asia, the IEA said in a monthly report. "The outlook for the remainder of the year has also been appreciably downgraded due to the worsening of the pandemic and revisions to historical data," the report said.

"New Covid-19 restrictions imposed in several major oil consuming countries, particularly in Asia, look set to reduce mobility and oil use." The agency now forecasts demand rising by 5.3 million barrels per day in 2021 to 96.2 mbd. That is down 300 000 bpd from its previous estimations. Global output, meanwhile, is expected to rise further after the OPEC group of major oil producers and its allies agreed to boost production, the IEA said. With USpetrolprices rising, the White House complained on Wednesday that the production increase by the OPEC+ group was "simply not enough" to fuel the global economic recovery from the pandemic.

China rejects need for further WHO probe

LAURIE CHEN

China on Friday rejected the World Health Organization's calls for a renewed probe into the origins of Covid-19, saying it supported "scientific" over "political" efforts to find out how the virus started.

Pressure is once more mounting on Beijing to consider a fresh probe into the origins of a pandemic which has killed more than four million people and paralysed economies worldwide since it first emerged in the central Chinese city of Wuhan.

A delayed and heavily politicised visit by a WHO team of international experts went to Wuhan in January 2021 to produce a first phase report, which was written in conjunction with their Chinese counterparts. It failed to conclude how the virus began.

On Thursday the WHO urged China to share raw data from the earliest Covid-19 cases to revive its probe into the origins

of the disease.

China hit back, repeating its position that the initial investigation was enough and that calls for further data were motivated by politics instead of scientific inquiry.

"We oppose political tracing and abandoning the joint report" issued after the WHO expert team's Wuhan visit in January, vice foreign minister Ma Zhaoxu told reporters. "We support scientific tracing."

That report said the virus jumping from bats to humans via an intermediate animal was the most probable scenario, while a leak from Wuhan's virology labs was "extremely unlikely". MA rejected suggestions of new lines of investigation.

"The conclusions and recommendations of WHO and China joint report were recognised by the international community and the scientific community," he said.

ENVIRONMENTAL IMPACT ASSESSMENT PROCESS FOR THE PROPOSED TOWNSHIP ESTABLISHMENTS IN WALVIS BAY

GCS Water Environmental Engineering Namibia (Pty) Ltd (GCS) hereby give notice to all potentially Interested and Affected Parties (I&APs) that an application will be made to the Environmental Commissioner in terms of the Environmental Management Act (No 7 of 2007) and the Environmental Impact Assessment Regulations (GN 30 of 6 February 2012) for the below.

Township establishments, creation of streets and installation of bulk services for the following:

- Meersig Extensions 3 and 4;
- Kuisebmond Extensions 14 & 15;
- Narraville Extensions 17, 18 & 19 and
- Township to be established on Farm 38.

Site location: Walvis Bay, Erongo Region

Proponent: Municipality of Walvis Bay

Environmental Assessment Practitioner (EAP): GCS Water Environmental Engineering Namibia

Public meetings are scheduled to be held as follows:

Kuisebmond Extensions 14 & 15

Date: Friday, 20 August 2021

Time: 17h30

Venue: Kuisebmond Council Chambers

Meersig Extensions 3 & 4 and Farm 38

Date: Saturday, 21 August 2021

Time: 10h00

Venue: Town Hall, Civic Centre

Narraville Extensions 17, 18 & 19

Date: Saturday, 21 August 2021

Time: 14h00

Venue: Narraville Community Hall

Please note that the meetings will strictly adhere to the current COVID-19 regulations. Please note that no entry to the venue will be allowed without a face mask.

Interested & Affected Parties (I&AP) Registration and submission of comments:

To comment or receive further information on the projects, please register with GCS (contact details below) as an I&AP before end of business on **Monday, 30 August 2021**.

All registered I&APs will be informed throughout the assessment process and will be provided with further opportunities for review and submission of comments.

Sales Representative: Walvis Bay

A vacancy exists for a Sales representative based in Walvis Bay

The position will be reporting to the Sales Manager: Strategic Segments. The purpose of this position is to meet and exceed sales and overhead budget by growing customer base and providing excellent customer service.

Key Areas of Responsibility include, but is not limited to the following:

- Gain understanding of customer requirements and develop measures to improve service delivery
- Design, implement & update account plans, opportunity roadmaps and risk assessments for all major customers in the assigned portfolio.
- Target new business by conducting a gap analysis on current and potential clients.
- Conduct regular cylinder- safety audits at customer sites.
- Regularly train and assess customer staff on the safe operation and handling of cylinders & equipment.
- Manage assets on customer sites to ensure the required return on investments and safety objectives are met.
- Monitor debt levels and develop methods to reduce outstanding debt at customers in the portfolio.
- With the assistance of the manager, conduct regular price reviews at customers to ensure prices are negotiated in accordance with the price cost recovery requirements of the company.
- Actively contribute to the country SHEQ programme.

Minimum Requirements:

- The preferred applicant should be in possession of a valid Diploma in Sales and Marketing
- or a valid Grade 12 (at least 23 points) certificate with at least 3 – 5 years sales and marketing experience.
- Must have a valid drivers licence older than 3 years

Must have strong interpersonal and technical skill with knowledge of welding products, processes and systems, credit policies, safety requirements, negotiation skills and basic financial management will be an added advantage. The incumbent will be a Namibian citizen.

Vacancy - Process and Project Administrator

KONGSBERG

Division: Kongsberg Maritime

Kongsberg Maritime is an international company with job opportunities worldwide. The company is a market leader in Marine Systems, Automation, Production Control, Tank Gauging, Dynamic Positioning, Navigation, Deck Machinery, Propulsion Systems, Sensors and Robotics.

Kongsberg Maritime Namibia (Pty) Ltd is representing Kongsberg Maritime's business units and product lines in Africa.

We are looking for someone that can provide professional administrative support to one or more senior managers, and a complex administrative service to a team.

Requirements

- Higher education - Human Resources/Administration/Finance would be preferred
- Solid Financial background.
- Experience in working on similar position
- Knowledge of financial, taxes, payroll
- Ability to work effectively under pressure
- Flexibility, ability to deal with ambiguity and change
- Ability to exercise judgement and act on own initiative
- Very good knowledge of Microsoft Office tools (comfortable using Excel and its multitude of functions)
- Very good communication skills
- Structured, reliable, good in networking and with collaboration skills
- Excellent written and spoken English

Main Tasks:

- Manage, prepare and issue customer invoicing for service jobs in an accurate and timely manner
- Capture Hours and assist with the invoicing and reporting
- Manage the project files. Ensure that the timesheets, expense claims and supplier invoices are up to date
- Arrange flights, hotels, Visa's, travel security and other travel related services
- Assist the Office Manager with monthly closing of the books
- Preparation of a tender related documentation in close cooperation with Sales Department
- Support with all tax related matters.
- Responsible for accurate monthly payroll including all related payroll tasks (incl. pension fees, payroll taxes)
- Contact point for outsourced tasks (like payroll, taxes etc.)
- Ensure timely and accurate bookkeeping so accounts are always up-to-date
- Assist Service admin regarding control and finalization of Service Orders invoiced out
- Provide administrative support to managers on relevant systems (Undertake general office management activities like handle telephone and face-to-face enquiries on behalf of primary managers, screening calls and responding to queries directly)
- Operate relevant business systems to process data
- Manage stakeholders and ensure fair process in everything we do
- Contribute to continuous process improvement activities by identifying areas for process and system improvement, and creating and updating administration operating procedures
- Undertake general office management activities, including proofing of stationary, filing and mail collection and distribution
- Other general tasks within the finance team (including assisting HR/IT/Service Admin)

We can offer:

- Working in an internationally environment stable company
- You will be an important contributor in an exclusive technical and commercial environment
- Participation in various development trainings
- Unique atmosphere in a team sharing expertise
- Collaboration with various departments and disciplines within our global organization
- Attractive salary and benefits
- Interesting experience and opportunity for personal development

The position reports to The Managing Director.

Applicants are requested to enclose information on education, training, experiences together with a full CV. Original documents to be presented in an interview. **Applicants to revert within August 20, 2021.** Application please send to monika.hiro@km.kongsberg.com.

For further information, please contact:

Mr. Andre Strauss, andre.strauss@km.kongsberg.com Managing Director

At Kongsberg, we believe in tackling challenging problems and delivering extreme performance for extreme conditions. We do that through excellent products and services developed for delivering the greatest benefits to our customers.

Netherlands hands over 75 000 doses AstraZeneca vaccines to Namibia

Eileen van der Schyff

The United Kingdom of the Netherlands officially handed over 75 000 doses of the AstraZeneca vaccine as a donation to Namibia on Wednesday, 11 August 2021. The vaccines arrived in Namibia on Sunday, 8 August 2021.

The AstraZeneca doses have been dispatched to all regions across the country for administering pending second doses to over 68 000 people. The Deputy Minister of the Ministry of Health and Social Services (MoHSS), Esther Utjiua Muinjanguue thanked the Netherlands government for the donations and said, "We look forward to continued engagement with EU member states to secure additional doses of vaccines, particularly to ensure that all persons at increased risk of Covid-19 infection and severe diseases, are fully vaccinated."

Attachments: 21-0304 BID Meersig Ext 3 and 4_09082021.pdf; 21-0304 BID Naraville Extension 18 and 19_09082021.pdf; 21-0304 BID Naraville Extension 17_09082021.pdf; 21-0304 BID Kuisebmond Extension 14 and 15_09082021.pdf; 21-0304 BID Farm 38_09082021.pdf

Dear Potential Interested and Affected Party

GCS Water Environmental Engineering Namibia (Pty) Ltd (GCS) hereby give notice to all potentially Interested and Affected Parties (I&APs) that an application will be made to the Environmental Commissioner in terms of the Environmental Management Act (No 7 of 2007) and the Environmental Impact Assessment Regulations (GN 30 of 6 February 2012) for the below.

- **Meersig Extensions 3 & 4;**
- **Kuisebmond Extensions 14 & 15;**
- **Narraville Extensions 17, 18 & 19; and**
- **Township to be established on Farm 38.**

GCS has been appointed by the Municipality of Walvis Bay to conduct the Environmental Impact Assessments (EIAs) and submit the required reports to the Environmental Commissioner as part of an application to apply for the Environmental Clearance Certificates (ECCs) in accordance with the Environmental Management Act (7 of 2007) and its 2012 Regulations.

Public consultation forms part of the EIA process. As part of the public consultation process, you have been identified as a potential interested and affected party with respect to the proposed activity, which is why you are receiving this email. Please find attached the Background Information Documents (BIDs) for these activities. Furthermore, public meetings are scheduled to be held to provide more information regarding the proposed activities and to allow Interested and Affected Parties (I&APs) an opportunity to comment on the proposed activities. The public meetings are scheduled to be held as follows:

Kuisebmond Extensions 14 & 15

Date: Friday, 20 August 2021

Time: 17h30

Venue: Kuisebmond Council Chambers

Meersig Extensions 3 & 4 and Farm 38

Date: Saturday, 21 August 2021

Time: 10h00

Venue: Town Hall, Civic Centre

Narraville Extensions 17, 18 & 19

Date: Saturday, 21 August 2021

Time: 14h00

Venue: Narraville Community Hall

Please note that the meetings will strictly adhere to the current COVID-19 regulations. Please note no entry to the venue will be allowed without a face mask.

Should you wish to send us any potential issues or comments that you would like to be considered as part of the impact assessment process and addressed in the scoping report, please send us your inputs before the end of business on **Monday 30 August 2021**.

Once the scoping stage is completed, GCS will provide you with access to the draft scoping report, for your review, and you will have another opportunity to submit comments based on your review.

Please do not hesitate to contact us should you have any questions regarding the proposed activity and its EIA process.

Kind regards,

Stephanie Strauss

Meeting Minutes

Subject: Public Participation Meeting for the Environmental Assessment for the Proposed Township Establishment of Meersig Extensions 3 and 4 and a Township on Farm 38, Walvis Bay

Venue: Town Hall, Civic Centre

Date: 21 August 2021

Time: 10h00

Attendance: See attached attendance register

1 INTRODUCTION

The meeting was opened by Stephanie Strauss the consultant from GCS. Stephanie provided a background with regards to proposed Township Establishment of Meersig Extensions 3 and 4 as well as the proposed Townships to be established on Farm 38. Stephanie proceeded to explain the purpose for the meeting which was to provide more information on the proposed activities and the intended Environmental Impact Assessment (EIA) to be undertaken for the Township Establishments. Jamie-Lee Lawrence from the Municipality of Walvis Bay presented the locality and layout of the proposed Township Establishments, after which the floor was opened to questions. This opened an interactive session between the consultant and the public members.

2 QUESTIONS AND COMMENTS REGARDING THE PROPOSED PROJECT

The issues/concerns raised by the attendants during the meeting are presented in the table below:

Table 3-1: Questions and comments raised during the meeting.

Question/Comment By	Question/Comment	Respondent	Response
Kristofina Asino (Municipality of Walvis Bay)	We should consider contacting the following organisations Namwater, Telecom they want to start putting their wires underground because they had incidents where community members cut down their poles to use as fire wood, Aviation because its closer to the airport, Ministry of Mines and Energy regarding the EPL's and the Ministry of Defense because of the location of their camps additionally, also consider that the location is in the Dorob National Park.	Stephanie Strauss (GCS)	Yes, we will add these stakeholders to the list to be consulted during the EIA process.
Kristofina Asino (Municipality of Walvis Bay)	From the tourism perspective we should consult with them because Farm 38 is across from Dune 7. And maybe we should consider the Topnaar community (via the rural councilor) because they will want to know the impacts that the development will have on them.	Stephanie Strauss (GCS)	Yes, we will add these stakeholders to the list to be consulted during the EIA process.
Kristofina Asino (Municipality of Walvis Bay)	There was a geohydrology study done by a consultant that was appointed to investigate Farm 37 and there was a comment that the area was very rocky and will be difficult to put up sewer services.	Stephanie Strauss (GCS)	Ok we will go through the report. Thank you, it is useful to have additional information.

Question/Comment By	Question/Comment	Respondent	Response
Tarrin Cornelius (Resident)	The development is very good, it's just that the whole process takes very long in terms of you doing your part and the consultant doing their part.	Kristofina Asino (Municipality of Walvis Bay)	Unfortunately, yes the process takes long. Once we get the ECC we will launch our application with the Ministry of Urban and Rural Development.

3 WAY FORWARD

The documented questions and comments from the meeting will be incorporated and fully addressed in the Environmental Scoping report. This report will be circulated to all registered Interested and Affected Parties (I&APs) for review before it can be submitted to the Ministry of Environment, Forestry and Tourism: Department of Environmental Affairs for evaluation.

4 CONCLUSION

After the attendees had all raised their points and comments, Stephanie Strauss gave a vote of thanks. The meeting was adjourned at 11:00.

Dear Stephanie,

Please find attached my application for the I&AP,

I would like to be added to the I&AP to be informed and take part in hopefully playing an important role, in ensuring as we grow the Walvis Bay Community, we do it in such a way as to benefit all the stakeholders,

Regards
Ingrid Mthethwa

From: Stephanie Strauss <stephanies@gcs-na.biz>
Sent: Monday, 09 August 2021 12:23
Subject: 21-0304 Environmental Impact Assessment Process for the proposed Township Establishments in Walvis Bay

Dear Potential Interested and Affected Party

GCS Water Environmental Engineering Namibia (Pty) Ltd (GCS) hereby give notice to all potentially Interested and Affected Parties (I&APs) that an application will be made to the Environmental Commissioner in terms of the Environmental Management Act (No 7 of 2007) and the Environmental Impact Assessment Regulations (GN 30 of 6 February 2012) for the below.

- **Meersig Extensions 3 & 4;**
- **Kuisebmond Extensions 14 & 15;**
- **Narraville Extensions 17, 18 & 19; and**
- **Township to be established on Farm 38.**

GCS has been appointed by the Municipality of Walvis Bay to conduct the Environmental Impact Assessments (EIAs) and submit the required reports to the Environmental Commissioner as part of an application to apply for the Environmental Clearance Certificates (ECCs) in accordance with the Environmental Management Act (7 of 2007) and its 2012 Regulations.

Public consultation forms part of the EIA process. As part of the public consultation process, you have been identified as a potential interested and affected party with respect to the proposed activity, which is why you are receiving this email.

Please find attached the Background Information Documents (BIDs) for these activities. Furthermore, public meetings are scheduled to be held to provide more information regarding the proposed activities and to allow Interested and Affected Parties (I&APs) an opportunity to comment on the proposed activities. The public meetings are scheduled to be held as follows:

Kuisebmond Extensions 14 & 15

Date: Friday, 20 August 2021

Time: 17h30

Venue: Kuisebmond Council Chambers

Meersig Extensions 3 & 4 and Farm 38

Date: Saturday, 21 August 2021

Time: 10h00

Venue: Town Hall, Civic Centre

Narraville Extensions 17, 18 & 19

Date: Saturday, 21 August 2021

Time: 14h00

Venue: Narraville Community Hall

Please note that the meetings will strictly adhere to the current COVID-19 regulations. Please note no entry to the venue will be allowed without a face mask.

Should you wish to send us any potential issues or comments that you would like to be considered as part of the impact assessment process and addressed in the scoping report, please send us your inputs before the end of business on **Monday 30 August 2021**.

Once the scoping stage is completed, GCS will provide you with access to the draft scoping report, for your review, and you will have another opportunity to submit comments based on your review.

Please do not hesitate to contact us should you have any questions regarding the proposed activity and its EIA process.

Kind regards,

Stephanie Strauss
