Dear Mr Mufeti

APPLICATION FOR ENVIRONMENTAL CLEARANCE CERTIFICATE FOR POULTRY PRODUCTION AND ABATTOIR ON PORTION 48 OF FARM STAMPRIED 132, STAMPRIET, HARDAP REGION

Gemini Poultry Trading obtained Portion 48 of Farm Stampried 132 to establish a poultry production facility and abattoir. The facility has four chicken coops that produce 5 000 broiler chicks per coop per cycle, furthermore there are 6 200 layer hens. This is able to contribute to food security but also has the added advantage of creating several job opportunities.

While operations on site have commenced, Gemini Poultry Trading has been advised to obtain an ECC in compliance with the legal requirements. Due to this being an existing activity we have not commissioned a full EIA but have prepared an Environmental Management Plan in support of the application for an ECC, hence a traditional public consultation process has not taken place.

We trust that you will find this in order.

Yours faithfully,

Colin P Namene
Managing Director
